

Texas Juvenile Mental Health and Intellectual and Developmental Disabilities Law Bench Book

Judicial Commission on Mental Health

Third Edition
2023 – 2025

Acknowledgements

The Judicial Commission on Mental Health (JCMH) would like to recognize the leadership and support of Justice Jane Bland and Judge Barbara Hervey, Chairs of the JCMH; Justice Bill Boyce, Vice-Chair of the JCMH; Judge John Specia and Judge Brent Carr, JCMH Jurists in Residence; the Supreme Court of Texas; and the Texas Court of Criminal Appeals. The JCMH extends special thanks to the Supreme Court Children's Commission and the Texas Juvenile Justice Department. The JCMH would also like to recognize the following contributing authors and editors of this Bench Book:

Hon. Cynthia Wheless, Chair
417th District Court

Jamie Bernstein, J.D.
Supreme Court Children's
Commission

Ryan Bristow
Texas Juvenile Justice
Department

**Amanda Peters Britton,
M.Ed., L.P.C., N.C.C.**
Texas Juvenile Justice
Department

Tina Carnes, J.D.
Texas Health and Human
Services Commission

Shandra Carter, L.C.S.W.-S.
Texas Juvenile Justice
Department

**Kimberly Cooper, M.P.H.,
L.M.S.W.**
Texas Health and Human
Services Commission

William R. "Bill" Cox, J.D.
Texas Indigent Defense
Commission

Tami Coy
Texas Juvenile Justice
Department

Emily Dirksmeyer, L.C.S.W.
Texas Health and Human
Services Commission

Lacey Evans, L.C.S.W.-S.
Texas Juvenile Justice
Department

Alyse Ferguson, J.D.
Rosenthal Kalabus & Therrian

Hon. Dena Fisher
315th District Court

Morgen Gawlik
Texas Health and Human
Services Commission

Hon. Cynthia Porter Gore
Allen Municipal Court

Sean Grove, J.D.
Texas Juvenile Justice
Department

Yakir Harosh
Texas Health and Human
Services Commission

Jennifer Jones
Texas Juvenile Justice
Department

Chris Lopez, J.D.
Texas Health and Human
Services Commission

Jill Mata, J.D.
Bexar County Juvenile
Probation Department

Hon. Stacey Mathews
277th District Court

Rosie Medina
El Paso County Juvenile
Probation Department

Morgan Miller, J.D., M.S.W.
Bexar County Juvenile
Probation Department

Janel Morgan
El Paso County Juvenile
Probation Department

Valerie Murrieta, M.S.W.
Texas Health and Human
Services Commission

Brittany Norman, J.D.
Disability Rights of Texas

Evan Norton, Psy.D.
Texas Juvenile Justice
Department

Todd Novak
Texas Juvenile Justice
Department

**Susan Palacios, Ph.D.,
L.P.C.**
Texas Juvenile Justice
Department

DuJuan Prater, M.S.
Texas Health and Human
Services Commission

Officer Terry Qualls
McKinney Police Department

**Hon. Renee Rodriguez-
Betancourt**
449th District Court

Simone Salloum, J.D.
Texas Health and Human
Services

Hon. Riley Shaw
Associate Judge, 323rd District
Court

Kaci Singer, J.D.
Texas Juvenile Justice
Department

Hon. Charles A. Stephens, II
Comal County Court at Law #2

Nydia Thomas, J.D.
Lone Star Justice Alliance

Hon. Ryan Kellus Turner
Texas Municipal Courts
Education Center

Jeannie Von Stultz, Ph.D.
Bexar County Juvenile
Probation Department

Kimberly Wied
Texas Health and Human
Services Commission

JCMH Staff:

Using This Bench Book

This Bench Book is a procedural guide organized around the Sequential Intercept Model¹.

This Bench Book is a procedural guide for Texas judges hearing cases regarding juveniles with mental illness or intellectual and developmental disabilities (IDD). Each section references applicable statutory processes, and relevant guidance. Statutory language is simplified when possible, and practice notes are included in text boxes and footnotes.

This book is organized according to an adaptation of the Sequential Intercept Model (SIM). The original SIM was developed as a “conceptual framework for communities to organize targeted strategies for justice-system involved individuals with behavioral health disorders.”² For this Bench Book, the SIM has been modified to reflect the processes in the Texas juvenile justice system.

Appropriate responses at identified intercepts can prevent entry or divert children and adolescents from the juvenile justice system. Using the SIM can help communities transform fragmented systems, identify local resources and gaps, and develop strategies for intervention. The most effective responses will engage community collaborators early and often.

What this Third Edition of the JCMH Juvenile Bench Book Covers

The goal of the JCMH Juvenile Bench Book is to provide guidance to the judiciary on handling issues pertaining to mental health and intellectual and developmental disabilities across all intercepts and systems. Specifically, this Bench Book will cover:

¹ *The Sequential Intercept Model (SIM)*, SAMHSA, <https://www.samhsa.gov/criminal-juvenile-justice/sim-overview> (last visited Aug. 8, 2023).

² SAMHSA’s GAINS Center, Policy Research Associates, Inc., *Developing a Comprehensive Plan for Behavioral Health and Criminal Justice Collaboration: The Sequential Intercept Model* (3rd ed. 2013); Mark R. Munetz & Patricia A. Griffin, *Use of the Sequential Intercept Model as an Approach to Decriminalization of People with Serious Mental Illness*, 57 *Psychol. Serv.* 544, 544-49, (April 2006) <https://ps.psychiatryonline.org/doi/pdf/10.1176/ps.2006.57.4.544>. This SIM adopts the traditional model but also expands it to include new intercepts that allow for a better understanding of early intervention to effectively address those with mental health issues before they enter the criminal justice system. See also National Center for State Courts, Research Division, *Fair Justice for Persons with Mental Illness: Improving the Courts Response* 6 (Aug. 2018), https://www.neomed.edu/wp-content/uploads/CJCCOE_10-Dave-Byers-COURT-RESOURCES-Mental-Health-Protocols-Oct-2018.pdf

Early Identification, Assessment, and Diversion

Fitness to Proceed

Lack of Responsibility

Commitment to TJJD and Re-entry

Community Corrections

This third edition of the JCMH Juvenile Bench Book covers community-based services, emergency detention, initial contact with law enforcement, juvenile detention procedures, release from detention, pre-adjudication diversion programs, fitness to proceed, lack of responsibility, confinement in the Texas Juvenile Justice Department (TJJD) and re-entry. Legislative changes from the 2021 and 2023 legislative sessions are noted throughout the book. Look for boxes with this icon:

In the context of the juvenile justice system, the concept of equity strives to provide system responses and outcomes tailored to the unique characteristics and individual rehabilitative needs of each juvenile. Practitioners must endeavor to treat each child equally within the framework of due process and fundamental fairness. Throughout this bench book, you will find Reflection Points at critical stages in a juvenile case when the consequences of systemic bias and disproportionality can be minimized. Although the Reflection Points are directed at judges, each one of us has a role to play in identifying and ending systemic bias in the justice system. We encourage all juvenile justice professionals to use these points for honest and thoughtful consideration in their work. Look for Reflection Points with this icon:

Stakeholder Input is Essential

Finally, this Bench Book represents a collaborative effort among stakeholders and across disciplines. It is a dynamic publication which will be regularly updated to incorporate legislative changes, provide current practice tips, and highlight areas of disagreement and ongoing conversation. If you are reading this book, you are a stakeholder, and we value your opinion. If you would like to provide feedback on any part of this book, please email us at JCMHBenchBook@txcourts.gov. Thank you for your service and for your interest in these issues.

Introduction

It is estimated that up to 70% of youth involved with the juvenile justice system meet the criteria for a mental health disorder.³ Many experts would argue that nearly all youth in the system have experienced life-altering trauma. Such statistics emphasize that children are different. Juvenile court was originally based on this principle, providing rehabilitation and protective supervision for youth.⁴ In the 1990s, tough-on-crime policies shifted the focus away from treatment.⁵ Recent developments in brain science have led experts to urge treatment, training, and rehabilitation as the goals of the juvenile justice system. Advances in neuroscience and cognitive psychology reveal that decision-making abilities develop at different rates in youth and the need to carefully consider juvenile justice intervention programs.⁶

Youth who make contact with the juvenile justice system represent an important opportunity to intervene before they are exposed to a cycle of involvement in the criminal justice system, removal from home and school, civil commitment in state hospitals, and homelessness. Lack of alternatives in our nation leads to unnecessary arrests where individuals often languish in jail, effectively criminalizing mental illness.⁷ In the adult criminal justice system, national best practices urge courts to divert individuals with mental illness or intellectual and developmental disabilities (IDD) from incarceration. Because half of all mental health conditions begin by age 14,⁸ the juvenile justice system is primed to successfully intervene and divert offenders away from detention to prevent this cycle.

Texas has one of the highest populations of young people,⁹ and mental illness is a significant problem for children and youth. In any given 12-month period there are more than a half-million children and adolescents with severe emotional disturbances (SED) in Texas.¹⁰ SED includes mental health conditions, such as attention deficit disorders, conduct disorders and depression, and impaired ability to function at school and at home.¹¹ Over sixty percent of the children, youth, and adolescents with SED are living at or below 200% of the federal poverty level.¹² Among youth with SED, 30,000 are estimated to remain in the “school to prison pipeline,” absent intervention.¹³ However, a new understanding of the neuroplasticity of the brain offers real hope that rehabilitation is possible.¹⁴

The National Center for State Courts (NCSC)¹⁵ offers resources for courts to improve their response to

youth with mental illness and IDD. The NCSC highlights the ambitious Models for Change¹⁶ initiative to identify and develop juvenile justice reform efforts for a “more fair, rational, effective and developmentally sound system of justice for youth.”¹⁷

Over the last decade the Models for Change initiative has supported a broad array of goals, including:

- identifying and addressing the mental health treatment needs of youth that come in contact with the juvenile justice system;
- increasing the use of evidence-based assessments and treatment programs;
- improving access to counsel and the quality of representation in delinquency proceedings;
- reducing racial and ethnic disparities;
- improving the response to dual status youth;
- improving probation services; and
- expanding alternatives for youth charged with status offenses.

Research supports this approach as a matter of public health to support good mental health in children and youth. Factors such as childhood trauma, including prior abuse and neglect, stress from poverty or racial and ethnic disparities, and re-traumatization that can occur from child-serving systems, must be considered in a child’s treatment and in their juvenile court case. The National Child Traumatic Stress Network¹⁸ notes:

More than 80% of juvenile justice-involved youth report experiencing trauma, with many having experienced multiple, chronic, and pervasive interpersonal traumas. This exposure places them at risk for emotional, behavioral, developmental, and legal problems. Unresolved posttraumatic stress symptoms can lead to serious long-term consequences across the entire lifespan, such as problems with interpersonal relationships; cognitive functioning; and mental health disorders including PTSD, substance abuse, anxiety, disordered eating, depression, self-injury, and conduct problems—all of which can increase the likelihood of involvement in delinquency, crime, and the justice system. The prevalence and severity of traumatic stress reactions among juvenile justice-involved youth, caregivers, families, professionals, and providers, necessitates a system-wide response to prevent, identify, address, and minimize further traumatic stress.

Judges, attorneys, probation officers, mentors, and other adults in a child’s life can help create and promote resiliency and therefore prevent or ameliorate the negative effects of Adverse Childhood Experiences (ACEs).¹⁹ Increasingly, child-serving systems, including juvenile courts and juvenile probation departments, are turning to Trauma-Informed Care as a framework for interactions with and responses to children and families who have experienced trauma.

Courts are uniquely positioned to bring together the necessary stakeholders to enact change for the justice system’s response to children and youth with mental illness or IDD. This bench book aims to provide courts with the knowledge and tools they need to enact a hopeful, proactive approach where just one caring adult can change a child’s life and prospects.²⁰

Definitions

Adaptive Behavior:

Adaptive behavior means the effectiveness with or degree to which a person meets the standards of personal independence and social responsibility expected of the person's age and cultural group. [Tex. Code Crim. Proc. art. 46B.001\(1\)](#); [Tex. Health & Safety Code § 591.003\(1\)](#).

Admission:

Admission means the formal acceptance of a prospective patient to a facility. [Tex. Health & Safety Code § 572.0025\(h\)\(1\)](#).

Adverse Childhood Experiences (ACEs):

Adverse childhood experiences, or ACEs, refer to the following 10 childhood experiences that researchers have identified as risk factors for chronic disease in adulthood: emotional abuse, physical abuse, sexual abuse, emotional neglect, physical neglect, violent treatment towards mother, household substance abuse, household mental illness, parental separation or divorce, and having an incarcerated household member.²¹ Juveniles with ACEs are at an increased risk for justice system involvement and re-offense.²²

Assessment:

Assessment means the administrative process a facility uses to gather information from a prospective patient, including a medical history and the problem for which the patient is seeking treatment, to determine whether a prospective patient should be examined by a physician to determine if admission is clinically justified. [Tex. Health & Safety Code § 572.0025\(h\)\(2\)](#).

Child:

A child is a person who is 10 years of age or older and under 17 years of age; or seventeen years of age or older and under 18 years of age who is alleged or found to have engaged in delinquent conduct or conduct indicating a need for supervision as a result of acts committed before becoming 17 years of age. [Tex. Fam. Code § 51.02\(2\)](#).

Child with an Intellectual Disability

A child determined by a physician or psychologist licensed in this state to have subaverage general intellectual functioning with deficits in adaptive behavior. [Tex. Fam. Code § 55.01\(2\)](#).

Child with Mental Illness

A child determined by a physician or psychologist licensed in this state to have a mental illness. [Tex. Fam. Code § 55.01\(3\)](#).

Community Resource Coordination Group (CRCG):

A coordination group established under a memorandum of understanding adopted under section 531.055. [Tex. Gov't Code § 531.421\(2\)](#). CRCGs are comprised of local public and private agencies, and they work with parents, caregivers, youth, and adults to develop service plans for families. CRCGs can help identify service gaps and meet client needs through interagency cooperation.

²¹ Michael T. Baglivio et al., *The Prevalence of Adverse Childhood Experiences (ACE) in the Lives of Juvenile Offenders*, 3 OJJDP J. OF JUV. JUST. 1, 1-2, (2014), <https://nicic.gov/prevalence-adverse-childhood-experiences-ace-lives-juvenile-offenders>.

²² *Id.* at 11.

Conduct Indicating a Need for Supervision (CINS):

Conduct indicating a need for supervision is:

1. conduct, other than a traffic offense, that violates:
 - A. the penal laws of this state of the grade of misdemeanor that are punishable by fine only; or
 - B. the penal ordinances of any political subdivision of this state;
2. the voluntary absence of a child from the child's home without the consent of the child's parent or guardian or for a substantial length of time or without intent to return;
3. conduct prohibited by city ordinance or by state law involving the inhalation of the fumes or vapors of paint and other protective coatings or glue and other adhesives and the volatile chemicals itemized in Section 485.001, Health and Safety Code;
4. an act that violates a school district's previously communicated written standards of student conduct for which the child has been expelled under Section 37.007(c), Education Code;
5. ... conduct described by Section 43.02(a) or (b), Penal Code;
6. ... conduct that violates Section 43.261, Penal Code; or
7. notwithstanding Subsection (a)(1), conduct that violates Section 42.061, Penal Code, if the child has not previously been adjudicated as having engaged in conduct violating that section.

[Tex. Fam. Code § 51.03\(b\)](#).

Custodian:

A custodian is the adult with whom a child resides. [Tex. Fam. Code § 51.02\(3\)](#).

Dating violence:

- (a) Dating violence is an act, other than a defensive measure to protect oneself, by an actor that:
 1. Is committed against a victim or an applicant for a protective order:
 - A. With whom the actor has or has had a dating relationship; or
 - B. Because of the victim's or applicant's marriage to or dating relationship with an individual with whom the actor is or has been in a dating relationship or marriage; and
 2. Is intended to result in physical harm, bodily injury, assault, or sexual assault or that is a threat that reasonably places the victim or applicant in fear of imminent physical harm, bodily injury, assault, or sexual assault.
- (b) For purposes of this title, "dating relationship" means a relationship between individuals who have or have had a continuing relationship of a romantic or intimate nature. The existence of such a relationship shall be determined based on consideration of:
 1. The length of the relationship;
 2. The nature of the relationship; and
 3. The frequency and type of interaction between the persons involved in the relationship.
- (c) A casual acquaintanceship or ordinary fraternization in a business or social context does not constitute a "dating relationship" under Subsection (b).

[Tex. Fam. Code § 71.0021](#).

Delinquent Conduct:

Delinquent conduct is:

1. Conduct, other than a traffic offense, that violates a penal law of this state or of the United States punishable by imprisonment or confinement in jail;
2. Conduct that violates a lawful order of a court under circumstances that would constitute contempt of that court in:
 - A. A justice or municipal court;
 - B. A county court for conduct punishable only by a fine; or
 - C. A truancy court;
3. Conduct that violates Section 49.04, 49.05, 49.06, 49.07, or 49.08, Penal Code; or
4. Conduct that violates Section 106.041, Alcoholic Beverage Code, relating to driving under the influence of alcohol by a minor (third subsequent offense).

[Tex. Fam. Code § 51.03\(a\)](#).

Developmental Disability (DD):

Manifests before the age of 22; severe chronic disability that involves impairments of general mental abilities resulting in at least three out of six of the following limitations:²³

- Self-care;
- Understanding & use of receptive and expressive language;
- Learning;
- Mobility;
- Self-direction; and/or
- Capacity for independent living, including economic self-sufficiency.

Examples of such disabilities include autism-spectrum disorder, fetal alcohol spectrum disorder, and cerebral palsy.

[Tex. Health & Safety Code § 614.001\(4\)](#).

Developmental Period:

This is the period of a person's life from birth through 17 years of age. [Tex. Code Crim. Proc. art. 46B.001\(4\)](#).

Dual Status Child

Dual status child means a child who has been referred to the juvenile justice system and is:

(A) in the temporary or permanent managing conservatorship of the Department of Family and Protective Services;

(B) the subject of a case for which family-based safety services have been offered or provided by the department;

(C) an alleged victim of abuse or neglect in an open child protective investigation; or

(D) a victim in a case in which, after an investigation, the department concluded there was reason to be the child was abused or neglected.

[Tex. Fam. Code § 51.02\(3-a\)](#).

²³ [Tex. Hum. Res. Code Ann. § 112.001\(3\)](#) (Vernon Supp. 2015) (defining developmental disability as “mean[ing] a severe, chronic disability as defined by applicable federal developmental disability law”); see, Developmental Disabilities Assistance and Bill of Rights Act of 2000, 42 U.S.C. §§ 15001 – 15115 (2018) (cited by the [Tex. Hum. Res. Code Ann. § 112.001\(3\)](#) as the “Applicable Federal Developmental Disabilities Laws”).

Family Violence

Family violence means:

1. An act by a member of a family or household against another member of the family or household that is intended to result in physical harm, bodily injury, assault, or sexual assault or that is a threat that reasonably places the member in fear of imminent physical harm, bodily injury, assault, or sexual assault, but does not include defensive measures to protect oneself;
2. Abuse, as that term is defined by Texas Family Code Sections 261.001(C), (E), (G), (H), (I), (J), (K), and (M), by a member of a family or household toward a child of the family or household; or
3. Dating violence, as that term is defined by Texas Family Code Section 71.0021.

[Tex. Fam. Code § 71.004.](#)

Forensic Mental Examination:

An examination by a disinterested physician or psychologist to determine if a child who is alleged by petition or found to have engaged in delinquent conduct or conduct indicating a need for supervision is a child with mental illness, is unfit to proceed in juvenile court due to mental illness or intellectual disability, or lacks responsibility for conduct due to mental illness or an intellectual disability. [Tex. Fam. Code § 55.04\(a\).](#)

Guardian:

A guardian is the person who, by a court order, is the guardian of the person of the child or the public or private agency with whom the child has been placed by a court. [Tex. Fam. Code § 51.02\(4\).](#)

Hearing Examiner

In a parole revocation hearing, a hearing examiner is an attorney employed by the Texas Juvenile Justice Department (TJJD) who determines if there is a preponderance of the evidence presented at a Level I hearing to prove the youth committed an alleged rule violation. The hearing examiner also determines if the requested dispositions will be imposed. [37 Tex. Admin. Code § 380.9550\(7\).](#)

Home and Community-Based Services Program:

HCS is a Medicaid waiver program approved by the Centers for Medicare & Medicaid Services (CMS) pursuant to section 1915(c) of the Social Security Act. [42 U.S.C. 1396n.](#) It provides community-based services and support to eligible individuals as an alternative to an intermediate care facility for individuals with an intellectual disability or related conditions program. The HCS program is operated by the authority of the Health and Human Services Commission (HHSC). [26 Tex. Admin. Code § 263.4\(a\).](#)

Implicit Bias (also known as unconscious bias):

Implicit bias refers to the attitudes or stereotypes that affect our understanding, actions, and decisions in an unconscious manner. These biases, which encompass both favorable and unfavorable assessments, are activated involuntarily and without an individual's awareness or control. Residing deep in the subconscious, these biases are different from known biases that individuals may choose to conceal for the purposes of social and/or political correctness.²⁴

Inpatient Mental Health Facility:

Refers to a mental health facility that can provide 24-hour residential and psychiatric services and that is:

²⁴ *Understanding Implicit Bias*, THE OHIO STATE UNIVERSITY KIRWAN INSTITUTE FOR THE STUDY OF RACE AND ETHNICITY, <https://kirwaninstitute.osu.edu/article/understanding-implicit-bias> (last visited Aug. 8, 2023).

- A facility operated by the Health and Human Services Commission (HHSC);
- A private mental hospital licensed by HHSC;
- A community center, facility operated by or under contract with a community center or other entity HHSC designates to provide mental health services;
- A local mental health authority or a facility operated by or under contract with a local mental health authority;
- An identifiable part of a general hospital in which diagnosis, treatment, and care for persons with mental illness is provided and that is licensed by the department; or
- A hospital operated by a federal agency.

[Tex. Health & Safety Code § 571.003\(9\)](#).

Intake:

Intake means the administrative process for gathering information about a prospective patient and giving a prospective patient information about the facility²⁵ and the facility’s treatment and services. [Tex. Health & Safety Code § 572.0025\(h\)\(3\)](#).

Intellectual and Developmental Disabilities (IDD):

IDD is a broader category than ID: it includes people with ID, DD, or both. DD are often lifelong disabilities that can be cognitive, physical, or both. Some Texas statutes on early identification, screening and assessment still do not currently address developmental disabilities, but developmental disabilities are important to consider as they often co-occur with mental illness and ID. Further, people with IDD are more likely than their peers without disabilities to be involved in the justice system, both as victims and suspects.²⁶

Intellectual Disability (ID):

ID means significantly subaverage general intellectual functioning that is concurrent with deficits in adaptive behavior and originates during the developmental period. [Tex. Code Crim. Proc. art. 46B.001\(8\)](#); [Tex. Health & Safety Code § 591.003](#).

Intellectual Disability Services:

Intellectual disability services includes all services concerned with research, prevention, and detection of intellectual disabilities, and all services related to the education, training, habilitation, care, treatment, and supervision of persons with an intellectual disability, but does not include the education of school-age persons that the public education system is authorized to provide. [Tex. Health & Safety Code § 531.002\(10\)](#).

Interdisciplinary Team:

A group of intellectual disability professionals and paraprofessionals who assess the treatment, training, and habilitation needs of a person with an intellectual disability and make recommendations for services for that person. [Tex. Fam. Code § 55.01\(4\)](#).

Juvenile:

A juvenile is a person who is under the jurisdiction of the juvenile court, confined in a juvenile justice facility, or participating in a juvenile justice program. [37 Tex. Admin. Code § 341.100\(19\)](#).

²⁵ “Facility” as used in this statute refers to an inpatient mental health facility.

²⁶ See *Frequently Asked Questions on Intellectual Disability*, AMERICAN ASSOCIATION ON INTELLECTUAL AND DEVELOPMENTAL DISABILITIES (AAIDD), <https://www.aaidd.org/intellectual-disability/faqs-on-intellectual-disability> (last visited Aug. 8, 2023).

Least Restrictive Appropriate Setting:

The treatment or service setting closest to the child's home that provides the child with the greatest probability of improvement and is no more restrictive of the child's physical or social liberties than is necessary to provide the child with the most effective treatment or services and to protect adequately against any danger the child poses to self or others. [Tex. Fam. Code § 55.01\(5\)](#).

Licensed Practitioner of the Healing Arts (LPHA):

An LPHA is a staff member who is a physician; a licensed professional counselor; a licensed clinical social worker; a psychologist; an advanced practice registered nurse; a physician assistant; or a licensed marriage and family therapist. [26 Tex. Admin. Code § 301.303\(35\)](#).

Local Behavioral Health Authority (LBHA):

LBHAs are units of government that provide services to a specific geographic area of the state, called the local service area. LBHAs deliver mental health and chemical dependency services in communities across Texas. An authority designated as an LBHA has all of the responsibilities and duties of a Local Mental Health Authority (LMHA), and the responsibility and duty to ensure that chemical dependency services are provided in the service area. [Tex. Health & Safety Code § 533.0356\(a\)](#). *See also* [Tex. Health & Safety Code § 461A.056](#).

Local Intellectual and Developmental Disability Authority (LIDDA):

LIDDAs are units of government that provide services to a specific geographic area of the state, called the local service area. LIDDAs serve as the point of entry for publicly funded intellectual and developmental disability programs, whether the program is provided by a public or private entity. LIDDA responsibilities are delineated in section 533.035 of the Texas Health and Safety Code. *See* [Tex. Health & Safety Code § 531.002\(12\)](#).

Local-level Interagency Staffing Group:

Local-level interagency staffing group means a group established under the memorandum of understanding described by §531.055, Texas Government Code. [Tex. Fam. Code § 53.011\(a\)\(2\)](#).

Local Mental Health or Behavioral Health Authority (LMHA or LMHA/LBHA):

LMHAs, also referred to as community centers, community mental health centers, or MHMRs, are units of local government that provide services to a specific geographic area of the state called the local service area. HHSC contracts with the 39 LMHAs/LBHAs to deliver mental health services in communities across Texas. Their responsibilities in this capacity are set out in Title 25, Chapter 412 of the Texas Administrative Code. *See* [Tex. Health & Safety Code §§ 533.035, 571.003\(11\)](#).

Medical Care:

"Medical Care" means all health care and related services provided under the medical assistance program under Chapter 32, Human Resources Code, and described by Section 32.003(4), Human Resources Code. [Tex. Fam. Code § 266.001\(5\)](#).

Mental Health Services:

"Mental Health Services" includes all services concerned with research, prevention, and detection of mental disorders and disabilities, and all services necessary to treat, care for, supervise and rehabilitate persons who have a mental disorder or disability, including persons whose mental disorders or disabilities result from a substance use disorder. [Tex. Health & Safety Code § 531.002\(14\)](#).

Mental Health Facility:

A mental health facility refers to:

- An inpatient or outpatient mental health facility operated by the department (meaning the Department of State Health Services), a federal agency, a political subdivision, or any person;
- A community center or a facility operated by a community center;
- That identifiable part of a general hospital in which diagnosis, treatment, and care for persons with mental illness is provided; or
- With respect to a reciprocal agreement entered into under section 571.008¹ of the Texas Health and Safety Code, any hospital or facility designated as a place of commitment by HHSC, a local mental health authority, and the contracting state or local authority.

[Tex. Health & Safety Code § 571.003\(12\)](#).

Mental Illness (MI):

Mental illness is an illness, disease, or condition that either:

- Substantially impairs a person’s thoughts, perception of reality, emotional process, or judgment; or
- Grossly impairs behavior as demonstrated by recent disturbed behavior.

The term, as statutorily defined, does not include epilepsy, dementia, substance abuse, or intellectual disability. [Tex. Health & Safety Code § 571.003](#).

Note that Chapter 46B of the Code of Criminal Procedure also defines this term and, in contrast to the definition above, provides that mental illness is an illness, disease, or condition that grossly impairs (rather than substantially impairs) a person’s thoughts, perception of reality, emotional process, or judgment; or grossly impairs behavior as demonstrated by recent disturbed behavior. [Tex. Code Crim. Proc. art. 46B.001\(11\)](#).

Mental Impairment:

Mental impairment means a mental illness, an intellectual disability, or a developmental disability. [Tex. Health & Safety Code § 614.001\(6\)](#).

Minimum Length of Stay:

The predetermined minimum period of time established by TJJD that a youth will be assigned to live in a high- or medium-restriction placement before being placed on parole status. [37 Tex. Admin. Code § 380.8501\(12\)](#).

Minimum Period of Confinement:

The predetermined minimum period of time established by law that a youth committed to TJJD on a determinate sentence must remain confined in a high-restriction placement. [37 Tex. Admin. Code § 380.8501\(13\)](#).

Non-physician Mental Health Professional:

Non-physician mental health professional means:

1. A psychologist licensed to practice in this state and designated as a health-service provider;
2. A registered nurse with a master’s degree or doctoral degree in psychiatric nursing;
3. A licensed clinical social worker;
4. A licensed professional counselor, licensed to practice in this state; or
5. A licensed marriage and family counselor, licensed to practice in this state.

[Tex. Health & Safety Code § 571.002\(15\)](#).

Offender with a Medical or Mental Impairment:

An offender with a medical or mental impairment means a juvenile or adult who is arrested or charged with a criminal offense and who:

- A. is a person with:
 - i. a mental impairment; or
 - ii. a physical disability, terminal illness, or significant illness; or
- B. is elderly.

[Tex. Health & Safety Code § 614.001\(8\)](#).

Parent:

A parent is the mother or father of a child but does not include a parent whose rights have been terminated.

[Tex. Fam. Code § 51.02\(9\)](#).

Person-Centered Language:

Person-centered language refers to language used to speak appropriately and respectfully about an individual with a disability. Person-centered language emphasizes the person first, not the disability. Examples from the Texas Council for Developmental Disabilities²⁷ are listed in the chart below:

Person-Centered Language	Language to Avoid
Person with a disability	The handicapped, the disabled
Person without a disability	Normal, healthy, whole or typical people
Person with an intellectual, cognitive, or developmental disability	Mentally retarded, retarded, slow, idiot, moron
Person with an emotional or behavioral disability, person with a mental health or a psychiatric disability	Crazy, insane, psycho, mentally ill, emotionally disturbed, demented

Physician:

Physician means: (1) a person licensed to practice medicine in this state; (2) a person employed by a federal agency who has a license to practice medicine in any state; or (3) a person authorized to perform medical acts under a physician-in-training permit at a Texas postgraduate training program approved by the Accreditation Council for Graduate Medical Education, the American Osteopathic Association, or the Texas Medical Board. [Tex. Health & Safety Code § 571.002\(18\)](#).

Qualified Mental Health Professional – Community Services (QMHP-CS):

A QMHP-CS is a staff member who is credentialed as a QMHP-CS who has demonstrated and documented competency in the work to be performed, and: has a bachelor’s degree from an accredited college or university with a minimum number of hours that is equivalent to a major (as determined by the LMHA or MCO in accordance with § 412.316(d) of this title (relating to Competency and Credentialing)) in psychology, social work, medicine, nursing, rehabilitation, counseling, sociology, human growth and development, physician assistant, gerontology, special education, educational psychology, early childhood education, or early childhood intervention; is a registered nurse; or completes an alternative credentialing process as determined by the LMHA or MCO in accordance with § 412.316(c) and (d) of this title relating to (Competency and Credentialing). [26 Tex. Admin. Code § 301.303\(48\)](#).

²⁷ TEXAS COUNCIL FOR DEVELOPMENTAL DISABILITIES, <https://tcdd.texas.gov/> (last visited Aug. 8, 2023).

Record:

Record means any documentation related to a juvenile matter, including information contained in that document. [Tex. Fam. Code § 58.251\(4\)](#).

Referral to Juvenile Court:

A referral to juvenile court is the referral of a child or a child's case to the office or official, including an intake officer or a probation officer, designated by the juvenile board to process children within the juvenile justice system. [Tex. Fam. Code § 51.02\(12\)](#).

Remote Proceeding:

A proceeding in which one or more of the participants, including a judge, party, attorney, witness, court reporter, or other individual, attends the proceeding remotely through the use of technology and the Internet, including through teleconferencing or videoconferencing. [Tex. Fam. Code § 54.012\(e\)](#).

Residential Care Facility:

A residential care facility is a state supported living center or the Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF-IID) component of the Rio Grande Center. [Tex. Health & Safety Code § 591.003\(18\)](#).

Restoration Classes:

Curriculum-based educational sessions a child attends to assist in restoring the child's fitness to proceed, including the child's capacity to understand the proceedings in juvenile court and to assist in the child's own defense. [Tex. Fam. Code § 55.01\(7\)](#).

School Offense:

A school offense is an offense committed by a child enrolled in a public school that is a Class C misdemeanor other than a traffic offense and that is committed on property under the control and jurisdiction of a school district. [Tex. Ed. Code § 37.141\(2\)](#).

Serious Emotional Disturbance (SED):

Serious emotional disturbance is a diagnosable mental, behavioral, or emotional disorder in the past year, which resulted in functional impairment that substantially interferes with or limits the child's role or functioning in family, school, or community activities.²⁸ Many mental health resources refer to SED in children, and to serious mental illness (SMI) in adults.

State Hospital:

A state hospital is a state-operated hospital inpatient mental health facility operated by HHSC that provides 24-hour residential and psychiatric services to persons civilly and forensically admitted. [Tex. Health & Safety Code § 571.003\(9\)](#).

State-Supported Living Center (SSLC):

A SSLC is a state-supported and structured residential facility operated by HHSC to provide clients with an intellectual disability a variety of services, including medical treatment, specialized therapy, and training in the acquisition of personal, social, and vocational skills. [Tex. Health & Safety Code § 531.002\(19\)](#).

²⁸ *Serious Mental Illness and Serious Emotional Disturbance*, SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES ADMINISTRATION, <https://www.samhsa.gov/find-help/disorders> (last visited Aug. 8, 2023).

Subaverage General Intellectual Functioning:

Intelligence that is measured on standardized psychometric instruments of two or more standard deviations below the age-group mean for the instruments used. [Tex. Fam. Code § 55.01\(8\)](#).

Texas Commission on Law Enforcement (TCOLE):

TCOLE is the agency that establishes and enforces standards to ensure that the people of Texas are served by highly trained and ethical law enforcement, corrections, and telecommunications personnel.

Texas Correctional Office on Offenders with Medical or Mental Impairments (TCOOMMI):

TCOOMMI is the agency responsible for providing a formal structure for criminal justice, health and human services, and other affected organizations to communicate and coordinate on policy, legislative, and programmatic issues affecting offenders with special needs, including those with MI and ID. The TCOOMMI program monitors, coordinates, and implements a continuity of care system through collaborative efforts with the 39 LMHAs/LBHAs throughout the state. Outpatient levels of service include Intensive Case Management, Transitional Case Management, and Continuity of Care for individuals on probation or parole. See [Tex. Health & Safety Code Ch. 614](#).

Texas Juvenile Justice Department (TJJJ):

TJJJ is the state agency responsible for the supervision and rehabilitation services provided by the juvenile justice system in the community and in residential and secure facilities. Following its creation in 2011, TJJJ was tasked with the following purposes:

1. creating a unified state juvenile justice agency that works in partnership with local county governments, the courts, and communities to promote public safety by providing a full continuum of effective supports and services to youth from initial contact through termination of supervision; and
2. creating a juvenile justice system that produces positive outcomes for youth, families, and communities by:
 - A. assuring accountability, quality, consistency, and transparency through effective monitoring and the use of systemwide performance measures;
 - B. promoting the use of program and service designs and interventions proven to be most effective in rehabilitating youth;
 - C. prioritizing the use of community-based or family-based programs and services for youth over the placement or commitment of youth to a secure facility;
 - D. operating the state facilities to effectively house and rehabilitate the youthful offenders that cannot be safely served in another setting; and
 - E. protecting and enhancing the cooperative agreements between state and local county governments.

[Tex. Hum. Res. Code § 201.002](#).

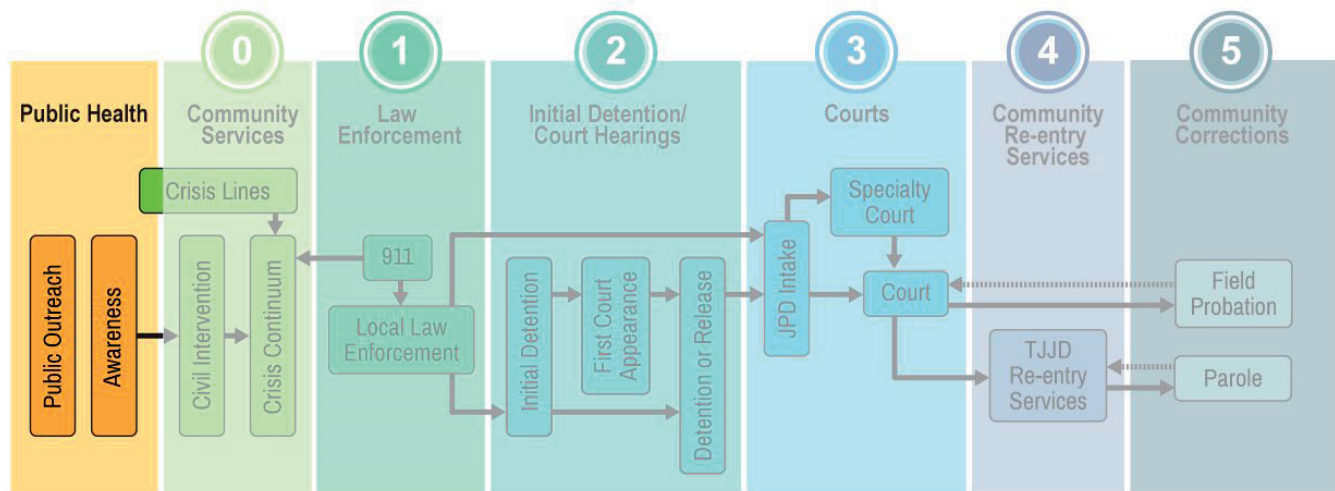

Trauma Informed Care

- a. Trauma results from an event, series of events, or set of circumstances experienced by an individual as physically or emotionally harmful to life-threatening with lasting adverse effects on the individual's functioning or the individual's mental, physical, social, emotional, or spiritual well-being.
- b. An individual, program, organization, or system that is trauma-informed fully integrates knowledge about trauma into policies, procedures, and practices by:

1. Realizing the widespread impact of trauma, understanding potential paths for recovery, and acknowledging the compounding impact of structural inequities related to culture, history, race, gender, identity, locale, and language;
2. Recognizing the signs and symptoms of trauma in clients, families, staff, and others involved with the system;
3. Maximizing physical and psychological safety and responding to the impact of structural inequities on individuals and communities;
4. Building healthy, trusting relationships that create mutuality among children, families, caregivers, and professionals at an individual and organizational level; and
5. Striving to avoid re-traumatization.

[40 Tex. Admin. Code § 702.701.](#)

Public Health

Public Health addresses the importance of laying a foundation that sets up individuals, families, and public outreach systems for appropriate identification of and responses to mental health and intellectual and developmental disabilities (IDD) issues before any justice-related system comes into play.²⁹ Addressing mental health issues does not and should not begin with the justice system.³⁰ Ideally, many people in a child’s life, including family members, educators, and physicians, will understand the signs of mental illness and IDD, as well as the social determinants of good mental health such as the availability of healthy food, safe homes and neighborhoods, the quality of relationships, and experiences with trauma or racism. While there is no guarantee that a child or adolescent with MI or IDD will not eventually interact with the justice system, early intervention is ideal.³¹ Therefore, this Bench Book includes Public Health as the first opportunity to intercept an individual from moving further into the system, although it might be more appropriate to think of public health flowing through each intercept.

Mental health and IDD awareness can be increased by public outreach to individuals including children, families, and support systems. Awareness is intentionally broad and refers to identification as well as awareness of resources.

Individual Awareness: Identifying signs of mental illness is the first step to achieving effective responses. Children and adolescents seek help from a parent or guardian when they feel that it is safe and normal to ask for help. They need trusted adults to listen and to provide a warm and trusting environment. Avenues of awareness include teachers and other school personnel, childcare workers, after school program staff, coaches, pediatricians, and media sources. Sesame Street’s collection of *Traumatic Experiences*³² and *Caring for Each Other*³³ videos demonstrate that it is never too early to begin these conversations.

³³ *Caring for Each Other*, SESAME STREET, <https://www.sesamestreet.org/caring> (last visited Aug. 8, 2023).

Family Support: Parents, guardians, and relatives are often the first to recognize signs of a child’s possible mental health condition. Families should be encouraged to seek out information and support from their community as soon as possible, as early intervention can result in a better outcome for the child. Organizations such as NAMI and the Texas Health and Human Services Commission (HHSC)³⁴ provide guidelines for communicating with children about mental health, responding to a mental health crisis, and finding available resources in the community.

Public Outreach: Public outreach and campaigns to enhance mental health awareness enable citizens, loved ones, and professionals to identify and correctly respond to the need for mental health interventions before a crisis occurs. Two such campaigns are Okay to Say³⁵ and Children’s Mental Health Awareness Day.³⁶ New efforts are underway every day. 9-8-8 is a nationwide, three-digit phone number that people can call to speak with suicide prevention and mental health counselors at the existing National Suicide Prevention Lifeline (1-800-273-TALK).³⁷ New efforts are underway every day and connecting them with existing need is a critical step.

Disproportionality in the Juvenile Justice System: Disproportionality is the over- or underrepresentation of a racial or cultural group within a system at a percentage that is not proportionate to their representation in the general population.³⁸ Disparity refers to the difference in outcome and conditions for some groups of people compared to other groups because of unequal treatment or services.³⁹ Youth who identify as Black or African American, Hispanic or Latino, and Indigenous are involved in the Texas juvenile justice system at disproportionate rates, as highlighted by data contained in *The State of Juvenile Probation Activity in Texas*. Specifically, of the 33,987 juveniles referred in 2021, Caucasian youth represent 30.7% of the state’s population, yet account for only 22.3% of the referrals to juvenile probation departments.⁴⁰ In contrast, Hispanic youth comprise 50.6% of the state’s population and 47% of referrals.⁴¹ African American youth represent 11.3% of the state’s population and 29.5% of referrals to juvenile probation departments.⁴² This trend is reflected nationally as well: in 2018, Black youth represented 16% of the national youth population, but 50% of national youth arrests, while white youth represented 75% of the youth population and 47% of the youth arrests.⁴³ In some respects, the juvenile justice system often serves as a filter for mental health issues which manifest as delinquent conduct. To that end, racial and ethnic disparities are dramatically compounded by the effects of behavioral and mental health disorders.

In recent years, national initiatives to identify effective evidence-based programs for addressing the mental health needs of justice-involved youth, such as Models for Change, have emerged. These efforts have also raised awareness in underserved populations and underscored the need to expand the number of culturally competent mental health professionals in the face of the state’s changing demographics. These initiatives also highlight the importance of greater reflection on the decisions of practitioners, either knowing or unconscious, impacting which juveniles enter the system and the opportunities for successful rehabilitative outcomes.

Implicit Bias: Juvenile system stakeholders are often required to navigate complex factors, including socioeconomic status and the prevalence of mental health issues which can contribute to delinquency and criminal conduct. Stakeholders must also understand how implicit bias impacts an individual's justice system experience and perceptions of fundamental fairness. Practitioners should be aware of the role implicit bias may play in how an individual is perceived and processed at critical points during arrest, prosecution, judicial proceedings, probation, placement, and discharge. These processes should be individualized and examined through a lens of equity. While subjective considerations such as implicit bias may be difficult to determine, one method to identify clear trends regarding disproportionality is to gather data on decision-making practices. These metrics may be useful to inform local dialogue about ways to minimize the direct and indirect consequences of race and ethnicity at critical process points.

Gathering Race and Ethnicity Data at Important Decision Points

Arrest and Detention

- Number of juveniles by race/ethnicity taken into custody and/or released by law enforcement
- Number of juveniles by race/ethnicity placed in detention or ordered to wear electronic leg monitoring (ELM) devices

Case Referral

- Number of cases accepted and referred to court by race/ethnicity
- Number of cases diverted for counsel and release, mediation, or assessment, by race/ethnicity

Assessment

- Consider whether implicit bias is inherent in the administration and application of standardized assessment tools (i.e., MAYSI-2, PACT, etc.)

Disposition

- Number of juveniles by race/ethnicity who receive deferred prosecution, by offense
- Analysis of juvenile characteristics that impact dispositional outcomes

Placement

- Number of juveniles by race/ethnicity who are placed in residential placement
- Number of juveniles by race/ethnicity who are committed to TJJD

Probation Supervision

- Length of probation term by race/ethnicity
- Factors used to make community service restitution referrals
- Impact of fees, court costs, and fines on the juvenile and family (relating to income and indigence)

Prosecutorial Decisions

- Number of probation revocations by race/ethnicity, and by basis of violation (decisions by probation and by prosecutor)
- Number of early terminations by race/ethnicity (decisions/recommendations by probation and by prosecutor)

Cultural Barriers to Treatment. Of the population receiving mental health services, youth who identify as BIPOC (Black, Indigenous, and People of Color) are more likely to be referred to the juvenile justice system rather than to mental health providers.⁴⁴ Section 51.20 of the Family Code authorizes a juvenile who

⁴⁴ Lyndonna Marrast, David Himmelstein, and Steffie Woolhandler, *Racial and Ethnic Disparities in Mental Health Care for Children and Young Adults: A National Study*, 46 INT'L J. OF HEALTH SERVICES 810, 819 (2016): "The under-provision of mental health care for minority children contrasts starkly with the high frequency of punitive sanctions that their behaviors elicit. Black children suffer excessive rates of school

is alleged to have committed delinquent conduct or conduct indicating a need for supervision (CINS) to be referred for a mental health examination by a physician, psychologist, psychiatrist, or other qualified professional *at any stage of the proceedings*. Juvenile justice practitioners should be mindful of the stigma of mental illness that exists in many communities of color and the unwillingness of many families to acknowledge or seek out treatment services for a justice-involved child. Studies suggest that youth in certain racial groups are less likely to access available mental health services.⁴⁵ Further, systemic bias has been cited as an obstacle to treatment, even when a youth's diagnosis justifies a referral for services.

Culturally-Informed Care. According to NAMI, “culture, beliefs, sexual identity, values, race, and language all affect how we perceive and experience mental health conditions. In fact, cultural differences can influence what treatments, coping mechanisms and supports work for us. It is therefore *essential* for culture and identity to be a part of the conversation as we discuss both mental health and mental health care.”⁴⁶

Youth must feel comfortable and understood by their mental health professional for a therapeutic relationship to be effective. This includes feeling that their mental health professional understands their identity and is comfortable addressing it openly. Practitioners should engage with community providers who have built a diverse staff with training in cultural competency to meet the needs of youth and other special populations.

Research shows that culturally and linguistically appropriate services improve the quality of health care.⁴⁷ In 1997, the process for developing national standards for culturally and linguistically appropriate services (CLAS) began. Over time, the National CLAS Standards⁴⁸ have been updated, and they are intended to advance health equity, improve quality, and help eliminate health care disparities by establishing a blueprint for health and health care organizations.⁴⁹

Death by Suicide is closely linked to mental illness, but a majority of people who have a mental illness do not die by suicide.⁵⁰ Although suicide affects youth of all backgrounds, some groups are at higher risk than others. In Texas, Black high school students are 1.5 times more likely than White or Latino students to report at least one suicide attempt in the past year.⁵¹ Youth who identify as gay or lesbian are more than three times as likely to report a suicide attempt in the last year, compared to the overall reporting rate of Texas high school students.⁵² National research shows that youth in foster care are four times more likely

discipline, such as suspensions and expulsions, starting at preschool ages. Minority teens also have disproportionate contact with the juvenile justice system, with higher arrest rates for nonviolent, low-level offenses such as drug possession and for non-criminal misbehaviors such as truancy and curfew violations.”

⁵² *Id.*

to have attempted suicide than youth who have never been in care,⁵³ and youth who are involved in the juvenile justice system have up to a four times higher rate of suicide than youth who are not justice system-involved.⁵⁴

Several initiatives are under way to combat this preventable tragedy. Texas Suicide Prevention Council⁵⁵ developed both a training program, ASK About Suicide to Save a Life,⁵⁶ to recognize suicide risk factors, protective factors, warning signs, and appropriate referral strategies; and a free suicide prevention app.⁵⁷ Additionally, the Texas Suicide Prevention Council updated the state suicide prevention plan,⁵⁸ and created a toolkit for schools.⁵⁹ Two important bills directly relating to children's mental health and suicide prevention were passed in the 86th legislative session: Senate Bill 1390, and Senate Bill 18. Senate Bill 1390 (86th Reg. Sess. (2019)) promoted comprehensive suicide prevention strategies in school, including responding to suicide attempts or deaths by suicide in ways that help prevent future suicidal behaviors. Senate Bill 1390 also required state agencies to focus planning on the reduction of suicide rates among all Texans. Senate Bill 18 (86th Reg. Sess. (2019)) contained many measures to support mental health in schools, notably: a requirement that every school district to create a district improvement plan that includes evidence-based practices for suicide prevention; positive behavior interventions and support, including grief-informed and trauma-informed care; and required instruction for teachers on positive behavioral interventions for students with mental health conditions or substance use.

Trauma-Informed Care is more than a trending buzzword. Research shows that trauma impacts a child's development and health. The groundbreaking Adverse Childhood Experiences (ACEs) study⁶⁰ and replicated studies since demonstrate that childhood stress is linked to poor health outcomes, including obesity, diabetes, depression, alcohol and drug abuse, low graduation rates, poor employment prospects, heart disease, stroke, and cancer.⁶¹

Estimates of ACEs among children and youth in the major child-serving systems in Texas show the need for these systems to be adept at identifying, understanding, and treating trauma. Statewide, approximately 730,000 children and adolescents have experienced three or more ACEs.⁶² Nearly 90,000 children and adolescents under the age of 17 have been exposed to 10 or more episodes of violence,⁶³ and among youth involved within the juvenile justice system in Texas, 5,900 have experienced four or more ACEs.⁶⁴

⁶³ *Id.* at 22.

⁶⁴ *Id.* at 23.

Children and adolescents who are not experiencing consistent physical and emotional safety may develop behaviors and coping mechanisms which allow them day-to-day survival and function. These learned adaptations make sense when a physical or emotional threat is pervasive but are not helpful once a person is no longer under such threats.⁶⁵ Trauma and ACEs can result in a range of behaviors which are punishable by law, including a referral to juvenile court.

Knowing that children who interact with the juvenile justice system are vulnerable to trauma, our systems must respond to the needs of children and families through a trauma-informed lens. This requires judges, attorneys, court staff, and other stakeholders to understand how traumatic responses present in the children and families before the court and adapt courtroom practices to help families build resilience. In doing so, serving children and families moves beyond responding to behaviors to promoting healing. A trauma-informed juvenile justice system “acknowledges the prevalence and impact of trauma and attempts to create a sense of safety for all persons, whether or not they have experienced trauma.”⁶⁶

The essential elements of a trauma-informed juvenile justice system⁶⁷ are:

1. Trauma-informed policies and procedures
2. Identification and screening of youth who have been traumatized
3. Clinical assessment and intervention for trauma-impaired youth
4. Trauma-informed programming and staff education
5. Prevention and management of secondary traumatic stress
6. Trauma-informed partnering with youth and families
7. Trauma-informed cross system collaboration
8. Trauma-informed approaches to address disparities and diversity.

In 2017, the Supreme Court of Texas Permanent Judicial Commission for Children, Youth and Families⁶⁸ launched the Statewide Collaborative on Trauma-Informed Care (SCTIC)⁶⁹ to elevate trauma-informed policy and practices in the Texas child welfare system by creating a statewide strategy to support system reform, organizational leadership, cross-systems collaboration, and community-led efforts with data-informed initiatives. The SCTIC published a report in February 2019 entitled “Building a Trauma-Informed Child Welfare System: A Blueprint.”⁷⁰ The Trauma Blueprint provides a plan for the state to advance trauma-informed care practices in the child welfare system, recognizes the interactions with other systems, and suggests that the Blueprint can and should be used as a framework for any system.

The presence of ACEs does not mean that a child will experience poor life outcomes. Positive experiences and protective factors can prevent children from experiencing adversity and protect against many negative health and life outcomes.⁷¹ Judges have the power to lead the way in transforming the juvenile justice

system into one that engages the children in their courtrooms, avoids re-traumatization, and supports recovery, all in the pursuit of increased public safety and reduced recidivism.

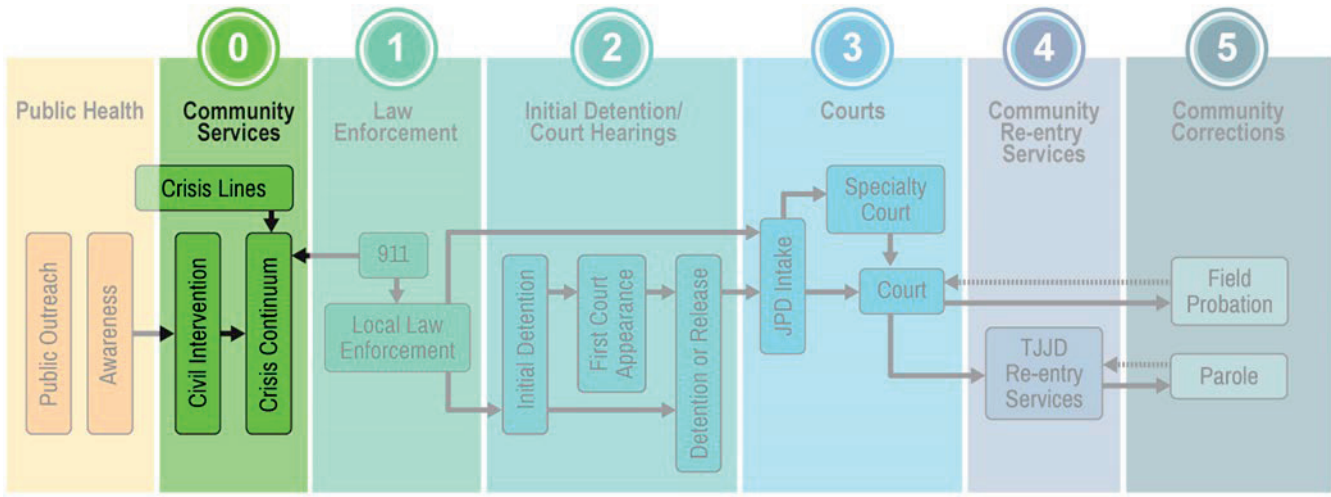

Reflection Point

All assumptions and interactions with juveniles should be framed within the following considerations: adolescent brain development; trauma; and racial or ethnic bias.

0

Intercept 0: Community Services

Intercept 0: Community Services encompasses early intervention points for children with mental illness or intellectual or developmental disabilities (IDD) before they are taken into custody by law enforcement. It captures systems and services designed to connect children with treatment before a mental health crisis begins or at the earliest possible stage of system exposure. In Texas, these include services such as crisis hotlines, screening and assessment, crisis-response teams, and specially trained law enforcement. Children and adolescents are eligible for many of the same services and supports as adults.

An understanding of complex trauma and its association with the risk of delinquency is critical to early intervention. Effective intervention that addresses factors related to complex trauma *before* a youth becomes involved in the juvenile justice system can prevent youth from offending and entering the system.⁷² The effect of trauma is cumulative: the greater the number of traumatic events that a child experiences, the greater the risks to a child’s development and their emotional and physical health.⁷³ Youth who experience complex trauma have been exposed to a series of traumatic events that include interpersonal abuse and violence, often perpetrated by those who are meant to protect them.⁷⁴ This level of traumatic exposure has extremely high potential to derail a child’s development on a number of levels.⁷⁵ Communities must work together to recognize and address mental illness, intellectual and development disabilities, and traumatic stress, and to provide early interventions for treatment before a youth becomes entrenched in a pattern of maladaptive and problematic behavior.⁷⁶

Reflection Point

As a judge, consider building strengths-based teamwork between families and systems. Seek to identify existing community coalitions and organizations that will build a network of support for children and families in advance of justice-involvement.

⁷² National Council of Juvenile and Family Court Judges, Ten Things Every Juvenile Court Judge Should Know About Trauma and Delinquency (2010), https://www.ncjfcj.org/wp-content/uploads/2012/02/trauma-bulletin_0.pdf#:~:text=Ten%20Things%20Every%20Juvenile%20Court%20Judge%20Should%20Know,NCTSN%20Office%20of%20Juvenile%20Justice%20and%20Delinquency%20Prevention (last visited Aug. 8, 2023).

1. Community-based Mental Health Services

Community-based mental health services are available for children and adolescents with intellectual disabilities, developmental disabilities, serious emotional disturbance, mental illnesses, and substance use disorders. As a judge and a community leader, it is advantageous to have a general understanding of the resources available in your community.⁷⁷

Reflection Point

As a judge, it is important to remember that youth who identify as BIPOC strongly benefit from culturally competent services at all intercept points.

Services Provided by Local Mental Health Authorities and Local Behavioral Health Authorities (LMHAs/LBHAs)

LMHAs and LBHAs serve as the point of entry for publicly funded, privately funded, or unfunded mental health services for people who are assessed with mental illness in Texas. They are responsible for recommending the most appropriate and available treatment alternative for a person in need of mental health services in accordance with the Texas Administrative Code.

Diagnostic Criteria

A local mental health authority shall ensure the provision of assessment services, crisis services, and intensive and comprehensive services using disease management practices for adults with bipolar disorder, schizophrenia, or clinically severe depression and for **children with serious emotional illnesses**. The local mental health authority shall ensure that individuals are engaged with treatment services that are:

- Ongoing and matched to the needs of the individual in type, duration, and intensity;
- Focused on a process of recovery designed to allow the individual to progress through levels of service;
- Guided by evidence-based protocols and a strength-based paradigm of service; and
- Monitored by a system that holds the local authority accountable for specific outcomes, while allowing flexibility to maximize local resources.

[Tex. Health & Safety Code § 533.0354\(a\)](#).

Eligibility for ongoing outpatient mental health treatment is a diagnosis- and need-based determination governed by state and federal requirements, the HHSC performance contract with LMHAs/LBHAs, and section 533.0354 of the Texas Health and Safety Code.

The Child and Youth Mental Health Priority Population is children ages 3-17 with serious emotional disturbance (excluding a single diagnosis of substance abuse, IDD, or autism spectrum disorder) who have a serious functional impairment or who are at risk of disruption of a preferred living or childcare environment due to psychiatric symptoms or are enrolled in special education because of a serious emotional disturbance. [Tex. Health & Safety Code § 534.053](#).

Statutorily Required Services

Each of the 39 LMHAs/LBHAs is required to provide:

⁷⁷ HHSC has a program called 2-1-1 Texas, which helps Texas citizens connect with services. See *211 Connecting People and Services*, TEX. HEALTH & HUMAN SERV., <https://www.211texas.org/about-2-1-1/> (last visited Aug. 8, 2023) for more information. See also, HON. BARBARA HERVEY ET AL., TEXAS MENTAL HEALTH RESOURCE GUIDE, (1st ed. 2019), <https://www.txcourts.gov/media/1445767/texas-mental-health-resource-guide-01242020.pdf>. (A compilation of mental health and substance use disorder resources across Texas organized by county.).

- 24-hour emergency screening and rapid crisis stabilization services;⁷⁸
- Community-based crisis residential services or hospitalization;
- Community-based assessments, including the development of interdisciplinary treatment plans and diagnosis and evaluation services;
- Medication-related services, including medication clinics, laboratory monitoring, medication education, mental health maintenance education, and the provision of medication; and
- Psychosocial rehabilitation programs, including social support activities, independent living skills, and vocational training.

Tex. Health & Safety Code § 534.053(a).

To the extent that resources are available, LMHAs/LBHAs shall:

- Ensure that the services listed in this section are **available for children, including adolescents**, as well as adults, in each service area;
- Emphasize early intervention services for children, including adolescents, who meet the department's⁷⁹ definition of being at high risk of developing severe emotional disturbances or severe mental illnesses; and
- Ensure that services listed in this section are available for defendants required to submit to mental health treatment under Article 17.032, 42A.104, or 42A.506, Code of Criminal Procedure.

Tex. Health & Safety Code § 534.053(c).

General Services from LMHAs/LBHAs include:

- Provide a full array of services and supports for people with mental illness.⁸⁰
- Are responsible for admitting eligible people with Medicaid into assessed and most appropriate level of care based on completion of the Uniform Assessment.⁸¹
- Are responsible for admitting eligible people, when they have capacity, into assessed and most appropriate level of care based on completion of the Uniform Assessment.
- Are responsible for completing Preadmission Screening and Resident Review (PASRR)⁸² Evaluations, known as a PE, for people suspected of having a serious mental illness seeking admission to a Medicaid-certified nursing facility.
- Provide specialized services in the most appropriate setting for the people, including the nursing facility, who are PASRR positive and agree to receive the Mental Health Specialized Services.⁸³

⁷⁸ Every LMHA/LBHA has a 24-hour crisis line. Find yours here: *Mental Health Crisis Services*, TEX. HEALTH & HUM. SERV., <https://hhs.texas.gov/services/mental-health-substance-use/mental-health-crisis-services> (last visited Aug. 8, 2023).

⁷⁹ As used here, "department" refers to the Department of State Health Services (DSHS). The 84th Legislature made structural changes to the Health and Human Services system, including transferring some DSHS functions to HHSC. HHSC defines which children are at high risk of developing severe emotional disturbances or severe mental illnesses.

⁸⁰ State performance contracts with LMHAs define the mental health priority population, or the groups of children, adolescents, and adults with mental illness or serious emotional disturbance assessed as most in need of mental health services. *26 Tex. Admin. Code § 306.153(46)*.

⁸¹ The Uniform Assessment is an assessment used by the Texas Health and Human Services Commission as Form 3020. See <https://hhs.texas.gov/laws-regulations/forms/3000-3999/form-3020-uniform-assessment> (last visited Aug. 8, 2023).

⁸² PASRR is a federally mandated program that requires all states to prescreen all people, regardless of payer source or age, seeking admission to a Medicaid-certified nursing facility. For more information, see *Preadmission Screening Resident Review*, TEX. HEALTH & HUM. SERV., <https://hhs.texas.gov/doing-business-hhs/provider-portals/long-term-care-providers/resources/preadmission-screening-resident-review-pasrr> (last visited Aug. 8, 2023).

⁸³ Specialized Services are administered by LMHAs/LBHAs, LIDDAs, and nursing facilities. See *Specialized Service Definitions & Provider Roles*, TEX. HEALTH & HUM. SERV., <https://hhs.texas.gov/doing-business-hhs/provider-portals/long-term-care-providers/resources/preadmission-screening-resident-review-pasrr/specialized-service-definitions-provider-roles> (last visited Aug. 8, 2023).

Crisis Services

A crisis is defined as a situation in which:

- An individual presents an immediate danger to self or others;
- An individual's mental or physical health is at risk of serious deterioration; or
- An individual believes either that:
 - they present an immediate danger to self or others; or
 - their mental or physical health is at risk of serious deterioration.

[26 Tex. Admin. Code § 301.303\(13\)](#).

The LMHA must have a crisis screening and response system in operation 24 hours a day, every day of the year, that is available throughout the contracted service area. [26 Tex. Admin. Code § 301.327\(b\)](#).

What Crisis Response Services Include

Crisis response services include three services:

- A crisis screening;
- A crisis assessment; and
- A recommendation about the level of care required to resolve the crisis.

An LMHA/LBHA ensures immediate screening and, if recommended based on the screening, a face-to-face intake assessment of an individual found in the LMHA/LBHA's local service area who is experiencing a crisis in accordance with Texas Administrative Code, Title 26, Rule 301.327, which governs access to mental health community services. [26 Tex. Admin. Code § 306.161\(a\)](#).

LMHAs/LBHAs Conduct Crisis Response for Both MI and IDD

For persons with MI and IDD, crisis response will be conducted by the LMHA/LBHA. However, it is recommended that the LMHA/LBHA consult with the LIDDA. For persons with IDD who are NOT in crisis, the LIDDA will serve as the point of access for services. In all but two Texas counties (Bexar and Dallas) the LMHA and LIDDA functions are performed by one local agency. See [Tex. Health & Safety Code § 533.035\(a\)](#).

Note: In Bexar County, the Alamo Area Council of Government serves as the LIDDA. In Dallas County, Metrocare serves as the LIDDA.

Crisis Screening and Response System

All LMHA/LBHAs have a crisis screening and response system in operation at all times and available to individuals throughout its contracted service delivery area.⁸⁴ The telephone system to access the crisis screening and response system includes a toll-free crisis hotline number. The crisis hotline number is prominently placed on each LMHA/LBHA website and is typically the primary point of contact for a county jail or a juvenile detention center that does not have mental health professionals available on staff or through a local contract.

⁸⁴ TEX. HEALTH & HUMAN SERV., INFORMATION ITEM V, CRISIS SERVICES STANDARDS (2019) <https://hhs.texas.gov/sites/default/files/documents/doing-business-with-hhs/provider-portal/behavioral-health-provider/community-mh-contracts/info-item-v.docx>. See *Community Mental Health Contracts*, TEX. HEALTH & HUMAN SERV., <https://hhs.texas.gov/doing-business-hhs/provider-portals/behavioral-health-services-providers/behavioral-health-provider-resources/community-mental-health-contracts> (last visited Aug. 8, 2023).

Crisis Hotline

The crisis hotline is a continuously available telephone service staffed by trained and competent QMHP-CSs who provide information, screening, intervention, support, and referrals to callers 24 hours a day, seven days a week.⁸⁵ The hotline facilitates referrals to 911, a Mobile Crisis Outreach Team (discussed below), or other crisis services and conducts follow-up contacts to ensure that callers successfully accessed the referred services. If an emergency is not evident after further screening, the hotline includes referral to other appropriate resources within or outside the LMHA/LBHA local service area. The hotline works in close collaboration with local law enforcement, 211, and 911 systems.

988 Suicide and Crisis Lifeline (988)

988 offers access to free and confidential support for anyone experiencing behavioral health-related distress: thoughts of suicide, mental health or substance use crisis, or any other kind of emotional distress. When a caller connects to a 988 crisis center or one of the many national backup centers, a trained crisis counselor is there to listen to the caller, provide support, and share resources or referrals as needed. Crisis centers in the 988 network support contacts over the phone, by text, and through online chat. There are currently six 988 crisis centers operating in Texas⁸⁶:

- Bluebonnet Trails through Avail Solutions Inc.;
- Emergence Health Network;
- The Harris Center;
- Integral Care;
- MHMR Tarrant; and
- The Suicide and Crisis Center of North Texas.

Mobile Crisis Outreach Team (MCOT)

When the crisis hotline is called, the staff member provides a crisis screening and determines if the crisis requires deployment of the LMHA/LBHA MCOT. If the crisis is determined to be emergent or urgent, at least one trained MCOT member shall respond to the crisis and conduct a crisis assessment. Immediately upon arrival, a face-to-face screening shall be completed by at least a QMHP-CS unless a telephone screening was previously completed. MCOTs provide a combination of crisis services including emergency care, urgent care, crisis follow-up, and relapse prevention to the child, youth, or adult in the community.⁸⁷ Some local intellectual and development disability authorities operate integrated teams to include staff with IDD expertise but may not always have a professional available for the crisis call.

Note: Some counties, such as Travis County, have an Expanded Mobile Crisis Outreach Team (EMCOT) that collaborates with local law enforcement or other first responders for a real-time co-response to a person in psychiatric crisis. EMCOT connects people to treatment appropriate for psychiatric crises, diverting them from emergency rooms and jails. This improves health outcomes and allows first responders to return to responding to medical emergencies and public safety issues.⁸⁸

Youth Mobile Crisis Outreach Team (YCOT)

The Youth Mobile Crisis Outreach Team pilot program, funded through the 88th Legislature, will provide crisis stabilization support 24 hours a day, seven days a week, when any individual contacts the crisis system for a child or youth in crisis. The YCOT teams will use trauma-informed interventions and strategies to de-escalate a child in crisis, aid in relapse prevention and safety planning, and be available to the child's family

⁸⁵ Tex. Health & Human Serv., Crisis Services Standards, at V-1.

⁸⁶ HHSC contracts with MHMR of Tarrant County, Emergence Health Network, The Harris Center, Integral Care, and Bluebonnet Trails. While the Suicide and Crisis Center of North Texas answers 988 calls, HHSC does not currently have a formal relationship with this agency.

⁸⁷ *Id.* at V-3 – V-6.

⁸⁸ Integral Care Crisis Services, Expanded Mobile Crisis Outreach Team, AUSTINTEXAS.GOV, <https://www.austintexas.gov/edims/document.cfm?id=302634> (last visited Aug. 8, 2023).

for up to 90 days (or no less than 4-6 weeks) after the crisis. The LMHA/LBHA is required to provide ongoing stabilization support and ensure connection or community mental health resources.

Rural Crisis Response and Diversion (RCRD)

Rural Crisis Response and Diversion programs divert individuals in crisis from jails and emergency rooms to community mental health services. People diverted are then connected to the appropriate level of care in the least restrictive environment. Further, this program allows LMHAs to address the mental health and crisis needs of the rural communities they serve and strengthen the relationship and collaboration between the local mental health authority and law enforcement in their communities. There are currently eight LMHAs/LBHAs operating rural crisis response and diversion programs in Texas and five additional programs starting in the 2024 fiscal year:

Current RCRDs	RCRDs Starting in 2024 Fiscal Year
<ul style="list-style-type: none"> ◦ Betty Hardwick Center ◦ Border Region Behavioral Health Center ◦ Burke ◦ Camino Real Community Services ◦ Central Counties Services ◦ Coastal Plains Center ◦ StarCare Specialty ◦ Texana 	<ul style="list-style-type: none"> ◦ Heart of Texas Region MHMR Center ◦ MHMR Authority of Brazos Valley ◦ North Texas Behavioral Health Authority ◦ Texoma Community Centers ◦ West Texas Centers

Crisis Alternative Programs such as Crisis Respite Facilities are located in the community and allow children and adolescents in behavioral health crisis to receive treatment in the most appropriate and available setting.⁸⁹ Use of these programs can minimize time spent by law enforcement officers driving to and waiting at hospitals and facilities, divert individuals from the criminal justice system, and reduce use of local emergency room services to manage behavioral health crises. Contact your local LMHA/LBHA to determine if a crisis alternative program is available in your community.

The **Children’s Crisis Respite (CCR)** program supports the provision of crisis respite services for children with a single diagnosis of serious emotional disturbance (SED) or a primary SED diagnosis and co-occurring diagnosis, including a substance use disorder or intellectual development disability. The goals of the program are to increase access to short-term, safe, and clinically appropriate placement for children who are in crisis, but do not meet inpatient care criteria; and provide transition planning services to the child’s family, adult caregiver, or Legally Authorized Representative prior to the child exiting the crisis respite facility. There are four CCRs in Texas. Interested families can call their LMHA or LBHA to determine if it is offered locally.

What a Crisis Assessment Includes

A crisis assessment shall include an evaluation of risk of harm to self or others, presence or absence of cognitive signs suggesting delirium, need for immediate full crisis assessment, need for emergency intervention, and an evaluation of the need for an immediate medical screening/assessment by a physician (preferably a psychiatrist), psychiatric advanced practice nurse, physician assistant, or registered nurse.⁹⁰

After the crisis assessment is conducted, the LMHA/LBHA will make a recommendation about the treatment necessary to resolve the crisis.

⁸⁹ Tex. Health & Human Serv., Information Item V, Crisis Services Standards at V-38 – V-41.

⁹⁰ *Id.* at V-5.

Communication with LMHAs/LBHAs

Open and clear communication and planning between facilities and LMHAs/LBHAs on crisis assessments and crisis response is encouraged. Every second counts when a child or adolescent experiences an emergent or urgent mental health crisis. Solving procedural complications before a crisis occurs will save time and avoid redundancy.

The LMHA/LBHA's crisis response and response time should not change, whether the youth is in custody or not. MCOT staff will respond to location of the crisis to provide services, whether it is a private home or a residential facility.

Secure juvenile facilities, such as juvenile detention centers and post-adjudication facilities, should be in ongoing communication with the LMHA/LBHA so that any part of the crisis assessment or recommendation for treatment needed to resolve the crisis is clear. Ongoing communication between facilities and the LMHA/LBHA on the local process and procedure for delivery of MCOT services is also needed. This will naturally vary center to center.

Emergency Care Services: LMHA/LBHA Shall Respond Within One Hour

If, during a crisis screening, it is determined that an individual is experiencing a crisis that may require emergency care services, the QMHP-CS must:

- Take immediate action to address the emergency situation to ensure the safety of all parties involved;
- Activate the immediate screening and assessment processes as described in title 26, section 301.327 of the Texas Administrative Code; and
- Provide or obtain mental health community services or other necessary interventions to stabilize the crisis.

[26 Tex. Admin. Code § 301.327\(d\)\(1\)\(B\)](#).

For emergency calls, a face-to-face crisis response (or telehealth based on policies and procedures approved by the medical director) shall be provided within one hour. After crisis intervention services are provided, and if the individual is still in need of emergency care services, then the individual shall be assessed by a physician (preferably a psychiatrist) within 12 hours.

Urgent Care Services: LMHA/LBHA Shall Respond Within Eight Hours

If the crisis screening indicates that an individual needs urgent care services, a QMHP-CS shall, within eight hours of the initial incoming hotline call or notification of a potential crisis situation:

- Perform a face-to-face assessment; and
- Provide or obtain mental health community services or other necessary interventions to stabilize the crisis.

[26 Tex. Admin. Code § 301.327\(d\)\(1\)\(C\)](#).

Local Mental Health Authorities/Behavioral Health Authorities

In all but two Texas counties (Bexar and Dallas), the LMHA/LBHA and LIDDA functions are united under one local authority. A list of Texas LMHAs/LBHAs and contact information is included in the Appendix, with a map of the LMHA/LBHA catchment area.

Ongoing Non-crisis Outpatient Mental Health Services

Individuals who meet diagnostic- and need-based requirements will be assigned a level of care to determine which services they may be eligible to receive. Section 534.53 of the Texas Health and Safety Code describes the required community-based mental health services:

- (A) HHSC shall ensure at a minimum, the following are available in each LMHA/LBHA service area:
- (1) 24-hour emergency screening and rapid crisis stabilization services;
 - (2) Community-based crisis residential services or hospitalization;
 - (3) Community-based assessments, including the development of interdisciplinary treatment plans and diagnosis and evaluation services;
 - (4) Medication-related services, including medication clinics, laboratory monitoring, medication education, mental health maintenance training, and the provision of medication; and
 - (5) Psychosocial rehabilitation programs, including social support activities, independent living skills, and vocational training.
- (B) HHSC shall arrange for appropriate community-based services to be available in each service area for each person discharged from a department facility who is in need of care.
- (C) To the extent that resources are available, HHSC shall:
- (1) Ensure that the services listed in this section are **available for children, including adolescents**, as well as adults, in each service area;
 - (2) **Emphasize early intervention services for children, including adolescents**, who meet the department's definition of being at high risk of developing severe emotional disturbances or severe mental illnesses; and
 - (3) Ensure that services listed in this section are available for defendants required to submit to mental health treatment under articles 17.032 or 42A.104 or 42A.506 of the Texas Code of Criminal Procedure.

[Tex. Health & Safety Code § 534.053.](#)

Eligibility for ongoing outpatient mental health treatment is a diagnosis- and need-based determination governed by the state and federal requirements and the HHSC performance contract with LMHAs/LBHAs. LMHAs/LBHAs are required to ensure that services that address the needs of priority populations are provided. [Tex. Health & Safety Code § 534.054\(a\).](#)

The child and adolescent mental health priority population are children ages 3 – 17 with serious emotional disturbance (excluding a single diagnosis of substance abuse, intellectual or developmental disability, or autism spectrum disorder) who have a serious functional impairment or who are at risk of disruption of a preferred living or childcare environment due to psychiatric symptoms or are enrolled in special education because of a serious emotional disturbance.

Children's Mental Health System Navigator (CMHSN) Pilot Program

The Children's Mental Health System Navigator Pilot Program supports the provision of services and treatment for children with behavioral health needs. Priority populations for this program are children in DFPS conservatorship who lack placement, children who are at risk of entering state conservatorship lacking placement status, and children at risk of parental relinquishment. The navigators focus on fostering enhanced partnerships with child-serving systems, promoting better collaboration between partners in the child-serving system, and supporting efforts towards diverting children from entering DFPS conservatorship through increased support. This program is currently offered at Camino Real Community Services, Coastal Plains Community Center, Emergence Health Network, Integral Care, North Texas Behavioral Health Authority, and StarCare Specialty Services.

Behavioral Health Partnership Program (BHPP)

The Behavioral Health Partnership Program provides funding to LMHAs/LBHAs to hire Non-Physician Mental Health Professionals (NPMHPs) to serve as a mental health and substance use resource for school districts located in the region served by a regional education service center (ESC) and in which the LMHA provides services. The goal of the BHPP is to increase ESC and school personnel awareness and understanding of mental health and substance use disorders. The BHPP provides adult, youth, and teen trainings on Mental Health First Aid, trauma and grief for children with Intellectual and Developmental

Disabilities, and substance use. They assist personnel with implementation of initiatives related to mental health or substance use and ensure the personnel are aware of best practice-based programs, research-based programs, and other public and private mental health and substance use programs. School districts or personnel interested in getting help through the BHPP can call their LMHA/ LBHA to ask to be connected to their respective BHPP liaison.

YES Waiver

The Youth Empowerment Services Waiver (YES Waiver) is a 1915(c) Medicaid program that partners with families and the community to ensure qualifying Texas youth ages 3 through 18 who have serious mental, emotional, and behavioral difficulties have access to a wide range of community-based services and supports. The YES Waiver provides intensive services delivered within a strengths-based team planning process called Wraparound. YES Waiver services are family-centered, coordinated, and effective at preventing out-of-home placement. The average length of time in the YES Waiver is 11 – 18 months, however, each youth’s needs will determine duration of care. Individuals must contact their LMHA/LBHA to be added to the YES Waiver inquiry list. Only a parent, guardian, or managing conservator may request a youth be added to the inquiry list and assessed for the YES Waiver, unless the youth is 16 years of age or older. For more information about YES Waiver, see <https://hhs.texas.gov/services/mental-health-substance-use/childrens-mental-health/yes-waiver>

Residential Treatment Center Project (RTC Project)

The Residential Treatment Center Project is a collaborative effort between the Department of Family and Protective Services (DFPS) and the Health and Human Services Commission (HHSC). The RTC Project provides support for families in crisis who are at risk of parental custody relinquishment to the child welfare system because they are unable to access the intensive mental health care necessary for their child to remain at home. Through the RTC Project, families are matched with state-funded residential placement for their child while maintaining full custody and rights as a parent or guardian. Families interested in receiving support through the RTC Project can contact their LMHA or LBHA to request a referral to the program, and the LMHA or LBHA will submit a referral to the HHSC RTC Project directly. Families can also contact the Department of Family and Protective Services at **1-800-252-5400** or www.txabusehotline.org. When contacting DFPS, parents should mention that they are trying to access mental health resources through DFPS or refer to the “Mental Health Support Protocol.”⁹¹

Community Resource Coordination Groups (CRCGs)

Community Resource Coordination Groups are groups of individuals from state agencies and community organizations who collaborate to provide recommendations for a unique combination of services that one agency, alone, cannot provide. CRCGs are available across Texas and serve children, adolescents, and adults with multiple service needs. To find a CRCG in your area, call 512-206-4658, or search online at: <https://crcg.hhs.texas.gov/find-resources-near-me.html>

⁹¹ The mental health support protocol is not a document but language that DFPS intake uses statewide to properly route calls from families seeking access to mental health treatment, and specifically, access to the RTC Project.

Texas System of Care

The National Child Traumatic Stress Network noted the common frustration that “Mental health services and IDD-focused services have traditionally been provided through separate and parallel systems of care, rather than a collaborative service delivery plan involving shared recognition, accountability, and decision-making. The lack of intersystem planning and coordination has resulted in obstacles to mental health and trauma-informed care, within both the mental health and IDD sectors.

- In the mental health system, there may be reluctance to treat youth with IDD such as Intellectual disability or Autism Spectrum Disorder; this likely stems from both the providers’ lack of knowledge that youth with IDD can benefit from trauma treatment, and the providers’ lack of expertise in implementing the appropriate care.
- In the IDD field, the tendency is to rely on behavior management instead of approaches that would better help youth process and recover from traumatic experiences.
- In the trauma field, providers often lack familiarity or experience working with youth with IDD.

Overcoming these obstacles within each sector requires greater understanding of the trauma-related needs of youth with IDD. Across sectors, there is equally pressing need for improved communication, collaboration, and sharing of resources by providers and systems.”⁹²

One solution for preventing the “siloeing” – or isolation – of planning, coordination, and services is through **System of Care**.

Texas System of Care is not a specific program for delivering services, but rather a “spectrum of effective community-based services and supports for children, youth, and young adults with or at risk for mental health and related challenges and their families that is organized into a coordinated network, builds meaningful partnerships with families and youth, and addresses their cultural and linguistic needs in order to help them function better at home, in school, in the community, and throughout life.”⁹³

The system of care framework, which was established over 25 years ago and is already working in urban and rural communities across the state, builds on existing community assets to improve access to mental health services, expands access to wraparound services like Yes Waiver, assists emerging adults with transition planning, provides training in core values and best practices such as Trauma Informed Care, and includes family and youth voices in decision making.⁹⁴

Most impressively, the system of care approach works: it has been shown to result in increases in school attendance by 18%; decreases in unlawful activities by 48%; and decreases in suicide attempts by 81%.⁹⁵ More information and a toolkit for implementing the Texas System of Care philosophy in your community are available here: <https://txsystemofcare.org/texas-system-of-care-toolkit/>

2. Community-based IDD Services

How Individuals with IDD Receive Services and Supports and How Programs are Funded

Medicaid Waivers are federal funds that help provide services to people who would otherwise be in an institution, nursing home, or hospital to receive long-term care in the community.

General Revenue (GR) Funded Services are state funds from the General Revenue that are primarily intended to help people remain in their own or their family's homes. Not all GR funded services are available in all areas of the state. GR services are provided through a LIDDA.

Waiver Services

Waiver services for individuals, including children, include the following:

- **Home and Community-based Services (HCS)** is a Medicaid waiver program approved by Centers for Medicare & Medicaid Services (CMS) pursuant to section 1915(c) of the Social Security Act. It provides community-based services and supports to eligible individuals as an alternative to an intermediate care facility for individuals with an intellectual disability or related condition. The HCS Program is operated by the Texas Health and Human Services Commission (HHSC), formerly the Department of Aging and Disability Services. [26 Tex. Admin. Code § 263.4\(a\)](#).
- **Texas Home Living (TxHmL)** supplies essential services and supports to Texans with ID or a related condition so that they can continue to live in the community.
- **Community Living Assistance and Support Services (CLASS)** provides home- and community-based services to people with related conditions as a cost-effective alternative to placement in Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF/IID).
- **Deaf-blind with Multiple Disabilities** focuses on increasing opportunities for people who are deaf-blind with multiple disabilities to communicate and interact with their environment, providing a cost-effective alternative to institutional placement.

State Plan Services

Community First Choice (CFC) is a state plan option that allows states to provide home- and community-based attendant services and supports to eligible Medicaid enrollees under their state plan.

Where Services are Provided

- Person's own home or family home
- Community-based residential home
- Schools
- Intermediate Care Facilities for Individuals with an ID or Related Condition (ICF/IID)
- State Supported Living Centers (SSLCs)

Local Intellectual and Developmental Disability Authorities (LIDDAs) Serve Individuals with IDD

A LIDDA's role is to serve as the single point of access to certain publicly funded services and supports for the residents within the LIDDA's local service area. A LIDDA's responsibilities include:

- a. Developing a plan of services and supports. If the designated LIDDA determines an individual is eligible for and desires service coordination, the LIDDA must develop a plan of services and

supports for the individual using person-directed planning that is consistent with DADS *Person Directed Planning Guidelines*.⁹⁶

- b. Provision of service coordination.
- c. Revising the plan of services and supports.
- d. Minimum contact.
- e. Individuals enrolled in the TxHmL Program. In addition to the requirements in this subchapter, a LIDDA must ensure service coordination is provided to individuals enrolled in the TxHmL Program in accordance with Chapter 9, Subchapter N of this title (relating to Texas Home Living (TxHmL) Program and Community First Choice (CFC) and Chapter 41 of this title (relating to Consumer Directed Services Option)).
- f. Individuals enrolled in the HCS Program. In addition to the requirements in this subchapter, a LIDDA must ensure service coordination is provided to individuals enrolled in the HCS Program in accordance with Chapter 9, Subchapter D, of this title (relating to Home and Community-based Services (HCS) Program and Community First Choice (CFC)) and Chapter 41 of this title.

26 Tex. Admin. Code § 331.11; see also LIDDA Performance Contract.⁹⁷

Local Intellectual and Developmental Disability Authorities

In all but two Texas counties (Bexar and Dallas), the LMHA and LIDDA functions are united under one local agency. A list of these agencies can be found in the Appendix. Stand-alone LIDDAs are:

LIDDA	Address	Phone Number	County Served
Alamo Area Council of Governments https://www.aacog.com/	2700 NE Loop 410 Suite 101 San Antonio, TX 78217	210-362-5200 210-832-5020	Bexar
Metrocare https://www.metrocareservices.org/	Multiple locations in Dallas County	214-743-1200 214-743-1215 (crisis)	Dallas

Types of Services Offered or Contracted

Screening is performed face-to-face or by telephone contact with persons to determine a need for services.

Eligibility determination includes an interview and assessment, or an endorsement conducted in accordance with Texas Health and Safety Code section 593.005, and 26 Tex. Admin. Code § 331.11 to determine if a person has an intellectual disability or is a member of the IDD priority population.

Service coordination helps people access medical, social, educational, and other services and supports that will help them achieve an acceptable quality of life and community participation.

Community supports are individualized activities that are provided in the person’s home and at community locations, such as libraries and stores. Supports may include:

- Habilitation and support activities that foster improvement of, or facilitate, the person’s ability to perform daily living activities;
- Activities for the person’s family that help preserve the family unit and prevent or limit out-of-home placement of the person;

⁹⁶ TEX. DEP’T. OF AGING & DIS. SVCS., PERSON DIRECTED PLANNING GUIDELINES, <https://www.hhs.texas.gov/sites/default/files/documents/person-directed-planning-guidelines.pdf>

⁹⁷ HEALTH & HUM. SERV. COMM’N, COMPLETE FISCAL YEAR 2018-2019 PERFORMANCE CONTRACT NOTEBOOK, STATEMENT OF WORK A-1 (2017), <https://hhs.texas.gov/sites/default/files/documents/doing-business-with-hhs/providers/long-term-care/lidda/performance-contract/performance-contract.pdf>

- Transportation for the person between home and their community employment site or day habilitation site; and
- Transportation to facilitate the person's employment opportunities and participation in community activities.

Permanency Planning is required by the LIDDA for persons under age 22 who reside in an ICF/IID, an HCS residential group home, or nursing facility.

Respite is either planned or emergency short-term relief provided by trained staff to the person's unpaid caregiver when the caregiver is temporarily unavailable. If enrolled in other services, the person continues to receive those services as needed during the respite period.

Crisis respite provides short-term respite for persons with IDD:

- Out-of-home crisis respite provides on-site therapeutic support and 24-hour supervision; and
- In-home crisis respite provides therapeutic support in a less restrictive setting for crises that can be resolved within a 72-hour period.

Employment assistance helps people locate paid jobs, and includes helping them:

- Identify employment preferences, skills, and work requirements and conditions; and
- Identify prospective employers who offer appropriate employment.

Supported employment is provided to a person who has paid employment to help them sustain that employment. It includes individualized support services, supervision, and training.

Nursing is provided to people who require treatment and monitoring of health care procedures that are prescribed by a physician or medical practitioner or that are required by standards of professional practice or state law to be performed by licensed nursing personnel.

Behavioral supports are specialized interventions to help people increase adaptive behaviors and to replace or modify maladaptive behaviors that prevent or interfere with their inclusion in home and family life or community life. Supports include:

- Assessing and analyzing assessments findings to design an appropriate behavior support plan;
- Developing an individualized behavior support plan consistent with the outcomes identified in the person-directed plan;
- Training and consulting with family members or other providers and, as appropriate, with the person; and
- Monitoring and evaluating the success of the behavior support plan and modifying it as necessary.

Crisis Intervention Specialists provide information about IDD programs and services to persons with IDD and their families, and to IDD providers in the local service area. LIDDAs are provided funds to support persons with IDD who experience significant behavioral and psychiatric challenges. These persons often exhibit significant needs requiring additional support beyond the array of services typically provided within community programs.

Specialized therapies include assessment and treatment by licensed or certified professionals for social work services, counseling services, occupational therapy, physical therapy, speech and language therapy, audiology services, dietary services, and behavioral health services other than those provided by an LMHA, as well as training and consulting with family members or other providers.

Vocational training is a service provided to people in industrial enclaves, work crews, sheltered workshops or affirmative industry settings to help them get a job.

Individualized Skills and Services assist with getting, keeping, or improving self-help, socialization, and adaptive skills necessary to live successfully in the community and to participate in home and community life. This service is normally provided regularly in a group setting (not in the person's residence) and

includes personal assistance for those who cannot manage their personal care needs during day habilitation and need assistance with medications and performing tasks delegated by a registered nurse.⁹⁸

Medicaid Program Enrollment: LIDDAs are responsible for enrolling eligible individuals into the following Medicaid programs:

- Intermediate Care Facilities for Individuals with Intellectual Disabilities (a 24-hour residential setting including state-supported living centers);
- Home and Community-based Services (HCS);⁹⁹ and
- Texas Home Living.¹⁰⁰

Transition Support Teams (TST) were originally developed to assist people in the transition from an institutional setting (e.g., SSLCs and nursing facilities) into a community setting, but have since expanded their reach. Because individuals with complex needs often require more experienced staff, HHSC has contracted with eight LIDDAs across Texas to provide support to other LIDDAs and community waiver providers in designated service areas.

The eight contracted LIDDAs have teams that offer educational activities, technical assistance, and case review. The teams have licensed medical staff such as physicians, registered nurses, psychiatrists, and psychologists with experience working with people with IDD.

These programs are currently funded through the Money Follows the Person (MFP) Grant, which is distributed by CMS to Texas and passed on to the LIDDAs. Because MFP rebalancing funds are evaluated yearly, uncertainty of ongoing funding affects the existence of the TST Program. LIDDAs are aware that funding is subject to change based on guidance from CMS which impacts whether the TST program is an available resource.

Early Childhood Intervention (ECI) is a program administered by HHSC that assists families in helping their children under age 3 with disabilities and developmental delays to reach their full potential. If eligible, the family and a team create an Individualized Family Service Plan to identify the child's strengths and needs and prioritize services. Most services are provided at home but can be provided at day care or other community settings. ECI program locations can be found here: <https://citysearch.hhsc.state.tx.us/>

Housing through the HCS Program

The HCS Program can be an important diversionary program because it can provide housing to prevent an individual's admission to institutional services. Providers offering services under the HCS program maintain three- to four-bed group homes where individuals reside. When residing in an HCS group home, individuals are entitled to many services, including:

- Supervised and supported home living 24 hours a day, seven days a week;
- Direct personal assistance with activities of daily living (grooming, eating, bathing, dressing, and personal hygiene);
- Assistance with meal planning and preparation;
- Securing and providing transportation;
- Assistance with housekeeping;
- Individualized skills and socialization;
- Supported employment;

⁹⁸ See 26 Tex. Admin. Code § 559.227(l)(1).

⁹⁹ See *Home and Community-based Services (HCS)*, TEX. HEALTH & HUM. SERV., <https://hhs.texas.gov/doing-business-hhs/provider-portals/long-term-care-providers/home-community-based-services-hcs> (last visited Aug. 9, 2023).

¹⁰⁰ See *Texas Home Living (TxHmL)*, TEX. HEALTH & HUM. SERV., <https://hhs.texas.gov/doing-business-hhs/provider-portals/long-term-care-providers/texas-home-living-txhtml> (last visited Aug. 9, 2023).

- Financial management services;
- Assistance with medications and the performance of tasks delegated by a registered nurse;
- Social worker;
- Behavioral support by a licensed professional;
- Physicians;
- Dietary services; and
- Dental treatment.

Those interested in receiving HCS services are placed on an interest list by the LIDDA until funding becomes available. An offer from the HCS program to provide services depends on individual need and one's date of placement on the interest list. Further, funding each individual placement depends on the outcome of the HHSC's Legislative Appropriations Request (LAR) where HHSC outlines its funding requirements and/or needs for the upcoming biennium.

An alternate route to enter the HCS program is available through a crisis diversion slot. A person may qualify for a crisis diversion slot if:

- The person is at imminent risk of admission to an institution;
- The person is not being court-committed to a facility for competency evaluation, such as an SSLC or state hospital;
- Adequate and appropriate community resources are not available, as evidenced by attempts to locate and use community-based services and supports, such as ICF/IID, GR funded services, CFC services, Crisis Intervention Services, other Medicaid waiver programs, or support through the local school district and
- The person meets the criteria for a Level of Care I.
 - An LOC I requires either a diagnosis of ID or a related condition (RC). Along with the diagnosis of an RC, the person's IQ score must be 75 or below. For the specific requirements for LOC I, see [26 Tex. Admin. Code § 261.238\(a\)](#).

3. Civil Mental Health Law: The Texas Mental Health Code

The statutes that govern the provision of mental health treatment are found in Chapters 571 – 578 of the Texas Health and Safety Code, commonly referred to as the “Texas Mental Health Code.” These substantive provisions and procedures apply to all public and private facilities operating in the state of Texas. It is important to remember that the purpose of the Mental Health Code is to provide persons with severe mental illness¹⁰¹ access to humane care and treatment in the least restrictive appropriate setting while also protecting their fundamental rights. [Tex. Health & Safety Code § 571.002](#).

A child 16 years of age or older may decide voluntarily to request mental health treatment. [Tex. Health & Safety Code § 572.001\(a\)](#). Chapter 572 of the Texas Mental Health Code addresses the requirements for voluntary admission to mental health treatment. Voluntary admission does not involve the court, unless the involuntary commitment process is initiated because a voluntary patient, parent, managing conservator, or guardian of a person younger than 18 years of age requests discharge and a treating physician determines that the person poses a risk of serious harm to self or others unless continued treatment is provided. [Tex. Health & Safety Code § 572.004](#).

Generally, a child under the age of 18, including a child who is in the managing conservatorship of the Department of Family and Protective Services, may not be involuntarily committed *unless* provided by

¹⁰¹ See Persons with Intellectual Disabilities Act, [7 Tex. Health & Safety Code Ann. Ch. §§ 591.001 – 597.054](#) (Vernon 2019) (containing the provisions related to persons with ID).

Chapter 572 of the Texas Health and Safety Code, Chapter 55 of the Texas Family Code, or department rule. [Tex. Health & Safety Code §§ 572.001\(c-1\); 572.0025\(f-3\)](#). Chapter 55 proceedings are discussed in Intercept 3: Courts.

Voluntary Mental Health Services

Children under the age of 16 generally do not have the right to consent to medical or mental health treatment. However, children can consent to counseling for suicide prevention, chemical addiction or dependency, or sexual, physical, or emotional abuse. [Tex. Fam. Code § 32.004\(a\)](#).

Parental Consent

Consent is required before a child can receive medical or mental health treatment. Parents have both the duty to provide a child with medical care, and the right to consent to the child's medical care and psychiatric and psychological treatment. [Tex. Fam. Code § 151.001\(a\)](#). Most children who receive inpatient or outpatient treatment for a mental illness do so only after their parent consents to the treatment.

Non-Parental Consent

Some children may not have a parent available to consent to mental health treatment for them. The Texas Family Code provides some options for non-parent caregivers to consent to limited treatment for a child.

Written Authorization under Texas Family Code Chapter 32:

The "written authorization" in Texas Family Code Chapter 32 can be a simple consent form and is a good option for caregivers who may need to make a one-time medical decision for a child.

- If the child's parent is not available to give consent, the following persons may consent to treatment:
 - the child's grandparent, adult sibling, or adult aunt or uncle. [Tex. Fam. Code § 32.001\(a\)\(1\), \(2\) and \(3\)](#).
 - an adult who has care, control, and possession of the child and has written authorization to consent from the parent. [Tex. Fam. Code § 32.001\(a\)\(5\)](#).
 - an education institution in which the child is enrolled and has written authorization to consent from the parent. [Tex. Fam. Code § 32.001\(a\)\(4\)](#).
 - a court having jurisdiction over a suit affecting the parent-child relationship of which the child is the subject. [Tex. Fam. Code § 32.001\(a\)\(6\)](#).
 - an adult responsible for the actual care, control, and possession of a child under the jurisdiction of a juvenile court or committed by a juvenile court to the care of an agency of the state or county. [Tex. Fam. Code § 32.001\(a\)\(7\)](#).
 - a peace officer who has lawfully taken custody of a minor, if the peace officer has reasonable grounds to believe the minor is in need of immediate medical treatment. [Tex. Fam. Code § 32.001\(a\)\(8\)](#).

Authorization Agreement for Nonparent Adult Caregiver

The authorization agreement in Texas Family Code Chapter 34 is an option for parents who anticipate being unavailable for an ongoing period of time and wish to designate an adult caregiver to make limited medical and other caregiving decisions for their child during their absence. The requirements for an authorization agreement are more detailed than those for a written authorization.

- One or both parents of a child can enter into a written "**authorization agreement**" with an adult caregiver that authorizes the caregiver to make certain decisions for the child, including medical care decisions. [Tex. Fam. Code § 34.002\(a\)](#).

- The agreement must contain a statement that the adult caregiver has been given authorization to make certain decisions for the child as a result of voluntary action of the parent and that the adult caregiver has voluntarily assumed the responsibility of making those decisions. [Tex. Fam. Code § 34.003\(a\)\(4\)](#).
- The agreement must also contain a statement by the parent as to the duration of the authorization, which can be for six months, with automatic renewals every six months until termination; or for less than six months, with a specific date of termination. [Tex. Fam. Code § 34.003\(a\)\(10\)\(A\)](#).
- The agreement must identify the circumstances under which the agreement can be terminated before the termination date or continued beyond the term of the agreement. [Tex. Fam. Code § 34.003\(a\)\(10\)\(B\)](#).
- The agreement must contain a specific series of legal warnings and disclosures. [Tex. Fam. Code § 34.003\(b\)](#).
- The agreement must be signed and sworn to before a notary public by the parent and the caregiver. [Tex. Fam. Code § 34.004\(a\)](#).

Temporary Authorization for Care of Minor Child

If no parent is available or willing to sign an authorization agreement, adult caregivers can petition the court for temporary authorization for care of the child. A caregiver is only able to seek temporary authorization if the child has lived with the caregiver for at least 30 days prior to the filing of the petition, and if the caregiver does not have an authorization agreement available under Texas Family Code Chapter 34, or other signed documentation from the child's parent, guardian, or conservator that enables the caregiver to make decisions for the child. [Tex. Fam. Code § 35.002](#).

- The petition must state any reason that the caregiver is unable to obtain signed, written documentation from the child's parent, conservator, or guardian. [Tex. Fam. Code § 35.003\(a\)\(8\)](#).
- The petition must contain a description of the service or action that the caregiver is unable to take without court authorization, a statement of any reason supporting the request, and a statement of the time period of the authorization. [Tex. Fam. Code §§ 35.003\(a\)\(7\), \(9\), and \(10\)](#).
- The court must hold a hearing and can hear evidence relating to the child's need for care, any other matter raised in the petition, and any objection or testimony of the child's parent, conservator, or guardian. [Tex. Fam. Code § 34.005\(a\)](#).
- If an objection is made by the child's parent, conservator, or guardian, the court must **dismiss the petition**. [Tex. Fam. Code § 34.005\(b\)](#).
- The court must grant the petition if it finds:
 - It is necessary to the child's welfare and no objection is made;
 - By a **preponderance of the evidence** that the child does not have a parent, conservator, guardian, or other legal representative available to give the necessary consent.

[Tex. Fam. Code § 35.005\(b\), \(c\)](#).

- The temporary authorization expires after one year, or at an earlier date set by the court. The temporary authorization can be renewed by court order for up to one year, upon a showing of continued need. [Tex. Fam. Code §§ 35.005\(d\), 35.006\(a\)](#).
- At any time, the child's parent, conservator, or guardian can request that the court terminate the order. The order must be terminated upon a finding that there is no longer a need for it. [Tex. Fam. Code § 35.006\(b\)](#).

Temporary Authorization for Inpatient Mental Health Services

Certain family members can seek a court order for temporary authorization to consent to voluntary inpatient mental health services for a child under Texas Family Code Chapter 35A.

- A caregiver is able to seek temporary authorization for inpatient mental health services if the child has lived with the caregiver for at least six months prior to the filing of the petition. [Tex. Fam. Code § 35A.001](#).
- The petition must include a **certificate of medical examination** for mental illness prepared by a physician who has examined the child in the 3 days before the petition was filed, and be accompanied by a sworn statement containing the physician's opinion, and the detailed reasons for that opinion, that the child is a person:
 - With mental illness or who demonstrates symptoms of a serious emotional disorder;
 - Who presents a risk of serious harm to self or others if not immediately restrained or hospitalized.... [Tex. Fam. Code § 35A.003\(7\)](#).
- The petition must also state any reason that the caregiver is unable to obtain signed, written documentation from a parent, conservator, or guardian of the child. [Tex. Fam. Code § 35A.003\(8\)](#).
- The court must hold a hearing, and can hear evidence relating to the child's need for inpatient mental health services, any other matter raised in the petition, and any objection or testimony by the child's parent, conservator, or guardian. [Tex. Fam. Code § 35A.005\(a\)](#).
- The court must grant the petition only if the court finds:
 1. By a **preponderance of the evidence** that the child does not have available a parent, conservator, guardian, or other legal representative to give consent under Section 572.001, Health and Safety Code, for voluntary inpatient mental health services; and
 2. By **clear and convincing evidence** that the child is a person:
 - A. With mental illness or who demonstrates symptoms of a serious emotional disorder; and
 - B. Who presents a risk of serious harm to self or others if not immediately restrained or hospitalized.

[Tex. Fam. Code § 35A.005\(c\)](#).
- The court must **dismiss the petition** if an objection is made by the child's parent, conservator, or guardian. [Tex. Fam. Code § 35A.005\(b\)](#).
- The order expires on the date the caregiver requests that the child be discharged from the inpatient mental health facility; the date a physician determines that the criteria listed in Subsection (c)(2) no longer apply to the child; or the 10th day after the order for temporary authorization is issued, whichever is earliest. [Tex. Fam. Code § 35A.005\(d\)](#).

If the caregiver obtains an order for temporary managing conservatorship before the order for temporary authorization expires, then the order for temporary authorization remains in effect until the caregiver requests that the child be discharged, or a physician determines that the criteria listed in Subsection (c)(2) no longer apply, whichever is earlier. [Tex. Fam. Code § 35A.005\(e\)](#).

Consent for Children in Foster Care

Children in Foster Care and Consent to Medical Care

Every child in DFPS conservatorship is required to have a **medical consentor**. The responsibility of the medical consentor is to provide medical consent – that is, decisions on whether to agree to a medical test, treatment, procedure, or a prescription medication.

Informed consent means the medical consentor gets complete information about the proposed medical care before making a decision. The goal is to ensure that the medical consentor makes an informed decision about the child’s physical and mental health care. When permission is given for health care, the medical consentor must understand the child’s symptoms and diagnosis, how the treatment will help the condition, what could happen without the treatment, and the risks and side effects associated with the treatment. Medical consentors must complete approved training. [Tex. Fam. Code § 266.004\(h-1\)](#).

The court with continuing jurisdiction over the child will authorize an individual, or DFPS, as the medical consentor, on its own motion or during a hearing under Texas Family Code Chapter 263. The individual may be the child’s foster parent, the child’s parent (if the parent’s rights have not been terminated and the court determines it is in the best interest of the child), a relative, or an adult involved in the child’s life. [Tex. Fam Code § 266.004\(b\)](#).

If the court authorizes DFPS to consent to medical care for the child, DFPS can designate up to four primary and backup medical consentors. DFPS can designate the child’s foster parents, relatives, caseworker, other CPS staff member, or the child’s parent, if the parent’s rights have not been terminated and it is in the child’s best interest. [Tex. Fam. Code § 266.004\(c\)](#).

The court may also determine that **a foster child who is at least 16 years old** has the capacity to consent to medical care. [Tex. Fam. Code § 266.010\(a\)](#). Attorneys ad litem and DFPS staff are required to inform 16- and 17-year-old children in foster care of their right to ask the court whether they can consent to their own medical care. [Tex. Fam. Code §§ 107.003\(b\)\(3\), 266.010\(l\)](#).

If a child’s healthcare decision puts the child at risk of harm, the court can overrule the child’s decision to refuse medical care. See [Tex. Fam. Code §§ 266.010\(d-i\)](#).

Emergency medical care: No consent or court authorization is needed during an emergency in which it is “immediately necessary to provide medical care to the foster child to prevent the imminent probability of death or substantial bodily harm to the child or others...” [Tex. Fam. Code § 266.009\(a\)](#).

Request for Admission

- **A person 16 years of age or older** may request admission to an inpatient mental health facility or for outpatient mental health services by filing a request with the administrator of the facility where admission or outpatient treatment is requested. [Tex. Health & Safety Code § 572.001\(a\)](#).
 - The administrator of an inpatient or outpatient mental health facility may admit a minor who is 16 years of age or older to an inpatient or outpatient mental health facility as a voluntary patient *without the consent of the parent, managing conservator, or guardian*. [Tex. Health & Safety Code § 572.001\(d\)](#).
- **A parent, managing conservator, or guardian** of a person younger than 18 years of age may request the admission of the person to an inpatient mental health facility or for outpatient mental health services by filing a request with the administrator of the facility where admission or outpatient treatment is requested. [Tex. Health & Safety Code § 572.001\(a\)](#).
 - An inpatient mental health facility may admit or provide services to a person 16 years of age or older and younger than 18 years of age if the person’s parent, managing conservator, or guardian consents to the admission or services, *even if the person does not consent to the admission or services*. [Tex. Health & Safety Code § 572.001\(a-2\)](#).

- **A person eligible to consent to treatment for the person** under section 32.001(a)(1), (2), or (3), Family Code, may request temporary authorization for the admission of the person to an inpatient mental health facility by petitioning under Chapter 35A, Family Code, in the district court in the county in which the person resides for an order for temporary authorization to consent to voluntary mental health services under this section.
 - The petitioner may be represented by the county attorney or the district attorney. [Tex. Health & Safety Code § 572.001\(a-1\)](#).
- An admission request must be in writing and signed by the person requesting the admission. [Tex. Health & Safety Code § 572.001\(b\)](#).
- A person or agency appointed as **the guardian or a managing conservator of as person younger than 18** years of age and acting as an employee or agent of the state may request admission of the person younger than 18 years of age only as provided by Subsection (c-2), or the person may be admitted for inpatient services only pursuant to an application for court-ordered mental health services or emergency detention or an order for protective custody. [Tex. Health & Safety Code § 572.001\(c\)](#).
- **A child in DFPS conservatorship** can only be admitted to an inpatient mental health facility if a physician states their opinion and detailed reasons for the opinion, that the child is a person:
 - with mental illness or who demonstrates symptoms of a serious emotional disorder; and
 - who presents a risk of serious harm to self or others if not immediately restrained or hospitalized.

[Tex. Health & Safety Code § 572.001\(c-2\)](#).

 - DFPS periodically shall review the need for continued inpatient treatment of a minor admitted to an inpatient mental health facility. If DFPS determines that there is no longer a need for inpatient treatment they shall notify the facility administrator, who may no longer detain the child unless an application for court-ordered mental health services is filed. [Tex. Health & Safety Code § 572.001\(c-4\)](#).
- A request for admission as a voluntary patient must state that the person for whom admission is requested agrees to voluntarily remain in the facility until the person's discharge and that person consents to the diagnosis, observation, care, and treatment provided until the earlier of:
 - The person's discharge; or
 - The period described by section 572.004.

[Tex. Health & Safety Code § 572.001\(e\)](#).

Admission

After the person requests admission to a facility, the facility may admit the person if the facility determines:

- That the person has symptoms of mental illness and will benefit from the inpatient or outpatient services after conducting a preliminary exam;
- That the person has been informed of the person's rights as a voluntary patient; and
- That the admission was voluntarily agreed to by said person, if they are 16 or older; or, if they are younger than 18 years of age, by their parent, managing conservator, or guardian.

[Tex. Health & Safety Code § 572.002](#).

Information on Medications

- A mental health facility must provide a patient with information about the patient's medication ordered by a treating physician. The information must, if possible, be in the patient's own language. [Tex. Health & Safety Code § 572.0022\(a\)](#).
- A facility must also provide the information to the patient's family if they request it, but only if it does not violate state and federal privacy laws. [Tex. Health & Safety Code § 572.0022\(b\)](#).

Intake, Assessment, and Admission

- HHSC has promulgated administrative regulations that establish rules regarding the intake and assessment process that takes place prior to a formal admission of the patient to an inpatient facility. These rules govern a patient's consent to treatment as well as ensure the patient's understanding of the financial commitments such treatment will entail. [Tex. Health & Safety Code § 572.0025](#).
- The three following terms are defined in a way that is unique to this section:
 - An "admission" means the formal acceptance of a prospective patient to a facility. [Tex. Health & Safety Code § 572.0025\(h\)\(1\)](#).
 - An "assessment" means the administrative process a facility uses to gather information from a prospective patient to determine whether a prospective patient should be examined by a physician to determine if admission is clinically justified. This term does not refer to the examination that must be performed within 72 hours before or 24 hours after a patient or prospective patient is admitted to the facility. [Tex. Health & Safety Code §§ 572.0025\(g\), \(f\); 572.0025\(h\)\(2\)](#).
 - "Intake" means the administrative process for gathering information about a prospective patient and giving a prospective patient information about the facility and treatment services. [Tex. Health & Safety Code § 572.0025\(h\)\(3\)](#).
- The rules governing the intake process shall establish minimum standards for:
 - Reviewing a prospective patient's finances and insurance benefits;
 - Explaining to a prospective patient the patient's rights;
 - Explaining to a prospective patient the facility's services and treatment process. [Tex. Health & Safety Code § 572.0025\(b\)](#).
- The rules governing the assessment process prescribe:
 - The types of professionals who may conduct an assessment;
 - The minimum credentials each type of professional must have to conduct an assessment; and
 - The type of assessment that professional may conduct. [Tex. Health & Safety Code § 572.0025\(d\)](#).
- The applicable rules can be found in the Texas Administrative Code. [26 Tex. Admin. Code §§ 306.175, 306.221](#).
- A prospective patient may not be formally admitted to the facility unless:
 - There is an order from a physician who has conducted a physical and psychiatric exam of the patient, in person or through communications technology:
 - 72 hours before admission; or
 - 24 hours after admission; or

- The admitting physician consulted with another physician who examined the patient within the above time frames; and
- The facility agrees to accept the patient in writing. [Tex. Health & Safety Code § 572.0025\(f\)](#).
- If a facility admits a patient prior to performing a physical and psychiatric exam, the patient must be immediately discharged if a physician performing the exams after admittance determines the person does not meet clinical standards to receive inpatient mental health services. [Tex. Health & Safety Code § 572.0025\(f\)\(1\)](#).
- If a person is discharged under these circumstances, the facility may not bill the patient or the patient's insurance for temporary admission. [Tex. Health & Safety Code § 572.0025\(f\)\(2\)](#).

Rights of Patients

- A person's voluntary admission into an inpatient mental health facility does not affect any legal capacity, civil rights, or the person's right to obtain a writ of habeas corpus. [Tex. Health & Safety Code § 572.003\(a\)](#).
- Specifically, a person voluntarily admitted to an inpatient mental health facility has the right:
 - To be reviewed periodically to determine the need for continued treatment; and
 - To have an application for court-ordered services filed only as provided by the requirements of section 572.005. [Tex. Health & Safety Code § 572.003\(b\)](#).
- A person must be informed of the rights contained in this section and section 572.004 (Discharge):
 - Both orally and in writing (in the person's primary language, if possible) within 24 hours after the person is admitted. [Tex. Health & Safety Code § 572.003\(c\)\(1\)](#); or
 - Through means necessary to communicate with a hearing or visually impaired person. [Tex. Health & Safety Code § 572.003\(c\)\(2\)](#).
 - **If the patient is a minor**, the patient's parent, managing conservator, or guardian must also be informed of the patient's rights. [Tex. Health & Safety Code § 572.003\(d\)](#).

Discharge

- Except as noted below, a patient is entitled to leave the facility after the patient signs, times, and dates the written request for discharge and files it with the facility administrator. This document must be made part of the patient's clinical record.
 - If a patient informs an employee of their wish to be discharged, the employee must help the patient in creating the document and present it to the patient for signature as soon as possible. [Tex. Health & Safety Code § 572.004\(a\)](#).
- After the patient files the request for discharge, the facility has four hours to notify the patient's treating physician. If that physician is not available during that time period, the facility may notify any other physician. [Tex. Health & Safety Code § 572.004\(c\)](#).
- The physician must discharge the patient before the end of the four-hour period unless the physician has reasonable cause to believe that the patient might meet the criteria for court-ordered mental health services or emergency detention. [Tex. Health & Safety Code § 572.004\(c\)](#).
- If the physician does have reasonable cause, the physician must examine the patient as soon as possible, but no later than 24 hours after the written request for discharge was filed.
 - After the exam, if the physician determines that the patient does not meet the criteria for court-ordered mental health services or emergency detention, the physician shall discharge the patient.

- If the patient does meet the criteria for court-ordered mental health services or emergency detention, the physician has **until 4 pm on the next business day after the exam** to either discharge the patient or file an application for court-ordered mental health services or emergency detention and obtain a written order for any further detention.
- The patient must be notified if the physician files an application for court-ordered mental health services or seeks an emergency detention.
- The physician's decision and the reasons behind it must be made part of the patient's clinical record. [Tex. Health & Safety Code § 572.004\(d\)](#).
- In the case of extremely hazardous weather conditions or a disaster, the physician may request the judge who has jurisdiction over court-ordered mental health services proceedings to extend the length of time for which the patient may be detained. There must be a new order from the judge every day, which may extend the length until 4 p.m. on the next business day, and this order must state that an emergency exists due to the weather or a disaster. [Tex. Health & Safety Code § 572.004\(e\)](#).
- If the patient files a written withdrawal of the request for discharge before the end of the prescribed period, or if an application for court-ordered mental health services or emergency detention is filed, the patient cannot leave the facility. [Tex. Health & Safety Code § 572.004\(f\)\(1\); \(f\)\(2\)](#).
- The facility must prepare a plan for continuing care in accordance with section 574.081 (Continuing Care Plan Before Furlough or Discharge) for each patient who is discharged. If there is not time to prepare before discharge, the facility may mail the plan to the patient within 24 hours of discharge. [Tex. Health & Safety Code § 572.004\(g\)](#).
- The facility must notify the patient (or other person who files a request for discharge of a patient) that the person filing the request assumes all responsibility for the patient upon discharge. [Tex. Health & Safety Code § 572.004\(h\)](#).
- **On receipt of a written request for discharge from a patient admitted under Section 572.002(3)(B) who is younger than 18 years of age, a facility shall consult with the patient's parent, managing conservator, or guardian regarding the discharge. If the parent, managing conservator, or guardian objects in writing to the patient's discharge, the facility shall continue treatment of the patient as a voluntary patient.** [Tex. Health & Safety Code § 572.004\(i\)](#).

Application for Court-Ordered Treatment

- The physician responsible for the patient's treatment must notify the patient if the physician intends to file an application for court-ordered mental health services. [Tex. Health & Safety Code § 572.005\(b\)](#).
- An application for court-ordered mental health services cannot be filed against someone, including a child, who is receiving voluntary treatment **unless**:
 - A request for release of the patient has been filed with the facility administrator; or
 - In the opinion of the physician responsible for the patient's treatment, the patient meets the criteria court-ordered mental health services and:
 - is absent from the facility without authorization;
 - is unable to consent to appropriate and necessary psychiatric treatment; or
 - refuses to consent to necessary and appropriate treatment recommended by the physician responsible for the patient's treatment and that physician completes a certificate of medical examination for mental illness that, in addition to the information required by Section 574.011 [Certificate of Examination for Mental Illness], includes the opinion of the physician that:

- there is no reasonable alternative to the treatment recommended by the physician; and
- the patient will not benefit from continued inpatient care without the recommended treatment.

[Tex. Health & Safety Code §§ 572.005\(a\)\(1\); \(a\)\(2\).](#)

Transportation of Patient to Another State

- A court order is required to transport a patient to another state for voluntary inpatient mental health services. [Tex. Health & Safety Code § 572.0051.](#)

Involuntary Mental Health Services

Least Restrictive Appropriate Setting

The Mental Health Code is clear to point out that the patient's right to liberty must always be respected and balanced against society's interest in safety, as seen in [section 571.004](#) of the Texas Health and Safety Code:

The least restrictive appropriate setting for the treatment of a patient is the treatment setting that:

1. Is available;
2. Provides the patient with the greatest probability of improvement or cure; **and**
3. Is no more restrictive of the patient's physical or social liberties than is necessary to provide the patient with the most effective treatment and to protect adequately against any danger the patient poses to themselves or others.

- Found in sections 573.001 and 573.011 of the Texas Health and Safety Code, emergency detention is the legal procedure by which a person experiencing a mental health crisis, **regardless of their age**, may be detained for a preliminary examination and crisis stabilization, if appropriate.
- Emergency detention may be necessary and appropriate when a person must be placed in the least restrictive, most appropriate setting, while safeguarding the person's legal rights to a subsequent judicial determination of their need for involuntary mental health services. See [Tex. Health & Safety Code §§ 571.004, 576.021\(a\)\(1\)](#). If a person under 18 years of age is experiencing a mental health crisis, and their parent or guardian is unavailable or unwilling to consent to treatment, emergency detention may be appropriate.
- The Texas Health & Safety Code permits peace officers to make a warrantless apprehension of a person with mental illness when appropriate for the purpose of transporting that person to a mental health facility for evaluation.

Emergency Detention is the First Step

A description of emergency detentions involving children and adolescents and initiated by peace officers, can be found in Intercept 1. This section has a brief overview of the emergency detention process.

- Although rarely used, a person younger than 18 years of age may be taken into custody pursuant to an Emergency Detention. [Tex. Health & Safety Code § 573.001\(a\).](#)

Temporary Acceptance Required

- A facility must temporarily accept a person for whom:
 - An officer or EMS personnel under an MOU provides a notice of detention completed by the officer under section 573.002(a) of the Texas Health and Safety Code.

[Tex. Health & Safety Code § 573.021\(a\).](#)

- **Note:** a facility must comply with this section only to the extent that the commissioner determines that a facility has sufficient resources to perform the necessary services under this section. [Tex. Health & Safety Code § 573.021\(d\)](#).
- **Exception:** a person may not be detained in a private mental health facility without the consent of the facility administrator. [Tex. Health & Safety Code § 573.021\(e\)](#).

Rights of Persons during Emergency Detention Procedures

The purpose of emergency detention procedures is not punishment, but rather prevention of serious harm to the person or others due to the person's mental illness. See [Tex. Health & Safety Code § 573.001\(a\)\(1\)](#). The rights of persons involved in an emergency detention are set out in section 573.025 of the Texas Health and Safety Code. These rights are the same whether the person is detained by a peace officer, a legal guardian of an adult, or some other person, and whether the detention occurs with or without a warrant. A person apprehended, detained, or transported under Chapter 573 has the right:

- To be advised of the location and reasons for the detention, and that the detention could result in a longer period of involuntary commitment;
- To a reasonable opportunity to communicate with and retain an attorney;
- To be transported upon release to a location as provided by section 573.024 unless the person is arrested or objects;
- To be released as provided by section 573.023 if the person does not meet the requirements for admission to an inpatient mental health¹⁰² facility after the preliminary examination, or if the facility determines that the requirements of 573.022(a)(2) no longer apply;
- To be advised that any communication with a mental health professional may be used in proceedings for further detention;
- To be transported in accordance with the requirements of Chapters 573 and 574; and
- To a reasonable opportunity to communicate with a relative or other responsible person who has a proper interest in the person's welfare.

[Tex. Health & Safety Code §§ 573.025\(a\)\(1-7\)](#).

A person must be notified of these rights both orally and in writing (in the person's primary language, if possible) within 24 hours after the person is admitted, or through means necessary to communicate with a hearing or visually impaired person. [Tex. Health & Safety Code §§ 573.025\(b\)\(1\); \(b\)\(2\)](#).

Within 12 Hours of Apprehension, a Physician Must Perform a Preliminary Examination

Regardless of whether a person was transported to a facility with or without a warrant, the person must be evaluated by at least one physician within 12 hours *after the time the person is apprehended by the peace officer*. [Tex. Health & Safety Code § 573.021\(c\)](#).

When a Person May be Admitted to a Facility After a Preliminary Exam

- The person can be admitted to a facility only if the physician who performed the preliminary examination makes a written statement that:
 - Is acceptable to the facility;
 - States that after a preliminary examination it is the physician's opinion that:
 - The person is a person with mental illness;
 - The person evidences a substantial risk of serious harm to self or others;

¹⁰² Note that this language is not in the statute, which less specifically refers to "a facility."

- The risk of harm is imminent unless the person is immediately restrained; and
- Emergency detention is the least restrictive means by which the necessary restraint may be accomplished; and
- Includes:
 - A description of the person’s mental illness;
 - A specific description of the risk of harm, which may be demonstrated by:
 - The person’s behavior; or
 - Evidence of severe emotional distress and deterioration in the person’s mental condition to the extent that the person cannot remain at liberty; and
 - The specific detailed information from which the physician formed the opinion.

Tex. Health & Safety Code § 573.022.

Distinguish: CME for Mental Illness

A physician’s “written statement” documenting a preliminary examination under [section 573.022](#) of the Texas Health and Safety Code is not a “CME for mental illness” under [section 574.011](#) of the Texas Health and Safety Code. The former is required after a preliminary examination is performed for a facility to hold a person under emergency detention provided by Chapter 573 (Emergency Detention); the latter must accompany an application for court ordered mental health services under Chapter 574 as discussed in the Fitness to Proceed section of **Intercept 3: Courts**.

Release

- The person must be released on completion of the preliminary examination unless the person is admitted to a facility as described above. If the person is admitted, the person must be released if the facility administrator determines at any time during the emergency detention period that one of the criteria described above no longer applies. [Tex. Health & Safety Code §§ 573.022\(a\), \(b\)](#).

Transport

- After admission, the admitting facility may transport the person to a facility deemed suitable by the LMHA/LBHA. At the LMHA’s request, the judge may order that the person be detained in a department mental health facility (i.e., State Mental Health Hospital). Either the admitting facility or the facility where the person is detained may transfer the person to an appropriate mental hospital (inpatient mental health facility) with the written consent of the hospital administrator. [Tex. Health & Safety Code §§ 573.022\(b\), \(c\)](#); *see also* [Tex. Health & Safety Code § 574.045](#) (detailing more requirements pertaining to transportation of a patient).

Within 24 Hours of Initial Detention, the Person Must be Released if No Order of Protective Custody is Obtained

- A child accepted for a preliminary examination may be detained for no more than 48 hours *after the time they are presented to the facility*. That includes any time the child spends waiting in the facility for medical care before they receive the preliminary examination. [Tex. Health & Safety Code § 573.021\(b\)](#).
- If the 48-hour period ends on a Saturday, Sunday, legal holiday, or before 4 p.m. on the first succeeding business day, the person may be detained until 4 p.m. on the first succeeding business

day. If the 48-hour ends at a different time, the person may be detained only until 4 p.m. on the day the 48-hour period ends. [Tex. Health & Safety Code § 573.021\(b\)](#).

Involuntary Commitment (Court Ordered Mental Health Services)

The Texas Health and Safety Code provides the basis for the involuntary commitment of an adult to a mental health facility. For an explanation of Emergency Detentions, Orders of Protective Custody, and Commitments for adult patients, see *Texas Mental Health and Intellectual and Developmental Disabilities Law Bench Book, 4th Edition, Texas Judicial Commission on Mental Health*.¹⁰³

- A person younger than 18 years of age may not be involuntarily committed unless provided by Chapter 572, Texas Health and Safety Code, Chapter 55, Texas Family Code, or department rule. [Tex. Health & Safety Code § 572.001\(c-1\)](#).
- Most commitments of persons younger than 18 years of age occur under the provisions of Chapter 55, Texas Family Code, and are discussed in **Intercept 3: Courts**.

Legislative Change

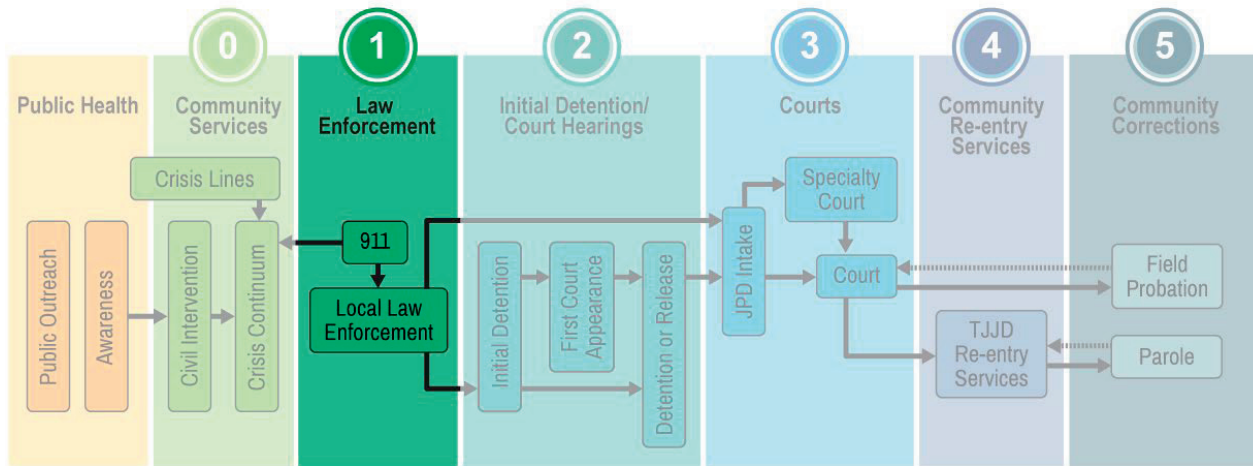

S.B. 1238 (86th Reg. Sess. (2019)) amended Texas Health and Safety Code [subsection 572.001\(c-1\)](#) by substituting **Chapter 55, Texas Family Code** in place of the previous wording, **other state law**. This change should clear up confusion about which laws provide for the involuntary commitment of children.

¹⁰³ TEXAS JUDICIAL COMMISSION ON MENTAL HEALTH, *Texas Mental Health and Intellectual and Developmental Disabilities Law Bench Book* (4th ed. 2023) <http://benchbook.texasjcmh.gov/>

1

Intercept 1: Initial Contact with Law Enforcement

Intercept 1: Initial Contact with Law Enforcement focuses on the law enforcement response to children and adolescents with MI or IDD. Officers have considerable discretion in responding to a situation in the community involving a child or adolescent with a mental illness or intellectual disability who may be engaging in delinquent conduct or CINS, experiencing a mental health crisis, or both. School Resource Officers, in particular, are valuable partners in assisting children with MI or IDD.

While taking a child into custody may be legally permissible, there are alternatives that could better serve the child and the community. It is important that judges are familiar with alternatives to detention, and that they encourage the provision of training and resources for law enforcement on these issues.

Reflection Point

The initial contact with law enforcement is an important discretionary point to examine whether race, ethnicity, or socioeconomic status are factors in deciding if a child is issued a citation, taken into custody, or released to a parent. The Texas Family Code presumes that every juvenile who does not meet the statutory detention criteria should be released to a parent or other responsible adult.

1. Emergency Detention and Protective Custody of Children with MI

What is an Emergency Detention?

An emergency detention is not an arrest. Emergency detention is the legal procedure by which a **person of any age**, including a child, who is experiencing a severe mental health crisis may be detained for a preliminary examination and crisis stabilization, if appropriate. An emergency detention may be completed with a warrant issued by a magistrate, or without a warrant by a law enforcement officer. Law enforcement officers have significant discretion to make a warrantless apprehension for an emergency detention if the statutory criteria are met. (See [Tex. Health & Safety Code § 573.001\(a\)](#).) In the adult system, this is frequently referred to as an “APOWW” (Apprehension by Police Officer Without a Warrant).

Emergency detention may be necessary and appropriate when a parent, managing conservator, or legal guardian cannot or will not consent to voluntary services for their child. The child must be placed in the least restrictive, most appropriate setting. See [Tex. Health & Safety Code §§ 571.004, 576.021\(a\)\(1\)](#).

Overview of Emergency Mental Health Procedures

I. Emergency Detention (ED) Under Chapter 573 of the Texas Health and Safety Code

A. Transporting Child to, or Holding Child Currently at, a Facility

1. Law Enforcement – No Warrant (no initial court involvement required) (“APOWW”)

- **Apprehension:** a peace officer believes that the child has MI, and because of the MI, there is a substantial risk of serious harm to self or others (demonstrated by behavior **or** evidence of severe emotional distress and deterioration) unless the child is immediately restrained, and there is no time to get a warrant. [Tex. Health & Safety Code § 573.001\(a\)](#).
Notice to Facility: officer must give notice of detention to facility, [Tex. Health & Safety Code § 573.002](#); without notice, the facility may not detain the child involuntarily.

B. Preliminary Examination at Facility

1. When it Must Occur

The exam must be performed by a physician within **12 hours** after the child is apprehended. [Tex. Health & Safety Code § 573.021\(c\)](#).

2. Standard for ED Admission

Preliminary examination must show that child both has MI and is a substantial risk of serious and imminent harm to self or others. [Tex. Health & Safety Code § 573.022\(a\)](#).

3. Child Must be Released if the Child Does Not Meet the Above Criteria.

4. Transportation After Release

The child must be returned to the location of apprehension, residence in Texas, or another suitable location. If the child was apprehended by a peace officer, immediate transport is required; otherwise, it must be reasonably prompt. [Tex. Health & Safety Code § 573.024](#).

Peace Officer: Transport to a Facility Without a Warrant

Law enforcement officers have the opportunity to provide the fastest intervention to begin deescalating a crisis and obtain the necessary early information to evaluate, stabilize, and safeguard the child. Law enforcement officers trained in crisis intervention can provide an immediate response with support and access to emergency medical services.

Mental Health Officers, Crisis Intervention Teams, and Trauma-Informed Law Enforcement

Mental health officers (MHOs) are peace officers who have specialized, TCOLE-approved training in crisis intervention and de-escalation of crisis calls.

Crisis Intervention Teams (CITs) are local initiatives designed to improve the law enforcement and community response to people experiencing mental health crises. Teams are built on strong partnerships between law enforcement, mental health providers, and individuals and families affected by mental illness. For more information on CITs, see <https://www.texascit.org/>. MHOs work collaboratively with the crisis response teams of LMHAs and LBHAs to divert adults and children in need of crisis services from jails and hospitals to community-based services. These partnerships can help communities develop solutions to close service gaps, and to deliver more effective, and less expensive, behavioral health treatment to an individual than they would receive at a hospital or jail facility.

Trauma-Informed Law Enforcement Training “not only educate[s] police about trauma, but give[s] them specific techniques for carrying out their duties... when police officers acquire a trauma perspective and work in concert with mental health providers and the community, families and children see them not simply as forces of order charged with enforcing the law, but as trusted advocates concerned about their safety.”¹⁰⁴

Standard: A Substantial Risk of Serious Harm

A peace officer may take a person into custody, **regardless of the age of the person**, without a warrant if the officer has reason to believe and does believe that:

- The person has MI
- Because of the MI, there is a substantial risk of serious harm to the person or others unless the person is immediately restrained; and
- There is insufficient time to obtain a warrant before taking the person into custody.

[Tex. Health & Safety Code § 573.001\(a\)](#).

A substantial risk of serious harm may be demonstrated by:

- The person’s behavior; or
- Evidence of severe emotional distress and deterioration in the person’s mental condition to the extent that the person cannot remain at liberty.

[Tex. Health & Safety Code § 573.001\(b\)](#).

Legislative Change

Because some law enforcement officers were hesitant to detain minors pursuant to an APOWW under section 573.001 of the Texas Health and Safety Code, S.B. 1238 amended [subsection 573.001\(a\)](#) permitting an officer to take a person into custody, “**regardless of the age of the person**,” if the statutory requirements are met. 86th Reg. Sess. (2019).

¹⁰⁴ National Child Traumatic Stress Network, *Creating a Trauma-Informed Law Enforcement System*, 2 NCTSN SERV. SYS. BRIEFS 2 (2008), https://www.nctsn.org/sites/default/files/resources/creating_trauma_informed_law_enforcement_systems.pdf

Children Cannot be Involuntarily Committed

Recall that Texas Health and Safety Code [subsection 572.001\(c-1\)](#) instructs: “A person younger than 18 years of age may not be involuntarily committed unless provided by this chapter, Chapter 55, Family Code, or department rule.”

The legislature amended the section of the Texas Health and Safety Code pertaining to warrantless Emergency Detentions in 2019 to specifically include children, as explained above. No similar amendment was made to [section 573.011](#) of the Texas Health and Safety Code, “Application for Emergency Detention.” Some have interpreted that reading the two statutes together yields the conclusion that children cannot be the subject of an Emergency Detention Warrant, an Order of Protective Custody, or of Civil Commitment outside of Texas Family Code Chapter 55.

A warrantless Emergency Detention will last for 48 hours, which could provide the opportunity for a parent, guardian, or caregiver to be located to give consent for voluntary mental health treatment.

If a child has no readily identifiable parent or caregiver, a mandated reporter would likely contact the Department of Family and Protective Services so that the Department, or another party, can file an emergency petition for temporary managing conservatorship.

What May Support an Officer’s Belief

The officer must be able to cite specific recent behavior, overt acts, attempts, or threats in support of their belief. [Tex. Health & Safety Code § 573.002\(b\)\(5\)](#).

The officer’s belief may be based on:

- The representation of a credible person;
- The person’s conduct; or
- The circumstances under which the person is found.

[Tex. Health & Safety Code § 573.001\(c\)](#).

Officer’s Personal Observations Not Required

Note that the statute does not require an officer’s personal observations of conduct or behavior suggesting a substantial risk of serious harm. An officer’s belief may be based on credible information given to the officer by a witness, such as a family member, teacher, or coach.

An Officer Must Investigate

A peace officer must “investigate the circumstances surrounding a mental health call prior to taking the subject into custody and before transporting the subject to a mental health facility.” [Trevino v. State, 512 S.W.3d 587, 595 \(Tex. App.—El Paso 2017, no pet.\)](#).

Transport to a Facility

An officer must transport the person:

- To the nearest appropriate inpatient mental health facility;

- If such a facility is unavailable, to another mental health facility¹⁰⁵ **deemed suitable** by the LMHA/LBHA; or
- To EMS personnel in accordance with a memorandum of understanding (MOU) for transport to an appropriate facility as described below.

Tex. Health & Safety Code § 573.001(d).

Deemed Suitable

A jail or similar detention facility may not be deemed suitable except in an extreme emergency. Tex. Health & Safety Code § 573.001(e).

Memorandum of Understanding (MOU) Regarding Transportation for Emergency Detention

A law enforcement agency and an EMS provider may execute an MOU under which EMS personnel employed by the provider may transport a person taken into custody under an emergency detention by a peace officer employed by the law enforcement agency. The MOU must:

- Address responsibility for the cost of transporting the person taken into custody; and
- Be approved by the county in which the law enforcement agency is located and the LMHA that provides services in that county with respect to provisions of the MOU that address the responsibility for the cost of transporting the person.

Tex. Health & Safety Code § 573.005(b).

The Detained Person's Rights

An officer must immediately inform the person orally and in simple, nontechnical terms:

- Of the reason for the detention; and
- That a staff member of the facility will inform the person of their rights within 24 hours.

Tex. Health & Safety Code § 573.001(g).

Firearms

An officer may immediately seize any firearms in the person's possession. Tex. Health & Safety Code § 573.001(h). Note that specific procedures for seizure and return of firearms will vary by jurisdiction.¹⁰⁶

Notice of Detention to Facility

After taking the person to a facility, the officer must immediately file with the facility a notification of detention on the statutorily required form (a sample notification is included in the Appendix). The facility must honor the statutorily prescribed form and cannot require use of a different form. The facility must include the notice in the person's clinical file. Tex. Health & Safety Code §§ 573.002(a), (c).

If emergency medical personnel transport the person at the request of a peace officer, they must immediately file with the facility the notification of detention completed by the peace officer who made the request. Tex. Health & Safety Code § 573.002(a).

¹⁰⁵ The definition of mental health facility includes "that identifiable part of a general hospital in which diagnosis, treatment, and care for persons with mental illness is provided." Tex. Health & Safety Code § 571.003(12). Pursuant to their obligations under the federal Emergency Medical Treatment and Active Labor Act or otherwise, hospital emergency departments often diagnose, treat, and care for persons with mental illness.

¹⁰⁶ See also Tex. Code Crim. Proc. arts. 18.19, 18.191 for the procedures related to the disposition of firearms.

2. Taking a Child into Custody Absent a Mental Health Crisis

Reflection Point

Absent a mental health crisis, a law enforcement custodial event is an important discretionary point to examine whether race, ethnicity, or socioeconomic status are factors in the custody decision. The Family Code presumes that every juvenile who does not meet the statutory detention criteria should be released to a parent or other responsible adult.

Taking a Child into Custody is Usually Discretionary

Law enforcement may take a child into custody:

- pursuant to an order of the juvenile court;
- pursuant to the laws of arrest;
- if the officer has probable cause to believe the child engaged in:
 - conduct that violates a penal law of this state or a penal ordinance of any political subdivision of this state;
 - delinquent conduct or conduct indicating a need for supervision; or
 - conduct that violates a condition of probation imposed by the juvenile court;
- pursuant to a directive to apprehend issued as provided by section 52.015 of the Texas Family Code.

[Tex. Fam. Code § 52.01](#).

The officer can also issue a warning notice to the child instead of taking the child into custody, if certain conditions are met. [Tex. Fam. Code § 52.01\(c\)](#). These citations cannot be issued for school offenses. [Tex. Ed. Code § 37.143\(a\)](#). Further discussion follows.

Legislative Change

S.B. 133 (88th Reg. Sess. (2023)) added subsection (j) to [section 37.0021](#) of the Texas Education Code to ban the use of restraints by peace officers and school security personnel on students in fifth grade or below unless the student poses a serious risk of harm to themselves or another person.

When Taking a Child into Custody is Mandatory

A peace officer shall take a child into custody on the issuance of a directive to apprehend. [Tex. Fam. Code § 52.015\(b\)](#).

Notice to Probate Court May be Required

As soon as practicable, but not later than the first working day after the date a law enforcement officer takes a **child who is a ward** into custody under section 52.01(a)(2) or (3) of the Texas Family Code, the law enforcement officer or other person having the custody of the child shall notify the court with jurisdiction over the child's guardianship of the child's detention or arrest. [Tex. Fam. Code § 52.011\(b\)](#).

Note that in this section, “ward” has the meaning assigned by [section 22.033, Texas Estates Code](#): “Ward” means a person for whom a guardian has been appointed. This notification is an added safety net to prevent a child with MI or ID from being lost within the system.

Release or Delivery to Court

Law enforcement agencies can develop guidelines to help determine if or when to take children, but particularly children with mental illness or an intellectual disability, into custody. Officers should consider whether adequate supervision is available in the child’s home before taking a child into custody.

Out-of-Custody Referrals

Many juvenile cases can be filed by law enforcement as “out-of-custody” referrals. Absent a present threat to the safety of the juvenile or the community, officers should consider not taking a juvenile with MI or ID into custody, and instead making an out-of-custody referral. Separation from family is difficult for all juveniles, and a juvenile with specialized needs may find their needs unmet by the detention program.

A law enforcement officer who has taken a child into custody is required to immediately take one of seven actions:

- Take the child to the juvenile processing office designated by the juvenile board;
- Release the child to a parent, guardian, custodian, or other responsible adult;
- Bring the child to the office or official designated by the juvenile board if there is probable cause to believe that the child engaged in delinquent conduct, CINS, or conduct that violates a condition of probation imposed by the juvenile court;
- Bring the child to a juvenile detention facility;
- Bring the child to a medical facility if the child is believed to suffer from a serious physical condition or illness that requires prompt treatment;
- Dispose of the case without referral to juvenile court under section 52.03; or
- Return the child to their school campus if school administrators agree to resume responsibility for the child for the remainder of the day.

[Tex. Fam. Code § 52.02\(a\)](#).

Note that a person taking a child into custody must promptly give notice of the person’s action and a statement of the reason for taking the child into custody, to:

- The child’s parent, guardian, or custodian; and
- The office or official designated by the juvenile board.

[Tex. Fam. Code § 52.02\(b\)](#).

Firearms Offenses

A child who is alleged to have engaged in delinquent conduct and to have used, possessed, or exhibited a firearm in the commission of the offense must be detained until the child is released at the direction of the judge of the juvenile court, a substitute judge, or a juvenile referee. [Tex. Fam Code § 53.02\(f\)](#). The judge can authorize the child’s release over the phone. Firearms offenses include all offenses committed with a firearm and illegal carrying or possession of a firearm.

Law Enforcement Diversions from Juvenile Court

Even when a law enforcement officer has determined that a child should be taken into custody, the officer does not have to make a referral to juvenile court. Several kinds of informal dispositions are available to law enforcement. These diversions from juvenile court can result in better outcomes in cases involving all children, including children with MI or IDD.¹⁰⁷

Warning Notice

Under certain circumstances involving minor offenses, law enforcement officers can issue a warning notice to a child instead of taking the child into custody. [Tex. Fam. Code § 52.01\(c\)](#). A warning notice is similar to a traffic ticket.

- Guidelines for the issuance of warning notices must be adopted by the law enforcement agency and approved by the juvenile board.
- The warning notice must identify the child and describe the conduct.
- When a child is issued a warning notice, copies of the notice must be sent to the child's parent, guardian, or custodian; filed with the office or official designated by the juvenile board; and filed with the law enforcement agency.

[Tex. Fam. Code §§ 52.01\(c\)\(1-6\)](#).

Further action, such as a family conference, may be taken by the juvenile court staff or law enforcement agency, but is not required. Note that warning notices cannot be issued for school offenses. [Tex. Ed. Code § 37.143\(a\)](#).

Absent a mental health crisis, a law enforcement custodial event is an important discretionary point to examine whether race, ethnicity, or socioeconomic status are factors in the custody decision. The Family Code presumes that every juvenile who does not meet the statutory detention criteria should be released to a parent or other responsible adult.

Reflection Point

Every law enforcement agency should seek to use warning notices when and where possible. Each law enforcement agency should learn what guidelines the local juvenile board has adopted for making dispositions without referral to court under Texas Family Code section 52.03. Appropriate diversions help to reduce disparate outcomes.

Law Enforcement Disposition Without Referral to Court

Law enforcement officers can dispose of certain low-level offenses and non-traffic Class C misdemeanors without referring them to juvenile court or municipal court if:

- Guidelines for such dispositions have been adopted by the juvenile board;
- The disposition is authorized by the guidelines; and

¹⁰⁷ See Holly A. Wilson and Robert D. Hoge, *The Effect of Youth Diversion Programs on Recidivism: A Meta-Analytic Review*, 40 CRIM. JUST. & BEHAVIOR, 497, 499 (2013) ("A growing body of results from empirical research is also providing at least indirect support for the use of diversion. This research demonstrates clearly that involvement in the juvenile justice system, holding all other factors constant, is associated with an increased likelihood of offending behavior."); see also BARRY HOLMAN & JASON ZIEDENBERG, JUSTICE POLICY INST., THE DANGERS OF DETENTION: THE IMPACT OF INCARCERATING YOUTH IN DETENTION AND OTHER SECURE FACILITIES 2 (2006) ("A recent literature review of youth corrections shows that detention has a profoundly negative impact on young people's mental and physical well-being, their education, and their employment.").

- The officer makes a written report of the disposition to the law enforcement agency, identifying the child and specifying the grounds for believing that taking the child into custody was authorized.

[Tex. Fam. Code § 52.03\(a\)](#).

Possible authorized dispositions under this section include referral of the child to an agency other than the juvenile court, a family conference, or a referral of the child and family to a family services agency or a DFPS youth intervention program. [Tex. Fam. Code § 52.03\(c\)](#).

First Offender Program

Another diversion opportunity for law enforcement agencies is first offender programs. The juvenile board is authorized to establish a law enforcement first offender program for children with no prior delinquent conduct adjudications who are taken into custody or accused, prior to the filing of charges, of:

- conduct indicating a need for supervision;
- a non-traffic Class C misdemeanor; or
- Class A or B misdemeanor or state jail felony delinquent conduct that does not involve violence to a person or the use or possession of a firearm, location-restricted knife, or club.

[Tex. Fam. Code § 52.031\(a\)](#).

First offender programs are operated by the law enforcement officer or agency designated by the juvenile board, pursuant to disposition guidelines adopted by the juvenile board. [Tex. Fam. Code § 52.031\(b\)](#). The program may include periodic reporting to the law enforcement officer or agency, voluntary restitution, voluntary community service restitution, and educational training, vocational training, counseling, or other rehabilitative services. [Tex. Fam. Code § 52.031\(h\)](#).

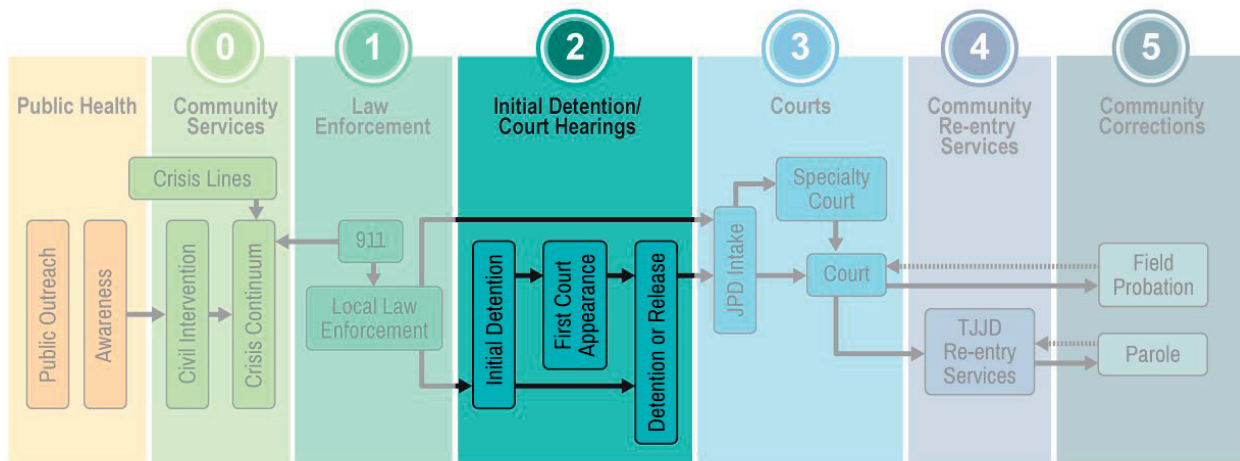

A child referred by law enforcement to the first offender program is not referred to the juvenile court, and the record of the offense is not submitted to DPS. [Tex. Fam. Code § 58.001\(c\)](#). If the child successfully completes the program and is not taken into custody for a new offense for the next 90 days, the law enforcement agency destroys all records linking the child to the offense, other than keeping the child's name and basic information for the purpose of determining future eligibility for the program. [Tex. Fam. Code § 52.031\(i\)](#). Chapter 58, Family Code, contains additional record-keeping requirements related to first offender programs.

Human Trafficking Victims

If there is probable cause to believe that a child engaged in delinquent conduct or CINS, and is the victim of human trafficking, the child's case cannot be disposed of under either the Disposition Without Referral to Court or First Offender Program sections of the Texas Family Code. [Tex. Fam. Code § 52.032\(b\)](#). Instead, that child's case should be addressed under a special deferred prosecution program for trafficked children, under [Texas Family Code section 54.0326](#), discussed in Intercept 3: Courts.

2

Intercept 2: Initial Detention and Court Hearings

Intercept 2: Initial Detention and Court Hearings focuses on initial detention and court hearings. This intercept will frequently be the first opportunity for judicial involvement. This includes matters such as intake screening, early assessment, and pretrial release of children with mental illness or intellectual disabilities. Identification at this stage can facilitate informed decision-making around a juvenile’s care, treatment continuation, and release orders. Diversion continues to be a focus in this intercept.

Part I: Detention

Laws across the Administrative Code, the Code of Criminal Procedure, and the Family Code detail the various procedures for identifying a juvenile’s possible MI or ID at the earliest stages of – and throughout – a juvenile court proceeding.

Facilities moving toward trauma-informed practice will want to carefully examine what happens from the moment youth enter the door, and how well detention intake policies and procedures create an environment of safety. Some considerations¹⁰⁸ are whether:

- Staff are sensitive and alert to whether a child is in distress, and take appropriate steps to address concerns;
- Youth are informed of non-discrimination policies, and that their needs will be recognized; for example, that “Safe Zone” signs are posted to help youth who identify as LGBTQ feel more at ease;
- Interviews about sensitive information occur in private areas;
- Youth are informed about safety in the facility; for example, how gang issues are handled, what protections ensure safety, and how to confidentially report problems;

¹⁰⁸ Sue Burrell, The Nat’l Child Traumatic Stress Network, Youth Law Cent., Trauma and the Environment of Care in Juvenile Institutions (2013), http://www.njcn.org/uploads/digital-library/NCTSN_trauma-and-environment-of-juvenile-care-institutions_Sue-Burrell_September-2013.pdf

- Searches are no more intrusive than needed for intake and in compliance with Prison Rape Elimination Act standards¹⁰⁹ (no cross-gender pat downs, and cross-gender strip searches or body cavity searches only in exigent circumstances);
- Youth are screened for trauma, and further assessment occurs where needed;
- Youth receive all information they need about their rights and the institutional rules in a form they can understand;
- Youth receive information about how to register complaints or to speak confidentially to someone who can help if problems arise.

1. Early Identification and Assessments

Detention staff are required to perform various assessments of children on admission to the detention facility. Efficient communication of this information is necessary for judges, attorneys, and probation officers to understand and address any special needs a child may have.

Reflection Point

Practitioners should examine the socioeconomic factors that influence release, diversions, and alternatives to detention. For example, families with substantial financial resources may be able to pay for electronic leg monitoring (ELM) devices or provide parental supervision because of home-based employment or flexible work hours. It is important not to mistake poverty for neglect.

Detention Intake

There will be an intake officer at the detention facility, or on call, 24 hours a day. The intake officer determines whether the juvenile should be released or detained based on the facility's policies and in accordance with Texas Family Code section 53.01. Juveniles requiring emergency medical care due to injury, illness, intoxication, or mental health crisis will not be admitted into detention. Instead, the officer who transported the juvenile to detention will need to take the juvenile to a health care facility for evaluation and treatment. The juvenile may be admitted later, after written clearance from a health care or mental health care provider. [37 Tex. Admin. Code § 343.400](#).

Legislative Change

H.B. 5195 (88th Reg. Sess. (2023)) added [section 54.021](#) to the Texas Family Code to ensure that children in detention facilities receive education and services while detained. By the 21st day of a child's detention, the detention center must assess the child and develop a written plan to reach rehabilitation goals, and provide a status report every 90 days.

¹⁰⁹ Prison Rape Elimination Act National Standards, 28 C.F.R. pt. 115 (2019), <https://www.ojp.gov/sites/g/files/xyckuh186/files/media/document/PEA-Final-Rule.pdf>

Release from Detention

When a child is brought into detention, the intake or other authorized officer of the court must immediately make an investigation and **shall release the child** unless it appears that the child's detention is warranted. The release may be conditioned upon requirements reasonably necessary to insure the child's appearance at later proceedings, but the conditions must be in writing and filed with the office or official designated by the court and a copy furnished to the child. [Tex. Fam. Code § 53.02\(a\)](#).

A child taken into custody may be detained prior to a hearing on the petition only if:

1. The child is likely to abscond or be removed from the jurisdiction of the court;
2. Suitable supervision, care, or protection for the child is not being provided by a parent, guardian, custodian, or other person;
3. The child has no parent, guardian, custodian, or other person able to return the child to the court when required;
4. The child may be dangerous to themselves, or the child may threaten the safety of the public if released;
5. The child has previously been found to be a delinquent child or has previously been convicted of a penal offense punishable by a term in jail and is likely to commit an offense if released; or
6. The child's detention is required due to an alleged firearms offense.

[Tex. Fam Code § 53.02\(b\)](#).

Mandatory Mental Health Screening^{110 111}

The detention facility must administer a mental health screening or provide a clinical assessment conducted by a mental health provider within 48 hours of the juvenile's admission to the facility. The mental health screening tool used in Texas is the Massachusetts Youth Screening Instrument, 2nd Edition, or MAYSI-2. A juvenile who receives a positive screening must be given a secondary screening immediately or referred to a mental health provider by the end of the next workday. If either the secondary screening or the mental health provider recommends further mental health intervention for the juvenile, a referral to a mental health provider or to a physician must occur within 48 hours. *See* [37 Tex. Admin. Code § 343.404](#).

MAYSI-2¹¹²

The MAYSI-2 is a brief behavioral health screening tool designed for juvenile justice programs and facilities. 46 states have adopted the MAYSI-2. The tool requires no formal training as a mental health professional and can be administered in approximately 10 minutes. It consists of 52 questions regarding the recent experience of thoughts, feelings or behaviors, to which the juvenile answers YES or NO. The answers provide scores on seven scales: Alcohol/Drug Use, Angry Irritable, Depressed Anxious, Somatic Complaints, Suicide Ideation, Thought Disturbance, and Traumatic Experiences. Scores on each scale allow staff to determine whether the juvenile may need immediate attention for suicide precaution or further assessment by a mental health professional.

¹¹⁰ The MAYSI and other detention intake assessments require the child to respond to questioning by a government employee or agent, the detention officer. Texas Family Code section 54.03(e) states that "A child alleged to have engaged in delinquent conduct or CINS need not be a witness against nor otherwise incriminate himself. An extrajudicial statement which was obtained without the requirements of this title or of the constitution of this state or of the United States, may not be used in an adjudication hearing."

¹¹¹ *See also*, [Tex. Health & Safety Code § 614.017\(b\)](#) ("Information obtained under this section may not be used as evidence in any juvenile or criminal proceeding, unless obtained and introduced by other lawful means."). Further discussion of this statute appears below, in Section 3: Information Sharing is Mandatory.

¹¹² More information about the MAYSI can be found at: NATIONAL YOUTH SCREENING & ASSESSMENT PARTNERS, <http://www.nysap.us/maysi2/index.html> (last visited Aug. 9, 2023).

Mandatory Screening of Juveniles for Suicide

All juveniles must be screened for suicide risk within two hours of admission into a facility, and upon any indication they might be at moderate or high risk for suicidal behavior at any point they are in custody. This screening is part of a suicide prevention plan that all facilities, in consultation with a mental health provider, must develop and implement. See [37 Tex. Admin. Code § 343.340](#). The MAYSI-2 can satisfy the suicide screening requirement if it is administered within two hours of the juvenile's admission. [37 Tex. Admin. Code § 343.404\(a\)\(3\)](#).

Mental Health Referral of High-Risk Suicidal Youth

The facility must refer a juvenile classified as high risk for suicidal behavior to a mental health provider or agency within 24 hours after the classification is assigned, and document that the referral was made. [37 Tex. Admin. Code § 343.346](#).

Mandatory Health Screening

All juveniles must have a health screening within two hours of their admission to the facility. The health screening must include, but is not limited to: mental health conditions, treatment, and hospitalizations; observation of the juvenile's appearance, behavior, state of consciousness, breathing; current medications; use of alcohol or drugs; special health requirements; and any other health concerns reported by the juvenile. If the juvenile requires follow-up care, the facility must contact a health care professional as soon as possible, but no later than 24 hours after the screening. [37 Tex. Admin. Code § 343.406](#).

Mandatory Behavioral Screening

All juveniles must be screened for potential vulnerabilities or aggressive behavior. The behavioral screening must consider the juvenile's age, offense history, physical size, state of mind, sexual orientation, prior victimization or abuse, level of emotional and cognitive development, mental or physical disabilities, intellectual or developmental disabilities, and other pertinent information. [37 Tex. Admin. Code § 343.414](#).

Detention facilities may consider screening vulnerable children and adolescents for additional classifications than the law requires, such as gender identity, to ensure the child's safety.

2. Medication

Interruption of a child's medication regimen should be avoided. A child's existing treatment regimen should be extended into the detention setting to prevent deterioration.

Continuity of Care

All secure pre-adjudication detention and post-adjudication correctional facilities are required to have a written health service plan. The plan must include procedures:

- For conducting health screenings and assessments;
- For the referral of juveniles in need of medical attention for medical, mental health, and dental services;
- For emergency health care services;
- To ensure continuity of care in accordance with the instructions of the medical provider including the delivery of treatment, medication, referrals, follow up, and medically-modified diets;

- Relating to informed consent as required by Texas Family Code Chapter 32 for medical, dental, psychological, and surgical treatment; immunizations; and counseling services;
- Relating to procurement, distribution, dispensing, disposal, and accounting of prescription and over-the-counter medication;

[37 Tex. Admin. Code § 343.322.](#)

Medication Administration

Stimulants, tranquilizers, and psychotropic medications cannot be administered to juveniles in detention without an order from a physician, physician assistant, dentist, or nurse practitioner. The detention facility is required to adopt a policy concerning the administration of medication to juveniles. The policy must include requirements that any medication brought into the facility by the juvenile’s parent or guardian must be in the original container, and the parent or guardian submit a written request to the facility to administer the medication; that all medication prescribed to the juvenile during their stay is administered; and that each administration of the medication is documented. [37 Tex. Admin. Code § 343.336.](#)

Continuing Medication is Critical to Continuity of Care

Continuing a child’s prescription medication is critical to preventing mental health deterioration. Intake officers should consult with the child and their parent or guardian regarding current medications. Family members should bring all current medications to the detention center as soon as possible. Judges should inquire about medications at detention hearings and require a doctor’s visit if a child’s medication needs are not met.

3. Information Sharing is Mandatory

Considerable confusion has surrounded the issue of sharing personal information in proceedings involving juveniles, and particularly in proceedings involving juveniles with or who may have MI or ID. This subsection identifies some of the key state law provisions governing that issue.

Information Regarding Special Needs Offenders

State law requires that agencies share information for purposes of continuity of care and services for “special needs offenders,” which includes individuals:

- For whom criminal charges are pending; or
- Who, after conviction or adjudication, are in custody or under any form of criminal justice supervision.

[Tex. Health & Safety Code §§ 614.017\(a\), \(c\)\(2\).](#)

What an Agency is Required to Do

Specifically, an agency must:

- Accept information relating to a special needs offender **or a juvenile with a mental impairment** that is sent to the agency **to serve the purposes of continuity of care and services** regardless of whether other state law makes that information confidential; and
- Disclose information relating to a special needs offender **or a juvenile with a mental impairment**, including information about the offender’s or juvenile’s identity; needs; treatment; social, criminal, and vocational history; supervision status and compliance with conditions of supervision; and medical and mental health history, **if the disclosure serves the purposes of continuity of care and services.**

[Tex. Health & Safety Code § 614.017\(a\)](#).

Agencies Must Safeguard Confidentiality

An agency must manage confidential information accepted or disclosed under this section prudently to maintain, to the extent possible, the confidentiality of that information. A person commits an offense if the person releases or discloses confidential information obtained under section 614.017 for purposes other than continuity of care and services, except as authorized by other law or by the consent of the person to whom the information relates. [Tex. Health & Safety Code §§ 614.017\(d\), \(e\)](#).

Not for Use as Evidence

Information obtained under this section may not be used as evidence in any juvenile or criminal proceeding, unless obtained and introduced by other lawful evidentiary means. [Tex. Health & Safety Code § 614.017\(b\)](#).

Agencies Required to Comply

Health and Safety Code [section 614.017\(c\)\(1\)](#) defines an “agency” as one of the following, a person with an agency relationship with one of the following, and a person who contracts with one or more of the following:

- The Texas Department of Criminal Justice and the Correctional Managed Health Care Committee;
- The Board of Pardons and Paroles;
- The Department of State Health Services;
- The Texas Juvenile Justice Department;
- The Department of Assistive and Rehabilitative Services;
- The Texas Education Agency;
- The Texas Commission on Jail Standards;
- The Department of Aging and Disability Services;
- The Texas School for the Blind and Visually Impaired;
- Community supervision and corrections departments and juvenile probation departments;
- Personal bond pretrial release offices established under article 17.42 of the Texas Code of Criminal Procedure;
- Jails regulated by the Commission on Jail Standards;
- A municipal or county health department;
- A hospital district;
- A judge of this state with jurisdiction over juvenile or criminal cases;
- An attorney who is appointed or retained to represent a special needs offender or a juvenile with a mental impairment;
- The Health and Human Services Commission;
- The Department of Information Resources;
- The Bureau of Identification and Records of the Department of Public Safety, for the sole purpose of providing real-time, contemporaneous identification of individuals in the Department of State Health Services client data base; and
- The Department of Family and Protective Services.

Continuity of Care for Juveniles with Mental Impairments

The Texas Juvenile Justice Department, the Department of Public Safety, the Department of State Health Services, the Department of Aging and Disability Services, the Department of Family and Protective Services, the Texas Education Agency, and local juvenile probation departments must adopt a memorandum of understanding that establishes their respective responsibilities to institute a **continuity of care and service program for juveniles with mental impairments in the juvenile justice system**. TCOOMMI shall coordinate and monitor the development and implementation of the MOU.

The MOU must establish methods for:

1. Identifying juveniles with mental impairments in the juvenile justice system and collecting and reporting relevant data to the office;
2. Developing interagency rules, policies, and procedures for the coordination of care of and the exchange of information on juveniles with mental impairments who are committed to or treated, served, or supervised by TJJD, DPS, DSHS, DFPS, DADS, TEA, local juvenile probation departments, LMHAs, LIDDAs, and independent school districts; and
3. Identifying the services needed by juveniles with mental impairments in the juvenile justice system.

[Tex. Health & Safety Code § 614.018\(b\)](#).

In this section, “continuity of care and service program” includes:

1. Identifying the medical, psychiatric, or psychological care or treatment needs and educational or rehabilitative service needs of a juvenile with mental impairments in the juvenile justice system;
2. Developing a plan for meeting the needs identified under subdivision 1; and
3. Coordinating the provision of continual treatment, care, and services throughout the juvenile justice system to juveniles with mental impairments.

[Tex. Health & Safety Code § 614.018\(c\)](#).

Juvenile Records

Certain juvenile justice agencies and juvenile justice service providers are permitted to share certain records regarding a child’s personal health information or history of government services provided, for the purposes of coordination of care, prevention of supplication of services, enhancing rehabilitation, and improving and maintaining community safety. [Tex. Fam. Code § 58.0052](#).

Exempt from the Texas Medical Records Privacy Act (TMRPA)

TMRPA, the state law governing privacy of medical records, expressly excludes an agency described by section 614.017 (set forth above) with respect to the disclosure, receipt, transfer, or exchange of medical and health information and records relating to individuals in the custody of an agency or in community supervision. [Tex. Health & Safety Code § 181.057](#).

4. Restraints

Texas Juvenile Justice Department standards govern the use of restraints in juvenile secure detention and post-adjudication facilities. The standards apply to personal restraints, mechanical restraints, chemical restraints, and non-ambulatory restraints. The frequency of seclusion and restraint practices used in an

organization is considered one indicator of how well an organization is implementing trauma-informed practices.¹¹³

Approved Restraint Techniques

Each facility must adopt a personal restraint technique that has been approved by TJJD. Personal restraints are also considered physical restraints.

- “Handle with Care”¹¹⁴ and “The Mandt System”¹¹⁵ are the currently approved restraint techniques. [37 Tex. Admin. Code § 390.9723\(j\)\(1\)\(B\)](#).
- Only juvenile supervision and probation officers may use personal restraints in juvenile facilities. Before participating in a restraint, the officers must be trained in the approved restraint technique and in the facility’s specific verbal de-escalation practices and procedures. [37 Tex. Admin. Code §§ 343.800\(a\), \(c\)](#).
- The officers must be retrained on the restraint technique at least once every 365 days. [37 Tex. Admin. Code § 343.808\(c\)](#).

When Restraints can be Used

- Personal restraints may be used only to prevent imminent or active self-injury, injury to others, serious property damage, or escapes. [37 Tex. Admin. Code § 343.802\(d\)](#).
- Personal restraints may be used **only as a last resort** and only the amount of force and type of restraint necessary to control the situation may be used. [37 Tex. Admin. Code §§ 343.802\(e\), \(f\)](#).
- Personal restraints are required to be implemented in a way to protect the health and safety of the juvenile and to be terminated as soon as the threat has subsided. [37 Tex. Admin. Code §§ 343.802\(g\), \(h\)](#).

Prohibited Uses of Restraints

- Personal restraints may not be used for punishment, discipline, retaliation, harassment, compliance, or intimidation, or as a substitute for appropriate disciplinary seclusion nor may they deprive a juvenile of basic human necessities, including restroom opportunities, food, water, or clothing. [37 Tex. Admin. Code §§ 343.804\(1\), \(2\)](#).
- Personal restraints that pose a risk to a juvenile are prohibited, such as restraints intended to inflict pain; restraints that place a juvenile in a prone or supine position with pressure on the neck or head; restraints that obstruct the airway, including placing anything over the mouth or nose; restraints that interfere with the juvenile’s ability to communicate; restraints that obstruct the view of the juvenile’s face; techniques that do not include monitoring the juvenile’s respiration and for signs of physical distress; and percussive or electrical shocking devices (e.g. tasers). [37 Tex. Admin. Code §§ 343.804\(3-10\)](#).

Mechanical Restraints

- Only approved mechanical restraints may be used. This includes ankle cuffs, handcuffs, plastic cuffs (in an emergency only), restraint beds, restraint chairs, waist belts, and wristlets. [37 Tex. Admin. Code §§ 343.810\(a\)\(1\), \(b\)\(8\)](#).

¹¹³ SUPREME COURT OF TEXAS PERMANENT JUDICIAL COMMISSION FOR CHILDREN, YOUTH AND FAMILIES, STATEWIDE COLLABORATIVE ON TRAUMA-INFORMED CARE, BUILDING A TRAUMA-INFORMED CHILD WELFARE SYSTEM: A BLUEPRINT 38 (2019), <http://texaschildrenscommission.gov/media/84026/building-a-trauma-informed-child-welfare-system-a-blueprint-online.pdf>.

¹¹⁴ See HANDLE WITH CARE, <https://handlewithcare.com/> (last visited Aug. 9, 2023)

¹¹⁵ See THE MANDT SYSTEM, <https://www.mandtsystem.com/> (last visited Aug. 9, 2023)

- Unlike personal restraints, mechanical restraints can be used for juvenile, staff, and public safety purposes even when there is no imminent threat. Such preventive restraints are authorized when moving a juvenile from one point to another within a secure facility, when transporting juvenile in a vehicle, or when a juvenile is required to leave the secure confines of the facility. [37 Tex. Admin. Code §§ 343.818\(1-3\)](#). Under limited circumstances, the documentation of the use of mechanical restraints for routine, preventative use is not required. [37 Tex. Admin. Code § 343.818\(4\)](#).
- There are several requirements to ensure safety while in mechanical restraints, such as a prohibition on restraining the juvenile to a stationary object or to part of a vehicle or another resident in a vehicle; a prohibition on “hogtying” a juvenile by attaching their arms and legs together behind the back; a requirement that the mechanical restraint not be so tight as to impact circulation or so loose as to cause chafing; and a prohibition on keeping the juvenile in a prone position while in mechanical restraints for any period of time beyond the time necessary to apply the restraints. Additionally, juveniles are prohibited from participating in physical activity while in mechanical restraints. [37 Tex. Admin. Code §§ 343.810\(b\)\(3-7\), 343.818\(2\), 380.9723\(k\)\(G\)](#).

Non-Ambulatory Mechanical Restraints

It is sometimes necessary to use a non-ambulatory mechanical restraint for a juvenile. This type of restraint prohibits a juvenile’s ability to stand upright and walk. Examples include a four-point restraint and a restraint chair.

- Non-ambulatory mechanical restraints may be used only in response to a juvenile’s overt self-injurious behavior and only when other less restrictive interventions or other forms of physical restraint have been deemed inappropriate or ineffective. [37 Tex. Admin. Code § 343.812\(a\)](#).
- Permission from the facility administrator or designee is required for each instance of the use of a non-ambulatory mechanical restraint; standing orders for such use are prohibited. [37 Tex. Admin. Code § 343.812\(b\)](#).
- These restraints may be used only in an area or room not visible to other residents but that is readily accessible to health care professionals or specifically trained staff with supervisory responsibilities related to non-ambulatory mechanical restraints. [37 Tex. Admin. Code § 343.812\(c\)](#).
- Constant supervision by a juvenile supervision or probation officer is required, as is an opportunity for expanded physical motion for at least 5 minutes every 30-minues, an opportunity to drink water and use the restroom every hour, and regularly prescribed medications. A written recommendation from a health care professional or a mental health provider is required for a non-ambulatory mechanical restraint to continue longer than one hour. [37 Tex. Admin. Code §§ 343.812\(f\), \(i\)](#).
- Non-ambulatory mechanical restraints lasting two hours are considered a behavioral health crisis and result in an immediate referral to a mental health provider or a mental health facility for assessment and possible treatment. Such restraints may not last more than three hours in any 24-hour time period. [37 Tex. Admin. Code §§ 343.812\(g\), \(h\)](#).

Chemical Restraints

A chemical restraint is the use of any chemical, including pharmaceuticals, through topical application, oral administration, injection, or other means, for purposes of restraining an individual and which is not a standard treatment for the individual’s medical or psychiatric condition. [25 Tex. Admin. Code § 415.253\(3\)](#). Antipsychotic and sedative medications are examples of chemical restraints.

- While chemical restraints are permissible, they may be used only in response to a facility riot and, even then, only when other forms of approved restraints are deemed inappropriate or ineffective. [37 Tex. Admin. Code § 343.816\(1\)](#).
- Chemical restraints require approval from the facility administrator prior to use; standing orders are prohibited. [37 Tex. Admin. Code § 343.816\(2\)](#).

- Chemical restraints may not be used on juveniles who are already in a personal or mechanical restraint or who are otherwise under control. Neutralizers and decontaminants must be readily available for use on juveniles who have been exposed to chemical restraints. [37 Tex. Admin. Code §§ 343.816\(5\), \(7\)](#).

Restraints and Trauma

The Substance Abuse and Mental Health Services Administration (SAMHSA) has found that “the use of seclusion and restraint can result in psychological harm, physical injuries, and death to both the people subjected to and the staff applying these techniques.”¹¹⁶ It is helpful for judges and lawyers to be familiar with the local detention facility’s policies and practices for using seclusion and restraints. When seclusion or restraints are used on a youth, inquiries should be made to confirm that use and duration of the seclusion or restraint was proper. Detention facilities may want to adopt policies that require supervisor or administrative review of all restraints and seclusions. All participants in the juvenile court system must have an understanding that youth who have experienced severe or complex trauma may exhibit high-risk behaviors, but that seclusion and restraint as a response to those behaviors can cause additional trauma or re-traumatization of the youth.¹¹⁷

Part II: Initial Detention Hearing

The initial detention hearing is the first contact the child will have with the court. It may be the first time the child has interacted with a judge or a lawyer, or the first time they have seen a courtroom. The child may have been separated from their parent or guardian for several days and may not know what to expect or how to behave in a courtroom.

Creating a Trauma-Informed Courtroom can ease the anxiety and fear that children may be experiencing. The bench card¹¹⁸ on page 173 of the Appendix, designed by the National Child Traumatic Stress Network,¹¹⁹ will assist judges and other juvenile court professionals in understanding the behavior of youth, and in making good decisions regarding detention, release, placement, service referrals, and treatment.

1. Initial Detention Hearing

During a hearing, the court and counsel can avoid re-traumatizing youth by phrasing questions in a way to elicit information neutrally. For example, instead of asking whether a parent or guardian wants the youth back in the home, consider asking questions to establish whether the home is a safe environment, and whether there is suitable supervision for the youth.

¹¹⁶ Substance Abuse and Mental Health Services Administration, Promoting Alternatives to the Use of Seclusion and Restraint, Issue Brief #1: A National Strategy to Prevent Seclusion and Restraint in Behavioral Health Services (2010), https://www.samhsa.gov/sites/default/files/topics/trauma_and_violence/seclusion-restraints-1.pdf.

¹¹⁸ Originals are available for download. THE NATIONAL CHILD TRAUMATIC STRESS NETWORK, NCTSN BENCH CARD FOR THE TRAUMA-INFORMED JUDGE (2013), <https://www.nctsn.org/resources/nctsn-bench-cards-trauma-informed-judge>.

¹¹⁹ THE NATIONAL CHILD TRAUMATIC STRESS NETWORK, <https://www.nctsn.org/> (last visited Aug. 9, 2023).

- If the child was not released by the detention center intake officer, a detention hearing shall be held promptly. Promptly means not later than the second working day after the child is taken into custody; or the first working day if the child was taken into custody on a weekend or holiday.
- Detention hearings are non-jury proceedings and can be heard by a judge, referee or master.
- Reasonable written or oral notice of the hearing must be given to the child, and if located, to the child's parent, guardian, or custodian.
 - If the parent, guardian, or custodian cannot be found, the detention hearing can be held, so long as the court appoints counsel or a guardian ad-litem for the child.
- The court must inform the child of the child's right to remain silent.
 - Statements made by the child during a detention hearing are not admissible against the child at any other proceeding.
- The court may consider written reports and the testimony of witnesses in making the detention decision.
- The court shall find whether there is probable cause to believe that a child who was taken into custody without an arrest warrant or a directive to apprehend has engaged in delinquent conduct, CINS, or conduct that violates an order of probation imposed by the juvenile court.
 - The PC finding must be made within 48 hours of the time the child was taken into custody, including weekends and holidays.

Tex. Fam. Code § 54.01.

Guardian Ad Litem

The Court's authority under [Tex. Fam. Code § 51.11](#) to appoint a guardian ad litem when the child's parent is unable or unwilling to act in the child's best interests is consistent with the goals of the Juvenile Justice Code under [Tex. Fam. Code § 51.01](#), which include the best interests of the child and the protection of the community.

Reflection Point

Ask yourself, as a judge, has equity been considered in the prior intercept points? Has release or evaluation by a mental health provider been overlooked by the arresting officer or education systems? What assumptions have I made about the cultural identity, genders, profession, and background of this family? Have I made assumptions about who is present in the courtroom, overlooking transportation or other concerns in favor of shortcuts and assumptions about whether the family cares about the well-being of their child? How might my assumptions (or, the assumptions of those involved at prior intercept points) influence my decision-making?

Right to Counsel

Before the first detention hearing, the court must notify the child and the child's parent, guardian, or custodian of the child's right to legal counsel. [Tex. Fam. Code §§ 51.10\(a\)\(1\), 54.01\(b\)](#). The court shall appoint an attorney after a finding that the child's family is indigent unless the appointment is not feasible due to exigent circumstances. [Tex. Fam. Code § 54.01\(b-1\)](#). Once an attorney is appointed to represent a child, the attorney must continue representation of the child until the case is terminated, the family retains an attorney, or a new attorney is appointed. [Tex. Fam. Code § 51.10\(a\)](#).

The court shall provide the attorney with all written material to be considered in making the detention decision. [Tex. Fam. Code § 54.01\(c\)](#).

Best Practices for Appointing Counsel

Promptly appoint counsel. If there is a question about the parent's or guardian's ability to retain counsel, an attorney should be appointed first, and an inquiry regarding the financial situation of the family should be explored later. Consider appointing counsel with specialized MI or ID training, when possible.

Legislative Change

H.B. 422 (88th Reg. Sess. (2023)) amended [section 54.012](#) of the Texas Family Code to allow juvenile courts to conduct detention hearings as remote proceedings (such as by teleconference or by videoconference) if the parties have the opportunity to cross-examine witnesses. The juvenile court must also submit a plan for conducting remote detention hearings to the Office of Court Administration.

Presumption of Release

At the conclusion of the hearing, the court shall order the child released from detention unless it finds that:

- The child is likely to abscond or be removed from the jurisdiction of the court;
- Suitable supervision, care, or protection for the child is not being provided by a parent, guardian, custodian, or other person;
- The child has no parent, guardian, custodian, or other person able to return the child to court when required;
- The child may be dangerous to themselves or may threaten the safety of the public if released; or
- The child has previously been found to be a delinquent child or has previously been convicted of a penal offense punishable by a term in jail or prison and is likely to commit an offense if released.

[Tex. Fam. Code § 54.01\(e\)](#).

Setting and Enforcing Conditions of Release

A release may be conditioned on requirements reasonably necessary to insure the child's appearance at later proceedings. [Tex. Fam Code § 54.01\(f\)](#). The conditions of release must be in writing, and a copy must be given to the child. *Id.* Possible conditions include meeting with a probation officer or a counselor, living with a particular relative, following a curfew, attending school, or avoiding contact with a peer or alleged victim.

When a child has previously been found unfit to proceed, judges should consider whether that child has the capacity to understand and abide by conditions of release.

If the child violates a condition of release, the order of release may be revoked, and the child can be taken into custody again. [Tex. Fam. Code § 52.01](#).

Considerations for Conditions of Release

Some judges order children, as a condition of release from the detention facility, to participate in psychological evaluations, assessments, counseling sessions, or intake interviews for entry into programs; or to attend medical appointments for medical evaluation or medication management. There are many good reasons for engaging in services at an early stage of a juvenile case, but also some considerations to keep in mind.

It is possible that the child could incriminate themselves during an evaluation or treatment. Defense attorneys may find it necessary to instruct their juvenile clients to avoid discussing the alleged offense during evaluation or services that occur prior to adjudication. Attorneys may consider postponing these activities until they determine how the case will proceed and discuss possible outcomes with the client. Agreements can be made between the parties that anything revealed during such an evaluation will not result in juvenile prosecution. If no agreements are made, the child and their attorney should acknowledge that fact in writing.

Service providers should clearly explain to children whether the assessment or interview is confidential, and to whom the report will be distributed. Service providers can provide the reports directly to defense counsel, to ensure the child's rights were protected and privileges were upheld.

The court and all parties should be aware that any documents or reports that the juvenile probation officer receives directly from a service provider could be items that the prosecution must produce for the defense under the Michael Morton Act.¹²⁰

2. Physical or Mental Examination

The initial detention hearing is usually the first time that the judge and the child's attorney will interact with the child and the child's parent, guardian, or custodian. Although these hearings can be brief and informal, they are an opportunity to gather information about any diagnoses or special needs that the child may have.

At any stage of the proceedings, the juvenile court can, at its own discretion or at the request of the child's parent or guardian, order a physical or mental examination of the child to determine whether the child has a mental illness, has an intellectual disability, or suffers from chemical dependency. [Tex. Fam. Code § 51.20\(a\)](#).

If, after the examination, there is reason to believe the child has MI, ID, or suffers from chemical dependency, the probation department must refer the child to the LMHA, LIDDA, or other provider for evaluation and services, *unless the prosecuting attorney has filed a petition under section 53.04*. [Tex. Fam. Code § 51.20\(b\)](#).

Reflection Point

Ask yourself, as a judge, has equity been considered in prior intercept points? Has a previous or current diagnosis of MI or IDD been overlooked? Are there education records that document diagnoses? Has any party previously sought evaluations for MI or IDD? If not, could the cultural identity, profession, or background of the youth and family be clouding their appropriateness or access to services for MI or IDD?

Has trauma affected the family's ability to access services in any system, including education or juvenile probation? How have I challenged any assumptions I might have made based on cultural identity, profession, or background? Is my jurisdiction gathering local data on whether BIPOC youth are assessed and/or diagnosed with a MI or IDD at higher rates than non-BIPOC youth?

¹²⁰ [Tex. Code of Crim. Proc. art. 39.14](#).

Who May Conduct the § 51.20 Physical or Mental Examination

The examination must be performed by a disinterested expert, including a **physician, psychiatrist, or psychologist**, qualified by education and clinical training in mental health or intellectual disability and experienced in forensic evaluation, to determine whether the child has a mental illness as defined by Section 571.003, Health and Safety Code, is a person with intellectual disability as defined by Section 591.003, Health and Safety Code, or suffers from chemical dependency¹²¹ as defined by Section 464.001, Health and Safety Code. [Tex. Fam. Code § 51.20\(a\)](#).

Judges may consider ordering a trauma-informed examination. The bench card¹²² on page 175 of the appendix contains considerations for eliciting trauma-specific information during an examination, assessment, or report.

A Juvenile Can Have MI or ID and be Fit to Proceed Under Chapter 55

It is important to understand that that a judge may receive information that may not suggest that a juvenile is unfit to proceed under Chapter 55 of the Texas Family Code, but that may suggest that the juvenile has a MI or ID. Such a condition may not render the juvenile unfit to proceed, but it may warrant special consideration and management of the juvenile's case.

Child with Mental Illness, Disability, or Lack of Capacity and Class C Misdemeanors

Texas Penal Code section 8.08 gives courts that have jurisdiction over Class C misdemeanors and municipal ordinance violations a mechanism for the dismissal of cases involving children with diminished capacity.

- When a motion is made, the court must determine whether **probable cause** exists to believe that a child, including a child with a mental illness or developmental disability¹²³:
 1. Lacks the capacity to understand the proceedings in criminal court or to assist in the child's own defense and is unfit to proceed; or
 2. Lacks substantial capacity either to appreciate the wrongfulness of the child's own conduct or to conform the child's conduct to the requirement of the law.
- The state, the defendant, the defendant's parent or guardian, or the court can make the motion.
- If the court determines that probable cause exists that the child is unfit to proceed or lacks substantial capacity, the court can dismiss the case after providing notice to the state.

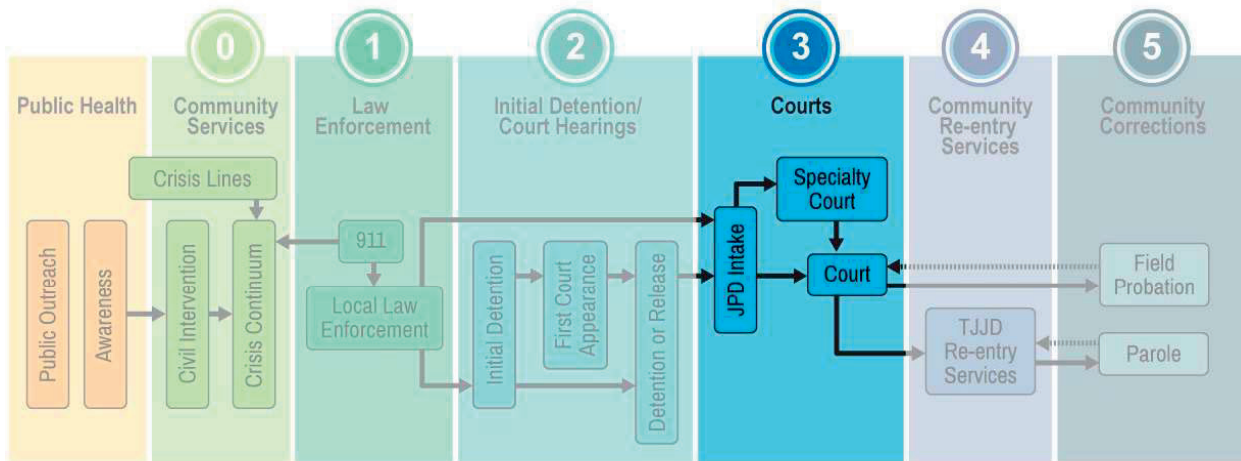

[Tex. Penal Code § 8.08](#).

¹²¹ "Chemical dependency" means: abuse of alcohol or a controlled substance; psychological or physical dependence on alcohol or a controlled substance; or addiction to a controlled substance. [Tex. Health & Safety Code § 464.001\(1\)](#).

¹²² The National Child Traumatic Stress Network, NCTSN Bench Card for Court-Ordered Trauma-Informed Mental Health Evaluation of Child: Sample Addendum (2013), <https://www.nctsn.org/resources/nctsn-bench-cards-trauma-informed-judge>.

¹²³ The statute provides that when a child has diminished capacity, the case against the child can be dismissed. The statute specifically mentions children with a mental illness or a developmental disability, but it does not exclude children who have diminished capacity due to other conditions, e.g., traumatic brain injury, autism spectrum disorder, intellectual disability, or severe emotional disturbance.

3 Intercept 3: Courts

Intercept 3: Courts is historically where most justice system responses to mental health issues occur. At this intercept, the legal, practical, and health consequences for individuals with MI and ID are detrimental and life changing. As a result, judicial support of community-based mental health responses and court-based interventions such as specialty courts and dockets are critical. A supportive, trauma-informed, and developmentally appropriate judicial response that seeks to engage and encourage youth will result in increased trust, compliance, and better outcomes. A bench card from the National Child Traumatic Stress Network¹²⁴ is included in the Appendix to assist judges in gathering the information needed to make good decisions for the children who appear in their courts.

Use of Restraints in Juvenile Court

Texas Rule of Judicial Administration 17,¹²⁵ effective June 1, 2023, prohibits the use of restraints on children during juvenile court proceedings unless the court determines that the use of restraints is necessary because the child presents a substantial risk of inflicting physical harm on themselves or another person; of flight from the courtroom; or of any other factor relevant to assessing risk in the court proceeding.

A party may request an opportunity to be heard on the necessity of restraints. The court may hold a hearing to determine whether the use of restraints is necessary and must, when reasonable, make this determination before the child enters the courtroom and appears before the court.

If the court determines that the use of restraints is necessary, the court must order the least restrictive type of restraint necessary to prevent physical harm or flight; and make findings of fact in support of the determination on the record or in a written order.

[Tex. Rule of Jud. Admin. 17.](#)

A thoughtful discussion on the use of restraints can be found in a recent Children’s Commission report.¹²⁶

¹²⁴ THE NATIONAL CHILD TRAUMATIC STRESS NETWORK, NCTSN BENCH CARD FOR THE TRAUMA-INFORMED JUDGE (2013), <https://www.nctsn.org/resources/nctsn-bench-cards-trauma-informed-judge>

¹²⁵ Texas Rule of Judicial Administration 17 was included in the Supreme Court of Texas’s [Miscellaneous Docket 23-9029](#).

¹²⁶ SUPREME COURT OF TEXAS PERMANENT JUDICIAL COMMISSION FOR CHILDREN, YOUTH AND FAMILIES, RESTRAINTS IN JUVENILE COURT DISCUSSION (2020) <http://texaschildrenscommission.gov/media/84723/restraints-in-juvenile-court-discussion-final-online.pdf> (last visited Aug. 9, 2023).

Chapter 55 of the Family Code deals with children with mental illness or an intellectual disability who are also respondents in the juvenile court process. There are three types of proceedings under Chapter 55: one in which the child is believed to have a mental illness and is diverted from juvenile court; one in which the child is believed to be unfit to proceed in the juvenile system because they lack the ability to understand the proceedings or to assist in their defense due to a mental illness or intellectual disability; and one in which the child should not be held responsible for their conduct because the child could not appreciate its wrongfulness or conform their conduct to the law's requirements at the time the offense was committed due to a mental illness or intellectual disability.¹²⁷ Attorneys and probation officers will have more contact with the child than the judge. A checklist to assist in identifying a child's potential mental health or intellectual disability issues is included in the Appendix.

While communications with a child in juvenile court should always be matched to the age and maturity level of the child, when mental health or intellectual disability concerns have been or may be raised, judges should focus extra attention on how they interact with the child. To reduce shame and stigmatization, judges are encouraged to be thoughtful when discussing a child's mental health or intellectual disability diagnosis or symptoms in open court. The following best practices are recommended for courtroom interactions with youth who have MI or IDD:

Take your time. Consider scheduling extra time for an adjudication or disposition hearing involving a child with MI or IDD. Allow time for questions, processing, and rephrasing of admonishments and conditions. Be mindful of signs that the child may be overwhelmed and take a break if needed. Review the outcome of the hearing and use open-ended questions to determine the child's level of understanding.

Give information more than once. Be prepared to repeat and rephrase concepts. It may be helpful for attorneys to meet with their child client several times before the court hearing.

Avoid legalese and jargon. Keep language simple and appropriate for the child's developmental level. Explain procedures step by step. Be concrete and avoid abstract concepts.

Meet children where they are. Minimize distractions in the courtroom. Allow the child to bring a sensory or calming object in the courtroom. Talk to the child, not at or around them. Listen actively. Give the child the opportunity to communicate through alternative means. Highlight successes.

Reflection Point

Ask yourself, as a judge, has trauma created a lack of ability to access services by the family in any system including education or juvenile probation? Has any party sought deferred prosecution in favor of outpatient treatment in the community? Has any party filed a Chapter 55 motion? Have I helped to destigmatize mental health and intellectual and developmental disability? Have I made assumptions about who is present in the courtroom, overlooking transportation or other concerns in favor of shortcuts and assumptions about whether the family cares about the well-being of their child? What assumptions am I making without asking the child who are the important people in their life and who the court should invite to assist the family with the child?

Have I made assumptions based on the social media accounts, pictures, or posts of an adolescent as if they were an adult? How might my assumptions influence my decision making? How have I challenged any assumptions I might have made based on cultural identity, profession, or background?

¹²⁷ ROBERT DAWSON, TEXAS JUVENILE LAW 333 (Nydia Thomas and Kaci Singer, eds., 9th ed. 2018).

Legislative Change

S.B. 1585 (88th Reg. Sess. (2023)) rewrote and reorganized Chapter 55. The criteria for court-ordered mental health services and court-ordered intellectual disability services are now directly incorporated into Chapter 55, in new sections 55.05 and 55.06. The minimum qualifications for performing forensic mental examinations were updated and are found in section 55.04, as were the examination and report requirements that are found in section 55.31. Other revisions were made, including the addition of new Subchapter E, which governs all proceedings concerning court-ordered mental health and residential intellectual disability services. Judges, attorneys, and others who work in juvenile courts are encouraged to thoroughly review the revised Chapter 55 and update forms with the new statutory citations.

1. Mental Health Services When a Juvenile Case is Pending

When used in Texas Family Code Chapter 55, “mental illness” means “an illness, disease, or condition, other than epilepsy, senility, alcoholism, or mental deficiency, that: (A) substantially impairs a person’s thought, perception of reality, emotional process, or judgment; or (B) grossly impairs behavior as demonstrated by recent disturbed behavior.” [Tex. Fam. Code § 55.01](#), [Tex. Health & Safety Code § 571.003\(14\)](#). At any stage of the proceedings, the juvenile court may order a child to be examined for mental illness, an intellectual disability, or chemical dependency. [Tex. Fam. Code § 51.20\(a\)](#).

- If a child is referred to the juvenile department for delinquent conduct or a CINS offense, but the prosecutor does not file a petition alleging the conduct, the juvenile department must refer the case to the LMHA/LBHA or LIDDA for evaluation and services if there is reason to believe the child has mental illness or an intellectual disability. [Tex. Fam. Code § 51.20\(b\)](#).
- If the prosecutor has already filed a petition, the matter is handled under Texas Family Code Chapter 55.

Diversion from Juvenile Court to Court-Ordered Mental Health Services

When a child has a mental illness, as defined above, but is not necessarily unfit to proceed or not responsible for their conduct due to mental illness, juvenile court proceedings can be stayed while the child receives court-ordered mental health treatment. The mechanism for this process is Subchapter B of Texas Family Code Chapter 55.

Raising the Issue

- The issue can be raised at any time, by any party, so long as the child is alleged by petition or has been found to have engaged in delinquent conduct or CINS. [Tex. Fam. Code § 55.11\(a\)](#).

Reflection Point

Judges should be aware that for many children and families, due to significant stigmatization of mental illness and IDD concerns, this may be the first opportunity for the child to have an evaluation and receive treatment. Discretion and dignity, rather than judgment, is recommended. It is possible that child-serving systems, including education, medical, prior involvement with the LMHA or LIDDA, and juvenile justice systems have overlooked the needs of a child in this situation. Judge should also be aware that children could be experiencing two or more conditions concurrently, qualifying them for additional treatment.

- Once the motion is filed, the court must conduct a hearing to determine whether or not **probable cause** exists to believe that the child has a mental illness. In making its determination on the issue

of probable cause, the court can consider the motion, supporting documents, professional statements of counsel, witness testimony, and the court's own observation of the child. [Tex. Fam. Code § 55.11\(a\)](#).

Observation of the Child

Because the statute allows for the court to use observations of the child in its probable cause determination, it is important that the court monitor how the child interacts with others and the environment, including parents, guardians, caregivers, lawyers, as well as other court participants. The court can also observe whether the child appears to be attending to internal matters or is overly confident, and the child's physical appearance, including whether the child is appropriately dressed, well-nourished, and practicing proper hygiene.

- If the court determines that probable cause exists to believe that the child has a mental illness, then all juvenile court proceedings must be temporarily stayed, and the judge must order the child to have a forensic mental evaluation under section 55.04. [Tex. Fam. Code § 55.11\(b\)](#).
 - The information obtained from the examination must include: expert opinion¹²⁸ as to whether the child has a mental illness; and whether the child meets the criteria for court-ordered mental health services under Section 55.05 for temporary or extended inpatient mental health services or temporary or extended outpatient mental health services, and the specific criteria the child meets. [Tex. Fam. Code § 55.11\(b\)](#).
 - The information may also include expert opinion as to whether or not the child is unfit to proceed with the juvenile court proceedings and whether the child lacked responsibility for their conduct at the time of the offense. However, the issues of fitness and lack of responsibility are neither automatically raised by the suggestion of mental illness, nor are they a prerequisite for mental health services. [Tex. Fam. Code §§ 51.20, 55.04](#).
 - It is a best practice to ensure the expert has collected and reviewed the child's school records, hospital records, and service provider records. Juvenile probation departments should provide these records to the expert.
- Once the court receives the report from the examination of the child, and after considering all relevant information, including the report, the court must determine whether or not evidence exists to support a finding that the child has a mental illness and that the child meets the criteria for court-ordered mental health services under Section 55.05. [Tex. Fam. Code § 55.11\(c\)\(1\)](#).
- If the court determines that evidence does not exist to support a finding that the child is a child with mental illness or that the child does not meet the criteria for court-ordered mental health services under Section 55.05, the court must **dissolve the stay** and continue the juvenile court proceedings as if the issue had not been raised. [Tex. Fam. Code § 55.11\(c\)\(2\)](#).

Initiation of Proceedings for Court-Ordered Mental Health Services

If the court determines that evidence exists to support a finding that the child is a child with mental illness and that the child meets the criteria for court-ordered mental health services, the court shall:

- Initiate proceedings in juvenile court under [Section 55.65](#) to order temporary or extended mental health services, as provided by this chapter and Subchapter C, Chapter 574, Health and Safety Code; or
- Refer the child's case as provided by [Section 55.68](#) to the appropriate probate court to order temporary or extended mental health services for the child under this chapter and Subchapter C, Chapter 574, Health and Safety Code.

¹²⁸ The expert opinion can be from a psychologist (see [Texas Family Code section 55.04](#)); however, if the child meets the criteria for hospitalization, it will be necessary to have two medical doctors evaluate the child, as two Certificates of Medical Examinations (CMEs) are required for court-ordered mental health services.

Legislative Change

As part of the reorganization of Chapter 55 due to S.B. 1585 (88th Reg. Sess. (2023)), all proceedings for temporary or extended court-ordered mental health and IDD services were consolidated into new Subchapter E, containing Texas Family Code sections 55.65, 55.66, 55.67, and 55.68.

Juvenile Court or Probate Court

The choice of whether to proceed with court-ordered services in juvenile court or to refer the proceedings to a county or probate court rests exclusively with the juvenile court. A juvenile court that hears court-ordered services proceedings infrequently may prefer to have the county or probate court conduct them. The standards for court-ordered services are the same, regardless of which court holds the hearing. County or probate courts may have more frequent interaction with community-based treatment options, private placements, and state facilities. Judges in a community can discuss available resources to determine which approach is advantageous for their constituents. If the juvenile court chooses to refer the case to a county or probate court, it is important to be aware of the child's right to seal their records and to maintain ongoing communication concerning the child's progress and case status.

Referral of Proceedings to Appropriate County or Probate Court

If the case is referred to an appropriate county or probate court, the judge of that court completes the process for court-ordered mental health services. The juvenile court must send all papers, including evaluations, examination reports, court findings, orders, verdicts, judgments, and reports from facilities and alternative settings, relating to the child's mental illness to both the clerk of the court to which the case is referred, and to the office of the appropriate county or district attorney. [Tex. Fam. Code §§ 55.68\(a\)\(1\), \(2\)](#). The papers sent to the clerk of a court constitute an application for mental health services under Section 574.001, Health and Safety Code. [Tex. Fam. Code § 55.68\(b\)](#).

If the child is in detention, the judge has three options:

- Order the child released from detention to the child's home or another appropriate place;
- Order the child detained or placed in an appropriate place other than a juvenile detention facility; or
- Conduct a detention hearing and, if the court makes findings under Section 54.01 to support further detention of the child, order the child to remain in the juvenile detention facility subject to further detention orders of the court.

[Tex. Fam. Code §§ 55.68\(c\), 55.65\(e\), 55.66\(d\), 55.67\(d\)](#).

The juvenile court proceedings are stayed until the proceedings in county or probate court are completed with a finding of no mental illness, or the child is returned from temporary or extended mental health services and the juvenile court does not issue an order for temporary or extended mental health services. [Tex. Fam. Code §§ 55.16\(b\), 55.17\(b\)](#).

Application for Court-Ordered Mental Health Services

- Either the prosecutor or the child's attorney can file an application for court-ordered mental health services under Section 574.001, Health and Safety Code. [Tex. Fam. Code § 55.65\(a\)](#).

- The application must be filed in the county where the child resides or is found. [Tex. Health & Safety Code § 574.001\(b\)](#).
- If the child is in the custody of the Texas Juvenile Justice Department, the application can be filed in the county in which the child’s commitment to TJJD was ordered. [Tex. Health & Safety Code § 574.001\(f\)](#).

What Should be Included in the Application

An application must:

- Be styled using the child’s initials and not the proposed patient’s full name;
- State whether the application is for temporary or extended services;¹²⁹
- The child’s name, address, and county of residence in Texas;
- A statement that the child is a person with mental illness and meets the criteria in Chapter 574 for court-ordered mental health services; and
- Whether the child is charged with a criminal offense.

[Tex. Health & Safety Code §§ 574.002\(b\), \(c\)](#).

Application Requirements for Extended v. Temporary Court-Ordered Services

Applications for **extended** court-ordered services have several statutory requirements that applications for **temporary** court-ordered services do not require.

- An application for **extended inpatient** mental health services must state that the child has received:
 - *Court-ordered inpatient mental health services* under either **this subtitle** or under Chapter 46B, Subchapter D of the Texas Code of Criminal Procedure (Procedures after Determination of Incompetency) or Subchapter E (Civil Commitment: Charges Pending) for *at least 60 consecutive days during the prior 12 months*.
- An application for **extended outpatient** mental health services must state that the child has received:
 - *Court-ordered inpatient mental health services* under either **this subtitle** or under Chapter 46B, Subchapter D or E of the Texas Code of Criminal Procedure for *a total of at least 60 days during the prior 12 months*; OR
 - *Court-ordered outpatient mental health services* **under this subtitle** or Chapter 46B, Subchapters D or E *during the preceding 60 days*.

[Tex. Health & Safety Code § 574.002\(b\)](#).

Appointment and Duties of an Attorney under HSC 574.004

- The judge **must** appoint an attorney for the child within 24 hours after the application is filed unless the child already has an attorney. [Tex. Health & Safety Code § 574.003\(a\)](#).
- Texas codifies the duties that an attorney has toward a client in a court-ordered services proceeding in section 574.004, and the court is required to give a copy of these duties to every court-appointed attorney. [Tex. Health & Safety Code § 574.003\(b\)](#).

¹²⁹ Some attorneys file one application for both temporary and extended services, in the alternative and tracking each statute, to allow the court broad discretion.

The Statutory Responsibility of Attorneys in Court-Ordered Services Cases

The requirements set forth in section 574.004 of the Texas Health and Safety Code were the result of publicity surrounding the actions of some court-appointed lawyers who were not communicating with **adult** clients before hearings or were conducting group interviews with multiple adult clients. “The publicity surrounding such inappropriate and inadequate representation caused the Legislature to strengthen the rights of patients.”¹³⁰

Note that the Rules of Professional Conduct governing attorneys comment specifically on the attention and respect that is to be given to every client, regardless of whether the client has with a mental illness. Comment 5 to Rule 1.02 of the TDRPC states: “When a lawyer reasonably believes a client suffers a mental disability or is not legally competent, it may not be possible to maintain the usual attorney-client relationship. Nevertheless, the client may have the ability to understand, deliberate upon, and reach conclusions about some matters affecting the client’s own well-being... the fact that a client [has] a disability does not diminish the desirability of treating the client with attention and respect.”

- Included in the list of duties owed by the attorney to the proposed patient is that the attorney must respect the client’s decision to agree or resist the efforts to provide mental health services, even though they may personally disagree with the client’s wishes. Though the attorney may provide counsel, the attorney must abide by the client’s final decision on the matter. [Tex. Health & Safety Code § 574.004\(c\)](#). At times, an attorney’s duties may conflict with their client’s evaluation and treatment.

Setting the Hearing

- The court must set a hearing within 14 days of the date the application was filed but may not hold a hearing within the first three days after the application is filed, if the child or their attorney objects. [Tex. Fam. Code § 55.65\(a\)\(1\)](#); [Tex. Health & Safety Code §§ 574.005\(a\), \(b\)](#).
 - There are witnesses who may appear at the hearing to present evidence, who may be unknown to the parties prior to the hearing date. If either party wishes, they may request a continuance based on surprise and the court may continue the hearing date. [Tex. Health & Safety Code § 574.006\(d\)](#).
- While the court may grant continuances of the hearing, the final hearing must be held no later than 30 days from the date the application was filed. The only exception is for extreme weather or disaster, in which case the judge may, by a written order each day, postpone the hearing for 24 hours. [Tex. Health & Safety Code § 574.005\(c\)](#).
- The child and their attorney are entitled to receive a copy of the application and written notice of the court hearing immediately after it is set. Notice must also be delivered in person or via certified mail to the child’s:
 - **Parent, if a minor**; or
 - Appointed guardian, if applicable; or
 - **Each managing and possessory conservator**, if applicable. [Tex. Health & Safety Code § 574.006\(b\)](#). It is important for all parties to know that a child may be in the temporary or permanent conservatorship of the Department of Family and Protective Services.
- If a parent cannot be located, and the child does not have a guardian or conservator, the notice may be given to the proposed patient’s next of kin. [Tex. Health & Safety Code § 574.006\(c\)](#).

The court has additional tasks to complete before holding the hearing:

¹³⁰ Hon. Guy Herman, Mental Health Law 8 (Aug. 2019) (unpublished manuscript) (on file with the Judicial Commission on Mental Health).

- The court must direct the local mental health authority to file its recommendation for the child’s proposed treatment, as required by Section 574.012, Health and Safety Code, before the hearing date;
- Identify the person responsible for court-ordered **outpatient mental health services** not later than the third day before date set for a hearing that may result in the court ordering the child to receive court-ordered outpatient mental health services, as required by Section 574.0125, Health and Safety Code.

Tex. Fam. Code §§ 55.65(a)(2), (3).

Medical Examination Requirement

- The judge must appoint the number of physicians necessary (at least two) to examine the child and to complete the certificates of medical examination (CMEs) for mental illness required by Section 574.009, Health and Safety Code. [Tex. Fam. Code § 55.65\(a\)\(4\)](#).
 - The two CMEs must be completed by different physicians, from examinations that occurred within the preceding 30 days, and are required to be on file with the court. At least one of the physicians must be a psychiatrist, if a psychiatrist is available in the county. [Tex. Health & Safety Code § 574.009\(a\)](#).
- The court also has the authority to order an independent evaluation of the child, by a psychiatrist of the child’s choosing, if the court feels it will assist the finder of fact. If the child is indigent, the county may reimburse the child’s appointed attorney for any expenses incurred in securing the psychiatrist’s testimony. [Tex. Health & Safety Code §§ 574.010\(a\), \(b\)](#).

What Should a CME for Mental Illness Include?

1. Name and address of examining physician
2. Name and address of the child examined
3. Date and place of examination
4. Brief diagnosis of the child’s physical and mental condition
5. The time period, if any, the child has been under the physician’s care
6. A description of the mental health treatment the examining physician has given to the child, if any
7. The examining physician’s opinion that:
 - a. The child is a person with mental illness; and
 - b. As a result of that illness the child is likely to cause serious harm to the child or to others or is:
 - i. Suffering severe and abnormal mental, emotional, or physical distress;
 - ii. Experiencing substantial mental or physical deterioration of the child’s ability to function independently, exhibited by the inability to provide for basic needs; and
 - iii. Not able to make a rational and informed decision as to whether to submit to treatment.

The examining physician must be as specific and detailed as possible as to which criterion forms the basis of their opinion, and if it is offered in support of an application for extended court-ordered services, must state that the child’s condition is likely to continue for more than 90 days. [Tex. Health & Safety Code § 574.011](#). The CMEs must be completed within 30 days of the hearing for court-ordered services. [Tex. Health & Safety Code § 574.009\(a\)](#).

Proceedings for Court-Ordered Mental Health Services

- The child is entitled to be present at the hearing, but the child or their attorney may waive this right. [Tex. Health & Safety Code § 574.031\(c\)](#).
- The hearing must be open to the public unless the child or their attorney request that it be closed, and the court finds good cause to do so. [Tex. Health & Safety Code § 574.031\(d\)](#).
 - Generally, juvenile court proceedings are open to the public unless good cause is shown to exclude the public. [Tex. Fam. Code § 54.08\(a\)](#).
 - If a child is under the age of 14 at the time of the hearing, the court **shall close** the hearing to the public, unless the court finds that the interests of the child or the public would be better served by opening the hearing to the public. [Tex. Fam. Code § 54.08\(c\)](#).
- In a hearing for *temporary* inpatient or outpatient mental health services, the child or their attorney may waive the right to cross-examine witnesses by filing a written waiver with the court. If that right is waived, the court may admit the CMEs as evidence, the CMEs will constitute competent medical or psychiatric testimony, and the court can make its findings based solely on the CMEs. [Tex. Health & Safety Code § 574.031\(d-1\)](#).
- In a hearing for *extended* inpatient or outpatient mental health services, the court must hear testimony and cannot make findings solely from the CMEs. [Tex. Health & Safety Code § 574.031\(d-2\)](#).
- Unlike the probable cause hearing, the final hearing is governed by the Texas Rules of Evidence unless otherwise stated in this subtitle. [Tex. Health & Safety Code § 574.031\(e\)](#).
- Each element of the applicable criteria must be proven by **clear and convincing evidence**, and the hearing must be on the record. [Tex. Health & Safety Code § 574.031\(g\)](#).
- The court may consider the testimony of a non-physician mental health professional in addition to medical or psychiatric testimony. [Tex. Health & Safety Code § 574.031\(f\)](#).
- The hearing for *temporary* mental health services must be before the court unless the child or their attorney requests a jury trial. A hearing for *extended* mental health services must be in front of a jury unless waived by the child or their attorney. The waiver must be sworn and signed unless orally made in the court's presence. [Tex. Health & Safety Code §§ 574.032\(a\), \(b\), and \(c\)](#). The court may allow a jury waiver to be withdrawn for good cause shown no later than the eighth day before the hearing. [Tex. Health & Safety Code § 574.032\(d\)](#).
 - If the hearing is before a jury, the jury must determine if the child is a person with mental illness and meets the criteria for court-ordered services; however, the jury cannot make a finding regarding the type of services to be provided. [Tex. Health & Safety Code § 574.032\(f\)](#).
- The party who filed the application has the burden of proof. [Tex. Fam. Code § 55.65\(b\)](#).
- After conducting the hearing, the juvenile court shall:
 - If the criteria under **Section 55.05(a) or (b)** are satisfied, order temporary inpatient or outpatient mental health services for the child under Chapter 574, Health and Safety Code; or
 - If the criteria under **Section 55.05(c) or (d)** are satisfied, order extended inpatient or outpatient mental health services for the child under Chapter 574, Health and Safety Code.[Tex. Fam. Code §§ 55.65\(c\)\(1\), \(2\)](#).

Criteria for Court-Ordered Mental Health Services

S.B. 1585 (88th Reg. Sess. (2023)) incorporated the criteria for court-ordered mental health services that are found in the Texas Health and Safety Code directly into Chapter 55 by creating new section 55.05.

After conducting a hearing on an application... *and with consideration given to the least restrictive appropriate setting* for treatment of the child and to the parent's, managing conservator's, or guardian's availability and willingness to participate in the treatment of the child, the juvenile court shall order court-ordered services if the criteria are satisfied. [Tex. Fam. Code § 55.65\(c\)](#).

Criteria for Court-Ordered Temporary Inpatient Mental Health Services

- The judge may order a child to receive temporary inpatient mental health services only if the court finds, from **clear and convincing evidence**, that:
 - The child is a child with mental illness; and
 - As a result of that mental illness the child:
 - Is likely to cause serious harm to the child's self;
 - Is likely to cause serious harm to others; or
 - Is:
 - Suffering severe and abnormal mental, emotional, or physical distress;
 - Experiencing substantial mental or physical deterioration of their ability to function independently; and
 - unable to make a rational and informed decision as to whether or not to submit to treatment.

[Tex. Fam. Code § 55.05\(a\)](#).

- The judge or jury must specify which criteria form the basis for the decision, should the judge or jury decide the child meets the criteria for court-ordered mental health services. [Tex. Health & Safety Code § 574.034\(c\)](#).

Orders that Clearly Specify Criteria for Court-Ordered Services

The Health and Safety Code requires that orders for temporary or extended inpatient treatment must specify the criteria upon which the judge or jury is basing their decision. There is conflicting case law in this area. Some appellate courts have allowed an order to submit the criteria in the disjunctive (i.e., listing the criteria with OR), while other courts have found that listing the criteria in the conjunctive (with AND) is the only way to ensure that there are specific findings.¹³¹

A suggested practice to avoid any confusion is to take the word "or" out of any order for temporary or extended inpatient treatment, thus requiring specific findings on any of the criteria listed.

- For the judge or jury to make a finding on the above requirements by a **clear and convincing evidence** standard, the evidence must include expert testimony and, unless waived, evidence of a recent overt act¹³² or a continuing pattern of behavior that tends to confirm:
 - The likelihood of serious harm to the child or others; or
 - The child's distress and the child's deterioration of ability to function. [Tex. Health & Safety Code § 574.034\(d\)](#).

¹³¹ Hon. Guy Herman, Mental Health Law 8 (Aug. 2019) (unpublished manuscript) (on file with the Judicial Commission on Mental Health).

¹³² Note that the Texas Supreme Court in *State v. K.E.W.*, clarified the "overt act" requirement. The Court held that the act does not have to be actually harmful or demonstrate that harm to others is imminent. The case also states that speech alone may be considered an overt act. *State v. K.E.W.*, 315 S.W.3d 16, 24 (Tex. 2010).

- An order for temporary inpatient services must include a treatment period of not more than 45 days, except that the judge may order 90 days if they find the longer period necessary.¹³³ [Tex. Health & Safety Code § 574.034\(g\)](#).
- A judge may not issue an order for temporary inpatient mental health services for a proposed patient who is charged *with a criminal offense* that involves an act, attempt, or threat of serious bodily injury to another person. [Tex. Health & Safety Code § 574.034\(h\)](#).
 - A child alleged to have engaged in delinquent conduct or CINS is **not** considered to be a person charged with a criminal offense. [Tex. Health & Safety Code § 571.011\(a\)](#).

Criteria for Court-Ordered Temporary Outpatient Mental Health Services

- The judge may order a child to receive temporary outpatient mental health services only if the court finds:
 - That appropriate mental health services are available to the child; and
 - **Clear and convincing evidence** that:
 - The child is a child with severe and persistent mental illness;
 - As a result of the mental illness, the child will, if not treated, experience deterioration of the ability to function independently to the extent that the child will be unable to live safely in the community without court-ordered outpatient mental health services;
 - Outpatient mental health services are needed to prevent a relapse that would likely result in serious harm to the child or others; and
 - The child has an inability to participate in outpatient treatment services effectively and voluntarily, demonstrated by:
 - Any of the child’s actions occurring within the two-year period preceding the date of the hearing; or
 - Specific characteristics of the child’s clinical condition that significantly impair the child’s ability to make a rational and informed decision as to whether to submit to voluntary outpatient treatment.

[Tex. Fam. Code § 55.05\(b\)](#).

- For the judge or jury to make a finding on the above requirements by a **clear and convincing** evidence standard, the evidence must include expert testimony and evidence of a recent overt act or a continuing pattern of behavior that tends to confirm:
 - The deterioration of ability to function independently to the extent that the child will be unable to live safely in the community;
 - The need for outpatient mental health services to prevent a relapse that would likely result in serious harm to the child or others; and
 - The child’s inability to participate in outpatient treatment services effectively and voluntarily.

[Tex. Health & Safety Code § 574.0345\(b\)](#).

¹³³ A facility must still release a person if they no longer meet the criteria for court-ordered mental health services, even if the court-mandated time period has not elapsed. *O’Connor v. Donaldson*, 422 U.S. 563, 574-75 (1975) (“even if his involuntary confinement was initially permissible, it could not constitutionally continue after that basis no longer existed.”)

- An order for temporary outpatient mental health services must state that treatment is authorized for not longer than 45 days, but the judge may specify a period up to 90 days if they find it necessary. [Tex. Health & Safety Code § 574.0345\(c\)](#).
- A judge may not issue an order for temporary outpatient mental health services for a proposed patient who is charged with a criminal offense that involves an act, attempt, or threat of serious bodily injury to another person. [Tex. Health & Safety Code § 574.0345](#).
 - A child alleged to have engaged in delinquent conduct or CINS is **not** considered to be a person charged with a criminal offense. [Tex. Health & Safety Code § 571.011\(a\)](#).

Criteria for Court-Ordered Extended Inpatient Mental Health Services

- The judge may order a child to receive extended inpatient mental health services only if the court finds, from **clear and convincing evidence**, that:
 - The child is a child with mental illness;
 - As a result of that mental illness the child:
 - Is likely to cause serious harm to the child's self;
 - Is likely to cause serious harm to others; or
 - Is:
 - Suffering severe and abnormal mental, emotional, or physical distress;
 - Experiencing substantial mental or physical deterioration of the child's ability to function independently; and
 - Unable to make a rational and informed decision as to whether or not to submit to treatment;
 - The child's condition is expected to continue for more than 90 days; and
 - The child has received court-ordered inpatient mental health services under this chapter or under Chapter 574, Health and Safety Code, for at least 60 consecutive days during the preceding 12 months.

[Tex. Fam. Code § 55.05\(c\)](#).

- If the court finds that the child meets the criteria listed above, the court must specify which criterion forms the basis for the decision. [Tex. Health & Safety Code § 574.035\(c\)](#).
- The court is not required to find a specific criterion if the child has already been subject to an order for extended mental health services. [Tex. Health & Safety Code § 574.035\(d\)](#).
- To be **clear and convincing**, the evidence must include expert testimony and evidence of a recent overt act or a continuing pattern of behavior that tends to confirm:
 - The likelihood of serious harm to the child or others; or
 - The child's distress and the deterioration of the child's ability to function.

[Tex. Health & Safety Code § 574.035\(e\)](#).

- An order for extended inpatient mental health services must provide for a period of treatment not to exceed 12 months. [Tex. Health & Safety Code § 574.035\(h\)](#).
- A judge may not issue an order for extended inpatient mental health services for a proposed patient who is charged with a criminal offense that involves an act, attempt, or threat of serious bodily injury to another person. [Tex. Health & Safety Code § 574.035\(i\)](#).
 - A child alleged to have engaged in delinquent conduct or CINS is **not** considered to be a person charged with a criminal offense. [Tex. Health & Safety Code § 571.011\(a\)](#).

Criteria for Court-Ordered Extended Outpatient Mental Health Services

- The judge may order a child to receive extended outpatient mental health services only if:
 - The judge finds that appropriate mental health services are available to the child; and
 - The judge or jury finds, from **clear and convincing evidence**, that:
 - The child is a child with severe and persistent mental illness;
 - As a result of the mental illness, the child will, if not treated, experience deterioration of the ability to function independently to the extent that the child will be unable to live safely in the community without court-ordered outpatient mental health services;
 - Outpatient mental health services are needed to prevent a relapse that would likely result in serious harm to the child or others;
 - The child has an inability to effectively and voluntarily participate in outpatient treatment services, demonstrated by:
 - Any of the child's actions occurring within the two-year period preceding the date of the hearing; or
 - Specific characteristics of the child's clinical condition that significantly impair the child's ability to make a rational and informed decision whether to submit to voluntary outpatient treatment;
 - The child's condition is expected to continue for more than 90 days; and
 - The child has received:
 - Court-ordered inpatient mental health services under this chapter or under Chapter 574, Health and Safety Code, for at least 60 consecutive days during the preceding 12 months; or
 - Court-ordered outpatient mental health services under this chapter or under Chapter 574, Health and Safety Code, during the preceding 60 days.

[Tex. Fam. Code § 55.05\(d\)](#).

- If the child has already been subject to an order for extended mental health services, the court does not need to make that finding again. [Tex. Health & Safety Code § 574.0355\(b\)](#).
- To be **clear and convincing**, the evidence must include expert testimony and evidence of a recent over act or a continuing pattern of behavior that tends to confirm:
 - The deterioration of the ability to function independently to the extent that the child will be unable to live safely in the community;
 - The need for outpatient mental health services to prevent a relapse that would likely result in serious harm to the child or others; and
 - The child's inability to participate in outpatient treatment services effectively and voluntarily.

[Tex. Health & Safety Code § 574.0355\(c\)](#).

- An order for extended outpatient mental health services must provide for a period of treatment not to exceed 12 months. [Tex. Health & Safety Code § 574.0355\(d\)](#).
- A judge may not issue an order for extended outpatient mental health services for a child who is charged with a criminal offense that involves an act, attempt, or threat of serious bodily injury to another person. [Tex. Health & Safety Code § 574.0355\(e\)](#).

- A child alleged to have engaged in delinquent conduct or CINS is **not** considered to be a person charged with a criminal offense. [Tex. Health & Safety Code § 571.011\(a\)](#).

Open and Frequent Communication Between Courts and LMHAs/LBHAs

To maintain the most up-to-date information about the availability of outpatient mental health treatment services, courts should ensure that they are familiar with their LMHA/LBHA and have a contact person who can provide them with available resources.

Legislative Change

S.B. 728 (88th Reg. Sess. (2023)) added clarification to the federal firearms reporting requirements found in [Sections 411.052 and 411.0521](#) of the Texas Government Code and amended [Section 58.007\(a\)](#) of the Texas Family Code.

These statutes now clearly require that children who are at least 16 years of age, and who have been found unfit to proceed, found not responsible for their conduct, ordered to receive inpatient mental health services, or are ordered to receive intellectual disability services in a residential care facility, are to be reported to the FBI National Instant Criminal Background Check System (NICS) and to the Texas Department of Public Safety.

Mental Health Services Not Ordered

- If the juvenile court, or the county or probate court to which the child's case was referred does not order temporary or extended mental health services for the child, the court must dissolve the stay and continue the juvenile court proceedings. [Tex. Fam. Code § 55.17](#).
- The § 51.20 report or § 55.04 forensic mental evaluation should be helpful to the parties in determining how to proceed with the case, and in considering what disposition or treatment options would be beneficial for the child.
 - Options include evaluation for inclusion in a specialty court, diversion program, Deferred Prosecution Program, or deferral of the finding of True / Not True while the child receives treatment or referrals to the CRCG, LMHA, or LIDDA.

Discharge from Court-Ordered Inpatient or Outpatient Mental Health Services Before Reaching 18 Years of Age

- If the child is discharged from the mental health facility or from outpatient treatment services before reaching 18 years of age, the juvenile court **may dismiss** the juvenile court proceedings with prejudice; or dissolve the stay and continue with proceedings as though no order of mental health services had been made. [Tex. Fam. Code § 55.18](#).

Discretionary Transfer to Criminal Court on 18th Birthday

- If the child is not discharged or furloughed from the inpatient mental health facility before reaching 18 years of age; and is alleged to have engaged in delinquent conduct that included a violation of a penal law listed in [Section 53.045](#) of the Texas Family Code (Offenses Eligible for Determinate Sentence) and no adjudication concerning the alleged conduct has been made, the juvenile court **may waive its exclusive original jurisdiction** and transfer all pending proceedings from the juvenile court to a criminal court on or after the child's 18th birthday. [Tex. Fam. Code § 55.19\(a\)](#).

- A court conducting a waiver of jurisdiction and discretionary transfer hearing under this section shall conduct the hearing according to Sections 54.02(j), (k), and (l). [Tex. Fam. Code § 55.19\(b\)](#).

Discretionary Transfer Hearing

- i. The juvenile court may waive its exclusive original jurisdiction and transfer a person to the appropriate district court or criminal district court for criminal proceedings if:
 1. The person is 18 years of age or older;
 2. The person was:
 - A. 10 years of age or older and under 17 years of age at the time the person is alleged to have committed a capital felony or and offense under [Section 19.02](#), Penal Code;
 - B. 14 years of age or older and under 17 years of age at the time the person is alleged to have committed and aggravated controlled substance felony or a felony of the first degree other than an offense under [Section 19.02](#), Penal Code; or
 - C. 15 years of age or older and under 17 years of age at the time the person is alleged to have committed a felony of the second or third degree or a state jail felony;
 3. No adjudication concerning the alleged offense has been made or no adjudication hearing concerning the offense has been conducted;
 4. The juvenile court finds from a **preponderance of the evidence** that:
 - A. For a reason beyond the control of the state it was not practicable to proceed in juvenile court before the 18th birthday of the person; or
 - B. After due diligence of the state it was not practicable to proceed in juvenile court before the 18th birthday of the person because:
 - i. The state did not have probable cause to proceed in juvenile court before the 18th birthday of the person;
 - ii. The person could not be found; or
 - iii. A previous transfer order was reversed by an appellate court or set aside by a district court; and
 5. The juvenile court determines that there is probable cause to believe that the child before the court committed the offense alleged.
- j. The petition and notice requirements of Sections [53.04](#), [53.05](#), [53.06](#), and [53.07](#) of this code must be satisfied, and the summons must state that the hearing is for the purpose of considering waiver under Subsection (j). The person's parent, custodian, guardian, or guardian ad litem is not considered a party to a proceeding under Subsection (j) and it is not necessary to provide the parent, custodian, guardian, or guardian ad litem with notice.
- k. The juvenile court shall conduct a hearing without a jury to consider waiver of jurisdiction under Subsection (j). Except as otherwise provided by this subsection, a waiver of jurisdiction under Subsection (j) may be made without the necessity of conducting a diagnostic study or complying with the requirements of discretionary transfer proceedings under Subsection (d). If requested by the attorney for the person at least 10 days before the transfer hearing, the court shall order that the person be examined pursuant to [Section 51.20\(a\)](#) and that the results of the examination be provided to the attorney for the person and the attorney for the state at least five days before the transfer hearing.

[Tex. Fam. Code §§ 54.02\(j\), \(k\), and \(l\)](#).

- The juvenile court must notify the mental health facility of the transfer. [Tex. Fam. Code § 55.19\(c\)](#).
- Within 90 days of the transfer, the criminal court must initiate competency proceedings under Chapter 46B, Code of Criminal Procedure, or the case is dismissed. If the person is competent to

stand trial, they cannot receive a punishment that results in confinement for a period longer than what they could have received, had they been adjudicated in juvenile court. [Tex. Fam. Code § 55.19\(c\)](#).

2. Specialty Courts

Specialty courts focus on treating the underlying issues that may be causing delinquent behavior. Mental health courts are a type of specialty court. Both pre-adjudication and post-adjudication mental health courts are in practice in Texas. They combine accountability through judicial supervision with treatment and other support services to prevent recidivism and improve the lives of their participants. Although counties with a population of more than 200,000 are required to establish a mental health court under [section 125.005](#) of the Texas Government Code, the requirement does not appear to apply to juvenile courts.

The benefits of a juvenile mental health court are many: such a program will keep children close to home and family, provide services in the community, connect families to resources that they can use after the program concludes, and reduce recidivism by treating the cause of the behavior instead of the symptoms. Finally, an effective juvenile mental health court can save a jurisdiction the high costs associated with placing a child in a Residential Treatment Center or committing a child to TJJD.

Reflection Point

Consider whether family resources impact which youth are provided with opportunities to participate in diversion programs or services.

Statutory Requirements

A “mental health court program” has the following essential characteristics:

- Integrates and provides access to MI and ID treatment services in processing cases in the court system;
- Uses a non-adversarial approach involving prosecutors and defense attorneys to both promote public safety and to protect the due process rights of program participants;
- Promotes early identification and prompt placement of eligible participants in the program;
- Requires ongoing judicial interaction with program participants;
- Diverts people with MI or ID to needed services in lieu of prosecution;
- Monitors and evaluates program goals and effectiveness;
- Facilitates continuing interdisciplinary education on effective program planning, implementation, and operations; and
- Develops partnerships with public agencies and community organizations, including LMHAs/LBHAs.

[Tex. Gov't. Code § 125.001\(a\)](#).

Regional Mental Health Courts

Note that the commissioners courts of two or more counties may elect to establish a regional mental health court program for the participating counties. [Tex. Gov't. Code § 125.0025](#). Smaller jurisdictions may find it advantageous to collaborate on the creation of a mental health court to share costs and resources.

In addition to the statutory requirements, an effective juvenile mental health court will feature developmentally appropriate and trauma-informed procedures and services.

Seven Common Characteristics of Juvenile Mental Health Courts¹³⁴

Following a national study funded by the National Institute of Justice, seven common characteristics of a juvenile mental health court were identified:

1. Regularly-scheduled special docket;
2. Less formal style of interaction among court official and participants;
3. Age-appropriate screening and assessment for trauma, substance use, and mental disorder;
4. Team management of participant's treatment and supervision;
5. System-wide accountability enforced by the juvenile court;
6. Use of graduated incentives and sanctions; and
7. Defined criteria for program success.

Creating a Juvenile Mental Health Court

Money, time, and community support: establishing a specialty court brings many challenges, but none that are insurmountable. These resources provide guidance on creating a mental health court in your jurisdiction:

Developing a Mental Health Court: <https://csgjusticecenter.org/projects/mental-health-courts/learning/learning-modules/>

List of Specialty Courts in Texas: <https://gov.texas.gov/uploads/files/organization/criminal-justice/Specialty-Courts-By-County.pdf>

Specialty Court Program Registration: <https://www.txcourts.gov/about-texas-courts/specialty-courts/>

Texas Association of Specialty Courts: <http://www.tasctx.org/>

Funding Opportunities: <https://egrants.gov.texas.gov/Default.aspx>

Creating a Texas Mental Health Court Program: The 10 Step Guide: <https://texasjcmh.gov/media/czaoapye/mhc-the-10-step-guide.pdf>

If starting a mental health court isn't yet possible, try creating a comprehensive trauma-informed courtroom.¹³⁵ Court staff, attorneys, and probation officers can engage in trainings and read literature that focus on trauma-informed care, risk and protective factors in children, and the importance of a child's ACEs score. Good places to start are: The Karen Purvis Institute of Child Development's program: Trust-Based Relational Intervention¹³⁶ training, The Meadows Mental Health Institute's "Trauma-Informed Care Final Report,"¹³⁷ the Committee for Public Counsel Services' "Trauma Fact Sheet for Working with Court-Involved Youth,"¹³⁸ and SAMHSA's "Essential Components of Trauma-Informed Judicial Practice."¹³⁹

3. Pretrial Intervention Programs

Many of the same mental health interventions that are available to children on juvenile probation are available to children who participate in deferred prosecution or other diversion programs. If a child has yet to receive any kind of interventions, it is usually in the child's best interest to address their needs through the least restrictive means available.

Most of the juvenile probation departments in Texas act as the "Intake" office, under a local agreement with the prosecutor's office and approval by the juvenile board. These agreements allow juvenile probation officers to screen and divert certain non-serious cases out of the juvenile court system.

The intake officer is required to determine whether the person referred to juvenile court is a child; and whether there is probable cause to believe that the person engaged in delinquent conduct or CINS. [Tex. Fam. Code § 53.01\(a\)](#). After those determinations are made, the intake officer can take several actions to close or divert a child's case.

Supervisory Caution

Supervisory Caution, sometimes known as "counsel and release," is a non-legal term for a variety of informal, non-judicial dispositions that can occur in a juvenile case. Supervisory caution can involve referring the child to a social services agency, contacting parents to inform them of the child's activities, or simply warning the child about their behavior.¹⁴⁰

Deferred Prosecution Programs

Deferred prosecution programs (DPPs) are an alternative to formal adjudication of delinquent conduct or CINS and involve a six-month supervision period. A child can receive up to two 6-month terms of DPP, not to exceed a total of 12 months.

- DPP must be in the best interest of the public and the child;
- The child and their parent, guardian, or custodian must consent to DPP, with knowledge that consent is voluntary;
- The child and their parent, guardian, or custodian must be informed that they can terminate DPP at any time and ask the court for a court hearing in the case.

[Tex. Fam. Code § 53.03\(a\)](#).

A **probation officer** can offer DPP for any offense that is not disqualified by these requirements:

- any offense that is required to be forwarded to the prosecutor: felonies, misdemeanors involving violence to a person, and misdemeanors involving the use or possession of a firearm, location-restricted knife, club, or prohibited weapon;
- a child who has been previously adjudicated of a felony, unless the prosecutor gives written approval.

[Tex. Fam. Code § 53.03\(e\)](#).

A **prosecutor** can offer DPP to any child, unless the child is alleged to have engaged in conduct that that constitutes the following intoxication-related offenses:

- DWI, Flying While Intoxicated, Boating While Intoxicated, Intoxication Assault, Intoxication Manslaughter, Consumption of Alcohol by a Minor 3rd, or Driving or Operating Watercraft under the Influence of Alcohol by a Minor 3rd.

[Tex. Fam. Code § 53.03\(g\)](#).

¹⁴⁰ ROBERT DAWSON, TEXAS JUVENILE LAW 90 (Nydia Thomas and Kaci Singer, eds., 9th ed. 2018).

A **judge** can offer DPP at any time that is:

- Before the jury is sworn, for an adjudication to be decided by jury trial;
- Before the first witness is called, for an adjudication to be decided by the court;
- Before the child pleads to the petition or before the stipulation of evidence, for an uncontested adjudication.

[Tex. Fam. Code § 53.03\(i\)](#).

In determining whether to grant DPP, the court can consider professional representations by the parties concerning the nature and background of the case. These representations are not admissible against the child at trial, should the court reject the request for DPP. [Tex. Fam. Code § 53.03\(k\)](#). The court can add a period of time to a previous order of DPP, but the total combined length of DPP cannot exceed one year.

Referral to a Community Resource Coordination Group (CRCG)

The community referral and service plan is one method for diverting the youngest children out of the juvenile court system.

- The intake officer must refer the child's case to a CRCG if it is determined that:
 - The child is younger than 12 years of age;
 - There is probable cause to believe the child engaged in delinquent conduct or CINS;
 - The child's case does not require referral to the prosecutor under an alternate referral plan;
 - The child is eligible for DPP under Section 53.03; and
 - The child and their family are not currently receiving services from a CRCG and would benefit from receiving the services.

[Tex. Fam. Code § 53.01\(b-1\)](#).

- The CRCG must evaluate the child's case and make recommendations to the juvenile probation department for appropriate services for the child and their family. [Tex. Fam. Code § 53.01\(b\)](#).
- The probation officer must create a service plan or system of care for the child or their family that incorporates the CRCG's recommendations. The child and their parent, guardian, or custodian must consent to the services with knowledge that consent is voluntary. [Tex. Fam. Code § 53.01\(c\)](#).
- The probation officer can hold the child's case open for up to three months to monitor compliance with the service plan and can adjust the plan as needed. If the child fails to successfully participate in the services, the probation officer can refer the child to the prosecutor. [Tex. Fam. Code § 53.01\(d\)](#).

Teen Dating Violence Program

A Teen Dating Violence Program must be approved by the juvenile court and the commissioners court, and must include:

- A 12-week program designed to educate children who engage in dating violence and encourage them to refrain from engaging in that conduct;
- A dedicated teen victim advocate who assists teen victims by offering referrals to additional services, providing counseling and safety planning, and explaining the juvenile justice system;
- A court-employed resource coordinator to monitor children's compliance with the 12-week program;
- One judge who presides over all of the cases in the jurisdiction that qualify for the program; and
- A prosecuting attorney who is assigned to the program.

Tex. Fam Code § 54.0325(a).

On the prosecutor’s recommendation, the court can defer adjudication proceedings for not more than 180 days if the child is a first offender who is alleged to have engaged in conduct that is a misdemeanor and involves dating violence. Tex. Fam. Code § 54.0325(b). A child is a “first offender” if they have not been previously referred to juvenile court for allegedly engaging in conduct constituting dating violence, family violence, or an assault. Tex. Fam. Code § 54.0325(c).

- The child must complete the program before the end of the deferral period and appear in court for monthly monitoring. Tex. Fam. Code § 54.0325(e).
- Upon evidence of successful completion of the program, the case is dismissed with prejudice. Tex. Fam. Code § 54.0325(f).

Trafficked Persons Program

A juvenile court can defer adjudication proceedings *until the child’s 18th birthday*, and require a child to participate in a program established under Section 152.0017, Human Resources Code, if the child is alleged to have engaged in delinquent conduct or conduct indicating a need for supervision, and may be a victim of Human Trafficking under Section 20A.02, Penal Code; and makes an oral or written request to the court to participate in the program. Once the court receives evidence of successful completion of the program, the court shall dismiss the case with prejudice. Tex. Fam. Code § 54.0326.

Commercial Sexual Exploitation – Identification Tool

75% of trafficked youth are exploited for two or more years before their abuse is recognized.¹⁴¹ Most trafficked youth are under the age of 14 when first exploited, unaware of the dangerousness of their situation, and unaware of the exploitative nature of their relationship with their pimp or exploiter.¹⁴² When youth do not recognize that they are being abused, they cannot disclose the abuse to a trusted adult. Intake interviews conducted by juvenile probation departments and juvenile detention centers provide an opportunity for youth to be screened for trafficking.

WestCoast Children’s Clinic¹⁴³ developed the Commercial Sexual Exploitation – Identification Tool (CSE-IT – pronounced “see it”), a screening tool that aids in detection of risk of sexual exploitation.¹⁴⁴ Already in use by 35 child welfare agencies and 29 juvenile probation departments across the country, the CSE-IT is validated¹⁴⁵ and it works.¹⁴⁶ Over 88,400 youth have been screened for signs of sex trafficking, and 8200 youth have been identified with clear indicators of trafficking.¹⁴⁷

WestCoast provides *free* training and technical support to organizations seeking to implement the CSE-IT. DFPS personnel in Bexar, Dallas, Harris, Tarrant, and Travis counties already use the CSE-IT as part of their Human Trafficking Response Protocol.¹⁴⁸ More information on the CSE-IT can be found at: <https://www.westcoastcc.org/cse-it/>

The Texas Human Trafficking Resource Center¹⁴⁹ and the HHSC “Provider Guidebook: Services for Victims of Human Trafficking in Texas”¹⁵⁰ offer additional guidance and resources for those who work with youth at risk of human trafficking.

4. Justice and Municipal Courts

Justice and municipal courts have jurisdiction over fine-only misdemeanors that are not punishable by confinement in jail or imprisonment. *Tex. Code Crim. Proc. arts. 4.11, 4.14*. These cases consist of traffic offenses, fine-only misdemeanors more commonly known as “Class C Misdemeanors,” alcohol and tobacco violations, and truancy cases. In Texas, most cases alleging law violations by children are filed in justice or municipal courts.¹⁵¹ Generally, these cases can be efficiently handled by justice and municipal courts and are not serious enough to involve the juvenile court.¹⁵²

Detailed information on justice and municipal court procedures can be found in the Texas Municipal Courts Education Center’s *2022 Bench Book*,¹⁵³ and in the Texas Justice Court Training Center’s *Criminal Procedure, 3rd Edition*.¹⁵⁴ Justice and municipal court procedures specifically relating to juveniles are covered in *Texas Juvenile Law, 9th Edition*.¹⁵⁵

This bench book focuses on diversions, supports, and services for justice system-involved youth with MI or ID. Justice and municipal courts face the challenge of a disproportionately large caseload and a small pool of diversions, supports, and resources with which to work. Compounding the challenge, most children who appear in justice and municipal courts are not represented by counsel and are accompanied only by their parent or guardian.

It is imperative that the court ask whether the child intends to hire an attorney, and, if the answer is no, explain the child’s rights, the charge, the plea options, and the possible dispositions. The court can remind the parent or guardian that the case can be reset to a later date to allow time to retain counsel. In addition to making sure that child understands the consequences of each plea, the court must explain the expunction process to the parent and child and provide a copy of the expunction statute. Once the judge is satisfied that the process has been carefully and thoroughly explained, the court should request the juvenile to enter a plea of either not guilty, no contest, or guilty.

In some instances, it may be apparent either from case facts or interaction with the child that there is a MI or IDD issue at play. In those circumstances, consider asking questions that could bring MI or IDD issues to the surface for consideration in setting rehabilitative sanctions. These questions may include:

- Do you receive any services at school?
- Do you have an IEP or a BIP?
- Do you receive any support at your school that I should know about?

¹⁵⁵ ROBERT DAWSON, TEXAS JUVENILE LAW (Nydia Thomas and Kaci Singer, eds., 9th ed. 2018) <https://www2.tjtd.texas.gov/publications/legal/texas-juvenile-law-9.pdf>.

- Does the support you receive affect your education?
- Do you go to an ARD committee?

If the judge feels the issue requires more attention, the court can order school records and an evaluation. An evaluation may already exist where the child is receiving services. In some cases, it may be apparent the child is affected by MI or IDD, but that their issues are going unaddressed, and the judge should ask why the child is not receiving services. If the judge feels that there is a legitimate concern for the child's welfare, the judge has a duty to make a report to DFPS.

Age Affecting Criminal Responsibility

Texas Penal Code [section 8.07](#) gives children between the ages of 10 and 14 the presumption of being incapable of committing fine-only misdemeanors, other than traffic offenses.

This presumption can be refuted if the prosecution proves by a **preponderance of the evidence** that the child had sufficient capacity to understand that the conduct engaged in was wrong at the time the conduct was engaged in. [Tex. Penal Code § 8.07\(e\)](#).

Note: the prosecutor can meet their burden by holding a brief hearing at the bench, before the child enters a plea. This hearing is not about the facts of the case, so the prosecutor should not be permitted to ask questions about the facts of the case. The prosecutor can ask questions of the child, about their understanding of right and wrong; and of the parent or guardian as well. Questions about the child's mental or emotional health, diagnoses, and school accommodations or plans may also assist the court in determining whether the burden has been met to proceed.

Child with Mental Illness, Disability, or Lack of Capacity and Class C Misdemeanors

Texas Penal Code [section 8.08](#) gives courts that have jurisdiction over Class C misdemeanors and municipal ordinance violations a mechanism for the dismissal of cases involving children with diminished capacity.

- When a motion is made, the court must determine whether **probable cause** exists to believe that a child, including a child with a mental illness or developmental disability¹⁵⁶:
 1. Lacks the capacity to understand the proceedings in criminal court or to assist in the child's own defense and is unfit to proceed; or
 2. Lacks substantial capacity either to appreciate the wrongfulness of the child's own conduct or to conform the child's conduct to the requirement of the law.
- The state, the defendant, the defendant's parent or guardian, or the court can make the motion.
- If the court determines that probable cause exists that the child is unfit to proceed or lacks substantial capacity, the court can dismiss the case after providing notice to the state.

[Tex. Penal Code § 8.08.](#)

Child with Mental Illness and Truancy Cases

Texas Family Code [section 65.065](#) gives courts that have jurisdiction over truancy cases a mechanism for the dismissal of cases involving children with mental illness, as defined by [Section 571.003](#), Health and Safety Code.¹⁵⁷

- When a motion is made, the court must temporarily stay the proceedings to determine whether **probable cause** exists to believe that the child has a mental illness. The court may:

¹⁵⁶ The statute provides that when a child has diminished capacity, the case against the child can be dismissed. The statute specifically mentions children with a mental illness or a developmental disability, but it does not exclude children who have diminished capacity due to other conditions, e.g., traumatic brain injury, autism spectrum disorder, intellectual disability, or severe emotional disturbance.

¹⁵⁷ "Mental illness" means an illness, disease, or condition, other than epilepsy, dementia, substance abuse, or intellectual disability, that: substantially impairs a person's thought, perception of reality, emotional process, or judgement; or grossly impairs behavior as demonstrated by recent disturbed behavior. [Tex. Health & Safety Code § 571.003.](#)

1. Consider the motion, supporting documents, professional statements of counsel, and witness testimony; and
 2. Observe the child.
- If the court determines that probable cause exists that the child has a mental illness, the court must dismiss the case. If the court does not so find, then the court must dissolve the stay and continue with truancy court proceedings.

[Tex. Fam. Code § 65.065.](#)

Class C Misdemeanor Youth Diversion

Legislative Change

Thousands of Class C misdemeanor cases are filed against juveniles in Texas justice and municipal courts every year.¹⁵⁸ Following years of work by the Texas Judicial Council, representatives from justice and municipal courts, juvenile prosecutors, and juvenile defense attorneys, H.B. 3186 (88th Reg. Sess. (2023)), also known as The Texas Youth Diversion and Early Intervention Act, was passed to allow for the diversion of youth charged with non-traffic Class C misdemeanors from the criminal justice system. The statutory changes to the Texas Code of Criminal Procedure, Texas Family Code, Texas Government Code, and the Texas Local Government Code are intended to prevent youth from becoming further involved with the justice system while still allowing for accountability.

H.B. 3186 increases opportunities for early identification of youth with mental illness, substance use disorders, and intellectual and developmental disabilities, allows for the redirection of youth who are charged with Class C misdemeanors and allows local governments to adopt a youth diversion plan consisting of a wide array of diversionary programs. These diversion mechanisms will be available pre-adjudication, *before* a conviction or a deferral is entered, once the Act becomes effective on January 1, 2024.

It is recommended that all who work in justice and municipal courts become familiar with the provisions of the [Texas Youth Diversion and Early Intervention Act](#). A flowchart on the Act can be found in the Appendix.

Deferred Disposition of Class C Misdemeanors

Following a plea of guilty or no contest, the court can defer further proceedings without entering an adjudication of guilt and place the youth on probation for up to 180 days. In issuing the order of deferral, the judge may impose a fine... the judge may elect not to impose the fine for **good cause shown** by the defendant. [Tex. Code Crim. Proc. art. 45A.302\(d\)](#).

As an alternative to requiring the defendant to pay fines and court costs, the judge may:

- Allow the defendant to enter into [a payment plan];
- Require the defendant to perform community service or attend a tutoring program under Article 45A.254 or 45A.460;
- **Waive** all or part of those fines and court costs under Article 45A.257; or
- Take any combination of the actions above.

[Tex. Code Crim. Proc. arts. 45A.302\(a\)\(1-4\)](#).

As conditions of the probation, the justice of the peace or municipal judge can require a defendant, including a juvenile defendant, to:

- Submit to professional counseling;

¹⁵⁸ TEXAS JUDICIAL COUNCIL, 2022 CRIMINAL JUSTICE COMMITTEE REPORT AND RECOMMENDATIONS 13 (2022), https://www.txcourts.gov/media/1455007/2022_criminal-justice-report-recommendations.pdf

- Submit to a psychosocial assessment;
- Present to the court satisfactory evidence that they have complied with each requirement imposed by the court; and
- Comply with any other reasonable condition.

Tex. Code Crim. Proc. arts. 45A.303(b)(3), (5), (9), (10).

At the time the juvenile defendant is placed on deferred disposition, the court can impose requirements to continue treatment, participate in any assessments reasonably related to providing mental health or IDD services, and to comply with all prescribed medications.

Sealing Fine-Only Misdemeanor Cases

Judges of justice and municipal courts do not have the ability to seal fine-only misdemeanor cases. Sealing is an option that is only available in cases that have been referred to the juvenile court. While judges of justice and municipal courts are required to transfer some types of cases to juvenile court, they also have the discretion to transfer other types of cases to juvenile court under Texas Family Code [section 51.08](#), making those cases potentially eligible for later sealing.

Teen Court

Teen Court is a disposition option after a child has pleaded guilty or no contest to an offense in justice or municipal court in which a jury of the teen’s peers decides what disposition is appropriate. Teen court “requires the teen to answer personally for [their] wrongdoing. This helps prevent repeat offenses as the defendant will not want to spend more time doing community service or going to teen court. Also, when a case is tried in front of juries and lawyers comprised on one’s peers there can be a profound effect on the defendant.”¹⁵⁹

[Article 45A.401](#) of the Code of Criminal Procedure sets out the rules for teen courts:

- A justice or municipal court can defer proceedings against a defendant who is under the age of 18 or enrolled full time in an accredited secondary school in a program leading toward a high school diploma for not more than 180 days if the defendant:
 1. Is charged with an offense that the court has jurisdiction of under [Article 4.11](#) or [4.14](#);
 2. Pleads nolo contendere or guilty to the offense in open court with the defendant’s parent, guardian, or managing conservator present;
 3. Presents to the court an oral or written request to attend a teen court program or is recommended to attend the program by a school employee under [Section 37.146](#), Education Code; and
 4. Has not successfully completed a teen court program in the year preceding the date that the alleged offense occurred.
- The teen court program must be approved by the court.
- A defendant for whom the proceedings are deferred under Subsection (a) shall complete the teen court program not later than the 90th day after the date the teen court hearing to determine punishment is held or the last day of the deferral period, *whichever date is earlier*. The justice or municipal court shall dismiss the charge at the time the defendant presents satisfactory evidence that the defendant has successfully completed the teen court program.

The following provisions of [Article 45A.401](#) of the Code of Criminal Procedure pertain to court costs associated with teen courts:

¹⁵⁹ *Teen Court*, TEX. MUN. COURTS EDUCATION CENT., <https://www.tmcec.com/mtsi/teen-court/> (last visited Aug. 9, 2023).

- The justice or municipal court may require a person who requests a teen court program to pay a reimbursement fee not to exceed \$10 that is set by the court to cover the costs of administering this article. Reimbursement fees collected by a municipal court shall be deposited in the municipal treasury. Reimbursement fees collected by a justice court shall be deposited in the county treasury of the county in which the court is located. A person who requests a teen court program and fails to complete the program is not entitled to a refund of the fee. [Tex. Code Crim. Proc. arts. 45A.401\(g\), \(h\)](#).
- In addition to the reimbursement fee authorized by Subsection (g), the court may require a child who requests a teen court program to pay a \$10 reimbursement fee to cover the cost to the teen court for performing its duties under this article. The court shall pay the fee to the teen court program, and the teen court program must account to the court for the receipt and disbursement of the fee. A child who pays a fee under this subsection is not entitled to a refund of the fee, regardless of whether the child successfully completes the teen court program. [Tex. Code Crim. Proc. art. 45A.401\(j\)](#).
- A justice or municipal court **may exempt a defendant** for whom proceedings are deferred under this article from the requirement to pay a court cost or fee that is imposed by another statute. [Tex. Code Crim. Proc. art. 45A.401\(l\)](#).
- Notwithstanding Subsection (g) or (j), a justice or municipal court that is located in the Texas-Louisiana border region, as defined by [Section 2056.002](#), Government Code, may charge a reimbursement fee of \$20 under those subsections. [Tex. Code Crim. Proc. art. 45A.401\(m\)](#).

Juvenile Case Managers (JCMs)

Juvenile Case Managers are employed by some, but not all, justice and municipal courts to assist in administering the court's juvenile docket and provide prevention and intervention services to children. [Tex. Code Crim. Proc. art. 45A.451\(a\)\(2\)](#). JCMs are not probation officers; however, they use case management as a tool to reduce recidivism and to prevent children from becoming further involved in the justice system. During an intake meeting with the child and their family, JCMs gather information about the family's needs, identify relevant services, and develop goals.

JCMs can be full-time or part-time employees; can serve several courts; and can serve courts in different counties. [Tex. Code Crim. Proc. art. 45A.451\(a\)\(3\)](#).

Early Identification of MI or IDD

Because the family intake meetings typically occur before any court appearance, the JCM is well-positioned to assess the child's strengths and deficits, elicit the family's experience and perspective, and share any concerns for MI or IDD with all parties. Once the court is aware, the judge can determine the voluntariness of any plea that is entered. Once the prosecutor is aware, they can determine how to appropriately resolve the case, so that all parties' interests are best served.

Community Resources

JCMs are often experts in the services, supports and resources offered by their local communities. Community resource awareness is an essential component in accessing services for children. Community resources encourage the healthy development of juveniles and families through direct services, by addressing the causes of delinquent behavior, reinforcing accountability, removing barriers to access, and reducing recidivism. Services may be accessed through court referrals, school referrals, and community referrals. Ultimately, recommending services and rehabilitation specific to the child aids the judge, who may have a significantly more limited view of the case at the time it comes before the court. Consideration of services and rehabilitation likewise serves the community protection component of the prosecutor's job by addressing the potential for future conduct problems.

Early Youth Intervention Services

On a finding by a justice or municipal court that a child committed an offense that the court has jurisdiction of, the court has jurisdiction to enter an order referring the child or the child's parent for services under [Section 264.302](#), Family Code. [Tex. Code Crim. Proc. art. 45A.457\(b\)\(1\)](#).

The Department of Family and Protective Services is authorized to provide services for children who are referred to it by justice and municipal courts as "at-risk." The services may include: crisis family intervention; emergency short-term residential care for children 10 years of age or older; family counseling; parenting skills training; youth coping skills training; advocacy training; and mentoring. [Tex. Fam. Code §§ 264.302\(e\), \(f\)](#).

Fines and Court Costs in Justice and Municipal Courts

Judges are permitted, but not required, to waive payment of all or part of a fine imposed on a defendant if the court determines that the defendant:

- **is a child**, is indigent, or does not have sufficient resources or income to pay all or part of the fine; and
- each alternative method of discharging the fine (community service, payment at a later date, or installment payments) would **impose a hardship on the defendant**.

[Tex. Code Crim. Proc. art. 45A.257\(a\)](#).

In making the determination of undue hardship, the court may consider, among other things, the defendant's significant physical or mental impairment or disability. [Tex. Code Crim. Proc. arts. 45A.257\(a\), \(d\)](#).

Judges may require a defendant who is younger than 17 and assessed a fine or cost for a Class C misdemeanor to discharge all or part of the fine or cost by performing up to a maximum of 200 hours of community service, including credit for the time spent in rehabilitative or counseling services. [Tex. Code Crim. Proc. arts. 45A.459, 45A.460](#).

Fines and Costs for Dual System Youth

Texas Code of Criminal Procedure article 45A.253(d) prohibits the payment of fines and court costs by "a defendant who is under the conservatorship of the Department of Family and Protective Services or in extended foster care¹⁶⁰ as provided by Subchapter G, Chapter 263, Family Code..." The defendant can be ordered to perform community service in lieu of the payment of fines and court costs.

5. Fitness to Proceed

All states have a statutory standard for determining whether a person is incompetent to stand trial. This standard comes from *Dusky v. U.S.*, a 1960 United States Supreme Court case, which held that the test of a defendant's competency to stand trial is whether the person has "sufficient present ability to consult with [their] lawyer with a reasonable degree of rational understanding – and whether [they have] a rational as

¹⁶⁰ "Extended foster care" means a residential living arrangement in which a young adult voluntarily delegates to the department responsibility for the young adult's placement and care and in which the young adult resides with a foster parent or other residential services provider that is:

- (A) Licensed or approved by the department or verified by a licensed or certified child-placing agency; and
- (B) Paid under a contract with the department.

[Tex. Fam. Code § 263.601\(1\)](#).

well as factual understanding of the proceedings against [them].”¹⁶¹ Fitness to proceed is the juvenile court equivalent to competency to stand trial.

A juvenile respondent who, as a result of mental illness or an intellectual disability, lacks capacity to understand the proceedings in juvenile court or to assist in their own defense is unfit to proceed and cannot be subjected to discretionary transfer to criminal court, adjudication, disposition, or modification of disposition, as long as the incapacity lasts. [Tex. Fam. Code § 55.31\(a\)](#). It should also be noted that the fitness to proceed and restoration process may not cover all possible causes of a child’s incapacity, such as a developmental disability or a lack of chronological maturity. A checklist to assist in identifying possible MI or ID can be found in the Appendix.

Fitness proceedings can be costly and can lengthen a juvenile respondent’s involvement in the juvenile justice system. The goal of the fitness restoration process is different than the goals of treatment and services. Fitness is not the ideal pathway into behavioral health treatment, although it is one. Judges and all parties should consider whether fitness is the real issue, and the effect that the fitness restoration process could have on the child. Instead of fitness restoration within the juvenile justice system, diversion of the child with a dismissal or a referral to community-based services may be more appropriate.

Recall that when used in Texas Family Code Chapter 55, “mental illness” means “an illness, disease, or condition, other than epilepsy, senility, alcoholism, or mental deficiency, that: (A) substantially impairs a person’s thought, perception of reality, emotional process, or judgment; or (B) grossly impairs behavior as demonstrated by recent disturbed behavior.” [Tex. Fam. Code § 55.01\(6\)](#), [Tex. Health & Safety Code § 571.003\(14\)](#). Intellectual disability means significantly subaverage general intellectual functioning that is concurrent with deficits in adaptive behavior and originates during the developmental period. [Tex. Code Crim. Proc. art. 46B.001\(8\)](#); [Tex. Health & Safety Code § 591.003](#).

Legislative Change

S.B. 1585 (88th Reg. Sess. (2023)) rewrote and reorganized Chapter 55. The criteria for court-ordered mental health services and court-ordered intellectual disability services are now directly incorporated into Chapter 55, in new sections 55.05 and 55.06. The minimum qualifications for performing forensic mental examinations were updated and are found in section 55.04, as were the examination and report requirements that are found in section 55.31. Other revisions were made, including the addition of new Subchapter E, which governs all proceedings concerning court-ordered mental health and residential intellectual disability services. Judges, attorneys, and others who work in juvenile courts are encouraged to thoroughly review the revised Chapter 55 and update forms with the new statutory citations.

Developmental Period

Children referred to the juvenile court are, by definition, “in their developmental period” (under age 18); therefore, a child who has a diagnosis of having a pervasive developmental disorder in a psychological or psychiatric report probably qualifies as having an intellectual disability.¹⁶²

Obtaining a diagnosis of intellectual disability from the LIDDA can facilitate a child’s lifetime access to state-funded services. Do not hesitate to refer a child to the LIDDA for evaluation and determination of eligibility for services if there is any reason to believe the child could have an intellectual or developmental disability.

¹⁶¹ [Dusky v. U.S.](#), 362 U.S. 402 (1960).

¹⁶² William R. “Bill” Cox, Texas Family Code Chapter 55: Mental Health Proceedings, 26th Annual Robert O. Dawson Juvenile Law Institute (2013), https://juvenilelaw.org/wp-content/uploads/2017/06/07_Cox.pdf.

Raising the Issue

- Unless a child has previously been found to be unfit to proceed, the child is presumed to be fit to proceed.
- When a child is alleged by petition or found to have engaged in delinquent conduct or CINS, **the court or any party** can raise the issue of unfitness as a result of mental illness (MI) or intellectual disability (ID). [Tex. Fam. Code § 55.31\(b\)](#). *It is never too late to raise the issue.*
- The issue of unfitness can be raised prior to an adjudication hearing, a disposition hearing, a motion to modify hearing, or a discretionary transfer hearing. [Tex. Fam. Code § 55.31\(a\)](#).
- Once the motion is filed, the court must determine whether or not **probable cause** exists to believe that the child is unfit to proceed. In making its determination on the issue of probable cause, the court can consider the motion, supporting documents, **professional statements of counsel**,¹⁶³ witness testimony, and the court's own observation of the child. [Tex. Fam. Code § 55.31\(b\)](#).

Observation of the Child

Since the statute allows for the court to use observations of the child for its probable cause determination, it is important that the court monitor how the child interacts with others, including parents, guardians, caregivers, lawyers, the court, as well as other court participants. The court can also observe the child's physical appearance, including whether the child is appropriately dressed, well-nourished, and practicing proper hygiene.

- If the court determines that probable cause exists to believe that the child is unfit to proceed, then all juvenile court proceedings must be stayed, and the judge must order the child to be examined under Texas Family Code § 55.04. [Tex. Fam. Code § 55.31\(c\)](#).
 - In the examination and report, the expert must consider:
 1. Whether the child, as supported by current indications and the child's personal history:
 - A. Is a child with mental illness; or
 - B. Is a child with an intellectual disability;
 2. The child's capacity to:
 - A. appreciate the allegations against the child;
 - B. appreciate the range and nature of allowable dispositions that may be imposed in the proceedings against the child;
 - C. understand the roles of the participants and the adversarial nature of the legal process;
 - D. display appropriate courtroom behavior; and
 - E. testify relevantly; and
 3. The degree of impairment resulting from the child's mental illness or intellectual disability and the specific impact on the child's capacity to engage with counsel in a reasonable and rational matter.

[Tex. Fam. Code § 55.31\(d\)](#).

- The expert's report must also state an opinion on the child's fitness to proceed or explain why the expert is unable to state that opinion and include:
 1. The child's history and current status regarding any possible mental illness or intellectual disability;

¹⁶³ For assistance, a Chapter 55 Issues Checklist is provided in the Appendix of this Bench Book.

2. The child's developmental history as it relates to any possible mental illness or intellectual disability;
3. The child's functional abilities related to fitness to stand trial;
4. The relationship between deficits in the child's functional abilities related to fitness to proceed and any mental illness or intellectual disability; and
5. If the expert believes the child is in need of remediation or restoration services, a discussion of:
 - A. Whether the child's abilities are likely to be remediated or restored within the period described by Section 55.33(a)(1), (2), or (3);
 - B. Whether the child may be adequately treated in an alternative setting;
 - C. Any recommended interventions to aid in the remediation or restoration of the child's fitness;
 - D. Whether the child meets criteria for court-ordered treatment or services under Section 55.05 or 55.06; and
 - E. If applicable, the specific criteria the child meets under Paragraph (D).

Tex. Fam. Code § 55.31(e).

- Once the court receives the report from the examination of the child, and after considering all relevant information, including the report, the court must determine whether or not evidence exists to support a finding that the child is unfit to proceed. Tex. Fam. Code § 55.31(f)(1).
- If the court determines that evidence does not exist to support a finding that the child is unfit to proceed, the judge must **dissolve the stay** and continue the juvenile court proceedings as if the issue had not been raised. Tex. Fam. Code § 55.31(f)(2).

Qualifications of Experts

Judges should critically vet the experts they appoint. This minimally entails verifying that an expert meets the statutory qualifications prior to appointment. Judges should also communicate expectations that the expert collect all school disciplinary records; 504 plans, Individualized Education Program (IEP) records, Behavior Intervention Plan (BIP) records; Admission, Review, and Dismissal (ARD) records; records from DAEP and JJAEP; hospital records; service provider records; and records of involvement with the child welfare system. A psychiatrist or psychologist appointed to examine a person and/or testify regarding fitness to proceed must generally:

- Be a psychiatrist who is a physician licensed in Texas or a psychologist licensed in Texas who has a doctoral degree in psychology;
- Have the following certification or training:
 - If a psychiatrist, certification by the American Board of Psychiatry and Neurology with added or special qualifications in forensic psychiatry; or
 - If a psychologist, certification by the American Board of Professional Psychology in forensic psychology; or
 - At least 24 hours of specialized forensic training relating to incompetency, fitness to proceed, lack of responsibility for conduct, or insanity evaluations; and
 - At least eight hours of continuing education relating to forensic evaluations, completed in the 12 months preceding the appointment; and
- Have completed six hours of required continuing education in courses in forensic psychiatry or psychology, respectively, in the 24 months preceding the appointment.

Tex. Fam. Code §§ 55.04(c), (d).

Appointment of an expert psychiatrist or psychologist who does not meet the above requirements may only occur if exigent circumstances require the court to base the appointment on professional training or experience of the expert that directly provides the expert with a specialized expertise that would not

ordinarily be possessed by a psychiatrist or psychologist who meets the above requirements. [Tex. Fam. Code § 55.04\(e\)](#), [Tex. Code Crim. Proc. art. 46B.022\(c\)](#). This is a narrow exception. One example is a case in which the adult defendant not only appeared to lack competency because of either MI or ID, but was also deaf.¹⁶⁴ Therefore, the court needed an expert who was knowledgeable about the defendant's hearing disability, but that expert might not have met the statutory requirements for an expert.¹⁶⁵

Expert's Report

The court shall direct an expert to provide the expert's report to the court and the appropriate parties. TCOOMMI approved a standard report form under [section 614.0032\(b\)](#) of the Health and Safety Code that is available for use (also included in the Appendix).¹⁶⁶

Note: Judges should know what to look for in an expert's report. The court should scrutinize reports to biases and editorial comments. The court does not have to accept a report that is incomplete or of poor quality and can ensure the statutory requirements are met by ordering amendment of the report. It is also important to note that although the expert is required to state their opinion, the determination of fitness or unfitness is the role of the fact finder (usually the judge). This role should not be abdicated to the expert.¹⁶⁷

Beyond Statutory Requirements: Marks of a Quality Expert's Report¹⁶⁸

- Conveys all relevant information concisely, unambiguously, and clearly, including the facts and reasoning the expert used in formulating the opinion.
- Goes beyond describing signs and symptoms of mental illness and discusses how those signs and symptoms affect functional abilities relevant to the legal construct of fitness.
- Describes the juvenile respondent's abilities and deficits concerning the tasks that they must perform during a juvenile defense.
- Is a stand-alone document in that it provides or reproduces the data needed to support the opinions the expert expresses.
- States clearly any limitations or qualifications of which the expert is aware.
- Contains clinical data regarding the nature of the juvenile respondent's mental and emotional condition that are specifically relevant to the fitness analysis.
- Comments on any contradictions or inconsistencies.
- Provides specific examples that illustrate the juvenile respondent's strengths or weaknesses with respect to reasoning and understanding, based on a competence-assessment instrument as well as other types of data.
- Opines concerning restorability and the appropriate setting for restoration.
- Is free of gratuitous comments about the juvenile respondent's behavior, need for [removal from society], dangerousness, lack of remorse, or other legal matters.

Hearing on Issue of Fitness to Proceed

If the court determines that evidence exists to support a finding that the child is unfit to proceed as a result of MI or ID, the court shall set the case for a hearing on the issue. [Tex. Fam. Code § 55.32\(a\)](#).

- The issue of whether the child is unfit to proceed must be determined at a hearing separate from any other hearing. [Tex. Fam. Code § 55.32\(b\)](#).
- The court determines the issue of whether the child is unfit to proceed unless the child or their attorney demands a jury 10 days before the hearing. [Tex. Fam. Code § 55.32\(c\)](#).
- Unfitness to proceed must be proven by a **preponderance of the evidence**. [Tex. Fam. Code § 55.32\(d\)](#).
- If the child is found fit to proceed, the court must dissolve the stay and continue with juvenile proceedings. [Tex. Fam. Code § 55.32\(e\)](#).
- If the child is found unfit to proceed, the juvenile proceedings continue to be stayed for as long as the incapacity lasts; and proceed under § 55.33. [Tex. Fam. Code § 55.32\(f\)](#).

A Juvenile Can Have MI or ID and be Fit to Proceed Under Chapter 55

It is important to understand that that a judge may receive information that may not suggest that a juvenile is unfit to proceed under Chapter 55 of the Texas Family Code, but that may suggest that the juvenile has a MI or ID. Such a condition may not render the juvenile unfit to proceed, but it may warrant special consideration and management of the juvenile's case.

Proceedings Following Finding of Unfitness to Proceed

If the child is found unfit to proceed as a result of a mental illness or an intellectual disability, the court shall:

1. Provided that the child meets the inpatient mental health services or residential intellectual disability services criteria under [Section 55.05](#) or [55.06](#), order the **child placed with the Health and Human Services Commission** (State Hospital or State Supported Living Center) for a period of not more than 90 days, which order may not specify a shorter period, for placement in a facility designated by the commission;
2. On application by the child's parent, guardian, or guardian ad litem, order the child **placed in a private psychiatric inpatient facility or residential care facility** for a period of not more than 90 days, which order may not specify a shorter period, but only if:
 - A. The unfitness to proceed is the result of mental illness or an intellectual disability; and
 - B. The placement is agreed to in writing by the administrator of the facility; or
3. Subject to subsection (d), if the court determines that the child may be adequately treated or served in an alternative setting and finds that the child **does not meet criteria** for court-ordered inpatient mental health services or residential intellectual disability services under [Section 55.05](#) or [55.06](#), order the child to receive treatment for mental illness or services for the child's intellectual disability, as appropriate, on an outpatient basis for a period of 90 days, with the possibility of extension as ordered by the court.

[Tex. Fam. Code § 55.33\(a\)](#).

Unfit to Proceed and Does Not Meet Criteria

Before S.B. 1585 (88th Reg. Sess. (2023)) updated Chapter 55, it was possible that a child could be found unfit to proceed and to not meet criteria for court-ordered services. No services could be ordered, the stay could not be lifted, and the juvenile case would pend indefinitely. S.B. 1585 gives judges the option to consult with the LMHA, LIDDA, local service providers and juvenile probation department to identify and order appropriate services for youth who fall into these circumstances.

- If a child receives treatment for mental illness or services for the child's intellectual disability on an outpatient basis in an alternative setting under Subsection (a)(3), **juvenile probation departments may provide restoration classes** in collaboration with the outpatient alternative setting. [Tex. Fam. Code § 55.33\(b\)](#).
- If the court orders a child placed in a private psychiatric inpatient facility or residential care facility under Subsection (a)(2) or in an alternative setting under Subsection (a)(3), the state or a political subdivision of the state may be ordered to pay any costs associated with the ordered services, subject to an express appropriation of funds for the purpose. [Tex. Fam. Code § 55.33\(c\)](#).
- Before issuing an order described by Subsection (a)(3), the court shall consult with the local juvenile probation department, with local treatment or service providers, with the local mental health authority, and with the local intellectual and developmental disability authority to determine the appropriate treatment or services and restoration classes for the child. [Tex. Fam. Code § 55.33\(d\)](#).

Transportation

- If the court issues an order for inpatient services, the court must order the probation department or the sheriff's department to transport the child to and from the designated facility. [Tex. Fam. Code §§ 55.34\(a\), \(b\)](#).
 - Upon receipt of a report from a facility, the child shall be returned to juvenile court. If the child is not transported back to juvenile court by the 11th day after the date of the court's order, then the facility is required to transport the child to the court, at the county's expense. [Tex. Fam. Code §§ 55.34\(b\), \(c\)](#).

Information Required to be Sent to the Facility of Alternative Setting

- The court must order the probation department to send copies of any information in their possession that is relevant to the issue of the child's MI or ID to the treatment provider. [Tex. Fam. Code § 55.35\(a\)](#). This may include information in the court's file, the probation department's file, the detention facility file, and/or medical or mental health files maintained by the probation department and/or its medical or mental health providers.

Report due to the Court

- Before the 75th day after the order, the treatment provider must submit its report to the court. The report must describe the treatment or services provided to the child and state the opinion of the director of the facility or alternative setting as to whether the child is fit or unfit to proceed. [Tex. Fam. Code § 55.35\(b\)](#).
 - If the report states that the child is unfit to proceed, the report must also include an opinion and the reasons for that opinion as to whether the child meets the criteria for court-ordered mental health services or court-ordered intellectual disability services under [Section 55.05](#) or [55.06](#). [Tex. Fam. Code § 55.35\(c\)](#).
 - The report of an outpatient alternative setting collaborating with a juvenile probation department to provide restoration classes must include any information provided by the

- juvenile probation department regarding the child's assessment at the conclusion of the restoration classes. [Tex. Fam. Code § 55.35\(d\)](#).
- The court must provide a copy of the facility's report to the prosecutor and to the child's attorney. [Tex. Fam. Code § 55.35\(e\)](#).

Report that Child is Fit to Proceed

- If the facility report states the child is fit to proceed, the court must find that the child is fit to proceed, **unless the child's attorney objects in writing or in open court not later than two days after the attorney receives the report.** [Tex. Fam. Code § 55.36\(a\)](#).
 - If a timely objection is made, the court must promptly hold a fitness hearing. [Tex. Fam. Code § 55.36\(b\)](#).
 - The fitness hearing is before the court unless the child or their attorney demands a jury 10 days before the hearing. [Tex. Fam. Code § 55.36\(b\)](#).
 - If the child is found fit to proceed, the court must **dissolve the stay** and continue with juvenile proceedings. [Tex. Fam. Code § 55.36\(c\)](#).
 - If the child is found unfit to proceed, the court must proceed to a hearing for court-ordered services. [Tex. Fam. Code § 55.36\(d\)](#).

Best Practices for Reviewing Fitness Reports¹⁶⁹

It is important that the attorneys who receive the child's fitness report understand it and determine whether it is an accurate portrayal of the child. It may help to question whether the language attributed to the child matches the lawyer's own observations. Lawyers should be aware of descriptions such as those listed below, and object to the fitness determination if necessary. Lawyers should talk to the child at least by phone prior to determining if they need to object to the report. It may be necessary to object to the report and request additional time to consult with the child, to preserve the two-day deadline for objections.

Fitness to proceed is not a sliding scale. A child is either fit or is not fit. The following are examples of statements which may indicate, contrary to the report's conclusion, that the child is not currently fit to proceed:

- "The child appears at least marginally fit to proceed at this time."
- "The child's cognitive functioning is within the borderline range, but their adaptive behavioral functioning is noticeably below expectation."
- "The child was partially oriented to time."
- "The child did not know the name of the home where they were living."
- "The child's communication was rated within the severely impaired range."

Report that Child is Unfit

At this point the procedures for court-ordered services due to MI and ID become separate: §§ 55.37 through 55.39 govern mental illness while §§ 55.40 through 55.42 govern intellectual disability.¹⁷⁰

Proceedings for Court-Ordered Mental Health Services in Juvenile Court

The juvenile court has the option of hearing the proceeding for court-ordered services or referring it to an appropriate county or probate court. [Tex. Fam. Code § 55.37](#).

Juvenile Court or Probate Court

The choice of whether to proceed with court-ordered mental health services in juvenile court or to refer the proceedings to a county or probate court rests exclusively with the juvenile court. A juvenile court that hears proceedings for court-ordered services infrequently may prefer to have the county or probate court conduct them. The standards for ordering court-ordered services are the same, regardless of which court holds the hearing. County or probate courts may have more frequent interaction with community-based treatment options, private placements, and state facilities. Judges in a community can discuss available resources to determine which approach is advantageous for their constituents. If the juvenile court chooses to refer the case to a county or probate court, it is important to be aware of the child's right to seal their records and to maintain ongoing communication concerning the child's progress and case status.

Application for Court-Ordered Mental Health Proceedings

For proceedings in juvenile court, the prosecutor may file an application for court-ordered mental health services under Sections 574.001 and 574.002, Health and Safety Code. [Tex. Fam. Code § 55.66\(a\)](#).

What Should be Included in the Application

An application must:

- Be styled using the child's initials and not the proposed patient's full name;
- State whether the application is for temporary or extended services;
- Contain the child's name, address, and county of residence in Texas;
- Include a statement that the child is a person with mental illness and meets the criteria in Chapter 574 for court-ordered mental health services; and
- State whether the child is charged with a criminal offense.

[Tex. Health & Safety Code §§ 574.002](#).

Application Requirements for Extended Court-Ordered Services

Applications for **extended** court-ordered services have several statutory requirements that applications for **temporary** court-ordered services do not require.

- An application for **extended inpatient** mental health services must state that the child has received:
 - *Court-ordered inpatient mental health services* under either this subtitle or under Chapter 46B, Subchapter D of the Texas Code of Criminal Procedure (Procedures after Determination of Incompetency) or Subchapter E (Civil Commitment: Charges Pending) for *at least 60 consecutive days during the prior 12 months*.
- An application for **extended outpatient** mental health services must state that the child has received:
 - *Court-ordered inpatient mental health services* under either this subtitle or under Chapter 46B, Subchapter D or E of the Texas Code of Criminal Procedure for *a total of at least 60 days during the prior 12 months*; OR
 - *Court-ordered outpatient mental health services* under this subtitle or Chapter 46B, Subchapters D or E *during the preceding 60 days*.

[Tex. Health & Safety Code § 574.002\(b\)](#).

Appointment and Duties of an Attorney under HSC 574.004

- The judge must appoint an attorney for the child within 24 hours after the application is filed unless the child already has an attorney. [Tex. Health & Safety Code § 574.003\(a\)](#).
- Texas codifies the duties that an attorney has toward a client in a court-ordered services proceeding in section 574.004, and the court is required to give a copy of these duties to every court-appointed attorney. [Tex. Health & Safety Code § 574.003\(b\)](#).

The Statutory Responsibility of Attorneys in Court-Ordered Services Cases

The requirements set forth in section 574.004 of the Texas Health and Safety Code were the result of publicity surrounding the actions of some court-appointed lawyers who were not communicating with adult clients before hearings or were conducting group interviews with multiple **adult** clients. “The publicity surrounding such inappropriate and inadequate representation caused the Legislature to strengthen the rights of patients.”¹⁷¹

Note that the Rules of Professional Conduct governing attorneys comment specifically on the attention and respect that is to be given to every client, regardless of whether the client has with a mental illness. Comment 5 to Rule 1.02 of the TDRPC states: “When a lawyer reasonably believes a client suffers a mental disability or is not legally competent, it may not be possible to maintain the usual attorney-client relationship. Nevertheless, the client may have the ability to understand, deliberate upon, and reach conclusions about some matters affecting the client’s own well-being... the fact that a client [has] a disability does not diminish the desirability of treating the client with attention and respect.”

Included in the list of duties owed by the attorney to the proposed patient is that the attorney must respect the client’s decision to agree or resist the efforts to provide mental health services, even though they may personally disagree with the client’s wishes. Though the attorney may provide counsel, the attorney must abide by the client’s final decision on the matter. [Tex. Health & Safety Code § 574.004\(c\)](#).

Setting the Hearing in Juvenile Court

The juvenile court must set a date for the hearing and provide notice as required under Sections 574.005 and 574.006, Health and Safety Code. [Tex. Fam. Code § 55.66\(a\)\(1\)](#).

- The court must set a hearing within 14 days of the date the application was filed but may not hold a hearing within the first three days after the application is filed, if the child or their attorney objects. [Tex. Health & Safety Code §§ 574.005\(a\), \(b\)](#).
 - There are witnesses who may appear at the hearing to present evidence, who may be unknown to the parties prior to the hearing date. If either party wishes, they may request a continuance based on surprise and the court may continue the hearing date. [Tex. Health & Safety Code § 574.006\(d\)](#).
- While the court may grant continuances of the hearing, the final hearing must be held no later than 30 days from the date the application was filed. The only exception is for extreme weather or disaster, in which case the judge may, by a written order each day, postpone the hearing for 24 hours. [Tex. Health & Safety Code § 574.005\(c\)](#).
- The child and their attorney are entitled to receive a copy of the application and written notice of the court hearing immediately after it is set. Notice must also be delivered in person or via certified mail to the child’s:
 - **Parent, if a minor**; or

¹⁷¹ Hon. Guy Herman, Mental Health Law 8 (Aug. 2019) (unpublished manuscript) (on file with the Judicial Commission on Mental Health).

- Appointed guardian, if applicable; or
- **Each managing and possessory conservator**, if applicable.

Tex. Health & Safety Code §§ 574.006(a), (b).

- If a parent cannot be located, and the child does not have a guardian or conservator, the notice may be given to the proposed patient's next of kin. Tex. Health & Safety Code § 574.006(c).

The court has additional tasks to complete before holding the hearing:

- The court must direct the local mental health authority to file its recommendation for the child's proposed treatment, as required by Section 574.012, Health and Safety Code, before the hearing date;
- Identify the person responsible for court-ordered **outpatient mental health services** not later than the third day before date set for a hearing that may result in the court ordering the child to receive court-ordered outpatient mental health services, as required by Section 574.0125, Health and Safety Code.

Tex. Fam. Code §§ 55.66(a)(2), (3).

Medical Examination Requirement

- The director of the public or private facility or outpatient alternative setting shall submit to the court two certificates of medical examination for mental illness, as described by Subchapter A, Chapter 574, Health and Safety Code. Tex. Fam. Code § 55.37. If the certificates are not filed with the application, the judge may appoint the necessary physicians to examine the child and file the certificates. Tex. Health & Safety Code § 574.009(b).
 - The two CMEs must be completed by the appointed physicians, **within the preceding 30 days**, and are required to be on file with the court. At least one of the physicians must be a psychiatrist if a psychiatrist is available in the county. Tex. Health & Safety Code § 574.009(a).
- The court also has the authority to order an independent evaluation of the child, by a psychiatrist of the child's choosing, if the court feels it will assist the finder of fact. If the child is indigent, the county may reimburse the child's appointed attorney for any expenses incurred in securing the psychiatrist's testimony. Tex. Health & Safety Code §§ 574.010(a), (b).

What Should a CME for Mental Illness Include?

1. Name and address of examining physician
2. Name and address of the child examined
3. Date and place of examination
4. Brief diagnosis of the child's physical and mental condition
5. The time period, if any, the child has been under the physician's care
6. A description of the mental health treatment the examining physician has given to the child, if any
7. The examining physician's opinion that:
 - a. The child is a person with mental illness; and
 - b. As a result of that illness the child is likely to cause serious harm to the child or to others or is:
 - i. Suffering severe and abnormal mental, emotional, or physical distress;
 - ii. Experiencing substantial mental or physical deterioration of the child's ability to function independently, exhibited by the inability to provide for basic needs; and
 - iii. Not able to make a rational and informed decision as to whether to submit to treatment.

The examining physician must be as specific and detailed as possible as to which criterion forms the basis of their opinion, and, if it is offered in support of an application for extended court-ordered services, must state that the child's condition is likely to continue for more than 90 days. [Tex. Health & Safety Code § 574.011](#). The CMEs must be completed within 30 days of the hearing for court-ordered services. [Tex. Health & Safety Code § 574.009\(a\)](#).

Hearing for Court-Ordered Mental Health Services

The court must conduct the hearing in accordance with Subchapter C, Chapter 574, Health and Safety Code. [Tex. Fam. Code § 55.66\(a\)\(1\)](#).

- The child is entitled to be present at the hearing, but the child or their attorney may waive this right. [Tex. Health & Safety Code § 574.031\(c\)](#).
- The hearing must be open to the public unless the child or their attorney requests that it be closed, and the court finds good cause to do so. [Tex. Health & Safety Code § 574.031\(d\)](#).
 - Generally, juvenile court proceedings are open to the public unless good cause is shown to exclude the public. [Tex. Fam. Code § 54.08\(a\)](#).
 - If a child is under the age of 14 at the time of the hearing, the court **shall close** the hearing to the public, unless the court finds that the interests of the child or the public would be better served by opening the hearing to the public. [Tex. Fam. Code § 54.08\(c\)](#).
- In a hearing for *temporary* inpatient or outpatient mental health services, the child or their attorney may waive the right to cross-examine witnesses by filing a written waiver with the court. If that right is waived, the court may admit the CMEs as evidence, the CMEs will constitute competent medical or psychiatric testimony, and the court can make its findings based solely on the CMEs. [Tex. Health & Safety Code § 574.031\(d-1\)](#).
- In a hearing for *extended* inpatient or outpatient mental health services, the court must hear testimony and cannot make findings solely from the CMEs. [Tex. Health & Safety Code § 574.031\(d-2\)](#).
- Unlike the probable cause hearing, the final hearing is governed by the Texas Rules of Evidence unless otherwise stated in this subtitle. [Tex. Health & Safety Code § 574.031\(e\)](#).
- Each element of the applicable criteria must be proven by **clear and convincing evidence**, and the hearing must be on the record. [Tex. Health & Safety Code § 574.031\(g\)](#).

- The court may consider the testimony of a non-physician mental health professional in addition to medical or psychiatric testimony. [Tex. Health & Safety Code § 574.031\(f\)](#).
- The hearing for *temporary* mental health services must be before the court unless the child or their attorney requests a jury trial. A hearing for *extended* mental health services must be in front of a jury unless waived by the child or their attorney. The waiver must be sworn and signed unless made orally in the court's presence. [Tex. Health & Safety Code §§ 574.032\(a\), \(b\), and \(c\)](#). The court may allow a jury waiver to be withdrawn for good cause shown no later than the eighth day before the hearing. [Tex. Health & Safety Code § 574.032\(d\)](#).
 - If the hearing is before a jury, the jury must determine if the child is a person with mental illness and meets the criteria for court-ordered services; however, the jury cannot make a finding regarding the type of services to be provided. [Tex. Health & Safety Code § 574.032\(f\)](#).
- After conducting the hearing, the juvenile court shall:
 - If the criteria under **Section 55.05(a) or (b)** are satisfied, order temporary inpatient or outpatient mental health services for the child; or
 - If the criteria under **Section 55.05 (c) or (d)** are satisfied, order extended inpatient or outpatient mental health services for the child.

[Tex. Fam. Code § 55.66\(b\)](#).

- A party to a proceeding for court-ordered services can appeal the judgment to the appropriate court of appeals. Notice of appeal must be filed no later than 10 days after the date the order is signed. [Tex. Health & Safety Code §§ 574.070\(a\), \(b\)](#).

Note: If the judge or the jury fails to find, from **clear and convincing evidence**, that the child is a child with mental illness and meets the applicable criteria for court-ordered services, the court shall enter an order **denying the application for court-ordered temporary or extended mental health services and order the immediate release of the child**. [Tex. Health & Safety Code § 574.033](#).

Orders for Court-Ordered Services

S.B. 1585 (88th Reg. Sess. (2023)) incorporated the criteria for court-ordered mental health services that are found in the health and Safety Code directly into Chapter 55 by creating new sections 55.05 and 55.06.

After conducting a hearing... *and with consideration given to the least restrictive appropriate setting for treatment of the child and to the parent's, managing conservator's, or guardian's availability and willingness to participate in the treatment of the child*, the juvenile court shall order court-ordered services if the criteria are satisfied. [Tex. Fam. Code § 55.66\(b\)](#).

Criteria for Court-Ordered Temporary Inpatient Mental Health Services

- The judge may order a child to receive temporary inpatient mental health services only if the court finds, from **clear and convincing evidence**, that:
 - The child is a child with mental illness; and
 - As a result of that mental illness the child:
 - Is likely to cause serious harm to the child's self;
 - Is likely to cause serious harm to others; or
 - Is:
 - Suffering severe and abnormal mental, emotional, or physical distress;
 - Experiencing substantial mental or physical deterioration of their ability to function independently; and
 - Unable to make a rational and informed decision as to whether or not to submit to treatment.

[Tex. Fam. Code § 55.05\(a\)](#).

- If the judge or jury finds that the child meets the criteria for court-ordered services, the judge or jury must specify which criterion listed in Subsection (a)(2) forms the basis for the decision. [Tex. Health & Safety Code § 574.034\(c\)](#).

Orders Must Clearly Specify Criteria for Court-Ordered Services

The Code requires that orders for temporary or extended inpatient treatment must specify the criteria upon which the judge or jury is basing their decision. There has been conflicting caselaw in this area. Some appellate courts have allowed an order to submit the criteria in the disjunctive (i.e., listing the criteria with OR), while other courts have found that listing the criteria in the conjunctive (with AND) is the only way to ensure that there are specific findings.¹⁷²

A suggested practice to avoid any confusion is to take the word “or” out of any order for temporary or extended inpatient treatment, thus requiring specific finding on any of the criteria listed.

- To be **clear and convincing**, the evidence must include expert testimony and, unless waived, evidence of a recent overt act¹⁷³ or a continuing pattern of behavior that tends to confirm:
 1. The likelihood of serious harm to the child or others; or
 2. The child’s distress and the deterioration of the child’s ability to function.

[Tex. Health & Safety Code § 574.034\(d\)](#).

- An order for temporary inpatient services must include a treatment period of not more than 45 days, except that the judge may order 90 days if they find the longer period necessary. [Tex. Health & Safety Code § 574.034\(g\)](#).
- A judge may not issue an order for temporary inpatient mental health services for a proposed patient who is charged *with a criminal offense* that involves an act, attempt, or threat of serious bodily injury to another person. [Tex. Health & Safety Code § 574.034\(h\)](#).
 - A child alleged to have engaged in delinquent conduct or CINS is **not** considered to be a person charged with a criminal offense. [Tex. Health & Safety Code § 571.011\(a\)](#).

Note: The “majority of [appellate courts] find that the requirement of ‘overt acts or patterns of behavior’ may not be fulfilled merely by citing a patient’s refusal of treatment.”¹⁷⁴

Criteria for Court-Ordered Temporary Outpatient Mental Health Services

- The judge may order a child to receive court-ordered temporary outpatient mental health services only if:
 - The judge finds that appropriate mental health services are available to the child; and
 - **Clear and convincing evidence** that:
 - The child is a child with severe and persistent mental illness;
 - As a result of the mental illness, the child will, if not treated, experience deterioration of the ability to function independently to the extent that the child will be unable to live safely in the community without court-ordered outpatient mental health services;

¹⁷² Hon. Guy Herman, Mental Health Law 8 (Aug. 2019) (unpublished manuscript) (on file with the Judicial Commission on Mental Health).

¹⁷³ Note that the Texas Supreme Court, in *State v. K.E.W.*, clarified the “overt act” requirement. The Court held that the act does not have to be actually harmful or demonstrate that harm to others is imminent. The case also states that speech alone may be considered an overt act. See *State v. K.E.W.*, 315 S.W. 3d 16, 24 (Tex. 2010).

¹⁷⁴ Hon. Guy Herman, Mental Health Law 13 (Aug. 2019) (unpublished manuscript) (on file with the Judicial Commission on Mental Health).

- Outpatient mental health services are needed to prevent a relapse that would likely result in serious harm to the child or others; and
- The child has an inability to participate in outpatient treatment services effectively and voluntarily, demonstrated by:
 - Any of the child's actions occurring within the two-year period that immediately precedes the hearing; or
 - Specific characteristics of the child's clinical condition that significantly impair the child's ability to make a rational and informed decision whether to submit to voluntary outpatient treatment.

[Tex. Fam. Code § 55.05 \(b\).](#)

- To be **clear and convincing**, the evidence must include expert testimony and evidence of a recent overt act or a continuing pattern of behavior that tends to confirm:
 - The deterioration of ability to function independently to the extent that the child will be unable to live safely in the community;
 - The need for outpatient mental health services to prevent a relapse that would likely result in serious harm to the child or others; and
 - The child's inability to participate in outpatient treatment services effectively and voluntarily.

[Tex. Health & Safety Code § 574.0345\(b\).](#)

- An order for temporary outpatient mental health services must state that treatment is authorized for not longer than 45 days, but the judge may specify a period up to 90 days if the judge finds that the longer period is necessary. [Tex. Health & Safety Code § 574.0345\(c\).](#)
- A judge may not issue an order for temporary outpatient mental health services for a proposed patient who is charged with a criminal offense that involves an act, attempt, or threat of serious bodily injury to another person. [Tex. Health & Safety Code § 574.034\(h\).](#)
 - A child alleged to have engaged in delinquent conduct or CINS is **not** considered to be a person charged with a criminal offense. [Tex. Health & Safety Code § 571.011\(a\).](#)

Open and Frequent Communication Between Courts and LMHAs

To maintain the most up-to-date information about the availability of outpatient mental health services, courts should ensure that they are familiar with their LMHA and have a contact person who can provide the court with information on available resources.

Criteria for Court-Ordered Extended Inpatient Mental Health Services

- The judge may order a child to receive extended inpatient mental health services only if the judge or the jury finds, from **clear and convincing evidence**, that:
 - The child is a child with mental illness;
 - As a result of that mental illness the child:
 - Is likely to cause serious harm to the child's self;
 - Is likely to cause serious harm to others; or
 - Is:
 - Suffering severe and abnormal mental, emotional, or physical distress;

- Experiencing substantial mental or physical deterioration of the child's ability to function independently; and
- Unable to make a rational and informed decision as to whether or not to submit to treatment;
- The child's condition is expected to continue for more than 90 days; and
- The child has received court-ordered inpatient mental health services under this chapter or under Chapter 574, Health and Safety Code, for at least 60 consecutive days during the preceding 12 months.

Tex. Fam. Code § 55.05(c).

- If the court finds that the child meets the criteria listed above, the court must specify which criterion forms the basis for the decision. [Tex. Health & Safety Code § 574.035\(c\)](#).
- The court is not required to find a specific criterion if the child has already been subject to an order for extended mental health services. [Tex. Health & Safety Code § 574.035\(d\)](#).
- To be **clear and convincing**, the evidence must include expert testimony and evidence of a recent overt act or a continuing pattern of behavior that tends to confirm:
 - The likelihood of serious harm to the child or others; or
 - The child's distress and the deterioration of the child's ability to function.

Tex. Health & Safety Code § 574.035(e).

- An order for extended inpatient mental health services must provide for a period of treatment not to exceed 12 months. [Tex. Health & Safety Code § 574.035\(h\)](#).
- A judge may not issue an order for extended inpatient mental health services for a proposed patient who is charged with a criminal offense that involves an act, attempt, or threat of serious bodily injury to another person. [Tex. Health & Safety Code § 574.035\(i\)](#).
 - A child alleged to have engaged in delinquent conduct or CINS is **not** considered to be a person charged with a criminal offense. [Tex. Health & Safety Code § 571.011\(a\)](#).

Criteria for Court-Ordered Extended Outpatient Mental Health Services

- The judge may order a child to receive extended outpatient mental health services only if:
 - The judge finds that appropriate mental health services are available to the child; and
 - The judge or jury finds, from **clear and convincing evidence**, that:
 - The child is a child with severe and persistent mental illness;
 - As a result of the mental illness, the child will, if not treated, experience deterioration of the ability to function independently to the extent that the child will be unable to live safely in the community without court-ordered outpatient mental health services;
 - Outpatient mental health services are needed to prevent a relapse that would likely result in serious harm to the child or others;
 - The child has an inability to effectively and voluntarily participate in outpatient treatment services, demonstrated by:
 - Any of the child's actions occurring within the two-year period preceding the hearing; or
 - Specific characteristics of the child's clinical condition that significantly impair the child's ability to make a rational and informed decision whether to submit to voluntary outpatient treatment;

- The child’s condition is expected to continue for more than 90 days; and
- The child has received:
 - Court-ordered inpatient mental health services under this chapter or under Chapter 574, Health and Safety Code, for at least 60 consecutive days during the preceding 12 months; or
 - Court-ordered outpatient mental health services under this chapter or under Chapter 574, Health and Safety Code, during the preceding 60 days.

[Tex. Fam. Code § 55.05\(d\)](#).

- If the child has already been subject to an order for extended mental health services, the court does not need to make that finding again. [Tex. Health & Safety Code § 574.0355\(b\)](#).
- To be **clear and convincing**, the evidence must include expert testimony and evidence of a recent overt act or a continuing pattern of behavior that tends to confirm:
 - The deterioration of the ability to function independently to the extent that the child will be unable to live safely in the community;
 - The need for outpatient mental health services to prevent a relapse that would likely result in serious harm to the child or others; and
 - The child’s inability to participate in outpatient treatment services effectively and voluntarily.

[Tex. Health & Safety Code § 574.0355\(c\)](#).

- An order for extended outpatient mental health services must provide for a period of treatment not to exceed 12 months. [Tex. Health & Safety Code § 574.0355\(d\)](#).
- A judge may not issue an order for extended outpatient mental health services for a child who is charged with a criminal offense that involves an act, attempt, or threat of serious bodily injury to another person. [Tex. Health & Safety Code § 574.0355\(e\)](#).
 - A child alleged to have engaged in delinquent conduct or CINS is **not** considered to be a person charged with a criminal offense. [Tex. Health & Safety Code § 571.011\(a\)](#).

Legislative Change

S.B. 728 (88th Reg. Sess. (2023)) added clarification to the federal firearms reporting requirements found in [Sections 411.052 and 411.0521](#) of the Texas Government Code and amended [Section 58.007\(a\)](#) of the Texas Family Code.

These statutes now clearly require that children who are at least 16 years of age, and who have been found unfit to proceed, found not responsible for their conduct, ordered to receive inpatient mental health services, or are ordered to receive intellectual disability services in a residential care facility, are to be reported to the FBI National Instant Criminal Background Check System (NICS) and to the Texas Department of Public Safety.

Referral of Proceedings to Appropriate County or Probate Court

If the case is referred to an appropriate county or probate court, the judge of that court completes the process for court-ordered mental health services. The juvenile court must send all papers, including evaluations, examination reports, court findings, orders, verdicts, judgments, and reports from facilities and alternative settings, relating to the child’s mental illness or intellectual disability and the child’s unfitness to proceed, to both the clerk of the court to which the case is referred, and to the office of the appropriate county or district attorney. [Tex. Fam. Code §§ 55.68\(a\)\(1\), \(2\)](#). The papers sent to the clerk of

a court constitute an application for mental health services under [Section 574.001](#), Health and Safety Code, or an application for placement in a residential care facility under [Section 593.041](#), Health and Safety Code. [Tex. Fam. Code § 55.68\(b\)](#).

If the child is in detention, the judge has three options:

- Order the child released from detention to the child’s home or another appropriate place;
- Order the child detained or placed in an appropriate place other than a juvenile detention facility;
or
- Conduct a detention hearing and, if the court makes findings under Section 54.01 to support further detention of the child, order the child to remain in the juvenile detention facility subject to further detention orders of the court.

[Tex. Fam. Code § 55.68\(c\)](#).

Standards of Care

The standard of care and treatment is defined by Subtitle C, Title 7 of the Health and Safety Code, with the exception of requiring notice by certified mail from the facility administrator to the committing court 10 days before the child is released. [Tex. Fam. Code § 55.45\(a\)](#).

Proceedings in Juvenile Court for Court-Ordered Residential Intellectual Disability Services

If the court determines that evidence exists to support a finding that the child is a child with intellectual disability and that the child meets the criteria for court-ordered residential intellectual disability services under [Section 55.06](#), the court shall:

- Initiate proceedings in juvenile court under [Section 55.67](#) to order residential intellectual disability services for the child under Subtitle D, Title 7, Health and Safety Code; or
- Refer the child’s case as provided by [Section 55.68](#) to the appropriate court to order residential intellectual disability services for the child under Subtitle D, Title 7, Health and Safety Code.

[Tex. Fam. Code § 55.40](#).

Application for Court-Ordered Residential Intellectual Disability Proceedings

For proceedings in juvenile court, the prosecutor must file an application for placement under Section 593.041, Health and Safety Code. [Tex. Fam. Code § 55.41\(a\)](#).

- The application must be filed in the county where the child resides. [Tex. Health & Safety Code § 593.041\(b\)](#).

What Should be Included in the Application

An application must include:

- The name, birth date, sex, and address of the proposed resident;
- The name and address of the proposed resident’s parent or guardian, if applicable;
- A short, plain statement of the facts demonstrating that [placement in] a facility is necessary and appropriate; and
- A short, plain statement explaining the inappropriateness of admission to less restrictive services.
- A copy of the interdisciplinary report if it is completed.

[Tex. Health & Safety Code §§ 593.042\(a\), \(b\)](#).

Interdisciplinary Team Report

Except as provided by [Section 593.051](#) (which pertains to a parent’s or guardian’s petition for voluntary admission of a person to an SSLC), a person may not be [ordered to placement] in a residential care facility unless a report by an interdisciplinary team recommending the placement has been completed during the six months prior to the date of the hearing on the application. If the report and recommendations have not been completed or revised during that period, the court must order the report and recommendations on receiving the application. [Tex. Health & Safety Code § 593.041\(d\)](#).

An interdisciplinary team shall:

1. Interview the person with an intellectual disability, the person’s parent **if the person is a minor**, and the person’s guardian;
2. Review the person’s:
 - A. Social and medical history;
 - B. Medical assessment, which shall include an audiological, neurological, and vision screening;
 - C. Psychological and social assessment; and
 - D. Determination of adaptive behavior level;
3. Determine the person’s need for additional assessments, including educational and vocational assessments;
4. Obtain any additional assessment necessary to plan services;
5. Identify the person’s habilitation and service preferences and needs;
6. Recommend services to address the person’s needs that consider the person’s preferences.

[Tex. Health & Safety Code § 593.013\(b\)](#).

- The interdisciplinary team shall give the person, the person’s parent **if the person is a minor**, and the person’s guardian an opportunity to participate in team meetings. [Tex. Health & Safety Code § 593.013\(c\)](#).
- The interdisciplinary team may use a previous assessment, social history, or other relevant record from a school district, public or private agency, or appropriate professional if the interdisciplinary team determines that the assessment, social history, or record is valid. [Tex. Health & Safety Code § 593.013\(d\)](#).
- The interdisciplinary team shall prepare a written report of its findings and recommendations that is signed by each team member and shall promptly send a copy of the report and recommendations to the person, the person’s parent **if the person is a minor**, and the person’s guardian. [Tex. Health & Safety Code § 593.013\(e\)](#).
- If the court has ordered the interdisciplinary team report and recommendations under Section 593.041, the team shall promptly send a copy of the report and recommendations to the court, the person with an intellectual disability or the person’s legal representative, the person’s parent **if the person is a minor**, and the person’s guardian. [Tex. Health & Safety Code § 593.013\(f\)](#).

Appointment of an Attorney under HSC 593.043

- The child must be represented by an attorney who will represent the rights and legal interests of the child without regard to who has retained the attorney. [Tex. Health & Safety Code § 593.043\(a\)](#).
- If the child is indigent, the judge must appoint an attorney by the 11th day before the hearing. [Tex. Health & Safety Code § 593.043\(b\)](#).

- The parent, **if the proposed resident is a minor**, or the guardian of the person may be represented by legal counsel during the proceedings. [Tex. Health & Safety Code § 593.043\(d\)](#).

Setting the Hearing for Residential Intellectual Disability Services in Juvenile Court

The juvenile court must set a date for the hearing and provide notice as required under Sections 593.047 and 593.048, Health and Safety Code. [Tex. Fam. Code § 55.67\(a\)\(1\)](#).

- The court must immediately set the hearing at the earliest practicable date to determine the appropriateness of the residential intellectual disability services. [Tex. Health & Safety Code § 593.047](#).
- At least 11 days before the hearing, a copy of the application, notice of the time and place of the hearing, and, if appropriate, the order for the determination of an intellectual disability and interdisciplinary team report and recommendations must be served on:
 - The proposed resident or the proposed resident’s representative;
 - The parent **if the proposed resident is a minor**;
 - The guardian of the person; and
 - The department.¹⁷⁵

[Tex. Health & Safety Code § 593.048\(a\)](#).

- The notice must specify in plain and simple language:
 - The right to an independent determination of an intellectual disability under Section 593.007; and
 - The provisions of Sections 593.043¹⁷⁶, 593.047¹⁷⁷, 593.049¹⁷⁸, 593.050¹⁷⁹, and 593.053¹⁸⁰.

[Tex. Health & Safety Code § 593.048\(b\)](#).

Hearing for Residential Intellectual Disability Services

The court must conduct the hearing in accordance with Sections 593.049 – 593.056, Health and Safety Code. [Tex. Fam. Code § 55.67\(a\)\(2\)](#).

- The hearing is before the court but shall be before a jury if any party or the court request a jury trial. The Texas Rules of Civil Procedure apply to all aspects of the proceedings and trial unless the rules are inconsistent with this subchapter. [Tex. Health & Safety Code §§ 593.049\(a\), \(b\)](#).
- The hearing must be open to the public unless the child or their representative request that it be closed, and the court finds good cause to do so. [Tex. Health & Safety Code § 593.050\(a\)](#).
 - Generally, juvenile court proceedings are open to the public unless good cause is shown to exclude the public. [Tex. Fam. Code § 54.08\(a\)](#).
 - If a child is under the age of 14 at the time of the hearing, the court **shall close** the hearing to the public, unless the court finds that the interests of the child or the public would be better served by opening the hearing to the public. [Tex. Fam. Code § 54.08\(c\)](#).

¹⁷⁵ Here, “the department” refers to the Department of Aging and Disability Services. [Tex. Health & Safety Code § 591.003\(7\)](#). As all DADS functions were transferred to HHSC on September 1, 2017, it may be advantageous to serve HHSC to satisfy the notice requirement.

¹⁷⁶ Representation by Counsel; Appointment of Attorney.

¹⁷⁷ Setting on Application.

¹⁷⁸ Hearing Before Jury; Procedure.

¹⁷⁹ Conduct of Hearing.

¹⁸⁰ Decision.

- The child is entitled to be present throughout the hearing. If the court determines that the presence of the child would result in harm to the child, the court can waive the requirement in writing clearly stating the reason for the decision. [Tex. Health & Safety Code § 593.050\(b\)](#).
- The child is entitled to and must be provided the opportunity to confront and cross-examine each witness. [Tex. Health & Safety Code § 593.050\(c\)](#).
- The Texas Rules of Evidence apply. The results of the determination of an intellectual disability and the current interdisciplinary team report and recommendations *shall* be presented in evidence. [Tex. Health & Safety Code § 593.050\(d\)](#).
- The party who filed the application has the burden to prove **beyond a reasonable doubt** that long-term placement of the child in a residential care facility is appropriate. [Tex. Health & Safety Code § 593.050\(e\)](#).
- If long-term placement in a residential care facility is not found to be appropriate, the court shall enter a finding to that effect, **dismiss** the application, and if appropriate, recommend application for admission to voluntary services under Subchapter B. [Tex. Health & Safety Code § 593.051](#).
- In each case, the court shall promptly report in writing the decision and findings of fact. [Tex. Health & Safety Code § 593.053](#).

Criteria for Residential Intellectual Disability Services

S.B. 1585 (88th Reg. Sess. (2023)) incorporated the criteria for court-ordered residential intellectual disability services that are found in the Texas Health and Safety Code directly into Chapter 55 by creating new section 55.06.

After conducting a hearing under this section *and with consideration given to the least restrictive appropriate setting* for services for the child and to the parent’s, managing conservator’s, or guardian’s availability and willingness to participate in the services for the child, the juvenile court may order residential intellectual disability services for the child if the criteria under [Section 55.06](#) are satisfied. [Tex. Fam. Code § 55.67\(b\)](#).

A child may not be court-ordered to receive services at a residential care facility unless each of the following elements has been proved **beyond a reasonable doubt**:¹⁸¹

- The child is a child with an intellectual disability;
- Evidence is presented showing that because of the child’s intellectual disability, the child:
 - Represents a substantial risk of physical impairment or injury to the child or others; or
 - Is unable to provide for and is not providing for the child’s most basic personal physical needs;
- The child cannot be adequately and appropriately habilitated in an available, less restrictive setting; and
- The residential care facility provides habilitative services, care, training, and treatment appropriate to the child’s needs.
- An interdisciplinary team recommends placement in the residential care facility.

[Tex. Fam. Code § 55.06](#).

- On receipt of the court order for residential services, the Health and Human Services Commission shall identify a residential care facility and admit the child to the identified facility. [Tex. Fam. Code § 55.67\(c\)](#).

¹⁸¹ See [Pratt v. State](#), 907 S.W. 2d 38, 44 (Tex. App.—Dallas 1995, writ denied).

- If the child is currently detained in a juvenile detention facility, the juvenile court shall:
 - Order the child released from detention to the child’s home or another appropriate place;
 - Order the child detained or placed in an appropriate facility other than a juvenile detention facility; or
 - Conduct a detention hearing and, if the court makes findings under Section 54.01 to support further detention of the child, order the child to remain in the juvenile detention facility subject to further detention orders of the court.

[Tex. Fam. Code § 55.67\(d\)](#).

- The court shall immediately send a copy of the order for residential services to the department or community center. [Tex. Health & Safety Code § 593.052\(c\)](#).
- If placement in a residential facility is necessary, preference shall be given to the facility nearest to the residence of the child unless:
 1. Space in the facility is unavailable;
 2. The child, parent if the resident is a minor, or guardian of the child requests otherwise; or
 3. There are other compelling reasons.

[Tex. Health & Safety Code § 593.055](#).

- A party to a [court-ordered residential intellectual disability services] proceeding has the right to appeal the judgment to the appropriate court of appeals. An appeal under this section shall be given a preference setting, and the county court may grant a [stay] pending appeal. [Tex. Health & Safety Code §§ 593.056\(a\), \(c\) and \(d\)](#).

Referral of Proceedings to Appropriate County or Probate Court

If the case is referred to an appropriate county or probate court, the judge of that court completes the process for court-ordered residential intellectual disability services. The juvenile court must send all papers, including evaluations, examination reports, court findings, orders, verdicts, judgments, and reports from facilities and alternative settings, relating to the child’s intellectual disability and unfitness to proceed to both the clerk of the court to which the case is referred, and to the office of the appropriate county or district attorney. [Tex. Fam. Code §§ 55.68\(a\)\(1\), \(2\)](#). The papers sent to the clerk of a court constitute an application for placement under [Section 593.041](#), Health and Safety Code. [Tex. Fam. Code § 55.68\(b\)](#).

Standards of Care

The standard of care and treatment is defined by Subtitle D, Title 7 of the Health and Safety Code, with the exception of requiring notice by certified mail from the facility administrator to the ordering court 20 days before the child is released. [Tex. Fam. Code § 55.45\(b\)](#).

- If the child is alleged to have committed an offense listed in [Article 42A.054, Code of Criminal Procedure](#), the facility administrator must apply in writing, to the ordering court, for authorization to release or furlough the child for a period of 48 hours or longer, and show good cause. Notice of the request must be provided to the prosecutor. The prosecutor, the child, or the administrator can apply for a hearing on the request. The rules of evidence do not apply to the hearing, and no appeal can be taken. If there is no request for a hearing, the court makes the decision based on the application for authorization. [Tex. Fam. Code § 55.45\(c\)](#).

Restoration Hearing

The prosecutor can move for a restoration hearing if:

1. The child is found unfit to proceed as a result of mental illness or intellectual disability; and
2. The child:

A. Is **not**:

- i. Ordered by a court to receive inpatient mental health or intellectual disability services;
- ii. Ordered by a court to receive services at a residential care facility; or
- iii. Ordered by a court to receive treatment or services on an outpatient basis; or

B. Is discharged or currently on furlough from a mental health facility or discharged from an alternative setting before the child reaches 18 years of age.

Tex. Fam. Code § 55.43(a).

- At the restoration hearing, the court shall determine the issue of whether the child is fit to proceed. The hearing is before the court, and the issue of fitness must be proved by a **preponderance of the evidence**. Tex. Fam. Code §§ 55.43(b-d).
- If the court finds that the child is fit to proceed, the court shall **continue** the juvenile court proceedings. If the court finds that the child is not fit to proceed, the court shall **dismiss** the motion for restoration. Tex. Fam. Code §§ 55.43(e), (f).

Discretionary Transfer to Criminal Court on 18th Birthday of Child

The juvenile court has the option to transfer all pending proceedings from the juvenile court to a criminal court on or after the 18th birthday of a child for whom a court has ordered inpatient mental health services or residential intellectual disability care if:

1. The child has not been discharged or furloughed from the facility before reaching 18 years of age; and
2. The child is alleged to have engaged in delinquent conduct that included a violation of a penal law listed in [Section 53.045](#) (Offenses Eligible for Determinate Sentence) and no adjudication has occurred.

Tex. Fam. Code § 55.44(a).

- The juvenile court must send notification of a transfer to the facility. The criminal court must, within 90 days of the transfer, institute proceedings under Chapter 46B, Code of Criminal Procedure. If those or any subsequent proceedings result in a determination that the defendant is **competent to stand trial**, the defendant may not receive a punishment for the conduct that results in confinement for a period longer than the maximum period of confinement they could have received if the defendant had been adjudicated for the delinquent conduct while still a child and within the jurisdiction of the juvenile court.¹⁸² Tex. Fam. Code § 55.44(c).
- Practically, if a child turns 18 while committed to a facility, the child will be transferred to the adult unit of the facility. As the child is now an adult, the child should not be returned to the juvenile detention facility to wait for a bed at the adult unit of the facility. This should be handled by the facility as a direct transfer.

¹⁸² See [Ex Parte S.L.B., 591 S.W.3d 705](#) (Tex. App.—Fort Worth 2019) (discussing the maximum period of confinement).

Discretionary Transfer Hearing

The juvenile court must conduct a waiver of jurisdiction and discretionary transfer hearing according to Texas Family Code [sections 54.02\(j\), \(k\), and \(l\)](#). [Tex. Fam. Code § 55.44\(b\)](#). Those sections pertain to the waiver of jurisdiction and discretionary transfer to adult criminal court, also known as certification to stand trial as an adult.

- The juvenile court may waive its exclusive jurisdiction and transfer a person to the appropriate district court or criminal district court for criminal proceedings if:
 - The person is 18 years of age or older;
 - The person was:
 - 10 years of age or older and under 17 years of age at the time the person is alleged to have committed a capital felony or an offense under [Section 19.02](#), Penal Code;
 - 14 years of age or older and under 17 years of age at the time the person is alleged to have committed an aggravated controlled substance felony or a felony of the first degree other than an offense under [Section 19.02](#), Penal Code; or
 - 15 years of age or older and under 17 years of age at the time the person is alleged to have committed a felony of the second or third degree or a state jail felony;
 - No adjudication concerning the alleged offense has been made or no adjudication hearing concerning the offense has been conducted;
 - The juvenile court finds from a **preponderance of the evidence** that:
 - For a reason beyond the control of the state it was not practicable to proceed in juvenile court before the 18th birthday of the person; or
 - After due diligence of the state it was not practicable to proceed in juvenile court before the 18th birthday of the person because:
 - The state did not have probable cause to proceed in juvenile court and new evidence has been found since the 18th birthday of the person;
 - The person could not be found; or
 - A previous transfer order was reversed by an appellate court or set aside by a district court; and
 - The juvenile court determines that there is probable cause to believe that the child before the court committed the offense alleged.

[Tex. Fam. Code § 54.02\(j\)](#).

- The petition and notice requirements of [Sections 53.04, 53.05, 53.06, and 53.07](#) of this code must be satisfied, and the summons state that the hearing is for the purpose of considering waiver of jurisdiction under Subsection (j). The person's parent, custodian, guardian, or guardian ad litem is not considered a party to a proceeding under Subsection (j) and it is not necessary to provide the parent, custodian, guardian, or guardian ad litem with notice. [Tex. Fam. Code § 54.02\(k\)](#).
- The juvenile court shall conduct a hearing without a jury to consider waiver of jurisdiction under Subsection (j). Except as otherwise provided by this subsection, a waiver of jurisdiction under subsection (j) may be made without the necessity of conducting the diagnostic study or complying with the requirements of discretionary transfer proceedings under Subsection (d). If requested by the attorney for the person at least 10 days before the transfer hearing, the court shall order that the person be examined pursuant to [Section 51.20\(a\)](#) and that the results of the examination be provided to the attorney for the person and the attorney for the state at least five days before the transfer hearing. [Tex. Fam. Code § 54.02\(l\)](#).

Practical Ideas for Counties to Streamline Fitness Restoration and Save Money¹⁸³

1. Assign One Point-of-Contact Between your County and the Health and Human Services Commission Forensic Admission Office. Send an email annually to the Forensic Admission Office (forensicadmissions@hhs.texas.gov) notifying them that your point-of-contact should receive all communication (name, email address and phone number).

2. Communicate with the Forensic Admission Office, State Hospital, or State Supported Living Center (SSLC) via Email. Use email to save wait time when the state hospital or SSLC notifies the county that the juvenile is ready to be transported to or from the facility.

3. Urge the State and Defense to Continue Working on the Case While Waiting for the Juvenile to Return. Attorneys should continue working on fitness cases to address discovery issues, plea offers, and other tasks during the inpatient stay to allow for speedy resolution once returned.

4. Coordinate Transportation. Once the contact person has received notice that a juvenile has been restored, prepare any paperwork that is needed to schedule transportation within three days to cut time in getting the juvenile back to your county.

5. Develop a Policy of Quick Court Settings Upon Return from the Facility. Have the county point-of-contact communicate with the court to set the juvenile's case on a docket within three days of returning from the state facility.

6. Develop a Policy of No Free Passes. To prevent the juvenile from decompensating, make a judicial policy that an attorney may not pass a setting on a client who has returned from the state hospital unless the attorney appears before the court.

7. Set Weekly Medical Meetings to Review Specific Cases. Use [Tex. Health and Safety Code § 614.017](#) to exchange information with the LMHA(s), LIDDA(s), detention center staff, the prosecuting attorney, and the defense attorney. Use these meetings to review the status of cases with fitness issues. Keep a running list of the following:

- Who needs to be on the fitness radar?
- Who has improved?
- Is outpatient competency restoration an option?
- Who needs transportation to or from the facility?
- Is it time for the prosecutor to consider dismissing the case?
- Does the court need to be aware of any juveniles who are decompensating or at risk of decompensating?
- Reconsider juveniles for outpatient restoration services if they have been stabilized in detention. This can shorten your detention center's waitlist for facility placement.
- After medical meetings, email the court any updates or reminders that action may need to be taken soon. For example, a juvenile who is deteriorating in detention may require frequent monitoring.

¹⁸³ Adapted from Alyse Ferguson, Improving Competency Restoration Processes, Texas Judicial Commission on Mental Health Collaborative Council Meeting (2020).

6. Lack of Responsibility

Lack of responsibility is akin to insanity in the adult criminal court. While there are some similarities, courts and practitioners must also be aware of the differences. In both contexts, it is a defense which must be proved by a preponderance of the evidence. [Tex. Fam. Code § 55.51\(d\)](#), [Tex. Code Crim. Proc. art. 46B.153\(a\)\(2\)](#). However, adult criminal court has a narrower test focused on whether the defendant knew at the time of the offense, due to mental illness or intellectual disability, that what they were doing was wrong. [Tex. Penal Code § 8.01\(a\)](#). In contrast, the Family Code has a broader test that asks whether the juvenile respondent, at the time of the conduct, as a result of mental illness or an intellectual disability, lacked the substantial capacity either to appreciate the wrongfulness of their conduct or to conform their conduct to the requirements of the law. [Tex. Fam. Code § 55.51\(a\)](#).

Unlike fitness to proceed, lack of responsibility is a defensive issue presented to the judge or jury during the adjudication hearing. [Tex. Fam. Code § 55.51\(c\)](#). A finding of lack of responsibility means that juvenile court proceedings regarding the specific conduct, are over. However, proceedings will continue. [Tex. Fam. Code § 55.51\(g\)](#).

Making the Distinction: Fitness, Lack of Responsibility, Mental Illness, and Intellectual Disability

Fitness: relates to a juvenile's mental state and present capacity to stand trial; fitness is not a defense to the charged conduct.

Lack of Responsibility: relates to the juvenile's mental state at the time of the conduct and is an affirmative defense to prosecution.

Mental Illness: an illness, disease, or condition, other than epilepsy, senility, alcoholism, or mental deficiency, that: (A) substantially impairs a person's thought, perception of reality, emotional process, or judgment; or (B) grossly impairs behavior as demonstrated by recent disturbed behavior. [Tex. Fam. Code § 55.01\(6\)](#), [Tex. Health & Safety Code § 571.003\(14\)](#). *Note that a child can have MI and be fit to proceed; similarly, a child may have MI but not meet the legal standard for lack of responsibility.*

Intellectual Disability: significantly subaverage general intellectual functioning that is concurrent with deficits in adaptive behavior and originates during the developmental period. [Tex. Code Crim. Proc. art. 46B.001\(8\)](#); [Tex. Health & Safety Code § 591.003](#). *As with MI, a child can have ID and be fit to proceed; similarly, a child may have ID but not meet the legal standard for lack of responsibility.*

When a fitness evaluation occurs close in time to the date of the delinquent conduct, it may be advantageous to have the examiner also offer an opinion as to whether the child lacked responsibility at the time of the conduct, so that vital insight into the child's mental condition at the time is documented for future use. It is also important that the expert receive the law enforcement reports so they can effectively assess the child's perceptions and actions in the context of the investigation. Practitioners must carefully review the reports to ensure that there is no mention of the child's risk factors.

A checklist to assist in identifying possible MI or ID can be found in the Appendix.

Developmental Period

Children who are referred to the juvenile court are, by definition, “in their developmental period” (under age 18); therefore, a child who has a diagnosis of having a pervasive developmental disorder in a psychological or psychiatric report probably qualifies as having an intellectual disability.¹⁸⁴

Obtaining a diagnosis of intellectual disability from the LIDDA can facilitate a child’s lifetime access to state-funded disability services. Do not hesitate to refer a child to the LIDDA for evaluation and determination of eligibility for services if there is any reason to believe the child could have an intellectual or developmental disability.

Raising the Issue

- **Any party** can raise the issue of lack of responsibility as a result of mental illness (MI) or intellectual disability (ID). [Tex. Fam. Code § 55.51\(b\)](#).
- Once the motion is filed, the court must order the child to be examined under Texas Family Code § 55.04. [Tex. Fam. Code § 55.51\(b\)](#).
 - The information obtained from the examination must include expert opinion as to: whether the child is a child with mental illness or an intellectual disability; whether the child is not responsible for their conduct as a result of MI or ID; whether the child meets criteria for court-ordered mental health or intellectual disability services under [Section 55.05](#) or [55.06](#); and the specific criteria the child meets. [Tex. Fam. Code § 55.51\(b\)](#).

Note: While the Family Code permits any party to raise lack of responsibility, a decision by the State to raise the issue may be problematic considering the child’s 5th Amendment right against compelled self-incrimination and potential disclosures of the child’s defensive theories during an examination.

Qualifications of Experts

Judges should critically vet the experts they appoint. This minimally entails verifying that an expert meets the statutory qualifications prior to appointment. The section on Fitness to Proceed contains information about expert qualifications to perform forensic mental examinations, which include examinations for mental illness, fitness to proceed, and lack of responsibility.

Disinterested Experts and Evaluations

Texas Family Code section 55.04 authorizes the appointment of a “disinterested physician or psychologist...” [Tex. Fam. Code § 55.04\(a\)](#). It can be difficult to determine what type of assessment is needed when trying to help a child. This is in part due to shared skills that exist across various professions. Below are the general responsibilities of specialized practitioners. Forensic experience and specialized training are factors to consider when deciding on an evaluator, as well as availability.

Psychiatrist: Medical doctor that focuses on disorders of mood or thinking including depression, anxiety, ADHD, and psychosis. Utilizes clinical interview, self-report measures and review of collateral information

¹⁸⁴ William R. “Bill” Cox, Texas Family Code Chapter 55: Mental Health Proceedings, 26th Annual Robert O. Dawson Juvenile Law Institute (2013), https://juvenilelaw.org/wp-content/uploads/2017/06/07_Cox.pdf.

as part of assessment. Treatment modalities include medication and referral to psychotherapy. Some psychiatrists also provide therapy themselves.

Psychologist: Doctorate-level clinician that focuses on disorders of mood or thinking including depression, anxiety, ADHD, and psychosis. Utilizes psychological testing, self-report measures, clinical interview and review of collateral information as part of assessment. Treatment modalities include individual, family, and group therapy along with skills training.

Neuropsychologist: Psychologist specializing in disorders of thinking including dementia; developmental, learning or attention disabilities; and traumatic brain injury. Utilizes clinical interview, self-report measures, review of collateral information, and specialized psychological testing including measures of executive, visuospatial, and memory functioning as part of assessment. Treatment modalities include skills training to address neuropsychological challenges and referral to ancillary therapies.

Neurologist: Medical doctor that focuses on disorders of the brain and nervous system including Parkinson's, multiple sclerosis, stroke, muscle weakness, and ADHD. Utilizes physical exam, electroencephalogram (EEG), electromyography (EMG), or imaging as part of assessment. Treatment modalities include medication and referral to ancillary therapies such as physical or occupational therapy.

Finally, it is important that the expert use measures and processes with the youth that are developmentally, academically, culturally, and linguistically appropriate for the child.

Hearing on Issue of Lack of Responsibility

- The issue of whether the child is not responsible for their conduct as a result of MI or ID shall be tried to the judge or the jury as part of the adjudication hearing. [Tex. Fam. Code § 55.51\(c\)](#).
- Lack of responsibility must be proven by a **preponderance of the evidence**. [Tex. Fam. Code § 55.51\(d\)](#).
- The judge or jury must make a specific finding in its verdict whether the child is not responsible for their conduct due to MI or ID. [Tex. Fam. Code § 55.51\(e\)](#).
 - If the case is tried to a jury, the verdict forms must contain a special issue for the jury to indicate whether the child lacked responsibility or did not lack responsibility.
 - **Note:** Because there is no statutory notice requirement for lack of responsibility, it can be raised by either party at any point during the adjudication phase.

Proceedings Following a Finding of Lack of Responsibility

Once the child has been found to lack responsibility, temporary court-ordered services of up to 90 days are required, provided that the child meets the criteria under [Section 55.05](#) or [55.06](#). [Tex. Fam. Code § 55.52\(a\)](#).

- Whether the lack of responsibility is due to MI or ID, there are two placement options:
 - Placement with the Texas Health and Human Services Commission (state hospital or state supported living center);
 - Placement in a private psychiatric inpatient facility¹⁸⁵ or residential care facility, on application by the child's parent, guardian, or guardian ad litem, so long as the facility administrator agrees in writing.

[Tex. Fam. Code §§ 55.52\(a\)\(1\), \(2\)](#).

If the child is found to lack responsibility but **does not meet the criteria** for court-ordered services under [Section 55.05](#) or [55.06](#), and if the court determines that the child may be adequately treated or served in an

¹⁸⁵ If the court orders a child placed in a private psychiatric inpatient facility, residential care facility, or alternative setting under Subsection (a)(3), and if funding is specifically budgeted for it, the court can order the state to pay the costs of the court-ordered services. [Tex. Fam. Code § 55.52\(b\)](#).

alternative setting, the court can order the child to receive treatment for mental illness or services for the child's intellectual disability, as appropriate, on an outpatient basis for up to 90 days, with the possibility of extension as ordered by the court. [Tex. Fam. Code § 55.52\(a\)\(3\)](#). Before the court can issue this order, it must consult with the local juvenile probation department, with local treatment or service providers, with the LMHA, and with the LIDDA to determine the appropriate treatment or services for the child. [Tex. Fam. Code § 55.52\(c\)](#).

Best Practices after Finding Lack of Responsibility

It is recommended for the probation officer to contact the HHSC Forensic Admissions Office (forensicadmissions@hhs.texas.gov) or the Continuity of Services Manager as soon as possible after a child is ordered to receive services at a State Hospital or State Supported Living Center to advise them of the potential admission. The State Hospital or State Supported Living Center point of contact may then provide guidance to the probation officer regarding preparation of documentation.

As of this writing, the State Hospital Continuity of Services Coordinator is Matthew Moravec Gallagher, who can be reached at forensicadmissions@hhs.texas.gov or (430) 244-9933.

Probation officers, service providers in the juvenile justice system, prosecutors, and other stakeholders should relay the circumstances of the offense(s) and details of any safety concerns about the child and their family to the placement after a finding of lack of responsibility.

As soon as an expert opinion concludes that a child presents with an intellectual or developmental disability, the probation officer should request a Determination of Intellectual or Developmental Disability evaluation (DID) through the LIDDA. Proactively submitting a referral can help the child and family receive support sooner regardless of whether the child is deemed responsible.

Transportation

- If the court issues a placement order, the court must order the probation department or the sheriff's department to transport the child to and from the designated facility. [Tex. Fam. Code § 55.53\(a\)](#).
 - Upon receipt of a report from a facility, the child shall be returned to juvenile court by the 11th day after the date of the court's order, then the facility is required to transport the child to the court, at the county's expense. [Tex. Fam. Code § 55.53\(b\), \(c\)](#).

Information Required to be Sent to the Facility

- The court must order the probation department to send copies of any information in their possession that is relevant to the issue of the child's MI or ID to the treatment provider. [Tex. Fam. Code § 55.53\(a\)](#). This may include information in the court's file, the probation department's file, the detention facility file, and/or medical or mental health files maintained by the probation department and/or its medical or mental health providers.

A checklist for locating potential materials in the Juvenile Probation Department's possession can be found in the Appendix.

Report due to the Court

- Before the 75th day after the order, the treatment provider must submit a report to the court. The report must describe the treatment or services provided to the child and state the facility director's opinion as to whether the child is a child with mental illness or an intellectual disability. [Tex. Fam. Code § 55.54\(b\)](#).
 - If the report states that the child is a child with mental illness or an intellectual disability, the report must also include an opinion as to whether the child meets criteria for court-

- ordered mental health services or court-ordered intellectual disability services under [Section 55.05](#) or [55.06](#). [Tex. Fam. Code § 55.54\(c\)](#).
- The court must provide a copy of the facility's report to the prosecutor and to the child's attorney. [Tex. Fam. Code § 55.54\(d\)](#).

75th Day

The best practice is for the Court to set a status hearing for the 75th day to be sure the report is received and distributed to all parties.

Report that Child Does Not Have Mental Illness or Intellectual Disability

- If the facility report states the child does not have a mental illness or an intellectual disability, the juvenile court shall *discharge the child* unless **the prosecutor objects in writing** not later than two days after the attorney receives the report, or a **determinate sentence** adjudication hearing was conducted. [Tex. Fam. Code § 55.55\(a\)](#).
- If a timely objection is made, the court must hold a hearing to determine whether the child is a child with mental illness or an intellectual disability and meets the criteria for court-ordered services under [Section 55.05](#) or [55.06](#). [Tex. Fam. Code § 55.55\(b\)](#).
- This hearing is before the court, without a jury. [Tex. Fam. Code § 55.55\(b\)](#).
- The burden of proof is on the state to prove **by clear and convincing evidence** that the child is a child with mental illness or an intellectual disability meets the criteria for court-ordered treatment services. [Tex. Fam. Code § 55.55\(c\)](#).
- If the court finds that the child does not have a mental illness or an intellectual disability and that the child does not meet the criteria for court-ordered treatment services, *the court shall discharge the child*. [Tex. Fam. Code § 55.55\(d\)](#).
- If the court finds that the child has a mental illness or an intellectual disability and the child meets the criteria for court-ordered treatment services, the court shall issue an appropriate order for mental health services or intellectual disability services. [Tex. Fam. Code § 55.55\(e\)](#).

Report that Child has Mental Illness

At this point the procedures for court-ordered services due to mental illness and intellectual disability become separate.¹⁸⁶ The director of the facility that supplied the report must submit two certificates of medical examination (CMEs) for mental illness to the court. [Tex. Fam. Code § 55.56](#). Once the court receives the CMEs, it can initiate proceedings for court-ordered services.

A sample CME form can be found in the Appendix.

Proceedings in Juvenile Court for Mental Illness

The juvenile court has the option of hearing the proceeding for court-ordered services or referring it to an appropriate county or probate court. [Tex. Fam. Code § 55.56](#).

¹⁸⁶ William R. "Bill" Cox, Texas Family Code Chapter 55: Mental Health Proceedings, 26th Annual Robert O. Dawson Juvenile Law Institute (2013), https://juvenilelaw.org/wp-content/uploads/2017/06/07_Cox.pdf

Juvenile Court or Probate Court

The choice of whether to proceed with court-ordered services in juvenile court or to refer the proceedings to a county or probate court rests exclusively with the juvenile court. A juvenile court that hears court-ordered services proceedings infrequently may prefer to have the county or probate court conduct them. The standards for court-ordered services are the same, regardless of which court holds the hearing. County or probate courts may have more frequent interaction with community-based treatment options, private placements, and state facilities. Judges in a community can discuss available resources to determine which approach is advantageous for their constituents. If the juvenile court chooses to refer the case to a county or probate court, it is important to be aware of the child's right to seal their records and to maintain ongoing communication concerning the child's progress and case status.

Application for Court-Ordered Mental Health Proceedings

For proceedings in juvenile court, the prosecutor may file an application for court-ordered mental health services under Sections 574.001 and 574.002, Health and Safety Code. [Tex. Fam. Code § 55.66\(a\)](#).

What Should be Included in the Application

An application must:

- Be styled using the child's initials and not the proposed patient's full name;
- State whether the application is for temporary or extended services;
- Contain the child's name, address, and county of residence in Texas;
- Include a statement that the child is a person with mental illness and meets the criteria in Chapter 574 for court-ordered mental health services; and
- State whether the child is charged with a criminal offense.

[Tex. Health & Safety Code § 574.002](#).

Application Requirements for Extended Court-Ordered Services

Applications for **extended** court-ordered services have several statutory requirements that applications for **temporary** court-ordered services do not require.

- An application for **extended inpatient** mental health services must state that the child has received:
 - *Court-ordered inpatient mental health services* under either this subtitle or under Chapter 46B, Subchapter D of the Texas Code of Criminal Procedure (Procedures after Determination of Incompetency) or Subchapter E (Civil Commitment: Charges Pending) for *at least 60 consecutive days during the prior 12 months*.
- An application for **extended outpatient** mental health services must state that the child has received:
 - *Court-ordered inpatient mental health services* under either this subtitle or under Chapter 46B, Subchapter D or E of the Texas Code of Criminal Procedure for *a total of at least 60 days during the prior 12 months*; OR
 - *Court-ordered outpatient mental health services* under this subtitle or Chapter 46B, Subchapters D or E *during the preceding 60 days*.

[Tex. Health & Safety Code § 574.002\(b\)](#).

Appointment and Duties of an Attorney under HSC 574.004¹⁸⁷

- The judge must appoint an attorney for the child within 24 hours after the application is filed unless the child already has an attorney. [Tex. Health & Safety Code § 574.003\(a\)](#).
- Texas codifies the duties that an attorney has toward a client in a court-ordered services proceeding in section 574.004, and the court is required to give a copy of these duties to every court-appointed attorney. [Tex. Health & Safety Code § 574.003\(b\)](#).

Included in the list of duties owed by the attorney to the proposed patient, is that the attorney must respect the client's decision to agree or resist the efforts to provide mental health services, even though they may personally disagree with the client's wishes. Though the attorney may provide counsel, the attorney must abide by the client's final decision on the matter. [Tex. Health & Safety Code § 574.004\(c\)](#).

Attorney-Client Relationship

An attorney's rapport with the child they represent is critical and can be life altering. Especially for children who have more significant issues, it is important to recognize that attorneys will need to make multiple visits with the child, which may include meeting with them immediately before the evaluation appointments with the purpose of reinforcing the significance of the evaluation and how it will impact the child's case.

Setting the Hearing for Court-Ordered Services in Juvenile Court

The juvenile court must set a date for the hearing and provide notice as required under Sections 574.005 and 574.006, Health and Safety Code. [Tex. Fam. Code § 55.66\(a\)\(1\)](#).

- The court must set a hearing within 14 days of the date the application was filed but may not hold a hearing within the first three days after the application is filed if the child or their attorney objects. [Tex. Health & Safety Code §§ 574.005\(a\), \(b\)](#).
 - There are witnesses who may appear at the hearing to present evidence, who may be unknown to the parties prior to the hearing date. If either party wishes, they may request a continuance based on surprise and the court may continue the hearing date. [Tex. Health & Safety Code § 574.006\(d\)](#).
- While the court may grant continuances of the hearing, the final hearing must be held no later than 30 days from the date the application was filed. The only exception is for extreme weather or disaster, in which case the judge may, by a written order each day, postpone the hearing for 24 hours. [Tex. Health & Safety Code § 574.005\(c\)](#).

Note: While the hearing must commence within 30 days, the Court retains its plenary authority to continue the hearing as necessary should issues arise.

- The child and their attorney are entitled to receive a copy of the application and written notice of the court hearing immediately after it is set. Notice must also be delivered in person or via certified mail to the child's:
 - **Parent, if a minor;** or
 - Appointed guardian, if applicable; or
 - **Each managing and possessory conservator,** if applicable.

[Tex. Health & Safety Code §§ 574.006\(a\), \(b\)](#).

¹⁸⁷ See page 114 for additional comments on the statutory responsibility of attorneys in court-ordered services cases.

- If a parent cannot be located, and the child does not have a guardian or conservator, the notice may be given to the proposed patient’s next of kin. [Tex. Health & Safety Code § 574.006\(c\)](#).

The court has additional tasks to complete before holding the hearing:

- The court must direct the local mental health authority to file its recommendation for the child’s proposed treatment, as required by Section 574.012, Health and Safety Code, before the hearing date;
- Identify the person responsible for court-ordered **outpatient mental health services** not later than the third day before date set for a hearing that may result in the court ordering the child to receive court-ordered outpatient mental health services, as required by Section 574.0125, Health and Safety Code.

[Tex. Fam. Code §§ 55.66\(a\)\(2\), \(3\)](#).

Medical Examination Requirement

- The director of the facility that supplied the report must submit two certificates of medical examination (CMEs) to the court. [Tex. Fam. Code § 55.56](#). If the certificates are not filed with the application, the judge may appoint the necessary physicians to examine the child and file the certificates. [Tex. Health & Safety Code § 574.009\(b\)](#).
 - The two CMEs must be completed **within 30 days** of the hearing and are required to be on file with the court. At least one of the physicians must be a psychiatrist if a psychiatrist is available in the county. [Tex. Health & Safety Code § 574.009\(a\)](#).
- The court also has the authority to order an independent evaluation of the child, by a psychiatrist of the child’s choosing, if the court feels it will assist the finder of fact. If the child is indigent, the county may reimburse the child’s appointed attorney for any expenses incurred in securing the psychiatrist’s testimony. [Tex. Health & Safety Code §§ 574.010\(a\), \(b\)](#).

Note: [Texas Health & Safety Code § 574.009 \(a\)](#) requires that at least one of the physicians completing the CMEs must be a psychiatrist if a psychiatrist is available in the county. If the Court determines that a psychiatrist is not available in the county, the Court should enter an order finding that a psychiatrist was not available in the County to provide a CME and making specific finds detailing the factual basis supporting that finding.

What Should a CME for Mental Illness Include?

1. Name and address of examining physician
2. Name and address of the child examined
3. Date and place of examination
4. Brief diagnosis of the child’s physical and mental condition
5. The time period, if any, the child has been under the physician’s care
6. A description of the mental health treatment the examining physician has given to the child, if any
7. The examining physician’s opinion that:
 - a. The child is a person with mental illness; and
 - b. As a result of that illness the child is likely to cause serious harm to the child or others or is:
 - i. Suffering severe and abnormal mental, emotional, or physical distress;
 - ii. Experiencing substantial mental or physical deterioration of the child’s ability to function independently, exhibited by the inability to provide for basic needs; and
 - iii. Not able to make a rational and informed decisions as to whether to submit to treatment.

The examining physician must be as specific and detailed as possible as to which criterion forms the basis of their opinion, and, if it is offered in support of an application for extended court-ordered services, must state that the child’s condition is likely to continue for more than 90 days. [Tex. Health & Safety Code § 574.011](#).

Hearing for Court-Ordered Mental Health Services

The court must conduct the hearing in accordance with Subchapter C, Chapter 574, Health and Safety Code. [Tex. Fam. Code § 55.66\(a\)\(1\)](#). The hearing is heard by the court, without a jury. [Tex. Fam. Code § 55.55\(b\)](#).

- The child is entitled to be present at the hearing, but the child or their attorney may waive this right. [Tex. Health & Safety Code § 574.031\(c\)](#).
- The hearing must be open to the public unless the child or their attorney requests that it be closed, and the court finds good cause to do so. [Tex. Health & Safety Code § 574.031\(d\)](#).
 - Generally, juvenile court proceedings are open to the public unless good cause is shown to exclude the public. [Tex. Fam. Code § 54.08\(a\)](#).
 - If a child is under the age of 14 at the time of the hearing, the court **shall close** the hearing to the public, unless the court finds that the interests of the child or the public would be better served by opening the hearing to the public. [Tex. Fam. Code § 54.08\(c\)](#).

Court-Ordered Services Hearing Considerations

Given the sensitive nature of juvenile proceedings and of mental health and intellectual disability issues, the Court should carefully consider whether it is appropriate for the hearing to be open to the public.

Consideration should also be given as to whether it is appropriate for the child to attend the hearing. It is possible that attending the hearing and listening to testimony could negatively impact the child and the child's mental state, especially if the child is currently in detention.

If using certain terminology will upset the child or hinder the child's ability to participate in the hearing, acronyms can be used.

Regardless of whether the child attends the hearing, the child's attorney should ensure the child understands the nature of the hearing, the anticipated testimony, and the significance of the testimony to the child's future.

- In a hearing for *temporary* inpatient or outpatient mental health services, the child or their attorney may waive the right to cross-examine witnesses by filing a written waiver with the court. If that right is waived, the court may admit the CMEs as evidence, the CMEs will constitute competent medical or psychiatric testimony, and the court can make its findings based solely on the CMEs. [Tex. Health & Safety Code § 574.031\(d-1\)](#).
- In a hearing for *extended* inpatient or outpatient mental health services, the court must hear testimony and cannot make findings solely from the CMEs. [Tex. Health & Safety Code § 574.031\(d-2\)](#).
- The hearing is governed by the Texas Rules of Evidence unless stated otherwise in this subtitle. [Tex. Health & Safety Code § 574.031\(e\)](#).
- Each element of the applicable criteria must be proven by **clear and convincing evidence**, and the hearing must be on the record. [Tex. Health & Safety Code § 574.031\(g\)](#).
- The court may consider the testimony of a non-physician mental health professional in addition to medical or psychiatric testimony. [Tex. Health & Safety Code § 574.031\(f\)](#).
- The hearing for *temporary* mental health services must be before the court unless the child or their attorney requests a jury trial. A hearing for *extended* mental health services must be in front of a jury unless waived by the child or their attorney. The waiver must be sworn and signed unless made orally in the court's presence. [Tex. Health & Safety Code §§ 574.032\(a\), \(b\), and \(c\)](#). The court may

allow a jury waiver to be withdrawn for good cause shown no later than the eighth day before the hearing. [Tex. Health & Safety Code § 574.032\(d\)](#).

- If the hearing is before a jury, the jury must determine if the child is a person with mental illness and meets the criteria for court-ordered services; however, the jury cannot make a finding regarding the type of services to be provided. [Tex. Health & Safety Code § 574.032\(f\)](#).
- After conducting the hearing, the juvenile court shall:
 - If the criteria under **Section 55.05(a) or 55.05(b)** are satisfied, order temporary inpatient or outpatient mental health services for the child; or
 - If the criteria under **Section 55.05(c) or 55.05(d)** are satisfied, order extended inpatient or outpatient mental health services for the child.

[Tex. Fam. Code § 55.66\(b\)](#).

- A party to a proceeding for court-ordered mental health services can appeal the judgment to the appropriate court of appeals. Notice of appeal must be filed no later than 10 days after the date the order is signed. [Tex. Health & Safety Code §§ 574.070\(a\), \(b\)](#).

Note: If the judge fails to find, from **clear and convincing evidence**, that the child is a person with mental illness and meets the applicable criteria for court-ordered services, the court shall enter an order **denying the application for court-ordered temporary or extended mental health services and order the immediate release of the child**. [Tex. Health & Safety Code § 574.033](#).

Orders for Court-Ordered Services

S.B. 1585 (88th Reg. Sess. (2023)) incorporated the criteria for court-ordered mental health services that are found in the health and Safety Code directly into Chapter 55 by creating new sections 55.05 and 55.06.

After conducting a hearing... *and with consideration given to the least restrictive appropriate setting* for treatment of the child and to the parent's, managing conservator's, or guardian's availability and willingness to participate in the treatment of the child, the juvenile court shall order court-ordered services if the criteria are satisfied. [Tex. Fam. Code § 55.66\(b\)](#).

Orders Must Clearly Specify Criteria

The Code requires that orders for temporary or extended inpatient treatment must specify which criteria the judge or jury is basing their decision upon. There has been conflicting caselaw in this area. Some appellate courts have allowed an order to submit the criteria in the disjunctive (i.e., listing the criteria with OR), while other courts have found that listing the criteria in the conjunctive (with AND) is the only way to ensure that there are specific findings.¹⁸⁸

A suggested practice to avoid any confusion is to take the word "or" out of any order for temporary or extended inpatient treatment, thus requiring specific finding on any of the criteria listed.

Criteria for Court-Ordered Temporary Inpatient Mental Health Services

- The judge may order a child to receive court-ordered temporary inpatient mental health services only if the judge or jury finds, from **clear and convincing evidence**, that:
 - The child is a child with mental illness; and
 - As a result of that mental illness the child:
 - Is likely to cause serious harm to the child's self;
 - Is likely to cause serious harm to others; or

¹⁸⁸ Hon. Guy Herman, Mental Health Law 8 (Aug. 2019) (unpublished manuscript)(on file with the Judicial Commission on Mental Health).

- Is:
 - Suffering severe and abnormal mental, emotional, or physical distress;
 - Experiencing substantial mental or physical deterioration of their ability to function independently; and
 - Unable to make a rational and informed decision as to whether or not to submit to treatment.

Tex. Fam. Code § 55.05(a).

- If the judge finds that the child meets the criteria for court-ordered services, the judge must specify which criterion listed in Subsection (a)(2) forms the basis for the decision. [Tex. Health & Safety Code § 574.034\(c\)](#).
- To be **clear and convincing**, the evidence must include expert testimony and, unless waived, evidence of a recent overt act¹⁸⁹ or a continuing pattern of behavior that tends to confirm:
 - The likelihood of serious harm to the child or others; or
 - The child’s distress and the deterioration of the child’s ability to function.

Tex. Health & Safety Code § 574.034(d).

- An order for temporary inpatient services must include a treatment period of not more than 45 days, *except that the judge may order 90 days if they find the longer period necessary*. [Tex. Health & Safety Code § 574.034\(g\)](#).
- A judge may not issue an order for temporary inpatient mental health services for a proposed patient who is charged *with a criminal offense* that involves an act, attempt, or threat of serious bodily injury to another person. [Tex. Health & Safety Code § 574.034\(h\)](#).
 - A child alleged to have engaged in delinquent conduct or CINS is **not** considered to be a person charged with a criminal offense. [Texas Health & Safety Code § 571.011\(a\)](#).

Note: The “majority of [appellate courts] find that the requirement of ‘overt acts or patterns of behavior’ may not be fulfilled merely by citing a patient’s refusal of treatment.”¹⁹⁰

Criteria for Court-Ordered Temporary Outpatient Mental Health Services

- The judge may order a child to receive court-ordered temporary outpatient mental health services only if:
 - The judge finds that appropriate mental health services are available to the child; and
 - **Clear and convincing evidence** that:
 - The child is a child with severe and persistent mental illness;
 - As a result of the mental illness, the child will, if not treated, experience deterioration of the ability to function independently to the extent that the child will be unable to live safely in the community without court-ordered outpatient mental health services;
 - Outpatient mental health services are needed to prevent a relapse that would likely result in serious harm to the child or others; and
 - The child has an inability to participate in outpatient treatment services effectively and voluntarily, demonstrated by:

¹⁸⁹ Note that the Texas Supreme Court, in *State v. K.E.W.*, clarified the “overt act” requirement. The Court held that the act does not have to be actually harmful or demonstrate that harm to others is imminent. The case also states that speech alone may be considered an over act. See *State v. K.E.W.*, 315 S.W.3d 16, 24. (Tex. 2010).

¹⁹⁰ Hon. Guy Herman, Mental Health Law 13 (Aug. 2019)(unpublished manuscript)(on file with the Judicial Commission on Mental Health).

- Any of the child’s actions occurring within the two-year period that immediately precedes the hearing; or
- Specific characteristics of the child’s clinical condition that significantly impair the child’s ability to make a rational and informed decision whether to submit to voluntary outpatient treatment.

Tex. Fam. Code § 55.05 (b).

- To be **clear and convincing**, the evidence must include expert testimony and evidence of a recent overt act or a continuing pattern of behavior that tends to confirm:
 - The deterioration of ability to function independently to the extent that the child will be unable to live safely in the community;
 - The need for outpatient mental health services to prevent a relapse that would likely result in serious harm to the child or others; and
 - The child’s inability to participate in outpatient treatment services effectively and voluntarily.

Tex. Health & Safety Code § 574.0345(b).

- An order for temporary outpatient mental health services must state that treatment is authorized for not longer than 45 days, *but the judge may specify a period up to 90 days if the judge finds that the longer period is necessary.* [Tex. Health & Safety Code § 574.0345\(c\)](#).
- A judge may not issue an order for temporary outpatient mental health services for a proposed patient who is charged *with a criminal offense* that involves an act, attempt, or threat of serious bodily injury to another person. [Tex. Health & Safety Code § 574.0345\(d\)](#).
 - A child alleged to have engaged in delinquent conduct or CINS is **not** considered to be a person charged with a criminal offense. [Tex. Health & Safety Code § 571.011\(a\)](#).

Open and Frequent Communication Between Courts and LMHAs

To maintain the most up-to-date information about the availability of outpatient mental health services, courts should ensure that they are familiar with their LMHA and have a contact person who can provide the court with information on available services. Strong and consistent communication between the detention center, LMHA, and state facilities can smoothen a child’s transition from community to inpatient facility and ensure continuity of care.

Criteria for Court-Ordered Extended Inpatient Mental Health Services

- The judge may order a child to receive court-ordered extended inpatient mental health services only if the judge finds, from **clear and convincing evidence**, that:
 - The child is a child with mental illness;
 - As a result of that mental illness the child:
 - Is likely to cause serious harm to the child’s self;
 - Is likely to cause serious harm to others; or
 - Is:
 - Suffering severe and abnormal mental, emotional, or physical distress;
 - Experiencing substantial mental or physical deterioration of the child’s ability to function independently; and

- Unable to make a rational and informed decision as to whether or not to submit to treatment;
- The child’s condition is expected to continue for more than 90 days; and
- The child has received court-ordered inpatient mental health services under this chapter or under Chapter 574, Health and Safety Code, for at least 60 consecutive days during the preceding 12 months.

Tex. Fam. Code § 55.05(c).

- If the court finds that the child meets the criteria listed above, the judge must specify which criterion listed in subsection (a)(2) forms the basis for the decision. [Tex. Health & Safety Code § 574.035\(c\)](#).
- The court is not required to find a specific criterion if the child has already been subject to an order for extended mental health services. [Tex. Health & Safety Code § 574.035\(d\)](#).
- To be **clear and convincing**, the evidence must include expert testimony and evidence of a recent overt act or a continuing pattern of behavior that tends to confirm:
 - The likelihood of serious harm to the child or others; or
 - The child’s distress and the deterioration of the child’s ability to function.

Tex. Health & Safety § 574.035(e).

- An order for extended inpatient mental health services must provide for a period of treatment not to exceed 12 months. [Tex. Health & Safety Code § 574.035\(h\)](#).
- A judge may not issue an order for extended inpatient mental health services for a proposed patient who is charged *with a criminal offense* that involves an act, attempt, or threat of serious bodily injury to another person. [Tex. Health & Safety Code § 574.035\(i\)](#).
 - A child alleged to have engaged in delinquent conduct or CINS is **not** considered to be a person charged with a criminal offense. [Tex. Health & Safety Code § 571.011\(a\)](#).

Criteria for Court-Ordered Extended Outpatient Mental Health Services

- The judge may order a child to receive court-ordered extended outpatient mental health services only if:
 - The judge finds that appropriate mental health services are available to the child; and
 - The judge or jury finds, from **clear and convincing evidence**, that:
 - The child is a child with severe and persistent mental illness;
 - As a result of the mental illness, the child will, if not treated, experience deterioration of the ability to function independently to the extent that the child will be unable to live safely in the community without court-ordered outpatient mental health services;
 - Outpatient mental health services are needed to prevent a relapse that would likely result in serious harm to the child or others;
 - The child has an inability to effectively and voluntarily participate in outpatient treatment services, demonstrated by:
 - Any of the child’s actions occurring within the two-year period preceding the hearing; or
 - Specific characteristics of the child’s clinical condition that significantly impair the child’s ability to make a rational and informed decision whether to submit to voluntary outpatient treatment;

- The child’s condition is expected to continue for more than 90 days; and
- The child has received:
 - Court-ordered inpatient mental health services under this chapter or under Chapter 574, Health and Safety Code, for at least 60 consecutive days during the preceding 12 months; or
 - Court-ordered outpatient mental health services under this chapter or under Chapter 574, Health and Safety Code, during the preceding 60 days.

[Tex. Fam. Code § 55.05\(d\).](#)

- If the child has already been subject to an order for extended mental health services, the court does not need to make that finding again. [Tex. Health & Safety Code § 574.0355\(b\).](#)
- To be **clear and convincing** the evidence must include expert testimony and evidence of a recent overt act or a continuing pattern of behavior that tends to confirm:
 - The deterioration of the ability to function independently to the extent that the child will be unable to live safely in the community;
 - The need for outpatient mental health services to prevent a relapse that would likely result in serious harm to the child or others; and
 - The child’s inability to participate in outpatient treatment services effectively and voluntarily.

[Tex. Health & Safety Code § 574.0355\(c\).](#)

- An order for extended outpatient mental health services must provide for a period of treatment not to exceed 12 months. [Tex. Health & Safety Code § 574.0355\(d\).](#)
- A judge may not issue an order for extended outpatient mental health services for a child who is *charged with a criminal offense* that involves and act, attempt, or threat of serious bodily injury to another person. [Tex. Health & Safety Code § 574.0355\(e\).](#)
 - A child alleged to have engaged in delinquent conduct or CINS is **not** considered to be a person charged with a criminal offense. [Tex. Health & Safety Code § 571.011\(a\).](#)

Legislative Change

S.B. 728 (88th Reg. Sess. (2023)) added clarification to the federal firearms reporting requirements found in [Sections 411.052 and 411.0521](#) of the Texas Government Code and amended [Section 58.007\(a\)](#) of the Texas Family Code.

These statutes now clearly require that children who are at least 16 years of age, and who have been found unfit to proceed, found not responsible for their conduct, ordered to receive inpatient mental health services, or are ordered to receive intellectual disability services in a residential care facility, are to be reported to the FBI National Instant Criminal Background Check System (NICS) and to the Texas Department of Public Safety.

Referral of Proceedings to Appropriate County or Probate Court

If the case is referred to an appropriate county or probate court, the judge of that court completes the process for court-ordered mental health services. The juvenile court must send all papers, including evaluations, examination reports, court findings, orders, verdicts, judgments, and reports from facilities and alternative settings, relating to the child’s mental illness or intellectual disability and the child’s

unfitness to proceed, to both the clerk of the court to which the case is referred, and to the office of the appropriate county or district attorney. [Tex. Fam. Code §§ 55.68\(a\)\(1\), \(2\)](#). The papers sent to the clerk of a court constitute an application for mental health services under Section 574.001, Health and Safety Code. [Tex. Fam. Code § 55.68\(b\)](#).

If the child is in detention, the judge has three options:

- Order the child released from detention to the child's home or another appropriate place;
- Order the child detained or placed in an appropriate place other than a juvenile detention facility; or
- Conduct a detention hearing and, if the court makes findings under [Section 54.01](#) to support further detention of the child, order the child to remain in the juvenile detention facility subject to further detention orders of the court.

[Tex. Fam. Code § 55.68\(c\)](#).

Proceedings in Juvenile Court for Court-Ordered Residential Intellectual Disability Services

If the court determines that evidence exists to support a finding that the child is a child with intellectual disability and that the child meets the criteria for court-ordered residential intellectual disability services under [Section 55.06](#), the court shall:

- Initiate proceedings in juvenile court under [Section 55.67](#) to order residential intellectual disability services for the child under Subtitle D, Title 7, Health and Safety Code; or
- Refer the child's case as provided by [Section 55.68](#) to the appropriate court to order residential intellectual disability services for the child under Subtitle D, Title 7, Health and Safety Code.

[Tex. Fam. Code § 55.59](#).

Application for Court-Ordered Intellectual Disability Proceedings

For proceedings in juvenile court, the prosecutor may file an application for placement under section 593.041, Health and Safety Code. [Tex. Fam. Code § 55.67\(a\)](#).

- The application must be filed in the county where the child resides. [Tex. Health & Safety Code § 593.041\(b\)](#).

What Should be Included in the Application

An application must include:

- The name, birth date, sex, and address of the proposed resident;
- The name and address of the proposed resident's parent or guardian, if applicable;
- A short, plain statement of the facts demonstrating that [placement in] a facility is necessary and appropriate; and
- A short, plain statement explaining the inappropriateness of admission to less restrictive services.
- A copy of the interdisciplinary report if it is completed.

[Tex. Health & Safety Code §§ 593.042\(a\), \(b\)](#).

An Application for Court-Ordered Intellectual Disability Proceedings can be found in the Appendix.

Interdisciplinary Team Report

Except as provided by [Section 593.0511](#) (which pertains to a parent's or guardian's petition for voluntary admission of a person to an SSLC), a person may not be [ordered to] placement in a residential care facility unless a report by an interdisciplinary team recommending the placement has been completed during the

six months prior to the date of the hearing on the application. If the report and recommendations have not been completed or revised during that period, the court must order the report and recommendations on receiving the application. [Tex. Health & Safety Code § 593.041\(d\)](#).

An interdisciplinary team shall:

1. Interview the person with an intellectual disability, the person's parent **if the person is a minor**, and/or the person's guardian;
2. Review the person's:
 - A. Social and medical history;
 - B. Medical assessment, which shall include an audiological, neurological, and vision screening;
 - C. Psychological and social assessment; and
 - D. Determination of adaptive behavior level;
3. Determine the person's need for additional assessments, including educational and vocational assessments;
4. Obtain any additional assessment necessary to plan services;
5. Identify the person's habilitation and service preferences and needs;
6. Recommend services to address the person's needs that consider the person's preferences.

[Tex. Health & Safety Code § 593.013\(b\)](#).

- The interdisciplinary team shall give the person, the person's parent **if the person is a minor**, or the person's guardian an opportunity to participate in team meetings. [Tex. Health & Safety Code § 593.013\(c\)](#).
- The interdisciplinary team may use a previous assessment, social history, or other relevant record from a school district, public or private agency, or appropriate professional if the interdisciplinary team determines that the assessment, social history, or record is valid. [Tex. Health & Safety Code § 593.013\(d\)](#).
- The interdisciplinary team shall prepare a written report of its findings and recommendations that is signed by each team member and shall promptly send a copy of the report and recommendations to the person, the person's parent **if the person is a minor**, and the person's guardian. [Tex. Health & Safety Code § 593.013\(e\)](#).
- If the court has ordered the interdisciplinary team report and recommendations under Section 593.041, the team shall promptly send a copy of the report and recommendations to the court, the person with and intellectual disability or the person's legal representative, the person's parent **if the person is a minor**, and the person's guardian. [Tex. Health & Safety Code § 593.013\(f\)](#).

Appointment of an Attorney under HSC 593.043

- The child must be represented by an attorney who will represent the rights and legal interests of the child without regard to who has retained the attorney. [Tex. Health & Safety Code § 593.043\(a\)](#).
- If the child is indigent, the judge must appoint an attorney by the 11th day before the hearing. [Tex. Health & Safety Code § 593.043\(b\)](#).
- The parent, **if the proposed resident is a minor**, or the guardian of the person may be represented by legal counsel during the proceedings. [Tex. Health & Safety Code § 593.043\(d\)](#).

Setting the Hearing for Residential Intellectual Disability Services in Juvenile Court

The juvenile court must set a date for the hearing and provide notice as required under Sections 593.047 and 593.048, Health and Safety Code. [Tex. Fam. Code § 55.67\(a\)\(1\)](#).

- The court must immediately set the hearing at the earliest practicable date to determine the appropriateness of the [residential intellectual disability services]. [Tex. Health & Safety Code § 593.047](#).
- At least 11 days before the hearing, a copy of the application, notice of the time and place of the hearing, and, if appropriate, the order for the determination of an intellectual disability and interdisciplinary team report and recommendations must be served on:
 - The proposed resident or the proposed resident’s representative;
 - The parent **if the proposed resident is a minor**;
 - The guardian of the person; and
 - The department.¹⁹¹

[Tex. Health & Safety Code § 593.048\(a\)](#).

- The notice must specify in plain and simple language:
 - The right to an independent determination of an intellectual disability under Section 593.007; and
 - The provisions of Sections 593.043,¹⁹² 593.047,¹⁹³ 593.049,¹⁹⁴ 593.050,¹⁹⁵ and 593.053.¹⁹⁶

[Tex. Health & Safety Code § 593.048\(b\)](#).

Hearing for Residential Intellectual Disability Services

The court must conduct the hearing in accordance with Sections 593.049 – 593.056, Health and Safety Code. [Tex. Fam. Code § 55.67\(a\)\(2\)](#).

- The hearing is before the court but shall be before a jury if any party of the court request a jury trial. The Texas Rules of Civil Procedure apply to all aspects of the proceedings and trial unless the rules are inconsistent with this subchapter. [Tex. Health & Safety Code §§ 593.049 \(a\), \(b\)](#).
- The hearing must be open to the public unless the child or their representative request that it be closed, and the court finds good cause to do so. [Tex. Health & Safety Code § 593.050\(a\)](#).
 - Generally, juvenile court proceedings are open to the public unless good cause is shown to exclude the public. [Tex. Fam. Code § 54.08\(a\)](#).
 - If a child is under the age of 14 at the time of the hearing, the court **shall close** the hearing to the public, unless the court finds that the interests of the child or the public would be better served by opening the hearing to the public. [Tex. Fam. Code § 54.08\(c\)](#).
- The child is entitled to be present throughout the hearing. If the court determines that the presence of the child would result in harm to the child, the court can waive the requirement in writing clearly stating the reason for the decision. [Tex. Health & Safety Code § 593.050\(b\)](#).
- The child is entitled to and must be provided with the opportunity to confront and cross-examine each witness. [Tex. Health & Safety Code § 593.050\(c\)](#).

¹⁹¹ Here, “the department” refers to the Department of Aging and Disability Services. [Tex. Health & Safety Code § 591.003\(7\)](#). As all DADS functions were transferred to HHSC on September 1, 2017, it may be advantageous to serve HHSC to satisfy the notice requirement.

¹⁹² Representation by Counsel; Appointment of Attorney.

¹⁹³ Setting on Application.

¹⁹⁴ Hearing Before Jury; Procedure.

¹⁹⁵ Conduct of Hearing.

¹⁹⁶ Decision.

- The Texas Rules of Evidence apply. The results of the determination of an intellectual disability and the current interdisciplinary team report and recommendations *shall* be presented in evidence. [Tex. Health & Safety Code § 593.050\(d\)](#).
- The party who filed the application has the burden to prove **beyond a reasonable doubt** that long-term placement of the child in a residential care facility is appropriate. [Tex. Health & Safety Code § 593.050\(e\)](#).
- If long-term placement in a residential care facility is not found to be appropriate, the court shall enter a finding to that effect, **dismiss** the application, and if appropriate, recommend application for admission to voluntary services under Subchapter B. [Tex. Health & Safety Code § 593.051](#).
- In each case, the court shall promptly report in writing the decision and findings of fact. [Tex. Health & Safety Code § 593.053](#).

Note: While the hearing must be commenced within 30 days, the Court retains its plenary authority to continue the hearing as necessary should issues arise.

Criteria for Residential Intellectual Disability Services

S.B. 1585 (88th Reg. Sess. (2023)) incorporated the criteria for court-ordered residential intellectual disability services that are found in the Texas Health and Safety Code directly into Chapter 55 by creating new section [55.06](#).

After conducting a hearing under this section *and with consideration given to the least restrictive appropriate setting* for services for the child and to the parent’s, managing conservator’s, or guardian’s availability and willingness to participate in the services for the child, the juvenile court may order residential intellectual disability services for the child if the criteria under [Section 55.06](#) are satisfied. [Tex. Fam. Code § 55.67\(b\)](#).

A child may not be ordered to a residential care facility unless each of the following elements has been proven **beyond a reasonable doubt**:¹⁹⁷

- The child is a child with an intellectual disability;
- Evidence is presented showing that because of the child’s intellectual disability, the child:
 - A. Represents a substantial risk of physical impairment or injury to the child or others; or
 - B. Is unable to provide for and is not providing for the child’s most basic personal physical needs;
- The child cannot be adequately and appropriately habilitated in an available, less restrictive setting; and
- The residential care facility provides habilitative services, care, training, and treatment appropriate to the child’s needs.

[Tex. Fam. Code § 55.06](#).

- On receipt of the court order for residential services, the Health and Human Services Commission shall identify a residential care facility and admit the child to the identified facility. [Tex. Fam. Code § 55.67\(c\)](#).
- If the child is currently detained in a juvenile detention facility, the juvenile court shall:
 - Order the child released from detention to the child’s home or another appropriate place;
 - Order the child detained or placed in an appropriate facility other than a juvenile detention facility; or

¹⁹⁷ See [Pratt v. State, 907 S.W. 2d 38, 44](#) (Tex. App.—Dallas 1995, writ denied).

- Conduct a detention hearing and, if the court makes findings under Section 54.01 to support further detention of the child, order the child to remain in the juvenile detention facility subject to further detention orders of the court.

Tex. Fam. Code § 55.67(d).

- The court shall immediately send a copy of the order for residential services to the department or community center. Tex. Health & Safety Code § 593.052(c).
- If placement in a residential facility is necessary, preference shall be given to the facility nearest to the residence of the child unless:
 1. Space in the facility is unavailable;
 2. The child, parent if the resident is a minor, or guardian of the child requests otherwise; or
 3. There are other compelling reasons.

Tex. Health & Safety Code § 593.055.

- A party to a proceeding for residential services has the right to appeal the judgment to the appropriate court of appeals. An appeal under this section shall be given a preference setting, and the county court may grant a [stay] pending appeal. Tex. Health & Safety Code §§ 593.056(a), (c), and (d).

Least Restrictive Environment

It is vital for attorneys, the judiciary, and probation officials to focus on the least restrictive environment in which a youth's needs can be met, and on the importance of youth entering an appropriate treatment setting outside of detention as quickly as possible.

Referral of Proceedings to Appropriate County or Probate Court

If the case is referred to an appropriate county or probate court, the judge of that court completes the process for court-ordered residential intellectual disability services. The juvenile court must send all papers, including evaluations, examination reports, court findings, orders, verdicts, judgments, and reports from facilities and alternative settings, relating to the child's intellectual disability and lack of responsibility, to both the clerk of the court to which the case is referred, and to the office of the appropriate county or district attorney. Tex. Fam. Code §§ 55.68(a)(1), (2). The papers sent to the clerk of a court constitute an application for placement under Section 593.04, Health and Safety Code. Tex. Fam. Code § 55.68(b).

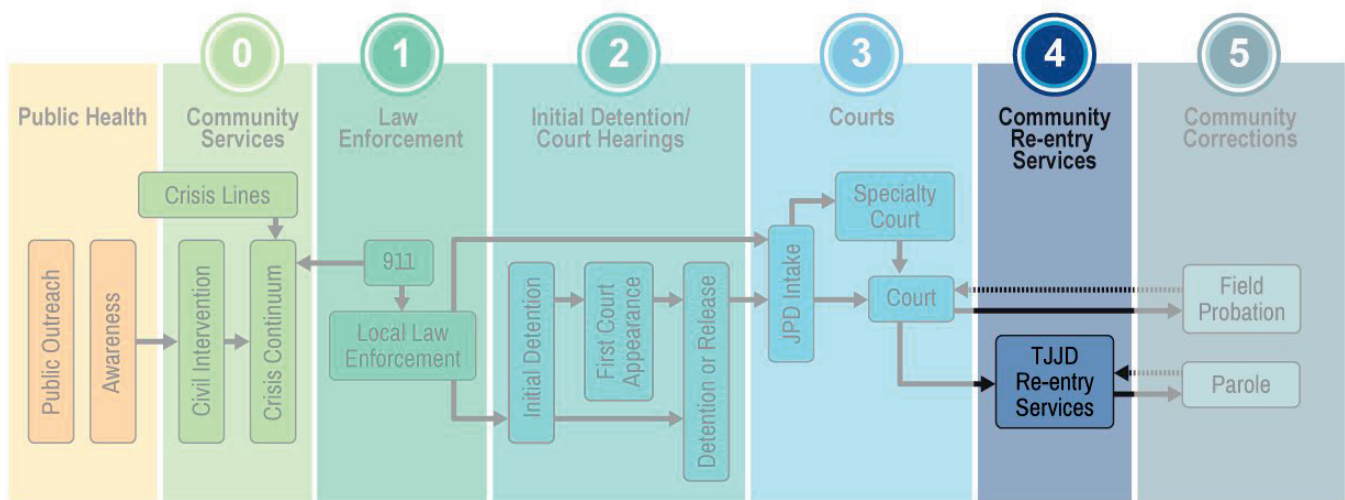

If the child is in detention, the juvenile court judge has three options:

- Order the child released from detention to the child's home or another appropriate place;
- Order the child detained or placed in an appropriate place other than a juvenile detention facility;
or
- Conduct a detention hearing and, if the court makes findings under Section 54.01 to support further detention of the child, order the child to remain in the juvenile detention facility subject to further detention orders of the court.

Tex. Fam. Code § 55.68(c).

4

Intercept 4: Community Re-entry Services

Intercept 4: Community Re-entry Services focuses on preparing a youth for the adjustment from supervision or confinement back to the community. Transition planning offers an opportunity to establish a holistic approach to mental health wellness and pro-social activities. Coordination of benefits, medication, and treatment are critical to the success of a youth with mental illness or intellectual disability. Youth will often be supervised on field probation before being confined in TJJJ, but to follow the Sequential Intercept Model, re-entry is addressed first.

1. Confinement in TJJJ

The Texas Juvenile Justice Department (TJJJ) serves juveniles throughout the state who are at least 10 years of age, not yet 19, and have been committed to TJJJ after being adjudicated for engaging in felony delinquent conduct. TJJJ jurisdiction ends when a committed child turns 19.

TJJJ operates five high-restriction facilities throughout the state. It also operates six medium-restriction halfway houses throughout the state. The agency aims to treat youth as close to home as possible. That involves using the institutions, halfway houses, and some contract programs. Additionally, TJJJ provides state-operated and contracted parole and reentry services for youth released from its facilities before turning 19.

Every youth has a different experience in TJJJ because treatment programs are customized to meet the risks and needs of individual youth while balancing public safety.

Requirements for Commitment

Youth may only be committed to TJJJ if adjudicated for conduct that is classified by statute as a felony. To be committed for a violation of probation, the modified probation must be a felony probation. To be committed without a determinate sentence, the court order must also include a special commitment finding indicating the child has behavioral health or other special needs that cannot be met with the resources available in the community. [Tex. Fam. Code §§ 54.04\(d\)\(2\); 54.04013](#). To be committed for a determinate sentence, the petition must have been approved by a grand jury and an offense eligible for a determinate sentence under [Section 53.045](#) must have been found true by the court or jury.

Requirements for Admission

Before a youth is admitted to TJJD, a certified copy of the court order is reviewed by TJJD staff to ensure it contains the statutory requirements for a commitment. The court orders must be appropriately certified by the court clerk and must reflect the following:

1. the committing offense is a felony, whether it is a direct commitment on that offense or a commitment based on a modification of a probation on that offense;
2. a determination that:
 - it is in the best interest of the child to be placed outside the home;
 - reasonable efforts have been made to prevent or eliminate the need for removal; and
 - the care and level of support and supervision that the child needs cannot be provided in the child's home; and
3. for youth committed on a determinate sentence:
 - that the child engaged in delinquent conduct that included a violation of a penal law listed in [Section 53.045\(a\)](#), or engaged in habitual felony conduct as described by [Section 51.031](#); and
 - that the grand jury approved the petition under [Section 53.045](#), or that the youth waived grand jury approval.

[Tex. Fam. Code §§ 54.04\(c\)\(3\), \(i\), \(m\)](#).

Admission Process

When a youth has been committed to TJJD, the court and the juvenile probation department work with TJJD to schedule the youth's admission. This approach ensures vital information about a youth's medical, mental health, intellectual and developmental, and behavioral needs is communicated with TJJD and allows the youth to be brought into TJJD with more one-on-one attention. This approach also allows TJJD staff to ease fear, increase safety upon admission, and better understand and prepare to meet a youth's most significant needs upon arrival, fostering the trauma-informed approaches that are foundational to the juvenile justice system's treatment and rehabilitation philosophy and affording better opportunities to establish strong, trust-based relationships with youth and their families.

After receiving and reviewing the documents, TJJD notifies the probation department that the youth is ready for admission and works with them to set the date and time for the youth's transport to the facility. The court must assign an officer or other suitable person to escort the youth to the proper TJJD intake facility. The county is responsible for the costs of transporting the youth, and if the youth is female, the escorting person must also be female. [Tex. Hum. Res. Code § 243.003\(a\)](#).

Noble/PACT users are to submit the most recent assessment within the Noble platform electronically. The PACT is an assessment that identifies risks and needs of each youth and may be helpful in guiding their rehabilitation.

Orientation and Assessment

The orientation and assessment process begins once the youth arrives at the TJJD facility. During orientation and assessment, the youth's medical, emotional, educational, and psychological needs are evaluated and used to identify immediate safety, medical, mental health, and housing needs; specialized treatment needs; risk and protective factors; and risk and restriction levels for initial placement. The activities focus on the youth's long-term needs and eventual re-entry into the community. [37 Tex. Admin. Code § 380.8505\(b\)](#).

Within 24 hours after admission and before assignment to a dormitory, medical and mental health screenings are completed, which include, at a minimum, a review of the youth's suicide risk, medical history, substance abuse history, treatment history, psychiatric history, violent offense history, and sex offense history; a screening for risk to display sexually aggressive or assaultive behavior or to be sexually victimized; and a safe-housing assessment. [37 Tex. Admin. Code § 380.8505\(c\)](#).

No later than 21 days after admission, additional assessments are conducted, which include, at a minimum: an assessment of individual risk and protective factors; a religious preference assessment; an educational assessment; a workforce development needs and skills assessment; a screening and assessment for substance use issues; an assessment of need for specialized treatment; an assessment of behavior while at the Orientation and Assessment Unit; a comprehensive psychological evaluation; a dental exam; a medical exam; and, in some instances, a comprehensive psychiatric evaluation (for determinate sentence youth, youth with an assigned minimum length of stay of 12 months or more, youth on psychotropic medication currently or in past 60 days, and youth whose psychological evaluation indicates a psychiatric referral is necessary). [37 Tex. Admin. Code § 380.8505\(d\)](#).

TJJD offers specialized programs, including Capital and Serious Violent Offenders, Sexual Behavior, Mental Health, and Alcohol and other Drugs. The result for each youth is a written, individualized treatment plan that is evaluated and modified as necessary while the youth moves through TJJD. [Tex. Hum. Res. Code §§ 244.001\(a-1\), 244.002](#).

The assessment results are used as a basis for facility assignment decisions and developing an individual case plan and specialized treatment plan (for youth identified with a need for specialized treatment). [37 Tex. Admin. Code § 380.8505\(e\)](#).

Facility Assignment

The following factors are considered, in order, when determining to which facility a youth will be assigned: gender, treatment needs, risk factors, and proximity to home. The youth's risk to re-offend is computed and combined with information about past runaway attempts, facility escapes, and behavior while at the intake unit; this information is used to determine if the youth should be assigned to a high-restriction or medium-restriction location. After gender, treatment needs, and risk factors are considered and appropriate and available placements are determined, TJJD makes every attempt to place the youth at the facility closest to home. [37 Tex. Admin. Code § 380.8521\(c\)\(4\)](#).

Safe Housing Assessment

Before assignment to a dormitory, youth are assessed for risks and vulnerabilities to ensure the safest placement available for all youth. The assessment includes factors such as evidence-based criminogenic factors in the youth's history indicating a risk to others; age and physical stature of the youth; potential vulnerability to sexual victimization; likelihood of sexually aggressive behavior; and special needs such as medical needs, disabilities, mental health, or suicide risk. [37 Tex. Admin. Code § 380.8524\(c\)](#).

Minimum Period of Confinement

Youths committed to TJJD with a determinate sentence are assigned a minimum period of confinement by law. The Minimum Period of Confinement (MPC) is 10 years for those committed for capital murder, 3 years for those committed for a first-degree felony or aggravated controlled substance felony, 2 years for those committed for a second-degree felony, and 1 year for those committed for a third-degree felony. [37 Tex. Admin. Code § 380.8525\(d\)](#).

The minimum period of confinement is the minimum amount of time a youth must spend in TJJD before TJJD may release the youth on TJJD parole without court approval. The only exception is that TJJD, without court approval, may release a youth on TJJD parole who has not completed the minimum period of confinement if less than 9 months remain on the youth's sentence. [Tex. Hum. Res. Code § 245.051\(g\)](#). A youth with a determinate sentence gets credit toward both the sentence and the minimum period of confinement for all days spent in detention related to the conduct that results in the determinate sentence commitment. The court order is required to include this credit. [Tex. Fam. Code § 54.052\(b\)](#).

Minimum Length of Stay

TJJD is responsible for assigning a minimum length of stay to each youth admitted to TJJD without a determinate sentence. The minimum length of stay is the minimum amount of time a youth must remain in a TJJD residential program before having the opportunity to be released on parole. The law requires that TJJD assign the minimum length of stay based on the severity of the committing offense and the danger the youth poses to the community. [Tex. Hum. Res. Code § 243.002\(b\)](#).

TJJD uses objective factors to determine both the severity of the offense and danger the youth poses to the community. Because these are objective factors, it is possible for a judge or an attorney to determine the minimum length of stay prior to commitment. However, it should not be included in a court order as TJJD, not the court, is statutorily charged with determining the minimum length of stay. [Tex. Hum. Res. Code § 243.002\(a\)](#).

When a youth is committed to TJJD a subsequent time while still needing to complete the original minimum length of stay, the youth will be assigned a new minimum length of stay, which will run concurrently with the original minimum length of stay. [37 Tex. Admin. Code § 380.8525\(g\)](#).

Specialized Treatment and Mental Healthcare

During the TJJD assessment and orientation process, a youth's plan for rehabilitative programming is created. This plan incorporates results from medical, mental health, and education assessments/review. Mental health follow-up is recommended for moderate- and high-needs youth. This need has drastically increased over the past eight years. The specialized treatment programming identified for each youth is based on the risk-needs-responsivity principles. Specialized treatment programming is designed to target and reduce criminogenic risk while increasing resiliency and individualized protective factors. All specialized treatment is provided by trained and/or licensed providers.

There are three domains of specialized treatment programming: Substance Use Services (SUS), Sexual Behavior Treatment Program (SBTP), and the Capital and Serious Violent Offender Treatment Programs (CSVOTP). Treatment within these three domains often occurs simultaneously and collaboratively. Level of treatment need (i.e., dosage) is determined through the assessments completed at the orientation and assessment unit. Treatment dosage can be increased or decreased through the agency's treatment waiver system, a multidisciplinary, tiered approval process.

An overview of specialized treatment programs is listed below.

Substance Use Services (SUS):

Provided at moderate and high treatment levels utilizing the "Seven Challenges"¹⁹⁸ curriculum. As described in the manual:

The Seven Challenges® program, specifically for young people with drug problems, is designed to motivate a decision and commitment to change and to support success in implementing the desired changes. The program simultaneously aims to help young people address their drug problems as well as their co-occurring life skill deficits, situational problems, and psychological problems. The challenges provide a framework for helping youth think through their own decisions about their lives and their use of alcohol and other drugs. Counselors use the program to teach youth to identify and work on the issues most relevant to them. In

¹⁹⁸ See THE SEVEN CHALLENGES, <https://www.sevenchallenges.com/> (last visited Aug. 7, 2023).

sessions, as youth discuss the issues that matter most, counselors seamlessly integrate *The Seven Challenges*® as part of the conversation.¹⁹⁹

Sexual Behavior Treatment Programming (SBTP):

Provided at moderate and high treatment levels utilizing the “Pathways to Change” and “Footprints: Steps to a Healthy Life”. Curriculum description provided in the manuals:

*The Pathways workbook has been a cornerstone in the treatment of sexually aggressive youth since the first edition was issued twenty years ago. As the field has evolved and advanced, so has Pathways. This new Fourth Edition reflects current research and clinical experience with adolescents by focusing on strength-based methods to help clients develop healthy and productive lifestyles consistent with the Good Lives Model of rehabilitation. Pathways continues to use a restorative justice theme emphasizing concern for restitution, development of victim empathy and personal responsibility. Focus is shifted from the offense cycle into understanding the antecedents to a client’s sexual acting out.*²⁰⁰

*Footprints: Steps to a Healthy Life is for developmentally disabled adults and adolescents with sexual behavior problems, clients with learning disabilities, attention deficits, and less than average cognitive abilities. When initially published in 2006, Footprints was the first workbook dedicated to treatment of this challenging population. Now in its second edition it provides a more positive, goal-oriented approach in line with the “Good Lives Model.”*²⁰¹

Capital and Serious Violent Offender Treatment Programs (CSVOTP):

Provided at moderate, high, and intensive levels utilizing “Aggression Replacement Training (ART)” at the moderate level, “The Power Source” at the high level, and the “Capital Offender Program (COG)” at the intensive level. Curriculum descriptions from the manuals listed below:

*Aggression Replacement Training: (ART) is a 10-week, 30-hour cognitive-behavioral program administered to groups of 8 to 12 juvenile offenders three times per week. ART has three main curriculum components—Structured Learning Training, which teaches social skills; Anger Control Training, which teaches youth a variety of ways to manage their anger; and Moral Education, which helps youth develop a higher level of moral reasoning. Using repetitive learning techniques, offenders develop skills to control anger and use more appropriate behaviors. In addition, guided group discussion is used to correct antisocial thinking that leads to problem situations.*²⁰²

The Power Source Program is an evidence-based program designed to empower at risk youth with the social and emotional skills necessary to forge paths of healthy development and disengagement from high risk and offending behaviors. Grounded in a belief in the intrinsic dignity and worth of each person, Power Source guides trauma impacted adolescents and

*young adults in discovering their own resilience, while also building the skills associated with healthy social, emotional, and identity development. Offering a wide range of tools and resources, Power Source enables facilitators to address youth’s unique socioemotional needs, risk factors, and protective factors through high impact, engaging exercises, role plays, discussions, games, and meditations.*²⁰³

*The Capital Offender Program: is designed to impact emotional, social and cognitive developmental processes. It seeks to facilitate empathic development, emotional regulation and appropriate expression of feelings, to improve interpersonal functioning and to correct cognitive justifications for criminal behavior based on disregard for the rights of others. The program integrates psychodynamic, social learning and cognitive-behavioral techniques in an intense therapeutic approach that facilitates redirection to a positive developmental pathway.*²⁰⁴

Specialized treatment and mental health needs are identified at the orientation and assessment unit and are a starting place for the facility treatment teams. As youth work through their rehabilitative programming, concerns may arise for mental health, crisis, or suicide response. Each facility’s treatment team members are available to provide services to youth as needed and any staff member can complete and submit a psychology/psychiatry referral form to the facility Clinical Director. Youth and staff, on behalf of youth, can also complete “conference requests,” to meet individually with any staff member on campus. Additionally, the weekly Youth Service Teams (multidisciplinary team meetings) can request a youth be seen or referred to various providers. These processes vary in response time as they are completed as quickly as feasible but typically do not exceed a week.

Suicide or self-injury risk requires an immediate staff response. If a youth engages in self-harm, endorsed suicidal ideation/intent, and/or attempts suicide, the staff immediately respond to any safety needs and begin monitoring the youth at 5-minute intervals. A trained staff completes a suicide risk screening and relays this information to the on-call mental health professional (MHP). This professional will provide recommendations around frequency of checks and precautions necessary to mitigate risk. An MHP, typically the one assigned to that youth, will conduct a formal suicide risk assessment within 24-hours of the event. They will then continue to assess the youth every 24 to 48 hours, dependent upon individual risk for suicide. At each assessment, they will make recommendations on frequency of checks and precautions necessary to direct care staff, youth service team members, and facility-wide staff. Administrative rules dictating the agency’s response to suicide risk can be found at Texas Administrative Code, Title 37, sections [380.9187](#), [380.9188](#), and [380.9745](#) and TJJD Case Management Standard 06.71.

Mental Health Programming

In addition to facilitating specialized treatment programming, mental health professionals (MHP) provide mental health therapy individually and in group settings. Most youth in TJJD present with complex mental health needs.

²⁰³ BETHANY CASARJIAN & JESSICA LINICK, THE POWER SOURCE FACILITATOR MANUAL (2011).

²⁰⁴ TEXAS JUVENILE JUSTICE DEPARTMENT, CAPITAL OFFENDER PROGRAM MANUAL, (3rd ed. 2023).

This includes risk for non-suicidal self-harm and suicide. Youth who have been found to have a “moderate” need for mental health services are maintained at their home facility, where they will receive services from an onsite MHP. TJJD’s MHPs have been provided with substantial training opportunities to utilize the most effective, cutting-edge mental health therapy. These modalities include but are not limited to: Eye Movement Desensitization Reprocessing (EMDR); Dialectical Behavior Therapy (DBT); Trauma-Focused Cognitive Behavioral Therapy (TF-CBT); Attachment-Based Family Therapy (ABFT); Neurosequential Model of Therapeutics (NMT); Trust-Based Relational Intervention (TBRI); Collaborative Assessment and Management of Suicidality (CAMS-Care); and Question Persuade Refer (QPR).

There is a small group of youth who present with such complex mental health needs that they cannot engage in treatment programming in a general population setting. These “high” needs youth are referred to the Mental Health Treatment Program (MHTP), Crisis Stabilization Unit (CSU), or Behavior Stabilization Unit (BSU). These programs are overseen by mental health professionals and are staffed at a higher youth-to-staff ratio (1:4 and 1:2 respectively for BSU/CSU). TJJD currently operates 32 MHTP beds (24 for males, 8 for females), 8 CSU beds (all male), and 8 BSU beds (4 for male, 4 for female). Youth housed in these living environments receive intensive mental health programming in addition to programming for their specialized treatment needs. Psychiatric oversight is increased for these programs, with many of the youth being seen at a minimum monthly, if not more frequently, by psychiatric providers.

Mental Health Treatment Program (MHTP)

The MHTP is made up of 24 male beds at the Giddings State School and 8 female beds at Ron Jackson Juvenile Correction Facility. Youth may be referred to this program from any state secure facility. Upon arrival, youth undergo a 30-day assessment to determine needs and appropriateness for program admission. Youth admitted to the MHTP have complex needs requiring more intensive intervention than provided within general population settings. They are offered an opportunity to engage in their specialized treatment programming with adaptation as appropriate for youth capacity. Youth may return to general population upon demonstration of capacity or may remain on the MHTP for the duration of their stay.

Crisis Stabilization Unit (CSU)

The CSU is the most intensive mental health treatment programming available to youth in TJJD. This self-contained unit within the Giddings State School requires a due process hearing for admission given its highly restrictive environment. Youth admitted to the CSU are experiencing a significant mental health crisis, often due to the sudden onset of psychosis or substantial risk for suicide. These youth often meet the criteria for State Hospital admission, but, due to State Hospital waitlists preventing movement, efforts to provide stabilization are made within this setting. Youth receive increased interaction with nursing, mental health professionals, and psychiatric providers during their time on CSU. Most youth are admitted for a period of 45-90 days, or until a State Hospital bed becomes available. Upon stabilization, youth frequently step down to the MHTP.

Behavioral Stabilization Unit (BSU)

The Behavior Stabilization Unit (BSU) provides a safe and structured environment for individualized programming to address the needs of youth with serious unsafe behaviors who pose a danger to themselves and others in TJJD. It must be determined through a hearing process or executive approval that this youth is unable to be maintained safely in a less restrictive environment. The program is housed at the McLennan County Juvenile Correctional Facility. Through the combination of individualized interventions, a self-

contained and highly structured therapeutic milieu, and lower staff-to-youth ratios, the BSU aims to provide an environment supportive of felt safety and conducive to behavior stabilization through the integration of DBT skills, Texas Model Programming, and other therapeutic interventions.

Children with Mental Illness or Intellectual Disabilities

There are special discharge provisions in [Texas Human Resources Code section 244.011](#) for children in TJJD who have mental illness or intellectual disabilities, and for children who have been court-ordered to receive mental health treatment or intellectual disability services.

b. Unless the youth is committed to the department or under a determinate sentence under [Section 54.04\(d\)\(3\)](#), [54.04\(m\)](#), or [54.05\(f\)](#), Family Code, the department shall discharge a child with mental illness or intellectual disabilities from its custody if:

1. the child has completed the minimum length of stay for the child's committing offense; and
2. the department determines that the child is unable to progress in the department's rehabilitation programs because of the child's mental illness or intellectual disabilities.

c. If a child who is discharged from the department under Subsection (b) as a result of mental illness is not receiving court-ordered mental health services, the child's discharge is effective on the earlier of:

1. the date the court enters an order regarding an application for mental health services filed under [Section 244.012\(b\)](#); or
2. the 30th day after the date the application is filed.

d. If a child who is discharged from the department under Subsection (b) as a result of mental illness is receiving court-ordered mental health services, the child's discharge from the department is effective immediately. If the child is receiving mental health services outside the child's home county, the department shall notify the mental health authority located in that county of the discharge not later than the 30th day after the date that the child's discharge is effective.

e. If a child who is discharged from the department under Subsection (b) as a result of an intellectual disability is not receiving intellectual disability services, the child's discharge is effective on the earlier of:

1. the date the court enters an order regarding an application for intellectual disability services filed under [Section 244.012\(b\)](#); or
2. the 30th day after the date that the application is filed.

f. If a child who is discharged from the department under Subsection (b) as a result of [intellectual disability] is receiving [intellectual disability] services, the child's discharge from the department is effective immediately.

g. If a child who is mentally ill or [has intellectual disability] is discharged from the department under Subsection (b), the child is eligible to receive continuity of care services from the Texas Correctional Office on Offenders with Medical or Mental Impairments under [Chapter 614, Health and Safety Code](#).

[Tex. Hum. Res. Code § 244.011.](#)

Release Decisions – Program Completion

Completing the minimum length of stay or minimum period of confinement does not guarantee the youth will be released at that time. More is required of the youth to be released than simply “doing time.” Generally, youth who complete all assigned treatment programs by the time the minimum length of stay or minimum period of confinement is completed and who are not yet 19 are released to parole.

Release Review Panel – Indeterminate Commitments

TJJD is authorized to extend a youth's stay in TJJD beyond the initial assigned minimum length of stay. TJJD does this through the Release Review Panel, composed of TJJD employees who work in TJJD's Central Office and who do not make supervisory decisions regarding youth. [37 Tex. Admin. Code § 380.8557\(d\)\(1\)](#).

Every youth with an indeterminate sentence who does not qualify for release on parole due to program completion must be reviewed by the Release Review Panel. [37 Tex. Admin. Code § 380.8555\(e\)\(1\)\(B\)](#). The

Panel is authorized to discharge the youth from TJJD, release the youth on parole, or extend the youth's length of stay in a facility. The length of stay may be extended only if the Release Review Panel determines by majority vote that there is clear and convincing evidence that the youth needs additional rehabilitation. TJJD will provide the most suitable environment for that rehabilitation. [37 Tex. Admin. Code § 380.8555\(e\)\(2\)\(B\)](#). This concept differs from adult parole, where the parole panel must determine whether the inmate should be released. For TJJD youth, the default is release unless the Release Review Panel determines there is sufficient evidence that the youth needs to stay in a facility. [Tex. Hum. Res. Code §§ 245.101-102](#).

The Release Review Panel's operating rules are enumerated in [Title 37 of the Texas Administrative Code, Rule 380.8557](#). That rule outlines the factors the Release Review Panel may consider in making the release or extension decision. Although many factors are considered, the Release Review Panel focuses on two primary areas. The first is the degree and quality of the youth's participation in available treatment programs, as evidenced by the youth's efforts to reduce individual risk factors and increase individual protective factors. [37 Tex. Admin. Code § 380.8557\(e\)\(2\)\(C\)\(i\)](#). The second is the youth's behavior while at TJJD, as evidenced by the number and frequency of rule violations confirmed through a due process hearing, including serious rule violations and aggressive incidents. [37 Tex. Admin. Code § 380.8557\(e\)\(2\)\(C\)\(iii\)](#).

The Release Review Panel makes its decisions based on information available within the agency systems and on information received from facility staff, the youth, the youth's family, and the victim(s). Information from the youth, parent/guardian, and/or victim may be submitted in writing, and the youth may request assistance from TJJD staff members, volunteers, or advocates in communicating with the Release Review Panel. [37 Tex. Admin. Code § 380.8557\(d\)\(2\)\(B\)](#). The parent/guardian, victim(s), or person representing the youth may make a written request for personal communication with the Release Review Panel. [37 Tex. Admin. Code § 380.8557\(d\)\(2\)\(C\)](#). Additionally, at its discretion, the Release Review Panel may interview the youth or others with information relevant to the youth's rehabilitative needs. A youth's refusal to speak to the Release Review Panel will not be held against the youth when making the release decision. [37 Tex. Admin. Code § 380.8557\(d\)\(2\)\(D\)](#).

When extending a youth's length of stay, the Release Review Panel designates a specific additional length of time, provides notice to the youth and family of that decision, reviews the youth again at the end of that period, reconsiders its decision if requested by certain persons specified in agency rule, and maintains statistical data on its decisions. [37 Tex. Admin. Code § 380.8555\(e\)\(2\)\(E\)](#).

Transition Movement

Youth with an indeterminate commitment who do well in the rehabilitation program may be eligible to transition to a medium restriction program, such as a halfway house, before the minimum length of stay expires. [37 Tex. Admin. Code § 380.8545\(c\)](#). Youth who do well in transition are then released to parole. Youth who violate facility rules while in transition placement may be returned to a TJJD high-restriction facility via a TJJD administrative hearing. [37 Tex. Admin. Code §§ 380.9503, 380.9555](#). Additionally, youth may violate a rule such that they lose parole eligibility but are not returned to high restriction before the expiration of the minimum length of stay; in such cases, these youth will be reviewed by the Release Review Panel.

Notifications

Several statutes require TJJD to provide notice before releasing a youth. TJJD must provide the court and the prosecuting attorney in the adjudicating county with notice 10 days prior to release. [Tex. Hum. Res. Code § 245.051\(b\)](#). If the youth is placed in a different county upon release, that county's court also receives notice. [Tex. Hum. Res. Code § 245.054\(a\)](#). Additionally, no later than the 30th day before release, TJJD must provide the court with a copy of the youth's reentry and reintegration plan and a report concerning the

youth's progress while committed to TJJD. [Tex. Hum. Res. Code § 245.051\(a\)](#). TJJD also notifies any entity that has issued an active warrant or detainer for the youth.

Youth with a Determinate Sentence

There are special rules for youth with determinate sentences. Unless the sentence will expire before the youth's 19th birthday, the youth will transfer to the Texas Department of Criminal Justice (TDCJ). The question is whether the youth will transfer to prison or to parole with TDCJ. A youth with a determinate sentence that expires before the 19th birthday also faces a possible transfer to TDCJ.

TJJD may request a hearing in the juvenile court for possible transfer of a youth with a determinate sentence if certain criteria are met. Statute provides that TJJD may request a hearing after the youth turns 16 (but before 19) if the youth has not completed the sentence and the youth's conduct indicates that the welfare of the community requires the transfer. [Tex. Hum. Res. Code § 244.014\(a\)](#).

TJJD administrative rules also address TJJD's request for a transfer hearing.

TJJD conducts reviews of youth with a determinate sentence at different points in their stay for the purpose of determining progress and eligibility for release or transfer. [37 Tex. Admin. Code §§ 380.8559\(c\)\(2\), 380.8565\(c\)\(3\)](#).

If a youth with a determinate sentence completes the minimum period of confinement and all program completion criteria before turning 19, the youth will be released to parole. [37 Tex. Admin. Code § 380.8559\(d\)\(1\)](#). The release will be to TJJD parole unless the youth is less than two months from the 19th birthday, in which case the youth will be transferred to TDCJ parole. [37 Tex. Admin. Code § 380.8559\(d\)\(2\)](#).

Discharge

There are a variety of ways youth may be discharged from TJJD. Regardless of success or failure in the program, all youth will be discharged before the 19th birthday, which is when TJJD's jurisdiction ends.

Youth with a determinate sentence will be discharged when their sentence ends (if before age 19) or when transferred to TDCJ - Parole or TDCJ - Institutional Division.

Youth with an indeterminate commitment may be discharged before age 19 by the Release Review Panel or upon successful completion of parole. Youth may also be discharged to enlist in the military, to obtain appropriate services (if 18 years old), or for other special circumstances. All such discharges require approval of the executive director. As discussed previously, there is a mechanism to seek approval for discharge and treatment for youth who are unable to progress in TJJD due to their mental health or intellectual disability needs.

Before a youth is released from supervision or finally discharged from TJJD, TJJD must determine whether the youth has a valid driver's license or state ID card and submit a request to the Department of Public Safety for the issuance of an ID card on behalf of the youth who do not have one. [Tex. Hum. Res. Code §§ 245.0536\(a\), \(b\)](#). Likewise, TJJD must also determine whether released or discharged youth have copies of their birth certificate and social security card and submit requests for those documents on behalf of youth who do not have them. [Tex. Hum. Res. Code §§ 245.0537\(a\), \(b\)](#).

Reentry Plan

TJJD must develop a reentry plan for each youth who is committed to TJJD to reduce recidivism and ensure the successful reentry and reintegration following their release under supervision or final discharge, as appropriate. [Tex. Hum. Res. Code § 245.0535\(a\)](#). The plan must include housing assistance; a step-down program, such as placement in a halfway house; family counseling; academic and vocational mentoring; trauma counseling for a youth who is a victim of abuse while in the custody of TJJD; and other specialized

treatment services appropriate for the youth. [Tex. Hum. Res. Code § 245.0535\(a\)](#). The plan must also provide for a skills assessment, programs that are responsive to the youth’s needs, a network of transition programs, identification of local program providers and transitional services, and a limited sharing of the child’s information with local coordinators and service providers. [Tex. Hum. Res. Code § 245.0535\(b\)](#).

Resources

TJJD’s website is www.tjtd.texas.gov. It contains TJJD’s administrative rules, including those referenced in this section. TJJD’s enabling legislation is found in Texas Human Resources Code Chapters 201-246.

2. TCOOMMI

The Texas Correctional Office on Offenders with Medical or Mental Impairments (TCOOMMI), once known as the Texas Council on Offenders with Mental Impairments, is a part of the Texas Department of Criminal Justice (TDCJ)’s Reentry and Integration Division.

Purpose of TCOOMMI

Established in 1987, the purpose of TCOOMMI is to “provide a formal structure of criminal justice, health and human service and other affected organizations to communicate and coordinate on policy, legislative, and programmatic issues affecting offenders with special needs. Special needs include clients with serious, chronic and pervasive mental illnesses, intellectual disability, terminal or serious medical conditions, physical disabilities and those who are elderly.”

“Offender with a medical or mental impairment” means a **juvenile** or adult who is arrested or charged with a criminal offense and who:

- A. is a person with:
 - i. a mental impairment; or
 - ii. a physical disability, terminal illness, or significant illness; or
- B. is elderly.

[Tex. Health & Safety Code § 614.001\(8\)](#).

Continuity of Care for Juveniles with Mental Impairments

Texas Health and Safety Code section 614.018 gives TCOOMMI the authority and responsibility to coordinate and monitor the development and implementation of memoranda of understanding establishing the respective responsibilities of TJJD, HHSC, DFPS, Texas Education Association (TEA), and local juvenile probation departments. These agencies are responsible for instituting and maintaining a continuity of care and service program for juveniles with mental impairments in the juvenile justice system.

[Tex. Health & Safety Code § 614.018](#).

TCOOMMI Programs for Juveniles

TCOOMMI, in cooperation with HHSC, DFPS, TJJD, and TEA, may establish and maintain programs, building on existing successful efforts in communities, to address prevention, intervention, and continuity of care for juveniles with mental health and substance abuse disorders. [Tex. Health & Safety Code § 614.019\(a\)](#).

Every LMHA has a TCOOMMI caseworker. TCOOMMI services for juveniles are historically underutilized and are typically engaged at a late stage of the juvenile court case. Juvenile probation officers are

encouraged to contact their local TCOOMMI caseworker as well as their CRCG²⁰⁵ (Community Resource Coordination Group) well in advance of an adjudication hearing to determine what services and supports are available to youth with mental health and substance abuse disorders.

A child with mental illness who is receiving continuity of care services during parole from TJJD and who is no longer eligible to receive services from a LMHA when the child becomes 17 years of age because the child does not meet the requirements of a local service area plan under [Section 533.0352\(a\)](#) may continue to receive continuity of care services from TCOOMMI until the child completes parole. [Tex. Health & Safety Code § 614.019\(b\)](#).

A child with mental illness or an intellectual disability who is discharged from TJJD under [Section 244.011, Human Resources Code](#), may receive continuity of care services from TCOOMMI for a minimum of 90 days after discharge from the department and **for as long as necessary for the child to demonstrate sufficient stability to transition successfully to mental health or intellectual disability services provided by a LMHA or LIDDA.** [Tex. Health & Safety Code § 614.019\(c\)](#).

3. Records Sealing

Juvenile court records,²⁰⁶ with some exceptions, are confidential and not available to the public.²⁰⁷ Sealing²⁰⁸ is a process by which a youth who has been referred to juvenile court can limit access to their juvenile records. In some jurisdictions, the juvenile records are gathered, placed into a large envelope, and literally “sealed” with adhesive. Some juvenile records can be automatically sealed, while other records can be sealed after applying for sealing to the juvenile court.

It is a best practice to seal the record of every juvenile who is eligible for records sealing. Sealing of juvenile records affords youth who have been involved with the juvenile justice system more opportunities to find housing, suitable employment, apply to college, enter vocational programs, and earn trade certificates and licenses.

The Effect of Sealing Records

A person whose records have been sealed under Texas Family Code Chapter 58, Subchapter C-1, or under Section 58.003, as that law existed before September 1, 2017, is not required to state in any proceeding or in any application for employment, licensing, housing, or other public or private benefit that the person has been the subject of a juvenile matter. [Tex. Fam. Code § 58.261\(a\)](#).

If a person’s records have been sealed, the information in the records, the fact that the records once existed, or the person’s denial of the existence of the records or of the person’s involvement in a juvenile matter may not be used against the person in any matter,²⁰⁹ including in:

1. a perjury prosecution or other criminal proceeding;
2. a civil proceeding, including an administrative proceeding involving a governmental entity;

²⁰⁵ CRCGs are discussed in Intercept 0. Find your CRCG: <https://rcg.hhs.texas.gov/>.

²⁰⁶ Juvenile court records include the physical and electronic records of a juvenile court, court clerk, juvenile probation department, and prosecuting attorney, as well as any documentation related to a referral to a juvenile court or juvenile probation department and all related court proceedings and outcomes. [Tex. Fam. Code § 58.251](#).

²⁰⁷ See [Tex. Fam. Code §§ 58.007\(a\), 58.007\(b\), 58.007\(g\), 58.007\(h\), 58.008\(b\), 58.008\(c\), 58.008\(f\), 54.051, 54.02\(s\)](#); and [Tex. Code Crim. Proc. art. 45.017](#).

²⁰⁸ Contrast records sealing with records destruction. Sealing a record means all records showing a juvenile was referred to a juvenile court are stored in a manner that allows access to the records only by the custodian of records for the entity possessing the records. [Tex. Fam. Code §§ 58.259\(a\), \(b\)](#). There are guidelines for permissible destruction of records in a closed juvenile matter and records must be destroyed upon a determination that no probable cause exists under Texas Family Code sections 53.01 or 53.012. [Tex. Fam. Code §§ 53.263, 58.264](#).

²⁰⁹ Every rule has an exception. The protections of sealing do not extend to any disclosures required by applications to the United States Military or to other federal applications.

3. an application process for licensing or certification; or
4. an admission, employment, or housing decision.

Tex. Fam. Code § 58.261(b).

A person who is the subject of the sealed records may not waive the protected status of the records or the consequences of the protected status, including the actions to limit access or seal records taken by entities to comply with the order. [Tex. Fam. Code § 58.261\(c\)](#). A juvenile court can only open sealed records under the limited circumstances described below. This release does not “unseal” the record but allows the records to be used for specific reasons and the protections that come with sealing the record remain in place.

Sealing Fine-Only Misdemeanor Cases

Judges of justice and municipal courts do not have the ability to seal fine-only misdemeanor cases. Sealing is an option that is only available in cases that have been referred to the juvenile court. While judges of justice and municipal courts are required to transfer some types of cases to juvenile court, they also have the discretion to transfer other types of cases to juvenile court under Texas Family Code [section 51.08](#), making those cases potentially eligible for later sealing.

Sealing Records without an Application

Some juvenile court records can be sealed without applying to the juvenile court. This process is sometimes called “automatic sealing.” The requirements for sealing records of delinquent conduct and records of Conduct Indicating a Need for Supervision without an application are slightly different.

Sealing Records of Delinquent Conduct without an Application

A person who has not been adjudicated delinquent, or who has been adjudicated delinquent of only a misdemeanor offense may be eligible to have their records sealed automatically once they are 19 years of age.

A person who is referred to a juvenile probation department for delinquent conduct is entitled to have all records relating to the person’s juvenile matters, including records relating to any matters involving conduct indicating a need for supervision, sealed without applying to the juvenile court if the person:

1. is at least 19 years of age;
2. has not been adjudicated as having engaged in delinquent conduct or, if adjudicated for delinquent conduct, was not adjudicated for delinquent conduct violating a penal law of the grade of felony;
3. does not have any pending delinquent conduct matters;
4. has not been transferred by a juvenile court to a criminal court for prosecution under [Section 54.02](#);
5. has not as an adult been convicted of a felony or a misdemeanor punishable by confinement in jail; and
6. does not have any pending charges as an adult for a felony or a misdemeanor punishable by confinement in jail.

Tex. Fam. Code § 58.253(b).

Sealing Records of Conduct Indicating a Need for Supervision with an Application

A person who was only referred to the juvenile court for conduct indicating a need for supervision may be eligible to have their records sealed automatically once they reach age 18.

A person who was referred to a juvenile court for conduct indicating a need for supervision is entitled to have all records related to all conduct indicating a need for supervision matters sealed without applying to the juvenile court if the person:

1. has records relating to the conduct filed with the court clerk;
2. is at least 18 years of age;
3. has not been referred to the juvenile probation department for delinquent conduct;
4. has not as an adult been convicted of any felony; and
5. does not have any pending charges as an adult for a felony or a misdemeanor punishable by confinement in jail.

Tex. Fam. Code § 58.255(a).

Automatic Sealing without an Application: Finding of Not True

A juvenile court, on the court's own motion and without a hearing, shall immediately order the sealing of all records related to the alleged conduct if the court enters a finding that the allegations are not true. Tex. Fam. Code § 58.2551.

Sealing Records by Application

Persons who have been adjudicated delinquent of felony offenses or who wish to seal their records prior to age 19 may be eligible to apply to the juvenile court to have their records sealed.

The juvenile court may order the sealing of records related to all matters for which the person was referred to the juvenile probation department if the person:

1. is at least 17 years of age, or is younger than 17 years of age and at least one year has elapsed after the date of final discharge in each matter for which the person was referred to the juvenile probation department;
2. does not have any delinquent conduct matters pending with any juvenile probation department or juvenile court;
3. was not transferred by a juvenile court to a criminal court for prosecution under [Section 54.02](#);
4. has not as an adult been convicted of a felony; and
5. does not have any pending charges as an adult for a felony or a misdemeanor punishable by confinement in jail.

Tex. Fam. Code § 58.256(c).

The Application

The court may not charge a fee for filing the application, regardless of the form of the application. [Tex. Fam. Code § 58.256\(a\)](#). A sample application can be found in the Appendix. The application must include either the following information or the reason that one or more of the following is not included in the application:

1. the person's:
 - A. full name;
 - B. sex;
 - C. race or ethnicity;
 - D. date of birth;
 - E. driver's license or identification card number; and
 - F. social security number;
2. the conduct for which the person was referred to the juvenile probation department, including the date on which the conduct was alleged or found to have been committed;

3. the cause number assigned to each petition relating to the person filed in the juvenile court, if any, and the court in which the petition was filed; and
4. a list of all entities the person believes have possession of records related to the person, including the applicable entities listed under [Section 58.258\(b\)](#).

[Tex. Fam. Code § 58.256\(b\)](#).

On receipt of an application for sealing under [Section 58.256](#), the court may:

1. order the sealing of the person's records immediately, without a hearing; or
2. hold a hearing under [Section 58.257](#) at the court's discretion to determine whether to order the sealing of the person's records.

[Tex. Fam. Code § 58.256\(e\)](#).

The Hearing

A hearing regarding the sealing of a person's records must be held not later than the 60th day after the date the court receives the person's application under [Section 58.256](#). [Tex. Fam. Code § 58.257\(a\)](#).

The court shall give reasonable notice of a hearing under this section to:

1. the person who is the subject of the records;
2. the person's attorney who made the application for sealing on behalf of the person, if any;
3. the prosecuting attorney for the juvenile court;
4. all entities named in the application that the person believes possess eligible records related to the person; and
5. any individual or entity whose presence at the hearing is requested by the person or prosecutor.

[Tex. Fam. Code § 58.257](#).

The Order Sealing the Records

An order sealing the records of a person under this subchapter must include either the following information or the reason one or more of the following is not included in the order:

1. the person's:
 - A. full name;
 - B. sex;
 - C. race or ethnicity;
 - D. date of birth;
 - E. driver's license or identification card number; and
 - F. social security number;
2. each instance of conduct indicating a need for supervision or delinquent conduct alleged against the person or for which the person was referred to the juvenile justice system;²¹⁰
3. the date on which and the county in which each instance of conduct was alleged to have occurred;
4. if any petitions relating to the person were filed in juvenile court, the cause number assigned to each petition and the court and county in which each petition was filed; and
5. a list of the entities believed to be in possession of the records that have been ordered sealed, including the entities listed under Subsection (b).

[Tex. Fam. Code § 58.258\(a\)](#).

²¹⁰ One sealing order can seal multiple referrals, offenses, cases, or petitions.

Not later than the 60th day after the date of the entry of the order, the court shall provide a copy of the order to:

1. the Department of Public Safety
2. the Texas Juvenile Justice Department, if the person was committed to the department;
3. the clerk of the court;
4. the juvenile probation department²¹¹ serving the court;
5. the prosecutor's office;
6. each law enforcement agency that had contact with the person in relation to the conduct that is the subject of the sealing order;
7. each public or private agency that had custody of or that provided supervision or services to the person in relation to the conduct that is the subject of the sealing order; and
8. each official, agency, or other entity that the court has reason to believe has any record containing information that is related to the conduct that is the subject of the sealing order.

[Tex. Fam. Code § 58.258\(b\)](#).

On entry of the order, all adjudications relating to the person are vacated and the proceedings dismissed and treated for all purposes as though the proceedings had never occurred. The clerk of the court shall:

1. seal all court records relating to the proceedings, including any records created in the clerk's case management system; and
2. send copies of the order to all entities listed in the order by any reasonable method, including certified mail or electronic means.

[Tex. Fam. Code § 58.258\(c\)](#).

Records that Cannot be Sealed

Not all types of juvenile records can be sealed. The following records cannot be sealed:

- records of a person who received a determinate sentence for engaging in delinquent conduct that violated a penal law listed under [Section 53.045](#); or habitual felony conduct as described by [Section 51.031](#);
- records of a person who is currently required to register as a sex offender under [Chapter 62, Code of Criminal Procedure](#); or
- records of a person who was committed to the Texas Juvenile Justice Department or to a post-adjudication secure correctional facility under [Section 54.0401](#),²¹² unless the person has been discharged from the agency to which the person was committed.

[Tex. Fam. Code § 58.256\(d\)](#).

The following records are exempt from sealing:

- records relating to a criminal combination or criminal street gang maintained by the Department of Public Safety or a local law enforcement agency under Chapter 67, Code of Criminal Procedure;
- sex offender registration records maintained by the Department of Public Safety or local law enforcement agency under Chapter 62, Code of Criminal Procedure; and
- records collected or maintained by the Texas Juvenile Justice Department for statistical and research purposes, including data submitted under Section 221.007, Human Resources Code and personally identifiable information.

²¹¹ The juvenile probation department file will have records from the child's service providers. It is beneficial for the attorney representing the youth, or the youth themselves if they are completing their own application, to review the probation file for any entities that should receive a copy of the sealing order.

²¹² Note that Texas Family Code section 54.04011 expired on December 31, 2018.

Tex. Fam. Code § 58.252.

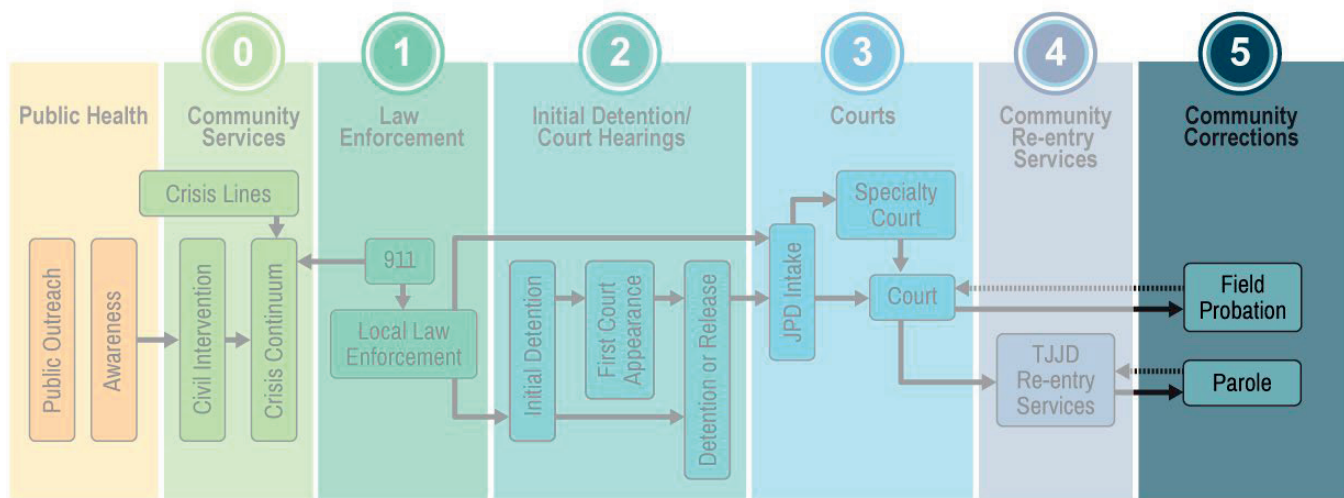

“Unsealing” of Records for Inspection and Release

On very limited occasions, the court can permit the inspection and release of records that have been sealed.

- (a) A juvenile court may allow, by order, the inspection of records sealed under this subchapter or under Section 58.003, as that law existed before September 1, 2017, only by:
1. a person named in the order, on the petition of the person who is the subject of the records;
 2. a prosecutor, on the petition of the prosecutor, for the purpose of reviewing the records for possible use:
 - A. in a capital prosecution; or
 - B. for the enhancement of punishment under [Section 12.42, Penal Code](#); or
 3. a court, the Texas Department of Criminal Justice, or the Texas Juvenile Justice Department for the purposes of [Article 62.007\(e\), Code of Criminal Procedure](#).
- (b) After a petitioner inspects records under this section, the court may order the release of any or all of the records to the petitioner on the motion of the petitioner.

Tex. Fam. Code § 58.260.

5 Intercept 5: Community Corrections

Intercept 5: Community Corrections encompasses supervision on probation, supervision on parole, and the services and supports that are available to youth post-supervision. Youth with mental illness or an intellectual or developmental disability greatly benefit from engaging in services that involve a multidisciplinary team with the capacity to coordinate, collaborate and communicate with all parties, including caregivers, schools, service providers, attorneys, and juvenile probation department. A wraparound approach can minimize the stress placed on the youth and their family and ensure progress towards shared goals, while leveraging the available resources.

Youth will typically be placed on a term of juvenile probation before being committed to TJJJ; however, to follow the Sequential Intercept Model, Juvenile Probation falls here, in Intercept 5.

1. Juvenile Field Probation

When setting the terms and conditions of probation, judges should consider the need for terms to be individualized to the child and their intellectual and developmental capacity. Terms and conditions should be minimized, easy to read, and attainable to facilitate success for the child while on probation. Recovery and rehabilitation are a process and require skill development and practice by the child and their family. Probation conditions should allow for opportunities for skill-building and prosocial activities, as well as for setbacks. For children with MI or ID, the goal of probation should be the creation of a network of services and interventions to avoid re-referral to the juvenile court.

For children with identified or suspected trauma history and trauma-related symptoms, consider the propriety of a proposed service or treatment program by questioning whether the program:

- Educates youth about trauma and its effects on thoughts, feelings, and behavior;
- Increases a youth's sense of physical and psychological safety;
- Identifies reminders that trigger trauma reactions;
- Accounts for how seemingly "non-compliant" behavior can be related to trauma, rather than willfulness or lack of cooperation, and addresses the behavior correctly;
- Develops emotional regulation skills (i.e., skills to help control and strong feelings or to respond to difficult situations);
- Promotes trauma-informed parenting skills;

- Addresses grief and loss (when appropriate);
- Teaches youth to manage traumatic memories;
- Identifies and cultivates existing supports and strengths that promote recovery.²¹³

Reflection Point

As a judge, remember the potential impact of trauma on youth, both psychologically and physically. To avoid the further traumatization of youth by a system intended to rehabilitate, make all decisions regarding youth in a trauma-responsive manner; seek out continuing education opportunities that focus on trauma responsive services and the impact of Adverse Childhood Experiences (ACEs); and identify different services to address trauma as an alternative to anger management classes.

No Disposition

Texas Family Code section 54.04(c) states that, “No disposition may be made under this section unless the child is in need of rehabilitation or the protection of the public or the child requires that disposition be made. If the court or jury does not so find, the court shall dismiss the child and enter a final judgment without any disposition.”

General Probation Conditions

- The court or the jury may... place the child on probation on such reasonable and lawful terms as the court may determine. [Tex. Fam. Code § 54.04\(d\)\(1\)](#).
- If the court places a child on probation under Section 54.04(d), the court shall require... that the child work a specified number of hours at a community service project... unless the court determines that:
 - The child is **physically or mentally incapable** of participating in the project;
 - Participating in the project will be a **hardship** on the child or the family of the child; or
 - The child has shown good cause that community service should not be required.

[Tex. Fam. Code § 54.044\(a\)](#).

Some youth with mental illness or intellectual and developmental disabilities may not do well in fulfilling probation conditions that require them to perform community service in the community. It is important to consider whether a community service requirement would expose a youth or bullying or trigger distress. Some judges permit youth to receive community service credit for the time they spend in rehabilitative or counseling services.

Requiring Psychological Treatment as a Condition of Probation

While the Texas Family Code only requires the court to order psychological treatment as a condition of probation for some offenses, the court has discretion to order appropriate treatment or services as a condition of probation in response to a child’s needs. Some youth may have pre-existing treatment services

²¹³ NAT’L CHILD TRAUMATIC STRESS NETWORK, TRAUMA-INFORMED LEGAL ADVOCACY: A RESOURCE FOR JUVENILE DEFENSE ATTORNEYS 15 (2018), https://www.nctsn.org/sites/default/files/resources/resource-guide/trauma_informed_legal_advocacy_a_resource_for_juvenile_defense_attorneys.pdf.

established before they become involved with the juvenile court; allowing continuity of existing care and minimizing treatment disruptions can help facilitate a child's success on probation.

- The court must order psychological treatment as a condition of probation for Animal Cruelty offenses, under [Section 42.09](#) or [42.092](#), Texas Penal Code. [Tex. Fam. Code § 54.0407](#).
- The court *may* order psychological treatment as a condition of probation for offenses that would require sex offender registration. [Tex. Fam. Code § 54.0405\(a\)\(1\)](#).
 - When the court orders the child to attend psychological counseling under Texas Family Code Subsection 54.0405(a), the court *may* order the child's parent or guardian to participate in monthly treatment groups related to the child's psychological counseling, and to attend four sessions of instruction relating to sexual offenses, family communication skills, sex offender treatment, victims' rights, parental supervision, and appropriate sexual behavior. [Tex. Fam. Code § 54.0405\(g\)](#).
- The court *may* order any person living in the same household with the child to participate in social or psychological counseling to assist in the rehabilitation of the child and to strengthen the child's family environment. [Tex. Fam. Code § 54.041\(a\)\(3\)](#).
- The court *may* order a child who is believed to be a victim of Human Trafficking under Section 20A.02, Penal Code, to participate in a program established under [Section 152.0017](#), Human Resources Code. [Tex. Fam. Code § 54.04012\(b\)](#).

Reflection Point

Ask yourself, as a judge, has equity been considered in prior intercept points? Have I helped to destigmatize MI and IDD? Have I asked myself about the child before me having race-based trauma, such as witnessing the videos of people being murdered in the news and other traumas in the traditional sense, resulting in acting out behavior and mental health challenges? What assumptions have I made about people based on their cultural identity, profession, or background? How might my assumptions influence my decision-making? How have I challenged any assumptions I might have made based on cultural identity, profession, or background?

Multisystemic Therapy (MST)

MST is a family- and community-based treatment for at-risk youth with intensive needs and their families.²¹⁴ It has proven most effective for treating youth who have committed violent offenses, have serious mental health or substance abuse concerns, are at risk of out-of-home placement, or who have experienced abuse and neglect.²¹⁵

The overriding goal of MST is to keep adolescents who have exhibited serious clinical problems (e.g., drug use, violence, severe criminal behavior) at home, in school, and out of trouble. Through intense involvement and contact with the family, MST aims to uncover and assess the functional origins of adolescent behavioral problems. It works to alter the youth's ecology in a manner that promotes prosocial conduct while decreasing problem and delinquent behavior.²¹⁶

²¹⁶ NATIONAL INSTITUTE OF JUSTICE, CRIME SOLUTIONS, PROGRAM PROFILE: MULTISYSTEMIC THERAPY (MST), <https://crimesolutions.ojp.gov/ratedprograms/192> (last visited Aug. 10, 2023).

MST has been proven to reduce violent crimes by 75%, compared to routine congregate²¹⁷ and other care.²¹⁸ The reduction is long-term, lasting two decades post-treatment.²¹⁹ MST is one of only three proven programs²²⁰ that addresses family functioning and association with deviant peers, key risk factors for reducing violence, other antisocial behaviors, and juvenile justice involvement.²²¹

Learn more about implementing MST in your jurisdiction at: <https://www.mstservices.com/>

Addressing Probation Violations

Judges have a variety of options to address juvenile probation violations. It is essential to consider a child's mental health diagnosis or intellectual or developmental disability when considering what, if any, sanction should be imposed. Consider the use of confinement in the detention center for probation violations as the exception, not the rule, as access to needed services may be limited or non-existent.

Referral to LMHA or LIDDA Before Probation Expires

Juvenile probation officers are tasked with assessing, referring, and managing case plans monthly. Transition planning from the juvenile justice system to community-based services must begin early.

A juvenile probation officer must refer a child who has been determined to have a mental illness or intellectual disability to an appropriate LMHA or LIDDA at least three months before the child is to complete the juvenile probation term, unless the child is currently receiving treatment from the LMHA or LIDDA of the county in which the child resides. [Tex. Fam. Code § 54.0408](#).

Fines and Court Costs in Juvenile Court

Many juvenile court fines and costs have been repealed in recent years. Effective September 1, 2023, courts are only authorized to assess restitution fees to youth in juvenile court.

Restitution: the court can order restitution to be made by the child and the child's parents. [Tex. Fam. Code § 54.048\(a\)](#).

- If the child, child's parent, or other person responsible for the child's support is unable to make the restitution in a graffiti case, the court can order the child to perform a specific number of hours of community service to satisfy the restitution. [Tex. Fam. Code § 54.0481\(b\)](#).
- If the child is financially unable to make restitution in a Criminal Mischief case under Code of Criminal Procedure 28.03(f), or an Abuse of a Corpse case under Code of Criminal Procedure 42.08, the court can order the child to perform a specific number of hours of community service, or order

²¹⁷ The term "congregate care" represents a wide array of out-of-home placement settings, including group homes, childcare institutions, residential treatment facilities, emergency shelters, and inpatient hospitals. a parent or other person responsible for the child's support to make the restitution. [Tex. Fam. Code § 54.049\(b\)](#).

Post-Discharge Services

Provided that existing resources are available, a juvenile board or juvenile probation department can provide post-discharge services to a child for up to six months after the child is discharged from probation, regardless of the child's age. [10 Tex. Admin. Code § 142.007\(b\)](#).

“Post-discharge services” means community-based services to support the child's vocational, educational, behavioral, or other goals and to provide continuity for the child as they transition out of juvenile probation services. The term includes:

1. Behavioral health services;
2. Mental health services;
3. Substance abuse services;
4. Mentoring;
5. Job training; and
6. Educational services.

[10 Tex. Admin. Code § 142.007\(a\)](#).

2. TJJD Parole

TJJD provides state-operated and contracted parole and reentry services for youth released from its facilities before turning 19. Some of the services are in residential settings, such as the halfway houses operated by TJJD, and other services can be accessed in the community while the youth lives at home. The agency aims to treat youth as close to home as possible. Youth with mental health needs will have treatment in the community to continue addressing those needs.

Parole

Youth who are released before being discharged are placed on TJJD parole. TJJD has parole officers and contract parole officers throughout the state who provide community supervision to the youth and assist them in transitioning back into the community. Youth are required to follow all laws and to follow their conditions of parole, which typically include not using drugs or alcohol; not possessing any weapon, even legal ones; reporting to the parole officer; going to school or work; complying with curfew; performing community service; attending assigned aftercare services; and otherwise engaging in 40 hours of constructive activity per week. Youth who comply with these terms may be successfully discharged from TJJD before turning 19.

Halfway Houses

TJJD operates several medium-security halfway houses across the state. Halfway houses allow youth to gradually transition back into the community and offer treatment, job assistance, and educational and vocational programs. Among the available programs are mental health services, aggression replacement training, substance use services, independent living preparation, animal therapy, employment, sports coaching, and mentoring.

Parole Revocation

Youth who do not comply with these terms are subject to having their parole revoked through a TJJD administrative parole revocation hearing. [Tex. Hum. Res. Code § 245.051\(f\)](#), [37 Tex. Admin. Code §§ 380.9504\(f\)](#), [380.9551](#). A TJJD attorney serves as the hearing examiner. [37 Tex. Admin. Code § 380.9550\(7\)](#). The youth is appointed a defense attorney, who is a non-TJJD employee who contracts with TJJD to serve

as a defense attorney. [37 Tex. Admin. Code § 380.9551\(c\)\(3\)](#). Like adult parole, the youth's parole officer is responsible for presenting the case for revocation.

The first part of the hearing is called fact-finding, wherein the parole officer must prove by a **preponderance of the evidence** that the youth violated a law or a condition of parole. [37 Tex. Admin. Code §§ 380.9551\(c\)\(1\), \(e\), \(f\)\(10\)](#). With limited exceptions, the Texas Rules of Civil Evidence are applicable in the fact-finding portion of the hearing, including hearsay, which means witnesses with personal knowledge of the facts must testify and are subject to cross-examination. [37 Tex. Admin. Code § 380.9551\(e\)\(2\)](#).

For parole to be revoked, the parole officer must prove by a **preponderance of the evidence** that the youth violated a law or a condition of parole. [37 Tex. Admin. Code § 380.9551\(c\)\(1\), \(e\), \(f\)\(10\)](#). With limited exceptions, the Texas Rules of Civil Evidence are applicable in the fact-finding portion of the hearing, including hearsay, which means witnesses with personal knowledge of the facts must testify and are subject to cross-examination. [37 Tex. Admin. Code § 380.9551\(e\)\(2\)](#).

If a violation is proven, the hearing proceeds to disposition. In disposition, the parole officer must prove by a **preponderance of the evidence** that revocation of parole is in the best interest of the youth and/or community and/or that the youth needs further rehabilitation at a TJJD or contract facility. [37 Tex. Admin. Code § 380.9551\(f\)\(24\)](#).

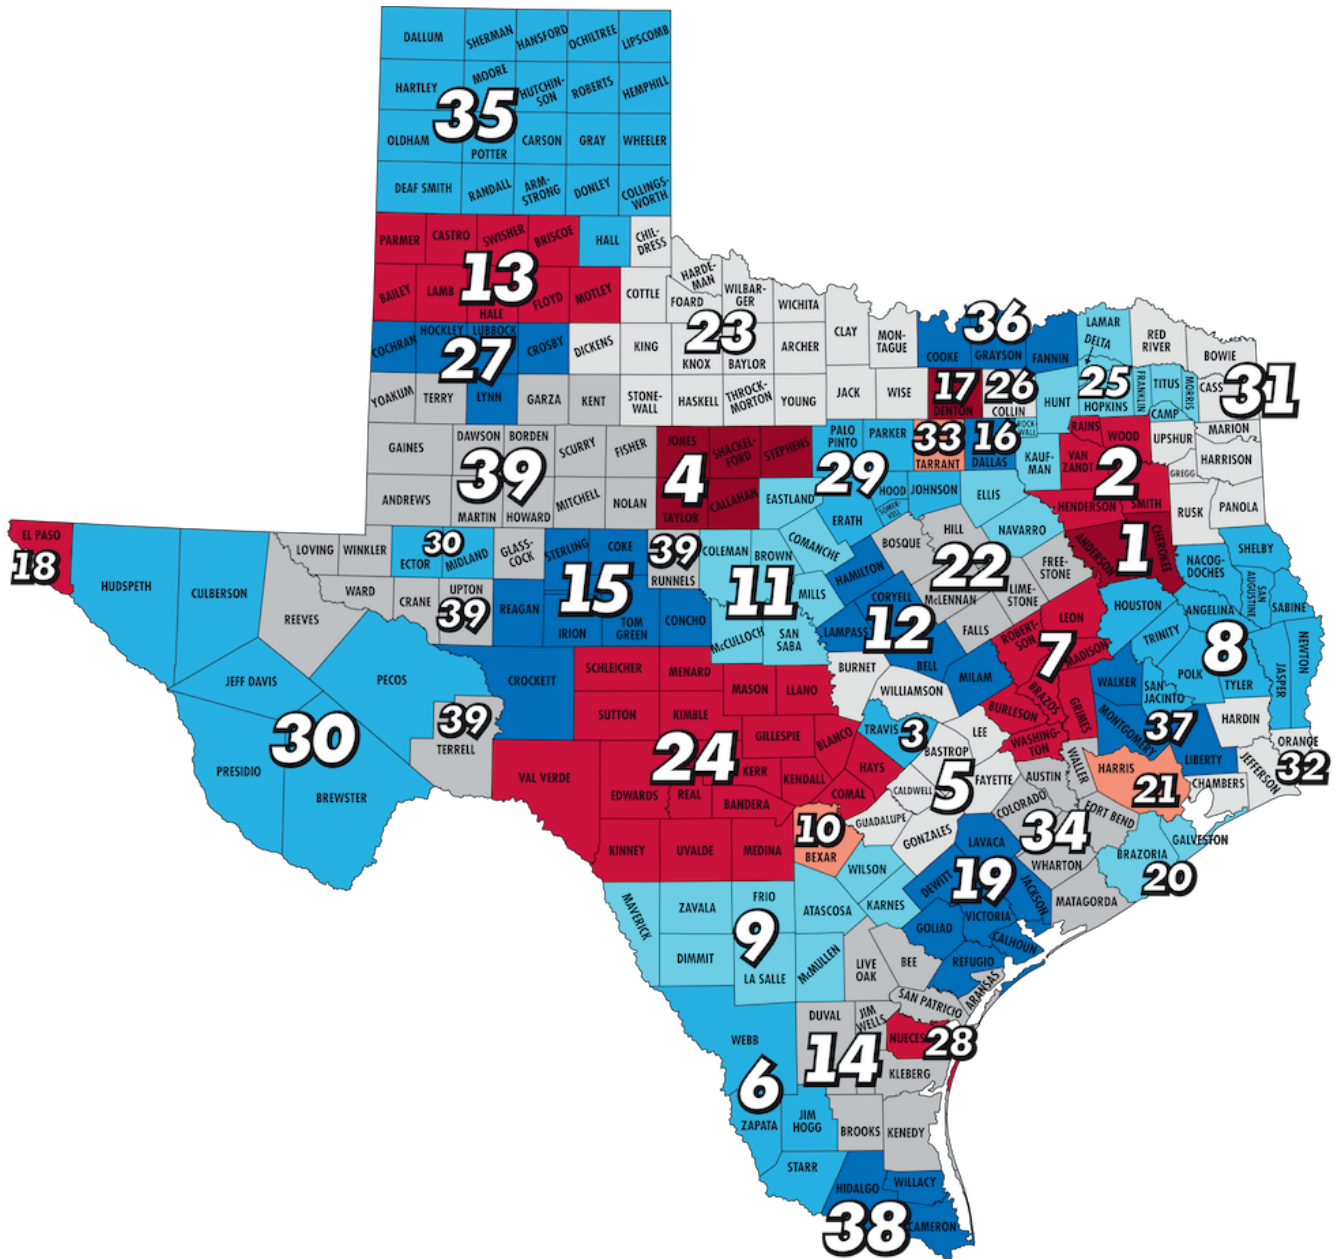

If the hearing examiner determines parole revocation is appropriate, the youth will be assigned a minimum length of stay based on the most serious offense proven at the hearing. [37 Tex. Admin. Code § 380.9551\(f\)\(25\)](#). If the youth is recommitted to TJJD for the same conduct for which parole was revoked, the youth will be given credit toward the recommitment minimum length of stay for all time spent in TJJD or jail or detention after the revocation. [37 Tex. Admin. Code § 380.8525\(c\)\(1\)](#).

A youth returned to TJJD through a parole revocation hearing undergoes the same process for release as other youth, as described above, unless the youth has a determinate sentence.

Discharge

Youth on parole will also be discharged if placed on actively supervised adult probation or sentenced to at least six months in state or county jail for conduct that occurred while on parole status. Youth will be discharged if sentenced to prison.

Notification – Emergency Detention

NO. _____

DATE: _____

TIME: _____

THE STATE OF TEXAS

FOR THE BEST INTEREST AND PROTECTION OF:

NOTIFICATION OF EMERGENCY DETENTION

Now comes _____, a peace officer with (name of agency) _____, of the State of Texas, and states as follows:

• I have reason to believe and do believe that (name of person to be detained) _____ evidences mental illness.

• I have reason to believe and do believe that the above-named person evidences a substantial risk of serious harm to themselves or others based upon the following:

• I have reason to believe and do believe that the above risk of harm is imminent unless the above-named person is immediately restrained.

• My beliefs are based upon the following recent behavior, overt acts, attempts, statements, or threats observed by me or reliably reported to me:

• The names, addresses, and relationship to the above-named person of those persons who reported or observed recent behavior, overt acts, attempts, statements, or threats of the above-named person are (if applicable):

For the above reasons, I present this notification to seek temporary admission to the (name of facility) _____ inpatient mental health facility or hospital facility for the detention of (name of person to be detained) _____ on an emergency basis.

• Was the person restrained in any way? Yes No

PEACE OFFICER'S SIGNATURE

BADGE NO.

Address: _____
Telephone: _____

Zip Code: _____

SIGNATURE OF EMERGENCY MEDICAL
SERVICES PERSONNEL (if applicable)

Address: _____
Telephone: _____

Zip Code: _____

A mental health facility or hospital emergency department may not require a peace officer or emergency services personnel to execute any form other than this form as a predicate to accepting for temporary admission a person detained by a peace officer under section 573.001, Health and Safety Code, and transported by the officer under that section or by emergency services personnel of an emergency medical services provider at the request of the officer made in accordance with a memorandum of understanding executed under section 573.005, Health and Safety Code.

NCTSN BENCH CARD

FOR THE TRAUMA-INFORMED JUDGE

Research has conclusively demonstrated that court-involved children and adolescents present with extremely high rates of traumatic stress caused by their adverse life experiences. In the court setting, we may perceive these youth as inherently disrespectful, defiant, or antisocial, when, in fact, their disruptive behavior may be better understood in the context of traumatic stress disorders. These two Bench Cards provide judges with useful questions and guidelines to help them make decisions based on the emerging scientific findings in the traumatic stress field. These cards are part of a larger packet of materials about child and adolescent trauma available and downloadable from the [NCTSN Trauma-Informed Juvenile Justice System Resource Site*](#) and are best used with reference to those materials.

- 1. Asking trauma-informed questions can help judges identify children who need or could benefit from trauma-informed services from a mental health professional. A judge can begin by asking, "Have I considered whether or not trauma has played a role in the child's¹ behavior?" Use the questions listed below to assess whether trauma-informed services are warranted.**

TRAUMA EXPOSURE: Has this child experienced a traumatic event? These are events that involve actual or threatened exposure of the child to death, severe injury, or sexual abuse, and may include domestic violence, community violence, assault, severe bullying or harassment, natural or man-made disasters, such as fires, floods, and explosions, severe accidents, serious or terminal illness, or sudden homelessness.

MULTIPLE OR PROLONGED EXPOSURES: Has the child been exposed to traumatic events on more than one occasion or for a prolonged period? Repeated or prolonged exposure increases the likelihood that the child will be adversely affected.

OUTCOMES OF PREVIOUS SANCTIONS OR INTERVENTIONS: Has a schedule of increasingly restrictive sanctions or higher levels of care proven ineffective in this case? Traumatized children may be operating in "survival mode," trying to cope by behaving in a defiant or superficially indifferent manner. As a result, they might respond poorly to traditional sanctions, treatments, and placements.

CAREGIVERS' ROLES: How are the child's caregivers or other significant people helping this child feel safe or preventing (either intentionally or unintentionally) this child from feeling safe? Has the caregiver been a consistent presence in the child's life? Does the caregiver acknowledge and protect the child? Are caregivers themselves operating in survival mode due to their own history of exposure to trauma?

SAFETY ISSUES FOR THE CHILD: Where, when and with whom does this child feel safest? Where, when and with whom does he or she feel unsafe and distrustful? Is the home chaotic or dangerous? Does a caregiver in the household have a restraining order against another person? Is school a safe or unsafe place? Is the child being bullied at school or does the child believe that he or she is being bullied?

TRAUMA TRIGGERS IN CURRENT PLACEMENT: Is the child currently in a home, out-of-home placement, school, or institution where the child is being re-exposed to danger or being "triggered" by reminders of traumatic experiences?

UNUSUAL COURTROOM BEHAVIORS: Is this child behaving in a highly anxious or hypervigilant manner that suggests an inability to effectively participate in court proceedings? (Such behaviors include inappropriate smiling or laughter, extreme passivity, quickness to anger, and non-responsiveness to simple questions.) Is there anything I, as a judge, can do to lower anxiety, increase trust, and enhance participation?

CONTINUED ON BACK →

- 2. It is crucial to have complete information from all the systems that are working with the child and family. Asking the questions referenced below can help develop a clearer picture of the child's trauma and assess needs for additional information.**

COMPLETENESS OF DATA FOR DECISIONS: Has all the relevant information about this child's history been made available to the court, including child welfare and out-of-jurisdiction or out-of-state juvenile justice information?

INTER-PROFESSIONAL COOPERATION: Who are the professionals who work with this child and family? Are they communicating with each other and working as a team?

UNUSUAL BEHAVIORS IN THE COMMUNITY: Does this child's behavior make sense in light of currently available information about the child's life? Has the child exhibited extreme or paradoxical reactions to previous assistance or sanctions? Could those reactions be the result of trauma?

DEVELOPMENT: Is this child experiencing or suffering from emotional or psychological delays? Does the child need to be assessed developmentally?

PREVIOUS COURT CONTACTS: Has this child been the subject of other court proceedings? (Dependency/Neglect/Abuse; Divorce/Custody; Juvenile Court; Criminal; Other)

OUT-OF-HOME PLACEMENT HISTORY: How many placements has this child experienced? Have previous placements been disrupted? Were the disruptions caused by reactions related to the child's trauma history? How did child welfare and other relevant professionals manage these disruptions?

BEHAVIORAL HEALTH HISTORY: Has this child ever received trauma-informed, evidence-based evaluation and treatment? (Well-intentioned psychiatric, psychological, or substance abuse interventions are sometimes ineffective because they overlook the impact of traumatic stress on youth and families.)

- 3. Am I sufficiently considering trauma as I decide where this child is going to live and with whom?**

PLACEMENT OUTCOMES: How might the various placement options affect this child? Will they help the child feel safe and secure and to successfully recover from traumatic stress or loss?

PLACEMENT RISKS: Is an out-of-home placement or detention truly necessary? Does the benefit outweigh the potential harm of exposing the child to peers who encourage aggression, substance use, and criminal behavior that may possibly lead to further trauma?

PREVENTION: If placement, detention or hospitalization is required, what can be done to ensure that the child's traumatic stress responses will not be "triggered?" (For example, if placed in isolation or physical restraints, the child may be reminded of previous traumatic experiences.)

DISCLOSURE: Are there reasons for not informing caregivers or staff at the proposed placement about the child's trauma history? (Will this enhance care or create stigma and re-victimization?)

TRAUMA-INFORMED APPROACHES: How does the programming at the planned placement employ trauma-informed approaches to monitoring, rehabilitation and treatment? Are staff knowledgeable about recognizing and managing traumatic stress reactions? Are they trained to help children cope with their traumatic reactions?

POSITIVE RELATIONSHIPS: How does the planned placement enable the child to maintain continuous relationships with supportive adults, siblings or peers?

- 4. If you do not have enough information, it may be useful to have a trauma assessment done by a trauma-informed professional. Utilizing the NCTSN BENCH CARD FOR COURT-ORDERED TRAUMA-INFORMED MENTAL HEALTH EVALUATION OF CHILD, you can request information that will assist you in making trauma-informed decisions.**

¹The use of "child" on this bench card refers to any youth who comes under jurisdiction of the juvenile court.
*<http://learn.nctsn.org/course/view.php?id=74>

NCTSN BENCH CARD

FOR COURT-ORDERED TRAUMA-INFORMED MENTAL HEALTH EVALUATION OF CHILD: SAMPLE ADDENDUM

This Court has referred this child¹ for mental health assessment. Your report will assist the judge in making important decisions. Please be sure the Court is aware of your professional training and credentials. In addition to your standard psychosocial report, we are seeking trauma-specific information. Please include your opinion regarding the child's current level of danger and risk of harm. The Court is also interested in information about the child's history of prescribed psychiatric medications. We realize that you may be unable to address every issue raised below, but the domains listed below are provided as an evidence-based approach to trauma-informed assessment.

1. SCREENING AND ASSESSMENT OF THE CHILD AND CAREGIVERS

Please describe the interview approaches (structured as well as unstructured) used for the evaluation. Describe the evidence supporting the validity, reliability, and accuracy of these methods for children or adolescents. For screens or tests, please report their validity and reliability, and if they were designed for the population to which this child belongs. If feasible, please report standardized norms.

Discuss any other data that contributed to your picture of this child. Please describe how the perspectives of key adults have been obtained. Are the child's caregivers or other significant adults intentionally or unintentionally preventing this child from feeling safe, worthy of respect, and effective? Are caregivers capable of protecting and fostering the healthy development of the child? Are caregivers operating in "survival mode" (such as interacting with the child in a generally anxious, indifferent, hopeless, or angry way) due to their own history of exposure to trauma? What additional support/resources might help these adults help this child?

2. STRENGTHS, COPING APPROACHES, AND RESILIENCE FACTORS

Please discuss the child's existing strengths and coping approaches that can be reinforced to assist in the recovery or rehabilitation process. Strengths might include perseverance, patience, assertiveness, organization, creativity, and empathy, but coping might take distorted forms. Consider how the child's inherent strengths might have been converted into "survival strategies" that present as non-cooperative or even antisocial behaviors that have brought this child to the attention of the Court.

Please report perspectives voiced by the child, as well as by caregivers and other significant adults, that highlight areas of hope and recovery.

3. DIAGNOSIS (POST TRAUMATIC STRESS DISORDER [PTSD])

Acknowledging that child and adolescent presentations of PTSD symptoms will differ from adult presentations, please "rule-in" or "rule-out" specific DSM-V criteria for PTSD for adolescents and children older than six years, which include the following criteria:

- Exposure to actual or threatened death, serious injury, or sexual violence, either experienced directly, witnessed, or learning that the event occurred to a close family member or friend (Criteria A)
- Presence of intrusion symptoms such as intrusive memories, distressing dreams, flashbacks, physical reactions, trauma-specific re-enactment through play, psychological distress at exposure to cues (Criteria B)
- Avoidance of stimuli or reminders associated with the traumatic event, including avoidance of internal thoughts and feelings related to the event, as well as external activities, places, people, or situations that arouse recollections of the event (Criteria C)

CONTINUED ON BACK →

- Negative changes in cognition, mood, and expectations; diminished interest in, detachment, and estrangement from others; guilt and shame; socially withdrawn behavior; reduction in positive emotions (Criteria D)
- Alterations in arousal and reactivity, including irritable or aggressive behavior, angry outbursts, reckless or self-destructive behavior, hypervigilance, exaggerated startle response, concentration problems, and sleep disturbance (Criteria E)
- Exhibiting these disturbances in behavior, thoughts and mood for over a month (Criteria F)
- Significant distress or impairment in relationships with parents, siblings, peers, or other caregivers or with school behavior (Criteria G)
- The disturbed behavior and mood cannot be attributed to the effects of a medication, street drug, or other medical condition (Criteria H)

PTSD can also be present for children ages six and younger. Criteria include exposure; intrusive symptoms, including distressing memories or play re-enactment and physiological reactions to reminders; avoidance of people, conversations or situations; negative emotional states such as fear, sadness, or confusion, sometimes resulting in constriction of play; irritable behavior and hypervigilance; and impairment in relationships with parents, siblings, peers or other caregivers.

Even if an official DSM-V diagnosis of PTSD is not warranted, traumatic stress reactions can definitely or potentially contribute to the child's behavioral, emotional, interpersonal, or attitudinal problems. Traumatic stress reactions may contribute to problems with aggression, defiance, avoidance, impulsivity, rule-breaking, school failure or truancy, running away, substance abuse, and an inability to trust or maintain cooperative and respectful relationships with peers or adults.

4. TRAUMA-INFORMED SERVICES

Has this child ever received Trauma-Focused, Evidence-Based Treatment?*** Sometimes well-intentioned psychiatric, psychological, social work, or substance abuse evaluations and treatment are incomplete and of limited effectiveness because they do not systematically address the impact of children's traumatic stress reactions.

The Court is interested in potential sources of trauma-informed services in your area and your thoughts about the likelihood that the child can receive those services.

In the meantime, what can be done immediately for and with the family, school, and community to enhance safety, build on the child's strengths, and to provide support and guidance? How can this child best develop alternative coping skills that will help with emotional and behavioral self-regulation?

5. SUGGESTIONS FOR STRUCTURING PROBATION, COMMUNITY SUPERVISION AND/OR PLACEMENT OPTIONS.

Structured case plans for probation, community supervision, and/or placement should consider the ability of the setting and the people involved to assist the child in feeling safe, valued, and respected. This is especially important for traumatized children. Similarly, the plan for returning home, for continuing school and education, and for additional court or probationary monitoring should also clearly address each child's unique concerns about safety, personal effectiveness, self-worth, and respect. Please consider where, when, and with whom this child feels most safe, effective, valued and respected. Where, when, and with whom does the child feel unsafe, ineffective, or not respected? What out-of-home placements are available that can better provide for this child's health and safety, as well as for the community's safety? What placements might encourage success in school, relationships, and personal development?

¹ The use of "child" on this bench card refers to any youth who comes under jurisdiction of the juvenile court.

*** Trauma-Focused, Evidence-Based (TF-EB) Treatment is science-based, often requires training in a specific protocol with careful clinical supervision, and emphasizes the treatment relationship, personal/psychological safety, emotional and behavioral self-regulation, development of coping skills, specific treatment of child traumatic experiences, and development of self-enhancing/pro-social thinking, feeling, decision-making, and behaving. TF-EB treatments include: Trauma-Focused Cognitive Behavioral Therapy, Parent-Child Interaction Therapy, Trauma Affect Regulation: Guidelines for Education and Therapy, Child Parent Psychotherapy and more. See website: <http://www.nctsn.org/resources/topics/treatments-that-work/promising-practices>

CHAPTER 55 ISSUES CHECKLIST²²²

This checklist's purpose is to help Juvenile Law Practitioners determine if there are issues with a child's mental health or developmental level (intellectual disability) which need to be evaluated by a professional. It is not intended to replace an evaluation by a qualified professional if there are any concerns regarding whether a child is fit to proceed.

First, is there a Chapter 55 Issue?

Can you talk to the client and do they understand what is going on?

If there appears to be an issue, consider the following questions:

Part I – (Short screening test)

Can you have a coherent conversation with your client? Yes / No

Does the Client understand the charges? Yes / No

Does the Client understand the role of the prosecutor? Yes / No

Does the Client understand the role of the judge? Yes / No

Does the Client understand your role (Defense Attorney)? Yes / No

If the answer to any of the above is "No", you may need to go through the full screening questions in Part II.

Part II – (Full screening)

Mental Health History:

Is there a history of mental health or intellectual disability issues?

If so, is it a mental health history, an intellectual disability history, or both?

What, if any treatment(s), has the client received?

(AND: who were the treating physicians, social workers, therapists, etc.; what medications have been prescribed, has the client been hospitalized for treatment or sent to a residential treatment center (RTC))

School History:

Has the client had an ARD (Admission, Review, and Dismissal hearing)?

Are they in special education classes, and if so, which subjects?

Be sure to get all the client's school records. This will probably require 2 or 3 subpoenas, one for academic records including achievement tests, one for counseling records, and a third for disciplinary records.

Parental Questions:

How well does the client understand concepts/assignments?

NOTE: If the answer is that they get it, you just have to tell them 3-4 times, this may indicate an issue of fitness to proceed.

Is there a history of inhalant abuse?

Is there anything of concern in client's developmental history, any accidents with head trauma, any illnesses with high fever, loss of consciousness, etc.?

²²² William R. "Bill" Cox, Texas Family Code Chapter 55: Mental Health Proceedings, 26th Annual Robert O. Dawson Juvenile Law Institute (2013), https://juvenilelaw.org/wp-content/uploads/2017/06/07_Cox.pdf.

Detailed Conversation with Client:

When talking to a client, be sure to test not only how the client responds to individual questions and legal concepts, but also test the client's short-term memory. For many clients, it will be clear as part of a regular interview that the juvenile understands the charges against them and is able to discuss the charges with you and to prepare a defense. For others, it may be less clear and will require specific probing questions to be sure fitness to proceed is assessed. This is especially true with juveniles who have had prior contact with the mental health system. With an individual who has had prior mental health treatment, especially treatment including competency restoration, practitioners need to ask the child to explain the role of a judge, prosecutor, and lawyer in their own words. Often those who have been through competency restoration treatments will repeat the textbook definition of an attorney, judge, etc., however they may have no understanding of what the words in the memorized definition actually mean.

Practice Tip: The amount of time necessary to test a client's short-term memory will vary with the client and the nature of their issues. In some cases, the damage, especially from inhalant abuse will be so profound that a period of 5 minutes is enough, while other clients' short-term memory deficits may only appear after the passage of 30 minutes or more. It is important to identify the amount of time at which short term memory deficits appear in order to provide the mental health professional insight into those issues so that they can be adequately addressed during the evaluation and in the professional's reports to the court.

Checklist for Required Information
Forwarded to Treatment Facility

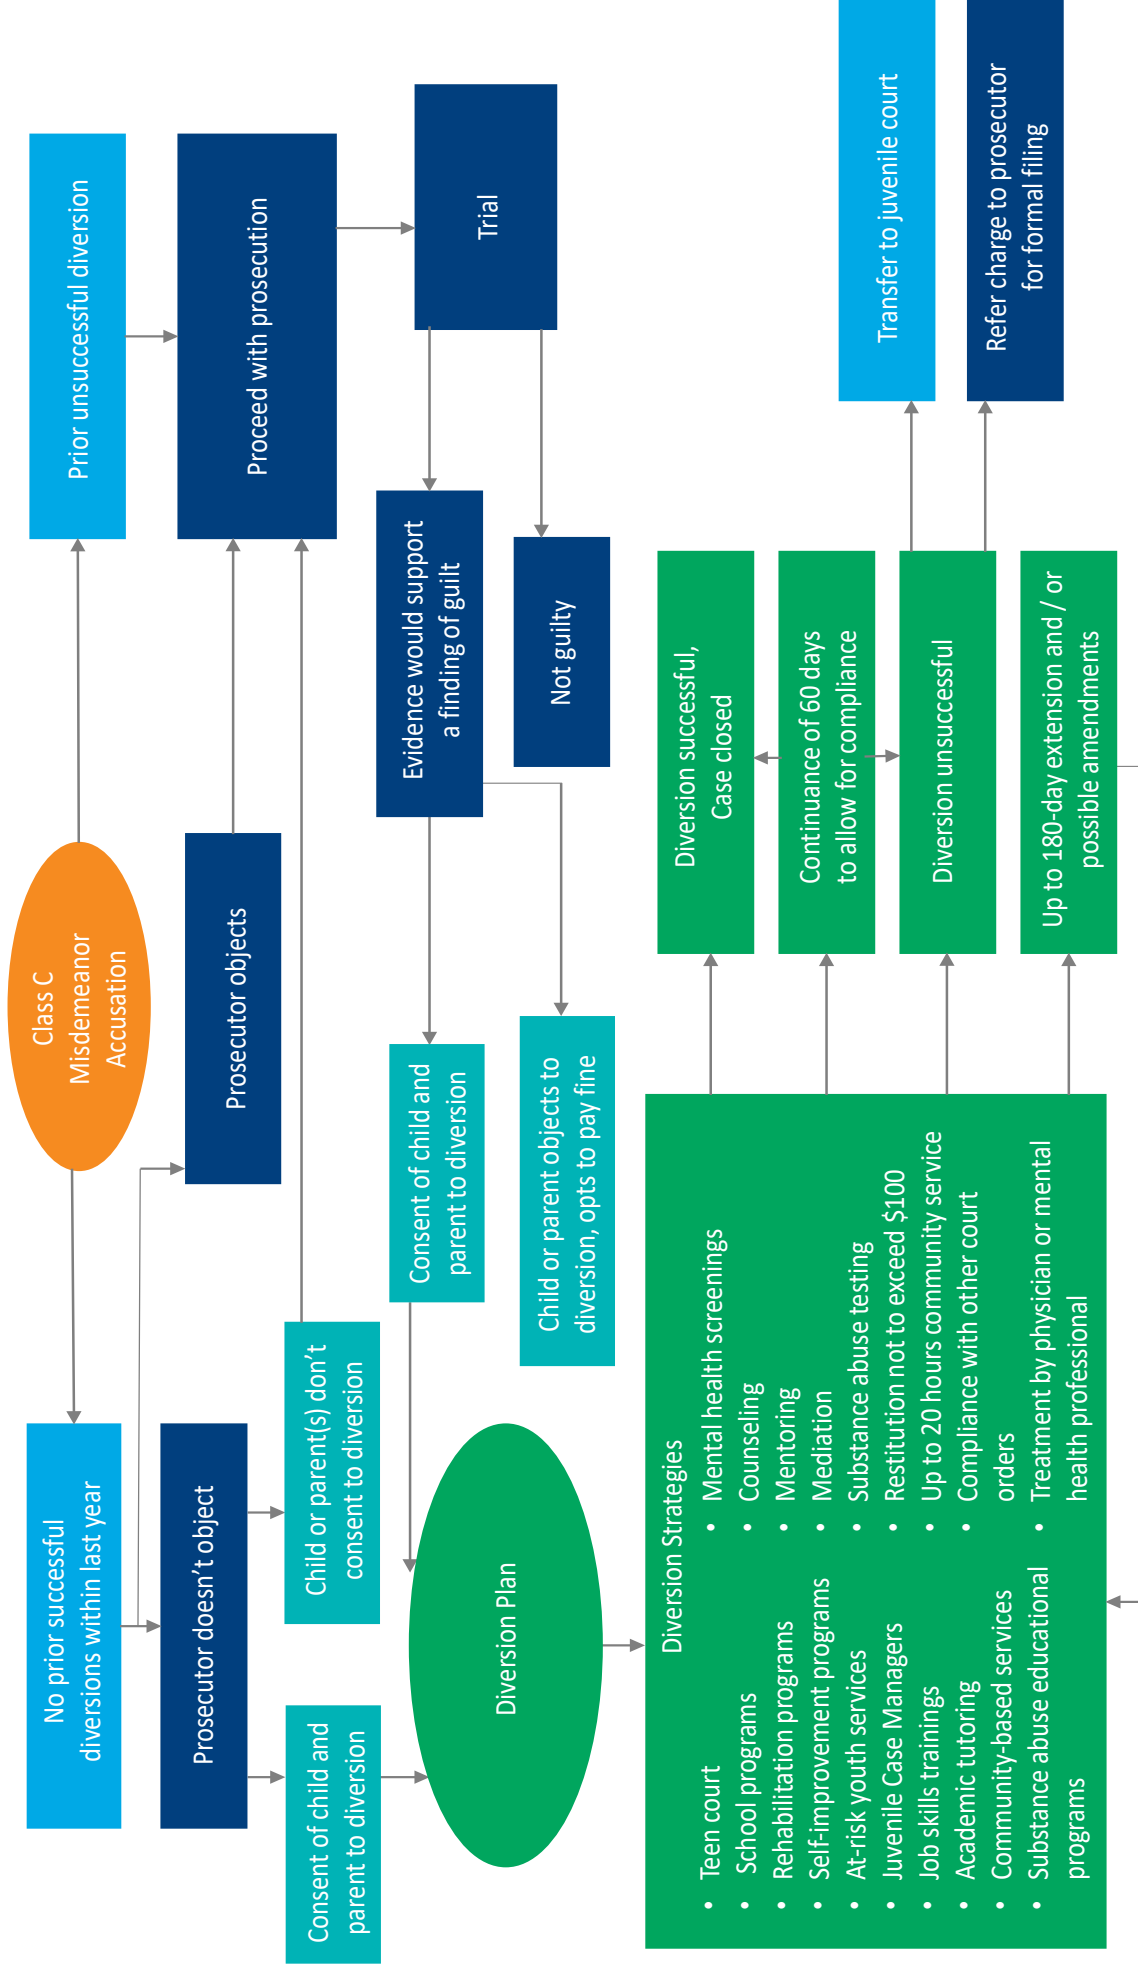

This checklist is intended to provide a non-exhaustive list of area where required information about a child's mental health/intellectual disability can be located, as well as best practices to obtain additional information.

- Juvenile Probation Officer's File
- Juvenile Electronic Records
- Detention Records
- Juvenile Clinical Unit Records
- Juvenile Medical Unit Records
- Department's Medical Providers
- Department's Mental Health Providers
- Department's Contracted Medical/MH Providers

In addition, best practices would include requesting information about the child's mental health/intellectual disability from:

- Child's Parent(s)
- Child's Attorney
- Child's School(s)
- Local Mental Health Authority

Texas Youth Diversion and Early Intervention Act

Certification of Competency Evaluator Credentials

Name:
Address:
Phone number:

Professional Discipline and License #:

Board Certifications:

Continuing Education Meeting Requirements: (note: statute requires the equivalent of 24 hours of continuing education relating to forensic evaluations, including 6 in the two years prior to the current evaluation)

Template for Competency Evaluations

Name of Defendant:
County:
Cause #:
Date of Evaluation:
Date of Report:

Specific Issues Referred for Evaluation:

Disclosures: (Please include, at minimum, that you explained the purpose of the evaluation, persons or entities to whom the report will be provided, and limits of confidentiality.)

Procedures, Techniques, Tests, and Collateral Information Reviewed:

Clinical Observations and Findings:

Diagnoses:

Areas of Competency: (Please describe in detail any deficits in the defendant's capacity during criminal proceedings and the exact nature of the deficits resulting from mental illness or intellectual disability. As required by statute, be certain to consider:

- Capacity to rationally understand the charges and potential consequences of the pending proceedings;
- Capacity to disclose to counsel pertinent facts, events and states of mind;
- Capacity to engage in legal strategies and options;
- Capacity to understand the adversarial nature of the proceedings;
- Capacity to exhibit appropriate courtroom behavior;
- Capacity to testify;
- Capacity to consult with counsel)

Opinion on Competence to Stand Trial: (Please provide a clear statement of whether in your professional opinion the defendant is competent to stand trial, incompetent to stand trial, or why you are unable to formulate an opinion.)

Treatment recommendations: (Please list current medications. If, in your opinion, the defendant is currently competent, the impact of any of these medications on the defendant's appearance, demeanor or ability to participate in the proceedings and whether the medications are necessary to maintain competence. If, in your opinion, the defendant is not currently competent, is treatment/medication likely to restore the person to competence in the foreseeable future. Please include any recommendations you may have as to treatment options.)

**COLLECTION OF INFORMATION FORM FOR
MENTAL ILLNESS AND INTELLECTUAL DISABILITY**

*AUTHORITY: Texas Code of Criminal Procedure art. 16.22; Texas Health and Safety Code § 614.0032
Approved by the Texas Correctional Office on Offenders with Medical or Mental Impairments (TCOOMMI)*

SECTION I: DEFENDANT INFORMATION

Defendant Name (*Last, First*): _____ Offense: _____

Date of Birth: _____ CARE Identification # (*If available*): _____ SID or CID # (*If available*): _____

Last Four Digits of Social Security Number: _____

Current County or Municipality of Incarceration: _____ Date of Magistrate Order: _____

SECTION II: PREVIOUS HISTORY

Has the defendant been determined to have a mental illness or to be a person with an intellectual disability within the last year?

Yes *No* *Unknown*

Date of Previous Written Report of Collected Information (*if applicable*): _____

Previous Mental Health and/or Intellectual Disability Information (*if available*):

SECTION III: CURRENT INFORMATION

Most Recent Diagnosis(es) and Date(s) (*if available*):

At time of the collection of information or as indicated on the jail screening form for suicide and medical/mental/developmental impairments, is the defendant acutely decompensated, suicidal, or homicidal according to self-report?

Yes- Circle Above *No* *Not Applicable- Reason* _____

Other relevant information pertaining to mental health and intellectual disability history and/or previous treatment or service recommendations:

Observations and Findings Based on Information Collected:

- Defendant is a person who has a mental illness. Defendant is a person who has an intellectual disability.
 There is clinical evidence to support the belief that the defendant may be incompetent to stand trial and should undergo a complete competency examination under Subchapter B, Chapter 46B, Code of Criminal Procedure.
 Any appropriate or recommended treatment or service:

None of the above.

Procedures Used to Gather Information:

SECTION IV: INFORMATION OF PROFESSIONAL SUBMITTING FORM

Name, Credentials & Organization of Person Submitting Form: _____ Date of Submission: _____

This form and the contents herein may only be shared in accordance with Texas Health and Safety Code § 614.017 and Texas Code of Criminal Procedure article 16.22(f). This form and its contents are otherwise confidential and not subject to disclosure under Chapter 552 of the Government Code.

COLLECTION OF INFORMATION FORM FOR MENTAL ILLNESS AND INTELLECTUAL DISABILITY

AUTHORITY: Texas Code of Criminal Procedure art. 16.22; Texas Health and Safety Code § 614.0032
Approved by the Texas Correctional Office on Offenders with Medical or Mental Impairments (TCOOMMI)

INSTRUCTIONAL GUIDELINES

This form is not to be confused or supplemented by the “Screening Form for Suicide and Medical/Mental/Developmental Impairments” as required by the Texas Commission on Jail Standards

Section I: DEFENDANT INFORMATION

- **Defendant Name** should be filled out by last name followed by first name.
- **Offense** information should include arresting offense information.
- **Date of Birth** and **last four digits of social security number** are to be obtained to assist in validating identity.
- **CARE Identification #** – *If available*, this number should be complimentary to the CCQ match.
- **SID or CID Number** – *If available*, this number should include the State Identification Number (SID) or the County Identification (CID) Number.
- List the **Current County** or **Municipality** of the current incarceration.
- **Date of Magistrate Order** should be the date the magistrate signed the order which initiates the timeframes for completing the collection of information (not later than 96 hours for a defendant in custody; not later than 30 days for a defendant not in custody).

Section II: PREVIOUS HISTORY

- **Has the defendant been determined to have a mental illness or to be a person with an intellectual disability within the last year?**
 - **If Yes** – The Magistrate *is not required* to order the interview and collection of other information if the defendant *in the year proceeding* the defendant’s applicable date of arrest has been determined to have a mental illness or to be a person with an intellectual disability by the service provider that contracts with the jail to provide mental health or intellectual and developmental disability services, local mental health authority, local intellectual and developmental disability authority, or another mental health or intellectual disability expert described.
 - **If No** – Further collection of information under this form will be necessary for applicable defendants.
 - **If Unknown** - Further collection of information under this form *may* be necessary for applicable defendants.
- **Previous Mental Health and/or Intellectual Disability Information and Date** - *If available*, collect information regarding whether the defendant has a mental illness as defined by Section 571.003, Health and Safety Code, or is a person with an intellectual disability as defined by Section 591.003, Health and Safety Code, including, if applicable, information obtained from any previous assessment of the defendant and information regarding any previously recommended treatment.
Note: Include source of information. Examples are self-report, CARE or CCQ match, or clinical records available from local mental health authority of local intellectual developmental disability authority.

Section III: CURRENT INFORMATION

- **Most Recent Diagnosis(es) and Date(s)** - *If available*, include information here.
- **Is the client acutely (at time of written report of collected information or as indicated on the jail screening form for suicide and medical/mental/developmental impairments) decompensated, suicidal, or homicidal according to self-report?**
 - **If Yes** – select yes.
 - **If No** – select no.

This form and the contents herein may only be shared in accordance with Texas Health and Safety Code § 614.017 and Texas Code of Criminal Procedure article 16.22(f). This form and its contents are otherwise confidential and not subject to disclosure under Chapter 552 of the Government Code.

COLLECTION OF INFORMATION FORM FOR MENTAL ILLNESS AND INTELLECTUAL DISABILITY

AUTHORITY: Texas Code of Criminal Procedure art. 16.22; Texas Health and Safety Code § 614.0032
Approved by the Texas Correctional Office on Offenders with Medical or Mental Impairments (TCOOMMI)

- ***If Not Applicable*** – Indicate the reason why here.

Note: This information may be helpful to the magistrate or judge, as it will allow the magistrate or judge to know the severity of the defendant’s mental health status for prioritization purposes.

- **Other relevant information pertaining to mental health history and/or previous treatment or service recommendations** – Note: Examples may include the following:

- Previous competency examination results or outcome of examination results;
- Parole, Probation or Pre-Trial Supervision status;
- Military history is applicable to treatment history;
- If this section is not applicable, indicate as such.

- **Observations and Findings Based on Information Collected**– Select option as appropriate.

Note: **Any appropriate or recommended treatment or service** – Include whether the defendant warrants a competency examination, outpatient services, etc. Provide any recommendation for further assessment/evaluation by higher level clinical providers.

- **Procedures Used to Gather Information** – Include informational sources used to collect information. Examples may include: Sources of information such as, self-report, CARE or CCQ match, previous psychological evaluations, assessments or clinical records available from local mental health authority of local intellectual developmental disability authority. *An interview to prepare the written report of collected information for the purposes of this document may be gathered in the following ways: in person in the jail, by telephone, or through a telemedicine medical service or telehealth service.*

Section IV: INFORMATION OF PROFESSIONAL SUBMITTING FORM

- **Name, Credentials and Organization of Person Submitting Form** – Person completing the form along with his or her credentials, is to be listed here. Note: *This form is to be completed by the local mental health authority, local intellectual and developmental disability authority, or another qualified mental health or intellectual disability expert.*
- **Date of Submission** – Include the date the form is submitted to the Magistrate.

Note: Texas Code of Criminal Procedure art. 16.22(f) provides that this written report is confidential and not subject to disclosure under Chapter 552, Government Code, but may be used or disclosed as provided by article 16.22.

Additionally, Texas Health and Safety Code section 614.017 requires the exchange of information relating to a special needs offender or juvenile with a mental impairment between agencies to serve the purposes of continuity of care and services *regardless whether other state law makes that information confidential*. The term “agency” includes but is not limited to: A person with an agency relationship or contract with one of the following entities or individuals: Texas Department of Criminal Justice; Texas Commission on Jail Standards; community supervision and corrections departments and local juvenile probation departments; personal bond pretrial release offices established under Article 17.42, Code of Criminal Procedure; local jails regulated by the Texas Commission on Jail Standards; a municipal or county health department; hospital district; judge of this state with jurisdiction over juvenile or criminal cases; an attorney who is appointed or retained to represent a special needs offender, and/or the Health and Human Services Commission.

This form and the contents herein may only be shared in accordance with Texas Health and Safety Code § 614.017 and Texas Code of Criminal Procedure article 16.22(f). This form and its contents are otherwise confidential and not subject to disclosure under Chapter 552 of the Government Code.

I, the undersigned, a person licensed to practice medicine in the state of Texas, or a person employed by an agency having a license to practice medicine in any state of the United States, do hereby certify, to wit:

1. That my name is _____.
That at ____ a.m./p.m. on the _____ day of _____, 202__ at the following location _____, I evaluated and examined _____ (Proposed Patient).

2. My diagnosis of the physical and mental condition of Proposed Patient is:

3. My prior or current treatment, if any, of Proposed Patient has been as follows:

4. In my opinion, Proposed Patient: (check all that apply)
 is mentally ill; and
 as a result of that illness is likely to cause serious harm to self; and/or
 as a result of that illness is likely to cause serious harm to others; and/or
 is suffering severe and abnormal mental, emotional or physical distress experiencing substantial mental or physical deterioration of the ability to function independently which is exhibited by the inability, except for reasons of indigence, to provide for basic needs, including food, clothing, health or safety; and is not able to make a rational and informed decision as to whether or not to submit to treatment; and/or
 is unable to participate in out patient treatment services effectively and voluntarily and whose mental illness is severe and persistent, and/or
 is chemically dependent and, as a result of that chemical dependence is likely to cause serious harm to self, or is likely to cause serious harm to others, or will, continue to experience deterioration of the ability to function independently and is unable to make a rational and informed decision as to whether or not to submit to treatment, and/or

5. The factual basis for my opinion is as follows (*Be specific, give all details.*):
On or about _____ the proposed patient said the following:

5(a) On or about _____, the proposed patient committed the following act(s):

6. *(Note: Complete this section only if seeking an order of protective custody.)*

I am of the opinion that the Proposed Patient, because of mental illness, presents a substantial risk of serious harm to self or others if not immediately restrained. (Harm may be demonstrated either by the person's behavior or by evidence of severe emotional distress and deterioration in mental condition to the extent that the person cannot remain at liberty until the time of the hearing). The detailed basis for such an opinion is:

7. I recommend that the Proposed Patient receive the following treatment:

EXECUTED AND SWORN TO UNDER PENALTY OF PERJURY this ___ day of _____, 202__.

(Signature)

SUBSCRIBED AND SWORN TO before me on this ____ day of _____, 202__.
